I. SUMMARY AND BACKGROUND

A. PURPOSE AND SUMMARY

The bill, H.R. 996, as amended, contains provisions that extend the expenditure authority for the Highway Trust Fund and the Aquatic Resources Trust Fund and extend motor fuel excise taxes, and makes other technical changes related to highway excise taxes.

B. BACKGROUND AND NEED FOR LEGISLATION

The provisions approved by the Committee reflect the need to maintain Highway Trust Fund resources for the purposes of funding a highway reauthorization bill.

The Committee also believes that the full amount of excise taxes imposed on fuel used in motorboats and small engines should not be retained in the General Fund and should instead be credited to the trust fund primarily dedicated to the users who bear such taxes.

C. LEGISLATIVE HISTORY

The House Committee on Ways and Means marked up the Highway Reauthorization Tax Act of 2005 on March 3, 2005, and ordered the bill, as amended, favorably reported by voice vote.

II. EXPLANATION OF THE BILL

A. EXTENSION OF HIGHWAY TRUST FUND AND AQUATIC RESOURCES TRUST FUND EXPENDITURE AUTHORITY AND RELATED TAXES

(Sec. 2 of the bill and secs. 4041, 4051, 4071, 4081, 4221, 4481, 4482, 4483, 6412, 9503, and 9504 of the Code)

PRESENT-LAW HIGHWAY TRUST FUND EXCISE TAXES

In general

Six separate excise taxes are imposed to finance the Federal Highway Trust Fund program. Three of these taxes are imposed on highway motor fuels. The remaining three are a retail sales tax on heavy highway vehicles, a manufacturers' excise tax on heavy vehicle tires, and an annual use tax on heavy vehicles. A substantial majority of the revenues produced by the Highway Trust Fund excise taxes are derived from the taxes on motor fuels. Except for 4.3 cents per gallon of the Highway Trust Fund fuels tax rates, and a portion of the tax on certain special motor fuels, all of these taxes are scheduled to expire after September 30, 2005. The 4.3-cents-per-gallon portion of the fuels tax rates is permanent.¹ The six taxes are summarized below.

Highway motor fuels taxes

The Highway Trust Fund motor fuels tax rates are as follows:²

Gasoline	18.3 cents per gallon
Diesel fuel and kerosene	24.3 cents per gallon
Special motor fuels	18.3 cents per gallon generally ³

Non-fuel Highway Trust Fund excise taxes

In addition to the highway motor fuels excise tax revenues, the Highway Trust Fund receives revenues produced by three excise taxes imposed exclusively on heavy highway vehicles or tires. These taxes are:

1. A 12-percent excise tax imposed on the first retail sale of heavy highway vehicles, tractors, and trailers (generally, trucks having a gross vehicle weight in excess of 33,000 pounds and trailers having such a weight in excess of 26,000 pounds) (sec. 4051);
2. An excise tax imposed on highway tires with a rated load capacity exceeding 3,500 pounds, generally at a rate of 9.45 cents per 10 pounds of excess (sec. 4071(a)); and

¹This portion of the tax rates was enacted as a deficit reduction measure in 1993. Receipts from it were retained in the General Fund until 1997 legislation provided for their transfer to the Highway Trust Fund.

²Secs. 4081(a)(2)(A)(i), 4081(a)(2)(A)(iii), 4041(a)(2), 4041(a)(3), and 4041(m). Some of these fuels also are subject to an additional 0.1-cent-per-gallon excise tax to fund the Leaking Underground Storage Tank ("LUST") Trust Fund (secs. 4041(d) and 4081(a)(2)(B)).

³The statutory rate for certain special motor fuels is determined on an energy equivalent basis, as follows:

Liquefied petroleum gas (propane): 13.6 cents per gallon (3.2 cents after September 30, 2005).

Liquefied natural gas: 11.9 cents per gallon (2.8 cents after September 30, 2005).

