## Annex I

The HTS is modified as provided below, with bracketed matter included to assist in the understanding of proclaimed modifications. The following supersedes matter in the HTS. The subheadings and superior text are set forth in columnar format, and material in such columns is inserted in the columns of the HTS designated "Heading/Subheading", "Article Description", "Rates of Duty 1 General", "Rates of Duty 1 Special" and "Rates of Duty 2", respectively.

Section A. Effective with respect to goods that are entered, or withdrawn from warehouse for consumption, on or after January 1, 2005, the HTS is hereby modified as follows:

(1). General note 3(c)(i) is modified by inserting, immediately above the line reading "Automotive Products Trade.....B", a new line reading:

"United States-Australia Free Trade Agreement Implementation Act.....AU"

2. The following new general note is inserted in numerical sequence:

"28. United States-Australia Free Trade Agreement Implementation Act.

    - (C) the good meets any other requirements specified in subdivision (n) of this note;and such good satisfies all other applicable requirements of this note;
  - (iii) the good was produced entirely in the territory of Australia or of the United States, or both, exclusively from materials described in subdivision (b)(i) or (b)(ii) of this note; or

## Annex I (continued)

-3-

- (2) has a similar life expectancy to, and meets the same performance standards as, a like good that is new; and
  - (3) enjoys a factory warranty similar to a like good that is new.
- (C) For the purposes of this note—
- (1) the term “material” means a good that is used in the production of another good;
  - (2) the term “material that is self-produced” means an originating material that is produced by a producer of a good and used in the production of that good; and
  - (3) a “nonoriginating material” is a material that does not qualify as originating under this note.

- (d) Textile and apparel articles.
- (i) Except as provided in subdivision (ii) below, a textile or apparel good that is not an originating good under the terms of this note, because certain fibers or yarns used in the production of the component of the good that determines the tariff classification of the good do not undergo an applicable change in tariff classification set out in subdivision (n) of this note, shall be considered to be an originating good if the total weight of all such fibers or yarns in that component is not more than seven percent of the total weight of that component. Notwithstanding the preceding sentence, a textile or apparel good containing elastomeric yarns in the component of the good that determines the tariff classification of the good shall be considered to be an originating good only if such yarns are wholly formed in the territory of Australia or of the United States.
  - (ii) Notwithstanding the rules set forth in subdivision (n) of this note, textile and apparel goods classifiable as goods put up in sets for retail sale as provided under general rule of interpretation 3 to the tariff schedule shall not be considered to be originating goods unless each of the goods in the set is an originating good or the total value of the nonoriginating goods in the set does not exceed 10 percent of the value of the set determined for purposes of assessing customs duties.
  - (iii) For purposes of subdivision (d)(i) of this note, in the case of a textile or apparel good that is a yarn, fabric or group of fibers, the term “component of the good that determines the tariff classification of the good” means all of the fibers in the yarn, fabric or group of fibers.
  - (iv) For purposes of this note, the term “textile or apparel good” means a good listed in the Annex to the Agreement on Textiles and Clothing referred to in section 101(d)(4) of the Uruguay Round Agreements Act (19 U.S.C. 3511(d)(4)). For the purposes of the rules set forth in subdivision (n) of this note that apply to textile or apparel goods pursuant to Annex 4-A to the UAFTA, a good is considered to be “wholly” of a material if the good is made entirely of the material.
- (e) De minimis.
- (i) Except as provided in subdivision (e)(ii) below, a good (other than a textile or apparel good described in subdivision (d) above) that does not undergo a change in tariff classification pursuant to subdivision (n) of this note shall nonetheless be considered to be an originating good if—
    - (A) the value of all nonoriginating materials that are used in the production of the good, and do not undergo the applicable change in tariff classification, does not exceed 10 percent of the adjusted value of the good;

