JUNE 23, 2009.—Referred to the House Calendar and ordered to be printed

Ms. PINGREE, from the Committee on Rules,
submitted the following

R E P O R T

[To accompany H. Res. 572]

The Committee on Rules, having had under consideration House Resolution 572, by a record vote of 8 to 3, report the same to the House with the recommendation that the resolution be adopted.

SUMMARY OF PROVISIONS OF THE RESOLUTION

The resolution provides a structured rule for consideration of H.R. 2647, the “National Defense Authorization Act for Fiscal Year 2010.” The resolution provides one hour of general debate equally divided and controlled by the chair and ranking minority member of the Committee on Armed Services.

The resolution waives all points of order against consideration of the bill except those arising under clause 9 or 10 of rule XXI. The resolution considers as an original bill for the purpose of amendment the amendment in the nature of a substitute recommended by the Committee on Armed Services. The committee amendment shall be considered as read. The resolution waives all points of order against the committee amendment except those arising under clause 10 of rule XXI. This waiver does not affect the point of order available under clause 9 of rule XXI (regarding earmark disclosure).

The resolution makes in order those amendments printed in this report and amendments en bloc. The amendments made in order may be offered only in the order printed in the report except that the amendments may be offered out of order provided the chair of the Committee on Armed Services announces from the floor a request to that effect, may be offered only by a Member designated in the report, shall be considered as read, shall be debatable for the time specified in the report equally divided and controlled by the proponent and an opponent, shall not be subject to amendment,

and shall not be subject to a demand for a division of the question in the House or in the Committee of the Whole.

The resolution also permits the chair of the Committee on Armed Services or his designee to offer amendments en bloc if those amendments have been printed in this report and not earlier disposed of. The Chair of the Committee of the Whole may recognize for consideration any amendment printed in this report out of the order printed but not sooner than 30 minutes after the chair of the Committee on Armed Services announces from the floor a request to that effect. Proponents of amendments to be considered en bloc may submit a statement in the *Congressional Record* immediately prior to the disposition of the amendments en bloc. The resolution provides one motion to recommit with or without instructions. The resolution provides for two minute voting during consideration of H.R. 2647.

Finally, the resolution provides that, in the engrossment of H.R. 2647, the text of H.R. 2990, as passed the House, shall be added as new matter at the end of H.R. 2647. H.R. 2990 shall be laid on the table upon addition of its text of H.R. 2647.

EXPLANATION OF WAIVERS

The waiver of all points of order against consideration of the bill (except for those arising under clause 9 or 10 of rule XXI) includes a waiver of clause 4(a) of rule XIII (requiring three-day layover of a committee report) because the Committee on Armed Services filed a supplemental report on June 23, 2009. The waiver of all points of order against the committee amendment in the nature of a substitute (except those arising under clause 10 of rule XXI) includes a waiver of clause 4 of rule XXI (prohibiting appropriations in legislative bills).

9. AN AMENDMENT TO BE OFFERED BY REPRESENTATIVE FRANKS OF ARIZONA, OR HIS DESIGNEE, DEBATABLE FOR 10 MINUTES

Page 57, line 18, strike section 224 and insert the following new section 224:

SEC. 224. POLICY ON BALLISTIC MISSILE DEFENSE SYSTEM TO PROTECT THE UNITED STATES HOMELAND, ALLIES, AND FORWARD DEPLOYED FORCES.

(a) FINDINGS.—Congress makes the following findings:

(1) North Korea’s nuclear program and its long, medium, and short-range ballistic missiles represent a near-term and increasing threat to the United States, our forward-deployed troops and allies.

(2) North Korea, in violation of United Nations Security Council Resolutions 1695 and 1718, launched a Taepodong-2 rocket on April 5, 2009, demonstrated a multi-stage, long-range ballistic missile. This flight demonstrated a more complete performance than Pyongyang’s July 2006 Taepodong-2 launch.

(3) According to reports, the Taepodong-2 long-range ballistic missile could currently threaten the west coast of the United States and, according to estimates by the United States intelligence community, when fully developed could threaten the entire continental United States.