Methanol derived from natural gas: 9.15 cents per gallon (2.15 cents after September 30, 2005).

Compressed natural gas: 48.54 cents per MCF.

See secs. 4041(a)(2), 4041(a)(3) and 4041(m).

The compressed natural gas tax rate is equivalent only to 4.3 cents per gallon of the rate imposed on gasoline and other special motor fuels rather than the full 18.3-cents-per-gallon rate. The tax rate for the other special motor fuels is equivalent to the full 18.3-cents-per-gallon gasoline and special motor fuels tax rate.

3. An annual use tax imposed on highway vehicles having a taxable gross weight of 55,000 pounds or more (sec. 4481). (The maximum rate for this tax is \$550 per year, imposed on vehicles having a taxable gross weight over 75,000 pounds.)

PRESENT-LAW HIGHWAY TRUST FUND EXPENDITURE PROVISIONS

In general

Dedication of excise tax revenues to the Highway Trust Fund and expenditures from the Highway Trust Fund are governed by the Code (sec. 9503).⁴ The Code authorizes expenditures (subject to appropriations) from the Fund through May 31, 2005, for the purposes provided in authorizing legislation, as in effect on the date of enactment of the Surface Transportation Extension Act of 2004, Part V.

Under present law, revenues from the highway excise taxes, as imposed through September 30, 2005, generally are dedicated to the Highway Trust Fund. Under section 9503(c)(2), the Highway Trust Fund reimburses the General Fund for amounts paid in respect of gasoline used on farms, gasoline used for certain non-highway purposes or by local transit systems, amounts relating to fuels not used for taxable purposes, and income tax credits for certain exempt uses of fuels.

Highway Trust Fund expenditure purposes

The Highway Trust Fund has a separate account for mass transit, the Mass Transit Account.⁵ The Highway Trust Fund and the Mass Transit Account are funding sources for specific programs. Neither the Highway Trust Fund nor the Mass Transit Account receives interest on its unexpended balances.⁶

Highway Trust Fund expenditure purposes have been revised with each authorization Act enacted since establishment of the Highway Trust Fund in 1956. In general, expenditures authorized under those Acts (as the Acts were in effect on the date of enactment of the most recent such authorizing Act) are specified by the Code as Highway Trust Fund expenditure purposes.⁷ The Code provides that authority to make expenditures from the Highway Trust Fund expires after May 31, 2005. Thus, no Highway Trust Fund expenditures may occur after May 31, 2005, without an amendment to the Code.

Interrelationship of the Highway Trust Fund and the Aquatic Resources Trust Fund

The Aquatic Resources Trust Fund is funded by a portion of the receipts from the excise taxes imposed on motorboat gasoline and special motor fuels and on gasoline used as a fuel in the nonbusi-

⁴The Highway Trust Fund statutory provisions were placed in the Internal Revenue Code in 1982.

⁵Sec. 9503(e)(1).

⁶Sec. 9503(f)(2).

⁷The authorizing Acts that currently are referenced in the Highway Trust Fund provisions of the Code are: the Highway Revenue Act of 1956, Title I and II of the Surface Transportation Assistance Act of 1982, the Surface Transportation and Uniform Relocation Act of 1987, the Intermodal Surface Transportation Efficiency Act of 1991 and the Transportation Equity Act for the 21st Century, the Surface Transportation Extension Act of 2003, the Surface Transportation Extension Act of 2004; the Surface Transportation Extension Act of 2004, Part II; the Surface Transportation Extension Act of 2004 Part III; the Surface Transportation Extension Act of 2004, Part IV; and the Surface Transportation Extension Act of 2004, Part V.

ness use of small-engine outdoor power equipment. A portion of these taxes are transferred into the Highway Trust Fund and then retransferred into the Aquatic Resources Trust Fund. As a result, transfers to the Aquatic Resources Trust Fund are governed in part by Highway Trust Fund provisions (secs. 9503(c)(4) and 9503(c)(5)).

