MARITIME ADMINISTRATION ENHANCEMENT ACT OF 2005

NOVEMBER 17, 2005.—Ordered to be printed

Mr. STEVENS, from the Committee on Commerce, Science, and
Transportation, submitted the following

R E P O R T

[To accompany S. 2029]

The Committee on Commerce, Science, and Transportation reports favorably an original bill (S. 2029) to amend and enhance certain maritime programs of the Department of Transportation, and for other purposes, and recommends that the bill do pass.

PURPOSE OF THE BILL

The Maritime Administration Enhancement Act would streamline the process of covering the costs of vessel maintenance, repairs, and replacements; enhance the requirements for cadets entering the Merchant Marine Academy; authorize the Secretary of Transportation to permit training upon certain vessels; and grant the Maritime Administration (MARAD) greater flexibility in disposing of obsolete vessels from the National Defense Reserve Fleet (NDRF).

In addition, the bill would grant MARAD the authority to retain certain deepwater port license application fees as well as funds collected through its Coastwise administrative waiver process. It would permit greater promotion of the merchant marine through the utilization of the U.S. Maritime Service at maritime-related functions beyond that of training and education, and authorize the Secretary to award, free of charge, medals for commendable achievements in the U.S. Merchant Marine. Furthermore, the bill would authorize duty-free treatment of emergency war materials imported for use by MARAD.

The bill includes provisions designed to clarify Congressional reforms to the MARAD Title XI maritime loan guarantee program. The bill also designates MARAD as the lead Federal agency to ad-

minister Federal funds for port and intermodal improvements in the State of Hawaii. Finally, the legislation would authorize a maritime training and shipyard capital grant program administered by MARAD.

BACKGROUND AND NEEDS

The mission of MARAD is to promote the development and maintenance of an adequate, well-balanced United States merchant marine, sufficient to carry the Nation's domestic waterborne commerce and a substantial portion of its waterborne foreign commerce, and capable of serving as a naval and military auxiliary in time of war or national emergency. MARAD also seeks to ensure that the United States enjoys adequate shipbuilding and repair service, efficient ports, effective intermodal water and land transportation systems, and reserve shipping capacity in times of national emergency.

To meet its mission, MARAD administers various U.S. merchant marine support programs within the Department of Transportation (DOT). These programs include the Maritime Security Program (MSP), Title XI maritime loan guarantee program, various cargo preference programs, maintenance of the Ready Reserve Force (RRF), often used in domestic disaster relief efforts, and the National Defense Reserve Force (NDRF), and operation of the U.S. Merchant Marine Academy (USMMA) at Kings Point, NY. MARAD has approximately 825 employees, including RRF and USMMA staff.

The MSP funds operating agreements to the privately owned, United States-flag, and United States-crewed liner fleet in international trade. This fleet also is available to support the Department of Defense (DOD) sustainment in a contingency. Currently, MSP is authorized through fiscal year 2015 and subject to a separate annual appropriation.

The purpose of the Title XI ship loan guarantee program is to promote the growth and modernization of the U.S. merchant marine and U.S. shipyards. The program enables owners of eligible vessels and eligible shipyards to obtain long-term financing with attractive terms backed by the full faith and credit of the United States government to guarantee commercial loans.

In November of 2003, Congress enacted reforms to the program under P.L.108-136, the National Defense Authorization Act of 2003, which authorized the Secretary to require an independent analysis to be conducted by third party experts if the Secretary determines that risk factors associated with markets, technology, financial structures, or other factors need such analysis prior to making a determination on a loan guarantee application. The Secretary's authority to conduct an independent risk analysis of projects was not intended to be used in routine cases nor where MARAD already has sufficient expertise to fully assess the risk of approving a loan guarantee application. The Committee is concerned the department is not administering the program consistent with P.L. 108-136 and is instead subjecting routine financial transactions to duplicative bureaucratic reviews by both MARAD and the newly established DOT Credit Council. In addition, the Committee is concerned with the proposed regulations issued June 8,

2005, Docket No. 2005–21380, as they appear to be contradictory to the sustainability of the program.

The Committee is concerned the financial analysis and market assessment functions, key MARAD roles, are being taken away by DOT, thereby eroding MARAD’s fundamental expertise in the intricacies of shipbuilding and shipyard modernization. The Committee expects that the Title XI program remain exclusively within MARAD to streamline the application process and avoid the needless duplication of assessing, evaluating and determining the financial solvency and potential market performance of project applications.

MARAD’s operations and training account funds the administration and staffing of MARAD programs (other than the Title XI guaranteed loan program and RRF costs), the USMMA, State maritime school costs associated with Federal training ships, training courses for merchant mariners, various operating programs, and research and development. The USMMA educates young men and women to become officers in the American merchant marine.

The Global Maritime and Transportation School (GMATS) is a private, tuition-funded graduate school housed at the USMMA, which offers advanced mariner training and logistics and supply chain management courses. The primary mission of the USMMA GMATS is to offer leading edge education and training programs that will benefit maritime and transportation professionals from government agencies, the military, and private industry. Funds to operate GMATS are generated through tuition, meal, and lodging fees. It is not an appropriated instrumentality of the DOT. The current process through which some applicants are accepted is cumbersome and this legislation reduces that burden and clarifies GMATS’s role.

SUMMARY OF PROVISIONS

The bill would allow MARAD to use a portion of the hire paid for the operation of the National Defense Reserve Fleet (NDRF) and proceeds recovered from vessel accident litigation and arbitration to be placed in a reserve fund to cover the costs of vessel maintenance, repairs, and replacements. The bill would authorize MARAD to retain fees from administrative waivers and deepwater port license applications up to a specific amount to pay for administrative costs.

The legislation would require students entering the Merchant Marine Academy to meet the physical and mental standards required by the Department of Defense (DOD). MARAD has reported that some students fail to meet current standards set by MARAD, thereby avoiding certain commitments upon graduation, including entering Reserve units of the Armed Forces. In addition, the bill would allow the Armed Services to certify annually graduates’ mandatory military service commitment and permits Academy cadets to train on foreign flag vessels when in the interest of national security. Subject to appropriations, the bill increases the authorized payments for cadets enrolled in State Regional Maritime Academies to \$500,000 dollars by fiscal year 2008 and increases the amount State Maritime Academies may receive for reimbursement of ship fuel costs.