(4) North Korea has deployed the Musudan intermediate range ballistic missile which can threaten Okinawa and Guam, 200 Nodong missiles which can reach Japan, and 600 Scud missiles which threaten South Korea.

(5) North Korea is a missile proliferator and has shared ballistic missile technology with other weapons proliferating nations such as Iran. It also aided Syria with its nuclear program.

(6) North Korea walked away from the Six-Party talks and ordered United States and International Atomic Energy Agency inspectors out of the country in April 2009.

(7) On April 29, 2009, Pyongyang threatened to conduct a nuclear test and launch an intercontinental ballistic missile unless the United Nations Security Council apologize and withdraw all resolutions.

(8) Following through on its provocative threat, North Korea conducted a nuclear test on May 25, 2009 in violation of United Nations Security Council Resolution 1718.

(9) North Korea test-fired six shorter-range missiles off the country's east coast following its nuclear test on May 25, 2009.

(10) On May 25, 2009, President Obama stated, "North Korea's nuclear ballistic missile programs pose a great threat to the peace and security of the world and I strongly condemn their reckless action. . . . The record is clear: North Korea has previously committed to abandoning its nuclear program. Instead of following through on that commitment it has chosen to ignore that commitment. These actions have also flown in the face of United Nations resolutions."

(11) North Korea's nuclear test and missile launches demonstrate present international diplomatic efforts are not sufficient to deter North Korea from developing, deploying, and launching missiles or developing nuclear technology. There has been no progress toward engagement or complete and verifiable denuclearization of the Korean Peninsula.

(12) The pace and scope of North Korea's actions demonstrate that it is intent on achieving a viable nuclear weapons capability, long-range intercontinental ballistic missile delivery capability, and recognition as a nuclear weapons state.

(13) In response to the unanimous passage of United Nations Security Council Resolution 1874 on June 12, 2009, North Korea responded that it would not abandon its nuclear programs and vowed to start enriching uranium and weaponize all its plutonium.

(14) Media reports indicate North Korea is warning of a nuclear war. In addition, it may be preparing for launch an intercontinental ballistic missile with the range to reach the United States. Further reports, citing U.S. defense officials, indicate U.S. satellite photos show long-range ballistic missile activity at two launch sites in North Korea.

(15) On February 3, 2009, the Government of Iran successfully launched its first satellite into orbit—an act in direct violation of United Nations Security Council Resolution 1737.

(16) General Maples, Director of the Defense Intelligence Agency, recently said, "Iran's February 3, 2009, launch of the Safir space launch vehicle shows progress in mastering technology needed to produce ICBMs."

(17) On April 5, 2009, President Barack Obama said, "So let me be clear: Iran's nuclear and ballistic missile activity poses a real threat, not just to the United States, but to Iran's neighbors and our allies."

(18) On May 19, 2009, the Government of Iran test-fired a new two-stage, medium-range, solid fuel, surface-to-surface missile, which can reach Europe, Israel, and United States forces deployed in the Persian Gulf Region.

(19) According to the April 2009 Defense Intelligence Agency report, "Foreign Ballistic Missile Capabilities", "[t]he threat

posed by ballistic missile delivery systems is likely to continue increasing while growing more complex over the next decade. Current trends indicate that adversary ballistic missile system, with advanced liquid- or solid-propellant propulsion systems, are becoming more flexible, mobile, survivable, reliable and accurate while also presenting longer ranges.”

(20) According to the April 2009 Defense Intelligence Agency report, “Foreign Ballistic Missile Capabilities”, “Prelaunch survivability is also likely to increase as potential adversaries strengthen their denial and deception measures and increasingly base their missiles on mobile sea- and land-based platforms. Adversary nations are increasingly adopting technical and operational countermeasures to defeat missile defenses. For example, China, Iran and North Korea exercise near simultaneous salvo firings from multiple locations to defeat these defenses.”