A total tax rate of 18.4 cents per gallon is imposed on gasoline and special motor fuels used in motorboats and on gasoline used as a fuel in the nonbusiness use of small-engine outdoor power equipment. Of this rate, 0.1 cent per gallon is dedicated to the Leaking Underground Storage Tank Trust Fund. Of the remaining 18.3 cents per gallon, 4.8 cents per gallon are retained in the General Fund. The balance of 13.5 cents per gallon is transferred to the Highway Trust Fund and then retransferred to the Aquatic Resources Trust Fund and the Land and Water Conservation Fund, as follows.

The Aquatic Resources Trust Fund is comprised of two accounts, the Boat Safety Account and the Sport Fish Restoration Account. Motorboat fuel taxes, not exceeding \$70 million per year, are transferred to the Boat Safety Account. In addition, these transfers are subject to an overall annual limit equal to an amount that will not cause the Boat Safety Account to have an unobligated balance in excess of \$70 million. To the extent there are excess motorboat fuel taxes, the next \$1 million per year of motorboat fuel taxes is transferred from the Highway Trust Fund to the Land and Water Conservation Fund provided for in Title I of the Land and Water Conservation Fund Act of 1965. The balance of the motorboat fuel taxes in the Highway Trust Fund is transferred to the Sport Fish Restoration Account.

The Sport Fish Restoration Account also receives 13.5 cents per gallon of the small-engine fuel taxes from the Highway Trust Fund. This Account is also funded with receipts from an ad valorem manufacturers' excise tax on sport fishing equipment.

The retention in the General Fund of 4.8 cents per gallon of taxes on fuel used in motorboats and in the nonbusiness use of small-engine outdoor power equipment expires with respect to taxes imposed after September 30, 2005.

The expenditure authority for the Aquatic Resources Trust Fund expires after May 31, 2005.

H.R. 3: Transportation Equity Act: A Legacy for Users

On February 9, 2005, Representative Don Young introduced H.R. 3, the Transportation Equity Act: A Legacy for Users. Among other purposes, the bill reauthorizes the Federal highway, public transportation, highway safety and motor carrier safety programs for fiscal year 2004 through fiscal year 2009.

REASONS FOR CHANGE

The Committee believes that highway and transit spending sustains and creates jobs, providing valuable new opportunities in communities where the availability of jobs is declining. In addition, a long-term reauthorization provides stability for State transportation programs dependent on Federal funds. Thus, the Committee believes it is appropriate to reauthorize Highway Trust Fund expenditures through September 30, 2009 in coordination with new

transportation legislation and to extend current Federal taxes payable to the Highway Trust Fund through September 30, 2011.

The Committee also believes that the full amount of excise taxes imposed on fuel used in motorboats and in the nonbusiness use of small-engine outdoor power equipment should not be retained in the General Fund and should instead be credited to the trust fund dedicated to the users who primarily bear such taxes. Fuel taxes imposed with respect to other uses are currently either dedicated to an appropriate fund or are being phased out. Therefore, the Committee believes that allowing the present-law General Fund retention of such taxes to expire as scheduled is consistent with the treatment of other fuel taxes.

EXPLANATION OF PROVISION

The expenditure authority for the Highway Trust Fund and Aquatic Resources Trust Fund is extended through September 30, 2009. The Code provisions governing the purposes for which monies in the Highway Trust Fund may be spent are modified to include the reauthorization bill, H.R. 3, Transportation Equity Act: A Legacy for Users.

The provision also extends the motor fuel taxes and all three non-fuel excise taxes at their current rates through September 30, 2011.

The provision does not extend the retention in the General Fund of 4.8 cents per gallon of taxes on fuel used in motorboats and in the nonbusiness use of small-engine outdoor power equipment.

EFFECTIVE DATE

The provision is effective on the date of enactment.