This bill would grant MARAD the ability to purchase emergency war materials for RRF repairs without being subject to ad valorem duties while under operational authority DOD. MARAD is granted the flexibility to decide on the timing of ship and title transfers to U.S. territories and States. Finally, the bill would establish a grant program to assist small shipyard capital improvements and establish technical training programs for small communities largely served by the maritime industry. Payments for State and Regional Maritime Academies

The measure also would clarify the roles of the Maritime Administrator and DOD in the loan guarantee process overseen by MARAD, and streamlines the cumbersome application review process. The bill would require an independent analysis of each loan guarantee be conducted by private sector maritime finance or operations experts. In addition, it requires adequate staffing and expertise to properly manage the program.

LEGISLATIVE HISTORY

The original committee bill was ordered reported to the Senate by voice vote on July 21, 2005 in the presence of a quorum.

ESTIMATED COSTS

In accordance with paragraph 11(a) of rule XXVI of the Standing Rules of the Senate and section 403 of the Congressional Budget Act of 1974, the Committee provides the following cost estimate, prepared by the Congressional Budget Office:

NOVEMBER 15, 2005.

Hon. TED STEVENS,
Chairman, Committee on Commerce, Science, and Transportation,
U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: The Congressional Budget Office has prepared the enclosed cost estimate for the Maritime Administration Enhancement Act of 2005.

If you wish further details on this estimate, we will be pleased to provide them. The CBO staff contact is Deborah Reis.

Sincerely,

DOUGLAS HOLTZ-EAKIN,
Director.

Enclosure.

Maritime Administration Enhancement Act of 2005

Summary: The Maritime Administration Enhancement Act would amend various laws governing the activities of the Maritime Administration (MARAD), authorize appropriations for a new program to assist small shipyards and maritime communities, and increase support for state maritime academies. Assuming appropriation of the authorized or necessary amounts, implementing the bill would result in discretionary spending totaling \$104 million over the 2006–2010 period, CBO estimates.

In addition, several provisions of the bill would allow MARAD to spend, without further appropriation action, certain collections from regulatory fees and legal damages. CBO estimates that enacting these provisions would increase direct spending by about \$5

million over the 2006–2010 period and by \$10 million over the 2006–2015 period.

Finally, the bill would exempt MARAD from paying ad valorem taxes on certain materials and repairs for vessels operated as part of the National Defense Reserve Fleet (NDRF) under wartime conditions, thereby reducing federal revenues by an estimated \$1 million over the 2006–2010 period and by \$2 million over the 2006–2015 period. (The costs of NDRF operations would be reduced by similar amounts, assuming a corresponding reduction in future appropriations.)

The legislation contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act (UMRA); any costs to state and local governments would be incurred voluntarily.

Estimated cost to the Federal Government: The estimated budgetary effects of the legislation are summarized in the following table. The costs of this legislation fall within budget function 400 (transportation).

Note.—* = between –\$500,000 and \$500,000.

Basis of estimate

Spending subject to appropriation

For this estimate, CBO assumes that the amounts authorized or estimated to be necessary will be appropriated for each year. Estimated outlays are based on historical spending patterns for existing or similar programs.

Section 112 would expand financial assistance to state maritime academies, subject to the availability of appropriations. Specifically, this section would increase annual direct payments to the six academies from the existing statutory level of \$200,000 each to \$300,000 in 2006, \$400,000 in 2007, and \$500,000 for each year thereafter. This section also would direct MARAD to pay up to \$100,000 in 2006, \$200,000 in 2007, and \$300,000 a year thereafter

for the costs of fuel to operate state training vessels. CBO estimates that providing the higher annual payments to state academies and reimbursing them for fuel costs would require additional appropriations that would grow to \$4 million annually by 2008. (MARAD received \$1.2 million for direct payments to state maritime academies in fiscal year 2005. No amounts were appropriated for that year for fuel reimbursements. MARAD's full-year appropriation for 2006 has not yet been enacted.)

Section 114 would authorize the appropriation of \$30 million for each of fiscal years 2006–2010 for a new program to support small shipyards and maritime communities. Under this program, MARAD would pay state and local governments to make grants, loans, and loan guarantees to small shipyards for capital improvements and to establish maritime training programs in communities whose economies are linked to the maritime industry. Assuming appropriation of the authorized amounts, CBO estimates that implementing this program would cost MARAD about \$3 million in 2006 and \$90 million over the 2006–2010 period. We estimate that the remaining \$60 million authorized by the bill would be spent after 2010.

Other provisions of the bill would have no significant effect on the federal budget.

Direct spending

The legislation would provide about \$1 million of new budget authority for MARAD each year by allowing the agency to spend without further appropriation certain amounts that are currently deposited in the U.S. Treasury as revenues. Section 109 would allow MARAD to spend payments for damages received for accidents that involve vessels that it owns or manages. Based on recent judgments and settlements for damages collected as a result of such incidents, CBO estimates that this new authority would increase direct spending by an average of \$500,000 a year. Also, sections 107 and 108 would authorize the agency to spend up to a total of \$500,000 a year from certain administrative and regulatory fees, thereby increasing annual direct spending by a like amount.

The bill also would change the budgetary classification of those administrative and regulatory fees. Such collections are currently considered revenues but under the legislation would become offsetting receipts (an offset to direct spending). The resulting decrease in revenues and corresponding decrease in outlays are not counted for purposes of Congressional consideration, however, pursuant to scorekeeping rule 13, which states that reclassifications are not counted for purposes of enforcing the budget resolution (see House Report 105–217, the conference report on the Balanced Budget Act of 1997, page 1011).

Revenues

Section 106 would exempt MARAD from paying ad valorem duties on certain materials imported from foreign countries and on repairs made in foreign ports for vessels operated as part of the NDRF during wartime. CBO estimates that this provision would reduce revenues by less than \$500,000 in 2006, by \$1 million over the 2006–2010 period, and by \$2 million through 2015. This provision also would result in like reductions in discretionary spending,

assuming that MARAD's annual appropriations would be adjusted to reflect the savings in NDRF operating costs.

By changing the budgetary classification of certain administrative and regulatory fees from revenues to offsetting receipts, enacting the bill would reduce revenues by about \$500,000 a year over the 2006–2015 period. But, as noted above, such reclassifications are not counted for Congressional scorekeeping purposes.

Intergovernmental and private-sector impact: The legislation contains no intergovernmental or private-sector mandates as defined in UMRA. The bill would increase the authorization of appropriations for maritime academies in six states and establish a new grant program to assist state and local governments in supporting small shipyards and maritime communities within their states. Any costs to state and local governments for participating in those programs would be incurred voluntarily.

Estimate prepared by: Federal Spending: Deborah Reis. Federal Revenue: Emily Schlect. Impact on State, Local, and Tribal Governments: Sarah Puro. Impact on the Private Sector: Craig Cammarata.

Estimate approved by: Robert A. Sunshine, Assistant Director for Budget Analysis.

