WASHINGTON : 2010

THE WHITE HOUSE,
Washington, June 22, 2010.

Hon. NANCY PELOSI,
Speaker of the House of Representatives,
Washington, DC.

DEAR MADAM SPEAKER: I ask the Congress to consider the enclosed amendments to Fiscal Year (FY) 2010 proposals in my FY 2011 Budget for the Departments of Homeland Security and Justice.

These amendments would support efforts to secure the Southwest border and enhance Federal border protection, law enforcement, and counternarcotics activities.

The amounts requested would be partially offset by cancelling \$100 million from a lower priority program within the Department of Homeland Security. The proposed budget authority for FY 2010 would, therefore, increase by a net total of \$500 million as a result of these amendments.

This request responds to urgent and essential needs. Therefore, I request these proposals be considered as emergency requirements. The details of this request are set forth in the enclosed letter from the Director of the Office of Management and Budget.

Sincerely,

BARACK OBAMA.

[Estimate No. 8, 111th Cong., 2d Sess.]

EXECUTIVE OFFICE OF THE PRESIDENT,
OFFICE OF MANAGEMENT AND BUDGET,
Washington, DC, June 22, 2010.

The PRESIDENT,
The White House.

Submitted for your consideration are amendments to Fiscal Year (FY) 2010 proposals in your FY 2011 Budget. The amendments include proposals for the Departments of Homeland Security and Justice.

These amendments would support efforts to secure the Southwest border and enhance Federal border protection, law enforcement, and counternarcotics activities. This request responds to urgent and essential needs, and therefore, the specific amendments are being requested as emergency requirements.

The amounts requested would be partially offset by cancelling \$100 million from a lower priority program within the Department of Homeland Security. The proposed budget authority for FY 2010 would, therefore, increase by a net total of \$500 million as a result of these amendments, which are described below and in more detail in the enclosures.

Department of Homeland Security

These amendments would provide \$399 million for the Department to support increased Customs and Border Protection (CBP) and Immigration and Customs Enforcement (ICE) operations along the Southwest border. The request includes \$297 million to hire 1,000 new Border Patrol agents, \$37 million for two new unmanned aerial detection systems, \$52.5 million for 160 new ICE agents, \$6.5 million for 30 new CBP officers, and \$6 million for 20 new CBP canine teams. Although not a part of this request, an additional \$100 million of existing resources in the Border Security Fencing, Infrastructure, and Technology account shall be repositioned to higher priority replacement and repair of fences to enhance physical infrastructure along the Southwest border.

In addition, an amendment is provided to cancel permanently \$100 million from the FY 2010 enacted appropriation for the Customs and Border Protection's Border Security Fencing, Infrastructure, and Technology account. While the Department of Homeland Security is striving to improve the current technology assets at the border, the funds in the Border Security Fencing, Infrastructure, and Technology account will not be used pending a Department-wide review.

Department of Justice

These amendments would provide \$201 million for the Department to surge Federal law enforcement officers in the Southwest

border region and the temporary deployment of personnel to high crime areas. Specifically, Justice funding would increase the presence of Federal law enforcement in the Southwest border districts by adding seven ATF Gunrunner Teams, five FBI Hybrid Task Forces, additional DEA agents, equipment, operational support, and additional attorneys and immigration judges and to support additional detention and incarceration costs for criminal aliens in coordination with Department of Homeland Security enforcement activities. The amendments would also provide funding to support Mexican law enforcement operations with ballistic analysis, DNA analysis, information sharing, technical capabilities, and technical assistance.

Recommendation

I have carefully reviewed this request and am satisfied that it is necessary at this time. Therefore, I join the heads of the affected agencies in recommending that you transmit this proposal to the Congress.

Sincerely,

PETER R. ORSZAG,
Director.

Enclosure.

(In the appropriations language under the above agency, insert the above new bureau and heading and the following new language immediately following the heading “Immigration Examinations Fee” and just before the bureau heading “United States Coast Guard”.)

For an additional amount for “Salaries and Expenses” for necessary expenses for emergency hiring of new Criminal Investigators related to Southwest border enforcement, \$52,500,000, to remain available until September 30, 2011: Provided, That Congress designates this amount as an emergency requirement for these specific purposes.

This amendment would allow the Department of Homeland Security to hire and deploy 160 new Immigration and Customs Enforcement Criminal Investigators. The additional agents will be positioned in the highest risk locations along the Southwest border and it is estimated the 160 additional agents would yield 2,720 new enforcement actions (arrests, indictments, convictions, seizures, fines, or penalties) each year against the most significant criminal organizations involved in narcotics, alien, firearm, and bulk cash smuggling and trafficking.

The proposed total budget authority for FY 2010 in the FY 2011 Budget would increase by \$52.5 million as a result of this amendment. This increase is partially offset by a proposed reduction to a lower priority activity within the Department of Homeland Security, as described in an accompanying amendment.

This amendment would provide \$309.5 million for enhanced Southwest border enforcement Customs and Border Protection (CBP) personnel, including \$297 million to hire and deploy 1,000 new Border Patrol agents and the related support costs—for a total staffing level of over 21,000 agents—and allow CBP to establish a flexible surge force of approximately 500 agents. The amendment also provides \$6.5 million for CBP to hire 30 new CBP Officers at the ports of entry and \$6 million to add 20 new CBP K–9 Teams.

This amendment would provide \$37 million to fund the procurement, operations and maintenance of two unmanned aircraft systems for use along the Southwest border. These systems will be deployed to monitor the Southwest border and assist in the interdiction of aliens and goods moving illegally into the United States.

The proposed total budget authority for FY 2010 in the FY 2011 Budget would increase by \$37 million as a result of this amendment. SEC. 1. Of the funds appropriated in Public Law 111–83 under the heading “Border Security Fencing, Infrastructure, and Technology”, \$100,000,000 are hereby permanently cancelled.

This provision would cancel permanently \$100 million from the FY 2010 enacted appropriation for the Customs and Border Protection’s Border Security Fencing, Infrastructure, and Technology account. While the Department of Homeland Security is striving to improve the current technology assets at the border, the funds in the Border Security Fencing, Infrastructure, and Technology account will not be used pending a Department-wide review.

This proposed decrease will be used to partially offset proposed increases to fund the President’s comprehensive enforcement strategy by strengthening ports of entry with additional inspectors; expanding Immigration and Customs Enforcement drug, cash and arms smuggling investigations; and enhancing law enforcement resources in the Department of Justice, a key component in overall Southwest border law enforcement and prosecutions, as described in the accompanying amendments.

The proposed total budget authority for FY 2010 in the FY 2011 Budget would decrease by \$100 million as a result of this amendment.