(21) General Kevin Chilton, Commander of the United States Strategic Command testified on March 19, 2009, “I think the approach for missile defense has been a layered defense, as you’ve described, that looks at opportunities to engage in the boost phase, in the mid-course, and then terminal.”

(22) General B.B. Bell, Commander, U.S. Forces-Korea testified in July 2007, “Here in Korea, we have but minutes to detect, acquire, engage and destroy inbound theater ballistic missiles in the SCUD and No-Dong class. We estimate that north Korea has around eight hundred of these missiles in their operational territory. Today, they are capable of carrying conventional and chemical munitions. Intercepting these missiles during their boost phase while over north Korean territory would be a huge combat multiplier for me. Therefore, I enthusiastically support the pursuit of the unique combat capability provided by the ABL in attacking missiles in their boost phase.”

(b) POLICY.—It shall be the policy of the United States to continue development and fielding of a comprehensive, layered missile defense system to protect the homeland of the United States, our forward-deployed forces, and allies against the near-term and increasing short, medium, and long-range ballistic missile threats posed by rogue nations such as North Korea. These missile defenses shall consist of national and theater missile defenses, but neither should come at the expense of the other. It shall also be the policy of the United States to continue developing systems designed to intercept missiles in the boost phase of flight in order to defend against developing sophisticated threats.

(c) ELEMENTS IN DISCHARGE OF THE POLICY.—The discharge of the policy stated in subsection (b) shall include the following:

(1) Continued testing, fielding, sustainment, and modernization of the ground-based midcourse defense system, specifically—

(A) not less than 44 ground-based interceptors at Fort Greely, Alaska and Vandenberg Air Force Base, California;

(B) completion of missile field number two at Fort Greely, Alaska;

(C) aging and surveillance;

(D) capability enhancement;

- (E) modernization and obsolescence;
- (F) operationally realistic testing; and
- (G) viable production capability.

(2) Continued development and testing of the Airborne Laser Program

(3) Continued technology maturation and demonstration of the technologies associated with the Kinetic Energy Interceptor

(4) Continue technology maturation and demonstration of the technologies associated with the Multiple Kill Vehicle

(5) Continued support for on-orbit experimentation of the Space Tracking and Surveillance System demonstration satellites, and concept development and technology maturation for a follow-on capability.

At the end of subtitle C of title II (page 67, after line 5), insert the following new section:

SEC. 227. AVAILABILITY OF FUNDS FOR MISSILE DEFENSE.

(a) **FUNDING.**—The amount otherwise provided by section 201(4) for research, development, test, and evaluation, Defense-wide, is hereby increased by \$1,200,000,000, for the Missile Defense Agency, of which—

(2) At that meeting, the two Presidents instructed their negotiators to reach an agreement that “will mutually enhance the security of the Parties and predictability and stability in strategic offensive forces, and will include effective verification measures drawn from the experience of the Parties in implementing the START Treaty.”.

(3) Subsequently, on April 5, 2009, in a speech in Prague, the Czech Republic, President Obama proclaimed: “Iran’s nuclear and ballistic missile activity poses a real threat, not just to the United States, but to Iran’s neighbors and our allies. The Czech Republic and Poland have been courageous in agreeing to host a defense against these missiles. As long as the threat from Iran persists, we will go forward with a missile defense system that is cost-effective and proven.”.

(4) President Obama also said: “As long as these [nuclear] weapons exist, the United States will maintain a safe, secure and effective arsenal to deter any adversary, and guarantee that defense to our allies—including the Czech Republic. But we will begin the work of reducing our arsenal.”.

(b) LIMITATION.—Funds authorized to be appropriated by this Act or otherwise made available to the Department of Defense for fiscal year 2010 may be obligated or expended to implement reductions in the strategic nuclear forces of the United States pursuant to any treaty or other agreement entered into between the United States and the Russian Federation on strategic nuclear forces after the date of enactment of this Act only if the President certifies to Congress that—

SEC. 1055. REQUIREMENT FOR VIDEOTAPING OR OTHERWISE ELECTRONICALLY RECORDING STRATEGIC INTELLIGENCE INTERROGATIONS OF PERSONS IN THE CUSTODY OF OR UNDER THE EFFECTIVE CONTROL OF THE DEPARTMENT OF DEFENSE.