REGULATORY IMPACT STATEMENT

In accordance with paragraph 11(b) of rule XXVI of the Standing Rules of the Senate, the Committee provides the following evaluation of the regulatory impact of the legislation, as reported:

NUMBER OF PERSONS COVERED

This program would not affect the number of people subject to regulation.

ECONOMIC IMPACT

The bill would authorize the establishment of a \$25 million grant program designed to assist small shipyards with capital improvement needs, and a \$5 million grant program to provide maritime training. The grants in the program are designed to have a positive economic impact on United States maritime industry by subsidizing the needed capital improvements in communities largely served by that industry and by provided much needed training.

PRIVACY

This program would not impact privacy issues.

PAPERWORK

This program would not create new mandatory paperwork or reporting requirements.

SECTION-BY-SECTION ANALYSIS

Section 1. Short title

Section 1 states the short title of the legislation, the “Maritime Administration Enhancement Act of 2005”.

Section 101. United States Maritime Service

This section would permit the Commandant of the United States Maritime Service (USMS) or the Maritime Administrator to utilize the USMS for maritime related functions beyond that of training and education that are determined to be necessary for the promotion of the U.S. merchant marine. For instance, the amendment would permit the use of members of the USMS to further the visibility and understanding of the U.S. merchant marine, and allow members of the USMS to serve as liaisons within the DOT and to the public.

Section 102. War risk insurance

This is a technical correction to section 3502(b) of P.L. 108–375, the National Defense Authorization Act for Fiscal Year 2005.

Section 103. Maritime education and training

This section would require students entering the Merchant Marine Academy to meet the same physical and mental standards required by the DOD. Any cadet not meeting such standards could be expelled. This change is necessary to ensure that students admitted to the Academy are capable of fulfilling the requirements of their commitment agreements upon graduation. If students do not meet these DOD standards, they are not eligible to obtain a Merchant Marine license or to accept an appointment in a reserve unit of the armed forces of the United States, two key commitment agreement service requirements.

Current law requires Academy graduates to become commissioned officers on active duty in an armed force of the United States or to become commissioned officers in the reserves of the armed forces for at least 6 years following graduation. The Privacy Act currently prevents MARAD from readily verifying with the DOD that graduates are serving their commitment to the armed forces. This section would require the DOD, the U.S. Coast Guard, and the National Oceanic and Atmospheric Administration (NOAA) to certify annually to MARAD that Academy graduates have remained on active duty or in ready reserve status, thus confirming the fulfillment of a graduates service commitment agreement. This provision would provide a mechanism for MARAD to recover tuition from graduates who fail to perform their duties and that are found in noncompliance with their commitment agreement and enable MARAD

In addition, this section would authorize Academy cadets to train on foreign flag vessels if it is in the interest of national security. For example, cadets would be permitted to train on vessels involved in unique trades that involve sensitive security interests of the United States such as Liquefied Natural Gas (LNG) vessels that are not documented in the United States. This is not intended to authorize the training of cadets on foreign flag vessels that do not pose a significant security interest to the nation.

Further, this section would clarify the role of the Global Maritime and Transportation School (GMATS) located on the campus of Kings Point as a non-appropriated fund instrumentality (NAFI) operating under the jurisdiction of the Department of Transportation.

Section 104. Authority to dispose of obsolete government vessels

Public Law 108–136 authorized the Secretary to convey to U.S. territories and foreign governments obsolete vessels for use as artificial reefs; however, it did not provide MARAD with the discretion to decide when to transfer the ship and title(s) fleetside at the NDRF. This section would provide MARAD the flexibility to make vessel and title transfer decisions that not only encourage States to request the ships for use as reefs, but also that are in the best interests of the government.

Section 105. Awards and medals

This section would provide the Administrator the discretion to award medals at no cost to the recipient. Currently, MARAD may only provide such medals and decorations at cost, or authorize for the manufacture and sale at reasonable prices by private persons.

Section 106. Elimination of tariffs on certain national defense activities

This measure would grant MARAD the ability to purchase emergency war materials for RRF repairs without being subject to ad valorem duties while under operational authority of the Department of Defense in a war zone. MARAD provides support for the deployment of military forces worldwide using the NDRF and RRF, which is part of the NDRF, and is a key element of the Navy's Strategic Sealift Program. Currently, there are 59 RRF vessels in a high state of readiness, and the availability of these ships is essential to the deployment of DOD forces and equipment, as part of the Navy's Military Sealift Command (MSC). The RRF fleet has been activated to support the current efforts in Afghanistan and the Persian Gulf.

Currently, 24 of the vessels are foreign constructed and another 35, while not foreign built, are equipped with foreign-made items. To maintain the vessels in a constant state of readiness, MARAD must regularly import foreign-made spare parts, repair parts, equipment and supplies. The imports necessary to maintain the fleet incur customs duties. Since MARAD vessels are maintained for the operational control of MSC, and are required for rapid deployment during national emergencies, the supplies and equipment needed to maintain the vessels should be accorded the same type of duty-free exemption for emergency war materials that is extended to DOD.

These vessels are U.S.-documented, thus any repairs or repair parts received abroad are subject to an ad valorem tax of 50 percent of the cost of the repairs received abroad. Although the ad valorem tax is intended to serve as an incentive for vessel operators to repair their vessels in United States shipyards, unintended consequences arise when applied to government owned vessels that are deployed overseas for extended periods of time and are engaged in national security functions. Therefore, streamlining this process in this instance is appropriate and necessary, providing DOD maximum flexibility for vessels under its control operating in a war zone to obtain ship repairs.

Section 107. Availability of funds from application fees for deep-water ports

This section would allow MARAD to retain fees assessed pursuant to applications for licenses for ownership, construction, and operation of deepwater ports, up to \$450,000 per fiscal year.

Section 108. Availability of funds from administrative waivers of coastwise trade laws for eligible vessels

This section would authorize MARAD to retain funds routinely collected through the agency's program for the Administrative Waiver of Coastwise Trade Laws for Eligible Vessels, up to \$50,000 per fiscal year.

Section 109. Amendments to the Vessel Operations Revolving Fund (VORF)

The VORF was created in 1951 to carry out vessel operating functions under the jurisdiction of Secretary of Transportation, including the charter, operation, maintenance, repair, reconditioning and betterment of merchant vessels. At present, such functions come at the expense of the operating repairs and maintenance budgeted for other NDRF vessels. In addition, all recoveries from litigation are deposited into the Treasury after payment to the Department of Justice for the costs of litigation. This section would allow MARAD to use a portion of the hire paid for the operation of the NDRF vessels and proceeds recovered from vessel accident litigation and arbitration. Funds would be placed in a reserve fund to cover the costs of vessel maintenance, repairs, and replacements.