B. FUELS-RELATED TECHNICAL CORRECTIONS TO AMERICAN JOBS CREATION ACT OF 2004

(Sec. 3 of the bill and secs. 4081 and 6427 of the Code)

The bill includes technical corrections to the American Jobs Creation Act of 2004 ("AJCA"). The amendments made by the technical corrections take effect as if included in the section of AJCA to which each amendment relates.

1. Volumetric ethanol excise tax credit (sec. 301 of AJCA)

AJCA repealed the reduced tax rates for alcohol fuels and taxable fuels to be blended with alcohol. The technical correction makes a conforming amendment to eliminate the refund provision based on those reduced rates (secs. 6427(f) and 6427(o)).

2. Aviation-grade kerosene (sec. 853 of AJCA)

Section 853 of AJCA moved the taxation of jet fuel (aviation-grade kerosene) from section 4091 to section 4081 and repealed section 4091. The termination date for the 21.8 cent per gallon rate for noncommercial aviation jet fuel was inadvertently omitted from the Act. The technical correction clarifies that after September 30, 2007, the rate for jet fuel used in noncommercial aviation will be 4.3 cents per gallon.

An additional technical correction clarifies that users of aviation-grade kerosene in commercial aviation are required to be registered

with the IRS in order for the 4.3-cents-per-gallon rate to apply (including for purposes of the self-assessment of tax by commercial aircraft operators).

Enclosure.

H.R. 996—Highway Reauthorization Tax Act of 2005

Summary: H.R. 996 would amend the Internal Revenue Code to extend certain expiring highway taxes through September 30, 2011. Under current law, excise taxes are imposed on motor fuels, certain vehicles, and tires. Most of those taxes are set to expire on September 30, 2005. Among these levies is a tax of 18.3 cents per gallon that is imposed on gasoline and special motor fuels used in motorboats and certain small engines. H.R. 996 would distribute all revenues collected from the tax on those fuels to the Aquatic Resources Trust Fund (ARTF). ARTF deposits may be spent without further appropriation for state grants and conservation activities. Under current law, only 13.5 cents per gallon is deposited in the ARTF; the balance of 4.8 cents per gallon remains in the general fund.

H.R. 996 also would extend expenditure authority for the Highway Trust Fund and the ARTF through September 30, 2009.

CBO and the Joint Committee on Taxation (JCT) estimate that the bill would not affect revenues, relative to the current baseline, because CBO's baseline already assumes extension of the taxes under laws governing the baseline construction. CBO estimates that, by increasing the amount of revenue allocated to the ARTF, the bill would result in additional direct spending of \$29 million in 2007 and about \$1.1 billion over the 2007–2015 period.

CBO and JCT have determined that H.R. 996 contains no inter-governmental or private-sector mandates as defined in the Un-

funded Mandates Reform Act (UMRA) and would impose no costs on state, local, or tribal governments.

Estimated Cost to the Federal Government: The budgetary impact of H.R. 996 over the 2005–2015 period is shown in the following table. The costs of this legislation fall within budget function 300 (natural resources and environment).

	By fiscal year, in millions of dollars—

Sources: Joint Committee on Taxation and CBO.

*Basis of estimate**Revenues*

JCT estimates that extending the expiring tax provisions would have no effect on federal revenues because the baseline already includes those revenues. Under section 257 of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, excise taxes dedicated to trust funds, if set to expire, are assumed to be extended in CBO's baseline at the current rates in place just before scheduled expiration.

Direct Spending

Enacting H.R. 996 would increase direct spending beginning in 2007 because the bill would allocate the 18.3 cents per gallon collected from taxes on fuels used in motorboats and certain small engines to the ARTF, rather than the 13.5 cents per gallon currently deposited in that fund. All amounts deposited into the ARTF are available in the following year without further appropriation. CBO estimates that this change would increase direct spending by \$29 million in 2007 and by about \$1.1 billion over the 2007–2015 period.