(a) FINDINGS.—Congress makes the following findings:

(1) In January 2009, the Secretary of Defense tasked a special Department of Defense team to review the conditions of confinement at Naval Station, Guantanamo Bay, Cuba, to ensure all detainees there are being held “in conformity with all applicable laws governing the conditions of confinement, including Common Article 3 of the Geneva Conventions”, pursuant to the President’s Executive Order on Review and Disposition of Individuals Detained at the Guantánamo Bay Naval Base and Closure of Detention Facilities, dated January 22, 2009.

(2) That review, led by Admiral Patrick M. Walsh, included as one of its five key recommendations the following statement: “Fourth, we endorse the use of video recording in all camps and for all interrogations. The use of video recordings to confirm humane treatment could be an important enabler for detainee operations. Just as internal controls provide standardization, the use of video recordings provides the capability to monitor performance and maintain accountability.”.

(3) Congress concurs and finds that the implementation of such a detainee videorecording requirement within the Department of Defense is in the national security interest of the United States.

(b) IN GENERAL.—In accordance with the Army Field Manual on Human Intelligence Collector Operations (FM 2–22.3, September 2006), or any successor thereto, and the guidelines developed pur-

suant to subsection (f), the Secretary of Defense shall take such actions as are necessary to ensure the videotaping or otherwise electronically recording of each strategic intelligence interrogation of any person who is in the custody or under the effective control of the Department of Defense or under detention in a Department of Defense facility.

(d) STRATEGIC INTELLIGENCE INTERROGATION DEFINED.—For purposes of this section, the term “strategic intelligence interrogation” means an interrogation of a person described in subsection (b) conducted at a theater-level detention facility.

(e) EXCLUSION.—Nothing in this section shall be construed as requiring—

(1) any member of the Armed Forces engaged in direct combat operations to videotape or otherwise electronically record a person described in subsection (b); or

(A) promotes full compliance with the laws of the United States;

(B) is maintained for a length of time that serves the interests of justice in cases for which trials are being or may be conducted pursuant to the Detainee Treatment Act of 2005 (title 14 of Public Law 109–163 and title 10 of Public Law 109–148), the Military Commissions Act of 2006 (10 U.S.C. 948 et seq.; Public Law 109–366), or any other provision of law;

SEC. 563. SENSE OF CONGRESS REGARDING THE RECOVERY OF THE REMAINS OF MEMBERS OF THE ARMED FORCES WHO WERE KILLED DURING WORLD WAR II IN THE BATTLE OF TARAWA ATOLL.

(a) FINDINGS.—Congress makes the following findings:

(1) On November 20, 1943, units of the United States Marine Corps, supported by units of the United States Army and warships and aircraft of the United States Navy, conducted an amphibious landing on the Island of Betio, Tarawa Atoll, in the Gilbert Islands in the Pacific Ocean.

(2) The United States military forces faced an entrenched force of 5,000 Japanese soldiers.

(3) The Tarawa landing was the first American amphibious assault on a fortified beachhead in World War II.

(4) Just 76 hours later, the American flag was raised at Tarawa.

(5) More than 1,100 Marines and other members of the Armed Forces were killed during the battle.

(6) Most of the Marines, soldiers, and sailors who were killed during the battle were buried in hastily dug graves and cemeteries on Tarawa.

(7) Between 1943 and 1946, the remains of some of the Marines and other members of the Armed Forces were disinterred and reinterred in temporary graves by the Navy.

(8) After World War II, the remains of some of these Marines and other members of the Armed Forces were recovered and returned to the United States for burial.

(9) Due to mistakes in reinterment, poor records, as well as other causes, the remains of 564 Marines and other members of the Armed Forces killed in the battle of Tarawa are in unmarked, unknown graves.

(10) Since 1980, the Department of Defense has recovered remains from some unmarked graves that have been found through construction or other activity on Tarawa.