Section 110. Right to use Maritime Administration decoration

This section would authorize the Secretary to sanction the use, manufacture, sale, possession, or display of a decoration or medal, such as the merchant marine seal. Currently no such authority exists, thus the use of the merchant seal is severely limited. This provision would permit the Secretary, through the Maritime Administrator, to authorize the use of maritime emblems for purposes and events he deems meritorious, such as commemorative ceremonies or events.

Section 111. Hawaii port infrastructure expansion program

This section would designate MARAD as the lead Federal agency to administer Federal funds for port and intermodal improvements in Hawaii.

Section 112. Payments for State and regional maritime academies

This section would increase the amount of assistance provided to the 6 State maritime academies which are located in Maine, Massachusetts, New York, Michigan, Texas, and California. These 6 schools currently receive limited Federal support, yet a substantial number of their graduates hold Federal licenses and support our increasing mariner requirements in both the commercial and military sectors. Current law provides for a payment from MARAD of \$200,000 dollars annually for cadet training and facilities support. That amount has not been raised since 1989. This section would increase the authorization level of Federal support to \$300,000 dollars for fiscal year 2006, \$400,000 dollars in fiscal year 2007, and

\$500,000 in fiscal year 2008, and for each fiscal year thereafter, subject to the availability of appropriations. This section would also require MARAD to provide modest payments to the aforementioned State maritime academies for the increasing cost of fuel used for the operation of the academies' training ships.

Section 113. Reduction of report burden

This section would eliminate a report required every 6 months pertaining to the progress of ship scrapping.

Section 114. Assistance for small shipyards and maritime communities

This provision would establish a grant program to assist small shipyards to make capital improvements and improve maritime training programs for small communities largely served by the maritime industry.

Section 201. Redesignation of duplicate numbered sections

This is a technical correction designed to correct duplicative section numbers.

Section 202. Transfer of authority to MARAD

This section would clarify the roles of the Maritime Administrator and the Department of Defense in the loan guarantee process overseen by MARAD and streamline the cumbersome application process. It would require independent analyses of the loan guarantees be conducted by private sector maritime finance or operations experts based on the determination of the Maritime Administrator that a particular set of circumstances relating to risk exists. Further, the provision would require MARAD to maintain adequate staffing and expertise in the agency to properly manage the program.

CHANGES IN EXISTING LAW

In compliance with paragraph 12 of rule XXVI of the Standing Rules of the Senate, changes in existing law made by the bill, as reported, are shown as follows (existing law proposed to be omitted is enclosed in black brackets, new material is printed in *italic*, existing law in which no change is proposed is shown in *roman*):

Moneys in the Fund shall be deposited in the Treasury of the United States to the credit of the Fund or invested in bonds or other obligations of, or guaranteed as to principal and interest by, the United States.

SEC. 1103. AUTHORIZATION OF SECRETARY TO GUARANTEE OBLIGATIONS.

[46 U.S.C. App. 1273].

(a) **PRINCIPAL AND INTEREST.**—The [Secretary] *Secretary or Administrator* is authorized to guarantee, and to enter into commitments to guarantee, the payment of the interest on, and the unpaid balance of the principal of, any obligation which is eligible to be guaranteed under this title. A guarantee, or commitment to guarantee, made by the [Secretary] *Secretary or Administrator* under this title shall cover 100 percent of the amount of the principal and interest of the obligation.

(b) **SECURITY INTEREST.**—No obligation shall be guaranteed under this title unless the obligor conveys or agrees to convey to the [Secretary] *Secretary or Administrator* such security interest, which may include a mortgage or mortgages on a vessel or vessels, as the [Secretary] *Secretary or Administrator* may reasonably require to protect the interests of the United States.

(c) **AMOUNT OF GUARANTEE; PERCENTAGE LIMITATION; DETERMINATION OF ACTUAL COST OF VESSEL.**—The [Secretary] *Secretary or Administrator* shall not guarantee the principal of obligations in an amount in excess of 75 per centum, or 87 ½ per centum, whichever is applicable under section 1104 of this title, of the amount, as determined by the [Secretary] *Secretary or Administrator* which determination shall be conclusive, paid by or for the account of the obligor for the construction, reconstruction, or reconditioning of a vessel or vessels with respect to which a security interest has been conveyed to the [Secretary] *Secretary or Administrator*, unless the obligor creates an escrow fund as authorized by section 1108 of this title, in which case the [Secretary] *Secretary or Administrator* may guarantee 75 per centum or 87½ per centum, whichever is applicable under section 1104 of this title, of the actual cost of such vessel or vessels.

(d) **PLEDGE OF UNITED STATES.**—The full faith and credit of the United States is pledged to the payment of all guarantees made under this title with respect to both principal and interest, including interest, as may be provided for in the guarantee, accruing between the date of default under a guaranteed obligation and the payment in full of the guarantee.

(e) **PROOF OF OBLIGATIONS.**—Any guarantee, or commitment to guarantee, made by the [Secretary] *Secretary or Administrator* under this title shall be conclusive evidence of the eligibility of the obligations for such guarantee, and the validity of any guarantee, or commitment to guarantee, so made shall be incontestable. Not-

withstanding an assumption of an obligation by the **【Secretary】** *Secretary or Administrator* under section 1105(a) or (b) of this Act, the validity of the guarantee of an obligation made by the **【Secretary】** *Secretary or Administrator* under this title is unaffected and the guarantee remains in full force and effect.

(f) **LIMITATION ON OUTSTANDING AMOUNT.**—The aggregate unpaid principal amount of the obligations guaranteed under this section and outstanding at any one time shall not exceed \$12,000,000,000, of which (1) \$850,000,000 shall be limited to obligations pertaining to guarantees of obligations for fishing vessels and fishery facilities made under this title, and (2) \$3,000,000,000 shall be limited to obligations pertaining to guarantees of obligations for eligible export vessels. No additional limitations may be imposed on new commitments to guarantee loans for any fiscal year, except in such amounts as established in advance in annual authorization Acts. No vessel eligible for guarantees under this title shall be denied eligibility because of its type.

(g) **LOAN GUARANTEES FOR EXPORT VESSELS; FINDING REQUIRED; TERMINATION OF AUTHORITY.**—

(1) The **【Secretary】** *Secretary or Administrator* may not issue a commitment to guarantee obligations for an eligible export vessel unless, after considering—

(A) the status of pending applications for commitments to guarantee obligations for vessels documented under the laws of the United States and operating or to be operated in the domestic or foreign commerce of the United States,

(B) the economic soundness of the applications referred to in subparagraph (A), and

(C) the amount of guarantee authority available, the **【Secretary】** *Secretary or Administrator* determines, in the sole discretion of the **【Secretary】** *Secretary or Administrator*, that the issuance of a commitment to guarantee obligations for an eligible export vessel will not result in the denial of an economically sound application to issue a commitment to guarantee obligations for vessels documented under the laws of the United States operating in the domestic or foreign commerce of the United States.