Intergovernmental and private-sector impact: CBO and JCT have determined that H.R. 996 contains no intergovernmental or private-sector mandates and would impose no costs on state, local, or tribal governments.

Estimate prepared by: Federal Revenues; Laura Hanlon; and Federal Costs; Deborah Reis.

Estimate approved by: G. Thomas Woodward, Assistant Director for Tax Analysis; and Peter H. Fontaine, Deputy Assistant Director for Budget Analysis.

D. MACROECONOMIC IMPACT ANALYSIS

In compliance with clause 3(h)(2) of rule XIII of the Rules of the House of Representatives, the following statement is made by the Joint Committee on Taxation with respect to the provisions of the bill amending the Internal Revenue Code of 1986: the effects of the bill on economic activity are so small as to be incalculable within the context of a model of the aggregate economy.

V. OTHER MATTERS TO BE DISCUSSED UNDER THE RULES OF THE HOUSE

A. COMMITTEE OVERSIGHT FINDINGS AND RECOMMENDATIONS

With respect to clause 3(c)(1) of rule XIII of the Rules of the House of Representatives (relating to oversight findings), the Committee advises that it is appropriate and timely to enact the revenue provision included in the bill as reported.

B. STATEMENT OF GENERAL PERFORMANCE GOALS AND OBJECTIVES

With respect to clause 3(c)(4) of rule XIII of the Rules of the House of Representatives, the Committee advises that the bill contains no measure that authorizes funding, so no statement of general performance goals and objectives for which any measure authorizes funding is required.

C. CONSTITUTIONAL AUTHORITY STATEMENT

With respect to clause 3(d)(1) of the rule XIII of the Rules of the House of Representatives (relating to Constitutional Authority), the Committee states that the Committee's action in reporting this bill is derived from Article I of the Constitution, Section 8 ("The Congress shall have Power To lay and collect Taxes, Duties, Imposts and Excises . . .").

D. INFORMATION RELATING TO UNFUNDED MANDATES

This information is provided in accordance with section 423 of the Unfunded Mandates Act of 1995 (Pub. L. No. 104-4).

The Committee has determined that the revenue provisions of the bill do not contain Federal mandates on the private sector. The Committee has determined that the revenue provisions of the bill do not impose a Federal intergovernmental mandate on State, local, or tribal governments.

E. APPLICABILITY OF HOUSE RULE XXI 5(b)

Rule XXI 5(b) of the Rules of the House of Representatives provides, in part, that "A bill or joint resolution, amendment, or conference report carrying a Federal income tax rate increase may not be considered as passed or agreed to unless so determined by a vote of not less than three-fifths of the Members voting, a quorum being present." The Committee has carefully reviewed the provisions of the bill, and states that the provisions of the bill do not involve any Federal income tax rate increases within the meaning of the rule.

F. TAX COMPLEXITY ANALYSIS

Section 4022(b) of the Internal Revenue Service Restructuring and Reform Act of 1998 (the "IRS Reform Act") requires the Joint Committee on Taxation (in consultation with the Internal Revenue Service and the Department of the Treasury) to provide a tax complexity analysis. The complexity analysis is required for all legislation reported by the Senate Committee on Finance, the House Committee on Ways and Means, or any committee of conference if the legislation includes a provision that directly or indirectly amends the Internal Revenue Code and has widespread applicability to individuals or small businesses.

The staff of the Joint Committee on Taxation has determined that a complexity analysis is not required under section 4022(b) of the IRS Reform Act because the bill contains no provisions that have "widespread applicability" to individuals or small businesses.

IV. CHANGES IN EXISTING LAW MADE BY THE BILL, AS REPORTED

In compliance with clause 3(e) of rule XIII of the Rules of the House of Representatives, changes in existing law made by the bill, as reported, are shown as follows (existing law proposed to be omitted is enclosed in black brackets, new matter is printed in italic, existing law in which no change is proposed is shown in roman):