(11) The remains of members of the Armed Forces on Tarawa continue to be threatened by construction or other land disturbing activity.

(12) Recent research has shed new light on the locations of unmarked and lost graves of members of the Armed Forces on Tarawa.

(13) It is the responsibility of the Federal Government to return to the United States for proper burial and respect all members of the Armed Forces killed at Tarawa who lie in unmarked and lost graves.

(b) SENSE OF CONGRESS.—In light of these findings, Congress—

(1) reaffirms its support for the recovery and return to the United States of the remains of members of the Armed Forces killed in battle, and for the efforts by the Joint POW-MIA Accounting Command to recover the remains of members of the Armed Forces from all wars;

(2) recognizes the courage and sacrifice of the members of the Armed Forces who fought on Tarawa;

(3) acknowledges the dedicated research and efforts by persons to identify, locate, and advocate for the recovery of remains from Tarawa; and

(4) encourages the Department of Defense to review this research and, as appropriate, pursue new efforts to conduct field studies, new research, and undertake all feasible efforts to recover, identify, and return remains of members of the Armed Forces from Tarawa.

SEC. ____ . SENSE OF CONGRESS REAFFIRMING THE REQUIREMENT TO THOROUGHLY CONSIDER THE ROLE OF BALLISTIC MISSILE DEFENSES DURING THE QUADRENNIAL DEFENSE REVIEW AND THE NUCLEAR POSTURE REVIEW.

(a) FINDINGS.—Congress makes the following findings:

- (1) Congress passed and the President signed the National Missile Defense Act of 1999 (Public Law: 106–38), which stated: “It is the policy of the United States to deploy as soon as is technologically possible an effective National Missile Defense system capable of defending the territory of the United States against limited ballistic missile attack (whether accidental, unauthorized, or deliberate).”
- (2) Section 118 of title 10, United States Code requires the Secretary of Defense “every four years, during a year following a year evenly divisible by four, to conduct a comprehensive examination (to be known as a “Quadrennial Defense Review”) of the national defense strategy, force structure, force modernization plans, infrastructure, budget plan, and other elements of

the defense program and policies of the United States with a view toward determining and expressing the defense strategy of the United States and establishing a defense program for the next 20 years.”

(3) Among the requirements established by section 118 of title 10, United States Code, for the elements that must be included in the Quadrennial Defense Review are the following:

(A) The threats to the assumed or defined national security interests of the United States that were examined for the purposes of the review and the scenarios developed in the examination of those threats.

(B) The specific capabilities, including the general number and type of specific military platforms, needed to achieve the strategic and warfighting objectives identified in the review.

(C) The effect on force structure of the use by the armed forces of technologies anticipated to be available for the ensuing 20 years.

(4) Section 1070 of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110–116) requires the Secretary of Defense to conduct a comprehensive review of the nuclear posture of the United States for the next 5 to 10 years “in order to clarify United States nuclear deterrence policy and strategy for the near term.”

(5) Among the requirements established by section 1070 of the National Defense Authorization Act for Fiscal Year 2008 for the elements that must be included in the nuclear posture review is “[t]he role that missile defense capabilities and conventional strike forces play in determining the role and size of nuclear forces.”

(6) The Final Report of the Congressional Commission on the Strategic Posture of the United States, issued on May 7, 2009, concluded: “Missile defenses can play a useful role in supporting the basic objectives of deterrence, broadly defined. Defenses that are effective against regional aggressors are a valuable component of the U.S. strategic posture. The United States should develop and, where appropriate, deploy missile defenses against regional nuclear aggressors, including against limited long-range threats. These can also be beneficial for limiting damage if deterrence fails. The United States should ensure that its actions do not lead Russia or China to take actions that increase the threat to the United States and its allies and friends.”

(b) SENSE OF CONGRESS.—It is the sense of Congress that the Secretary of Defense should thoroughly consider the role of ballistic missile defenses during the Quadrennial Defense Review and the Nuclear Posture Review.