(2) The **【Secretary】** *Secretary or Administrator* may not issue commitments to guarantee obligations for eligible export vessels under this section after the later of—

(A) the 5th anniversary of the date on which the **【Secretary】** *Secretary or Administrator* publishes final regulations setting forth the application procedures for the issuance of commitments to guarantee obligations for eligible export vessels,

(B) the last day of any 5-year period in which funding and guarantee authority for obligations for eligible export vessels have been continuously available, or

(C) the last date on which those commitments may be issued under any treaty or convention entered into after the date of the enactment of the National Shipbuilding and Shipyard Conversion Act of 1993 that prohibits guarantee of those obligations.

(h)(1) The **【Secretary】** *Secretary or Administrator* shall—

(A) establish in accordance with this subsection, and update annually, a system of risk categories for obligations guaranteed under this title, that categorizes the relative risk of guarantees made under this title with respect to the risk factors set forth in paragraph (3);

(B) annually determine for each of the risk categories a subsidy rate equivalent to the cost of obligations in the category, expressed as a percentage of the amount guaranteed under this title for obligations in the category; and

(C) ensure that each risk category is comprised of loans that are relatively homogeneous in cost and share characteristics predictive of defaults and other costs, given the facts known at the time of obligation or commitment, using a risk category system that is based on historical analysis of program data and statistical evidence concerning the likely costs of defaults or other costs that expected to be associated with the loans in the category.

(2)(A) Before making a guarantee under this section for an obligation, and annually for projects subject to a guarantee, the **【Secretary】** *Secretary or Administrator* shall apply the risk factors set forth in paragraph (3) to place the obligation in a risk category established under paragraph (1)(A).

(B) The **【Secretary】** *Secretary or Administrator* shall consider the aggregate amount available to the **【Secretary】** *Secretary or Administrator* for making guarantees under this title to be reduced by the amount determined by multiplying—

(i) the amount guaranteed under this title for an obligation, by

(ii) the subsidy rate for the category in which the obligation is placed under subparagraph (A) of this paragraph.

(C) The estimated cost to the Government of a guarantee made by the **【Secretary】** *Secretary or Administrator* under this title for an obligation is deemed to be the amount determined under subparagraph (B) for the obligation.

(D) The **【Secretary】** *Secretary or Administrator* may not guarantee obligations under this title after the aggregate amount available to the **【Secretary】** *Secretary or Administrator* under appropriations Acts for the cost of loan guarantees is required by subparagraph (B) to be considered reduced to zero.

(3) The risk factors referred to in paragraphs (1) and (2) are the following:

(A) If applicable, the country risk for each eligible export vessel financed or to be financed by an obligation.

(B) The period for which an obligation is guaranteed or to be guaranteed.

(C) The amount of an obligation, which is guaranteed or to be guaranteed, in relation to the total cost of the project financed or to be financed by the obligation.

(D) The financial condition of an obligor or applicant for a guarantee.

(E) If applicable, any guarantee related to the project, other than the guarantee under this title for which the risk factor is applied.

(F) If applicable, the projected employment of each vessel or equipment to be financed with an obligation.

(G) If applicable, the projected market that will be served by each vessel or equipment to be financed with an obligation.

(H) The collateral provided for a guarantee for an obligation.

(I) The management and operating experience of an obligor or applicant for a guarantee.

(J) Whether a guarantee under this title is or will be in effect during the construction period of the project.

(K) A risk factor for concentration risk reflecting the risk presented by an unduly large percentage of loans outstanding by any 1 borrower or group of affiliated borrowers.

(4) In this subsection, the term “cost” has the meaning given that term in section 502 of the Federal Credit Reform Act of 1990 (2 U.S.C. 661a).

(i) **PRIORITY FOR NATIONAL DEFENSE TANK VESSELS.**—In guaranteeing and entering commitments to guarantee under this section, the **Secretary** *Administrator* shall give priority to guarantees and commitments for vessels that are otherwise eligible for a guarantee under this section and that are constructed with assistance under subtitle D of the Maritime Security Act of 2003.

(j) **PRIORITY FOR OTHER VESSELS SUITABLE FOR SERVICE AS A NAVAL AUXILIARY.**—**[In guaranteeing and entering commitments to guarantee under this section,]** *If the Secretary or Administrator seeks a priority for a commitment to guarantee under this section,* the **Secretary** *Administrator* shall, after applying subsection (i), give priority to a guarantee or commitment for a vessel that is otherwise eligible for a guarantee under this section and that the Secretary of Defense determines—

(1) is suitable for service as a naval auxiliary in time of war or national emergency; and

(2) meets a shortfall in sealift capacity or capability.

(C) were sold at foreclosure instituted by the [Secretary] *Secretary or Administrator*;

(4) financing, in whole or in part, the repayment to the United States of any amount of construction-differential subsidy paid with respect to a vessel pursuant to title V of this Act, as amended;

Any obligation guaranteed under paragraphs (6) and (7) shall be treated, for purposes of this title, in the same manner and to the same extent as an obligation guaranteed under this title which aids in the construction, reconstruction, reconditioning, or purchase of a vessel; except with respect to provisions of this title that by their nature can only be applied to vessels.

(1) shall have an obligor approved by the [Secretary] *Secretary or Administrator* as responsible and possessing the ability, experience, financial resources, and other qualifications necessary to the adequate operation and maintenance of the vessel or vessels which serve as security for the guarantee of the [Secretary] *Secretary or Administrator*;

(2) subject to the provisions of subsection (c)(1) and subsection (i), shall be in an aggregate principal amount which does not exceed 75 per centum of the actual cost or depreciated actual cost, as determined by the [Secretary] *Secretary or Administrator*, of the vessel which is used as security for the guarantee of the [Secretary] *Secretary or Administrator*: Pro-

vided, however, That in the case of a vessel, the size and speed of which are approved by the **【Secretary】** *Secretary or Administrator*, and which is or would have been eligible for mortgage aid for construction under section 509 of this Act (or would have been eligible for mortgage aid under section 509 of this Act except that the vessel was built with the aid of construction-differential subsidy and said subsidy has been repaid) and in respect of which the minimum downpayment by the mortgagor required by that section would be or would have been $12\frac{1}{2}$ per centum of the cost of such vessel, such obligations may be in an amount which does not exceed $87\frac{1}{2}$ per centum of such actual cost or depreciated actual cost: Provided, further, That the obligations which relate to a barge which is constructed without the aid of construction-differential subsidy, or, if so subsidized, on which said subsidy has been repaid, may be in an aggregate principal amount which does not exceed $87\frac{1}{2}$ per centum of the actual cost or depreciated actual cost thereof: Provided further, That in the case of a fishing vessel or fishery facility, the obligation shall be in an aggregate principal amount not to exceed 80 percent of the actual cost or depreciated actual cost of the fishing vessel or fishery facility, except that no debt may be placed under this proviso through the Federal Financing Bank: Provided further, That in the case of an ocean thermal energy conversion facility or plantship which is constructed without the aid of construction-differential subsidy, such obligations may be in an aggregate principal amount which does not exceed $87\frac{1}{2}$ percent of the actual cost or depreciated actual cost of the facility or plantship: Provided further, That in the case of an eligible export vessel, such obligations may be in an aggregate principal amount which does not exceed $87\frac{1}{2}$ of the actual cost or depreciated actual cost of the eligible export vessel;

(3) shall have maturity dates satisfactory to the **【Secretary】** *Secretary or Administrator* but, subject to the provisions of paragraph (2) of subsection (c) of this section, not to exceed twenty-five years from the date of the delivery of the vessel which serves as security for the guarantee of the **【Secretary】** *Secretary or Administrator* or, if the vessel has been reconstructed or reconditioned, not to exceed the later of (i) twenty-five years from the date of delivery of the vessel and (ii) the remaining years of the useful life of the vessel as determined by the **【Secretary】** *Secretary or Administrator*;

(4) shall provide for payments by the obligor satisfactory to the **【Secretary】** *Secretary or Administrator*;

(5) shall bear interest (exclusive of charges for the guarantee and service charges, if any) at rates not to exceed such per centum per annum on the unpaid principal as the **【Secretary】** *Secretary or Administrator* determines to be reasonable, taking into account the range of interest rates prevailing in the private market for similar loans and the risks assumed by the **【Secretary】** *Secretary or Administrator*;

(6) shall provide, or a related agreement shall provide, that if the vessel used as security for the guarantee of the **【Secretary】** *Secretary or Administrator* is a delivered vessel, the vessel shall be in class A-1, American Bureau of Shipping, or

shall meet such other standards as may be acceptable to the **【Secretary】** *Secretary or Administrator*, with all required certificates of the United States Coast Guard or, in the case of an eligible export vessel, of the appropriate national flag authorities under a treaty, convention, or other international agreement to which the United States is a party, with all outstanding requirements and recommendations necessary for retention of class accomplished, unless the **【Secretary】** *Secretary or Administrator* permits a deferment of such repairs, and shall be tight, staunch, strong, and well and sufficiently tackled, appareled, furnished, and equipped, and in every respect seaworthy and in good running condition and repair, and in all respects fit for service; and

(7) may provide, or a related agreement may provide, if the vessel used as security for the guarantee of the **【Secretary】** *Administrator* is a passenger vessel having the tonnage, speed, passenger accommodations and other characteristics set forth in title V of this Act, as amended, and if the Secretary approves, that the sole recourse against the obligor by the United States for any payments under the guarantee shall be limited to repossession of the vessel and the assignment of insurance claims and that the liability of the obligor for any payments of principal and interest under the guarantee shall be satisfied and discharged by the surrender of the vessel and all right, title, and interest therein to the United States: Provided, That the vessel upon surrender shall be (i) free and clear of all liens and encumbrances whatsoever except the security interest conveyed to the **【Secretary】** *Administrator* under this title, (ii) in class, and (iii) in as good order and condition, ordinary wear and tear excepted, as when acquired by the obligor, except that any deficiencies with respect to freedom from encumbrances, condition and class may, to the extent covered by valid policies of insurance, be satisfied by the assignment to the **【Secretary】** *Administrator* of claims of the obligor under such policies.

The Secretary may not establish, as a condition of eligibility for guarantee under this title, a minimum principal amount for an obligation covering the reconstruction or reconditioning of a fishing vessel or fishery facility. For purposes of this title, the reconstruction or reconditioning of a fishing vessel or fishery facility does not include the routine minor repair or maintenance of the vessel or facility.

(c) SECURITY.—(1) The security for the guarantee of an obligation by the **【Secretary】** *Secretary or Administrator* under this title may relate to more than one vessel and may consist of any combination of types of security. The aggregate principal amount of obligations which have more than one vessel as security for the guarantee of the **【Secretary】** *Secretary or Administrator* under this title may equal, but not exceed, the sum of the principal amount of obligations permissible with respect to each vessel.

(2) If the security for the guarantee of an obligation by the **【Secretary】** *Secretary or Administrator* under this title relates to more than one vessel, such obligation may have the latest maturity date permissible under subsection (b) of this section with respect to any of such vessels: Provided, That the **【Secretary】** *Secretary or Ad-*

ministrator may require such payments of principal, prior to maturity, with respect to all related obligations as he deems necessary in order to maintain adequate security for his guarantee.

(d) RESTRICTIONS.—(1)(A) No commitment to guarantee, or guarantee of, an obligation shall be made by the **【Secretary of Transportation】** *Administrator* unless the **【Secretary】** *Administrator* finds that the property or project with respect to which the obligation will be executed will be economically sound. In making that determination, the **【Secretary】** *Administrator* shall consider—

(i) the need in the particular segment of the maritime industry for new or additional capacity, including any impact on existing equipment for which a guarantee under this title is in effect;

(ii) the market potential for the employment of the vessel over the life of the guarantee;

(iii) projected revenues and expenses associated with employment of the vessel;

(iv) any charters, contracts of affreightment, transportation agreements, or similar agreements or undertakings relevant to the employment of the vessel;

(v) other relevant criteria; and

(vi) for inland waterways, the need for technical improvements, including but not limited to increased fuel efficiency, or improved safety.

(B) No commitment to guarantee, or guarantee of, and obligation shall be made by the Secretary of Commerce unless the Secretary finds, at or prior to the time such commitment is made or guarantee becomes effective, that the property or project with respect to which the obligation will be executed will be, in the Secretary's opinion, economically sound and in the case of fishing vessels, that the purpose of the financing or refinancing is consistent with the wise use of the fisheries resources and with the development, advancement, management, conservation, and protection of the fisheries resources, or with the need for technical improvements including but not limited to increased fuel efficiency or improved safety.

(2) No commitment to guarantee, or guarantee of an obligation may be made by the Secretary under this title for the purchase of a used fishing vessel or used fishery facility unless—

(A) the vessel or facility will be reconstructed or reconditioned in the United States and will contribute to the development of the United States fishing industry; or

(B) the vessel or facility will be used in the harvesting of fish from, or for a purpose described in section 1101(k) with respect to, an underutilized fishery.

(3) No commitment to guarantee, or guarantee of an obligation may be made by the **【Secretary】** *Administrator* under this title for the construction, reconstruction, or reconditioning of an eligible export vessel unless—

(A) the **【Secretary】** *Administrator* finds that the construction, reconstruction, or reconditioning of that vessel will aid in the transition of United States shipyards to commercial activities or will preserve shipbuilding assets that would be essential in time of war or national emergency, and

(B) the owner of the vessel agrees with the **【Secretary of Transportation】** *Administrator* that the vessel shall not be transferred to any country designated by the Secretary of Defense as a country whose interests are hostile to the interests of the United States.

(4) The Secretary shall promulgate regulations concerning circumstances under which waivers of or exceptions to otherwise applicable regulatory requirements concerning financial condition can be made. The regulations shall require that—

(A) the economic soundness requirements set forth in paragraph (1)(A) of this subsection are met after the waiver of the financial condition requirement; and

(B) **【the waiver】** *if deemed necessary by the Secretary or Administrator, the waiver* shall provide for the imposition of other requirements on the obligor designed to compensate for **【the increased】** *any significant increase in* risk associated with the obligor's failure to meet regulatory requirements applicable to financial condition.

(e) GUARANTEE FEES.—(1) Except as otherwise provided in this subsection, the **【Secretary】** *Secretary or Administrator* shall prescribe regulations to assess in accordance with this subsection a fee for the guarantee of an obligation under this title.

(2)(A) The amount of a fee under this subsection for a guarantee is equal to the sum determined by adding the amounts determined under subparagraph (B) for the years in which the guarantee is in effect.

(B) The amount referred to in subparagraph (A) for a year is the present value (determined by applying the discount rate determined under subparagraph (F)) of the amount determined by multiplying—

(i) the estimated average unpaid principal amount of the obligation that will be outstanding during the year (determined in accordance with subparagraph (E)), by

(ii) the fee rate established under subparagraph (C) for the obligation for each year.

(C) The fee rate referred to in subparagraph (B)(ii) for an obligation shall be—

(i) in the case of an obligation for a delivered vessel or equipment, not less than one-half of 1 percent and not more than 1 percent, determined by the **【Secretary】** *Secretary or Administrator* for the obligation under the formula established under subparagraph (D); or

(ii) in the case of an obligation for a vessel to be constructed, reconstructed, or reconditioned, or of equipment to be delivered, not less than one-quarter of 1 percent and not more than one-half of 1 percent, determined by the **【Secretary】** *Secretary or Administrator* for the obligation under the formula established under subparagraph (D).

(D) The **【Secretary】** *Secretary or Administrator* shall establish a formula for determining the fee rate for an obligation for purposes of subparagraph (C), that—

(i) is a sliding scale based on the creditworthiness of the obligor;

(ii) takes into account the security provided for a guarantee under this title for the obligation; and

(iii) uses—

(I) in the case of the most creditworthy obligors, the lowest rate authorized under subparagraph (C)(i) or (ii), as applicable; and

(II) in the case of the least creditworthy obligors, the highest rate authorized under subparagraph (C)(i) or (ii), as applicable.

(E) For purposes of subparagraph (B)(i), the estimated average unpaid principal amount does not include the average amount (except interest) on deposit in a year in the escrow fund under section 1108.

(F) For purposes of determining present value under subparagraph (B) for an obligation, the **【Secretary】** *Secretary or Administrator* shall apply a discount rate determined by the Secretary of the Treasury taking into consideration current market yields on outstanding obligations of the United States having periods to maturity comparable to the period to maturity for the obligation with respect to which the determination of present value is made.

(3) A fee under this subsection shall be assessed and collected not later than the date on which amounts are first paid under an obligation with respect to which the fee is assessed.

(4) A fee paid under this subsection is not refundable. However, an obligor shall receive credit for the amount paid for the remaining term of the guaranteed obligation if the obligation is refinanced and guaranteed under this title after such refinancing.

(5) A fee paid under subsection (e) shall be included in the amount of the actual cost of the obligation guaranteed under this title and is eligible to be financed under this title.

(f) INVESTIGATION OF APPLICATIONS.—(1) The **【Secretary】** *Secretary or Administrator* shall charge and collect from the obligor such amounts as he may deem reasonable for the investigation of applications for a guarantee, for the appraisal of properties offered as security for a guarantee, for the issuance of commitments, for services in connection with the escrow fund authorized by section 1108 and for the inspection of such properties during construction, reconstruction, or reconditioning: Provided, That such charges shall not aggregate more than one-half of 1 per centum of the original principal amount of the obligations to be guaranteed.

(2) The **【Secretary】** *Secretary or Administrator* may make a determination that aspects of an application under this title require independent analysis to be conducted by third party experts due to risk factors associated with markets, technology, **【financial structures, or other risk factors identified by the Secretary】** or *financial structures*. Any independent analysis conducted pursuant to this provision shall be performed by a party chosen by the **【Secretary】** *Secretary or Administrator*. *The Secretary or Administrator shall not establish by rule, regulation, or procedure any requirement for independent analysis that is, or is intended to be, applied uniformly to loan guarantee applications without regard to such risk factors.*

(3) Notwithstanding any other provision of this title, the **【Secretary】** *Secretary or Administrator* may make a determination that an application under this title requires additional equity because of increased risk factors associated with markets, technology, **【financial structures, or other risk factors identified by the Secretary.】** or *financial structures*.

(4) The **【Secretary】** *Secretary or Administrator* may charge and collect fees to cover the costs of independent analysis under paragraph (2). Notwithstanding section 3302 of title 31, United States Code, any fee collected under this paragraph shall—

(A) be credit as an offsetting collection to the account that finances the administration of the loan guarantee program;

(B) shall be available for expenditure only to pay the costs of activities and services for which the fee is imposed; and

(C) shall remain available until expended.

(5) *A third party independent analysis conducted under paragraph (2) shall be performed by a private sector expert in assessing such risk factors who is selected by the Administrator. No Federal funds shall be expended to conduct any review of any application under this title, or any modification of an existing loan guarantee, by any party that is not an expert in maritime finance or operations.*

(g) DISPOSITION OF MONEYS.—All moneys received by the **【Secretary】** *Secretary or Administrator* under the provisions of sections 1101–1107 of this title shall be deposited in the Fund.

(h) ADDITIONAL REQUIREMENTS.—Obligations guaranteed under this title and agreements relating thereto shall contain such other provisions with respect to the protection of the security interests of the United States (including acceleration, assumptions, and subrogation provisions and the issuance of notes by the obligor to the **【Secretary】** *Secretary or Administrator*), liens and releases of liens, payments of taxes, and such other matters as the **【Secretary】** *Secretary or Administrator* may, in his discretion, prescribe.

(i) LIMITATION ON ESTABLISHMENT OF PERCENTAGE.—The **【Secretary】** *Secretary or Administrator* may not, with respect to—

(1) the general 75 percent or less limitation in subsection (b)(2);

(2) the 87½ percent or less limitation in the 1st, 2nd, 4th, or 5th proviso to subsection (b)(2) or section 1112(b); or

(3) the 80 percent or less limitation in the 3rd proviso to such subsection; establish by rule, regulation, or procedure any percentage within any such limitation that is, or is intended to be, applied uniformly to all guarantees or commitments to guarantee made under this section that are subject to the limitation.

(j) PROCEDURE UPON RECEIVING LOAN GUARANTEE APPLICATION.—(1) Upon receiving an application for a loan guarantee for an eligible export vessel, the **【Secretary】** *Administrator* shall promptly provide to the Secretary of Defense notice of the receipt of the application. During the 30-day period beginning on the date on which the Secretary of Defense receives such notice, the Secretary of Defense may disapprove the loan guarantee based on the assessment of the **【Secretary】** *Administrator* of the potential use of the vessel in a manner that may cause harm to United States national security interests. The Secretary of Defense may not disapprove a loan guarantee under this section solely on the basis of the type of vessel to be constructed with the loan guarantee. The authority of the **【Secretary】** *Administrator* to disapprove a loan guarantee under this section may not be delegated to any official other than a civilian officer of the Department of Defense appointed by the President, by and with the advice and consent of the Senate.

(2) **[The Secretary of Transportation]** *The Administrator* may not make a loan guarantee disapproved by the Secretary of Defense under paragraph (1).

(k) **MONITORING.**—The **[Secretary]** *Secretary or Administrator* shall monitor the financial conditions and operations of the obligor on a regular basis during the term of the guarantee. The **[Secretary]** *Secretary or Administrator* shall document the results of the monitoring on an annual or quarterly basis depending upon the condition of the obligor. If the **[Secretary]** *Secretary or Administrator* determines that the financial condition of the obligor warrants additional protections to the **[Secretary]** *Secretary or Administrator*, then the **[Secretary]** *Secretary or Administrator* shall take appropriate action under subsection (m) of this section. If the **[Secretary]** *Secretary or Administrator* determines that the financial condition of the obligor jeopardizes its continued ability to perform its responsibilities in connection with the guarantee of obligations by the **[Secretary]** *Secretary or Administrator*, the **[Secretary]** *Secretary or Administrator* shall make an immediate determination whether default should take place and whether further measures described in subsection (m) should be taken to protect the interests of the **[Secretary]** *Secretary or Administrator* while insuring that program objectives are met.

(l) **REVIEW OF APPLICATIONS.**—No commitment to guarantee, or guarantee of, an obligation shall be made by the **[Secretary]** *Secretary or Administrator* unless the **[Secretary]** *Secretary or Administrator* certifies that a full and fair consideration of all the regulatory requirements, including economic soundness and financial requirements applicable to obligors and related parties, and a thorough assessment of the technical, economic, and financial aspects of the loan application has been made. *The Administrator shall retain in the Maritime Administration adequate resources with sufficient expertise to perform the functions prescribed by this title so that no assistance from the Department of Transportation or any other Federal agency is required to carry out this title.*

(m) **AGREEMENT WITH OBLIGOR.**—The **[Secretary]** *Secretary or Administrator* shall include provisions in loan agreements with obligors that provide additional authority to the **[Secretary]** *Secretary or Administrator* to take action to limit potential losses in connection with defaulted loans or loans that are in jeopardy due to the deteriorating financial condition of obligors. **[Provisions that the Secretary shall include in loan agreements include requirements for additional collateral or greater equity contributions that are effective upon the occurrence of verifiable conditions relating to the obligors financial condition or the status of the vessel or shipyard project.]** *If the Secretary or Administrator has waived a requirement under section 1104A(d), the loan agreement shall include requirements for additional payments, collateral, or equity contributions to meet such waived requirement upon the occurrence of verifiable conditions indicating that the obligor's financial condition enables the obligor to meet the waived requirement.*

(n) **DECISION PERIOD.**—(1) **IN GENERAL.**—**[The Secretary of Transportation]** *The Administrator* shall approve or deny an application for a loan guarantee under this title within 270 days after the date on which the signed application is received by the **[Secretary]** *Administrator*.

(1) the construction or reconstruction by an applicant is made necessary to replace vessels the continued operation of which is denied by virtue of the imposition of a statutorily mandated change in standards for the operation of vessels, and where, as a matter of law, the applicant would otherwise be denied the right to continue operating vessels in the trades in which the applicant operated prior to the taking effect of the statutory or regulatory change;

(2) the applicant is presently engaged in transporting cargoes in vessels of the type and class that will be constructed or reconstructed under this section, and agrees to employ vessels constructed or reconstructed under this section as replacements only for vessels made obsolete by changes in operating standards imposed by statute;

(3) the capacity of the vessels to be constructed or reconstructed under this title will not increase the cargo carrying capacity of the vessels being replaced;

(4) the **Secretary** *Secretary or Administrator* has not made a determination that the market demand for the vessel over its useful life will diminish so as to make the granting of the guarantee fiducially imprudent; and

(5) the **Secretary** *Secretary or Administrator* has considered the provisions of section 1104A(d)(1)(A)(iii), (iv), and (v) of this title.

(b) For the purposes of this section—

(2) obligations guaranteed may not exceed 87½ percent of the actual cost or depreciated actual cost to the applicant for the construction or reconstruction of the vessel; and

(3) reconstruction cost obligations may not be guaranteed unless the vessel after reconstruction will have a useful life of at least 15 years. The **Secretary** *Secretary or Administrator* may not by rule, regulation, or procedure establish any percentage within the 87½ percent or less limitation in paragraph

- (A) annual fees which may be an additional amount on the loan guarantee fee in section 1104A(e) not to exceed an additional 1 percent; or
 - (B) fees based on the amount of the obligation versus the percentage of the obligor's fleet being replaced by vessels constructed or reconstructed under this section.
- (2) The Vessel Replacement Guarantee Fund shall be a sub-account in the Federal Ship Financing Fund, and shall—