## Annex I (continued)

-4-

- (B) the value of such nonoriginating materials is included in calculating the value of nonoriginating materials for any applicable regional value content requirement for the good; and
  - (C) the good meets all other applicable requirements of this note.
- (ii) Subdivision (e)(i) does not apply to—
- (A) a nonoriginating material provided for in chapter 4 or in subheading 1901.90 that is used in the production of a good provided for in chapter 4;
  - (B) a nonoriginating material provided for in chapter 4 or in subheading 1901.90 that is used in the production of a good provided for in subheading 1901.10, 1901.20 or 1901.90, heading 2105, or subheading 2106.90, 2202.90 or 2309.90;
  - (C) a nonoriginating material provided for in heading 0805 or any of subheadings 2009.11 through 2009.39 that is used in the production of a good provided for in any of subheadings 2009.11 through 2009.39, or in subheading 2106.90 or 2202.90;
  - (D) a nonoriginating material provided for in chapter 15 that is used in the production of a good provided for in headings 1501 through 1508, 1512, 1514 or 1515;
  - (E) a nonoriginating material provided for in heading 1701 that is used in the production of a good provided for in any of headings 1701 through 1703;

- (f) Accumulation.
- (i) For purposes of this note, originating materials from the territory of Australia or of the United States that are used in the production of a good in the territory of the other country shall be considered to originate in the territory of such other country.
  - (ii) A good that is produced in the territory of Australia or of the United States, or both, by one or more producers, is an originating good if the good satisfies all of the applicable requirements of this note.
- (g) Regional value content.
- (i) For purposes of subdivision (b)(ii)(B) of this note, the regional value content for a good, except for goods to which subdivision (iv) applies, shall be calculated by the importer, exporter or producer of the good on the basis of the build-down method or the build-up method described below, unless otherwise specified in this note:
    - (A) For the build-down method, the regional value content may be calculated on the basis of the formula  $RVC = (AV - VNM) \times 100 / AV$ , where RVC is the regional value content, expressed as a percentage; AV is the adjusted value; and VNM is the value of nonoriginating materials that are acquired and used by the producer in the production of the good, but does not include the value of a material that is self-produced; or
    - (B) For the build-up method, the regional value content may be calculated on the basis of the formula  $RVC = (VOM \times 100) / AV$ , where RVC is the regional value content, expressed as a percentage; AV is the adjusted value; and VOM is the value of originating materials that are acquired or self-produced, and used by the producer in the production of the good.

## Annex I (continued)

(ii) Value of materials.

- (A) For purposes of calculating the regional value content of a good under this note and for purposes of applying the de minimis provisions of subdivision (e) of this note, the value of a material is:
- (1) in the case of a material imported by the producer of the good, the adjusted value of the material;
  - (2) in the case of a material acquired in the territory in which the good is produced, determined in accordance with Articles 1 through 8, article 15 and the corresponding interpretive notes of the Agreement on Implementation of Article VII of the General Agreement on Tariffs and Trade 1994 referred to in section 101(d)(8) of the Uruguay Round Agreements Act, as set forth in regulations promulgated by the Secretary of the Treasury providing for the application of such Articles in the absence of an importation; or
  - (3) in the case of a material that is self-produced, the sum of--
    - (I) all expenses incurred in the production of the material, including general expenses; and
    - (II) an amount for profit equivalent to the profit added in the normal course of trade.
- (B) The value of materials may be adjusted as follows:
- (1) for originating materials, the following expenses, if not included under subdivision (g)(ii)(A) of this note, may be added to the value of the originating material:
    - (I) the costs of freight, insurance, packing and all other costs incurred in transporting the material within or between the territory of Australia, the United States or both, to the location of the producer;
    - (II) duties, taxes and customs brokerage fees on the material paid in the territory of Australia or of the United States, or both, other than duties and taxes that are waived, refunded, refundable or otherwise recoverable, including credit against duty or tax paid or payable; and
    - (III) the cost of waste and spoilage resulting from the use of the material in the production of the good, less the value of renewable scrap or by-products;
  - (2) for non-originating materials, if included in the value of a nonoriginating material calculated under subdivision (g)(ii)(A) of this note, the following expenses may be deducted from the value of the nonoriginating material:
    - (I) the costs of freight, insurance, packing and all other costs incurred in transporting the material within or between the territory of Australia, the United States or both, to the location of the producer;
    - (II) duties, taxes and customs brokerage fees on the material paid in the territory of Australia or of the United States, or both, other than duties and taxes that are waived, refunded, refundable or otherwise recoverable, including credit against duty or tax paid or payable;
    - (III) the cost of waste and spoilage resulting from the use of the material in the production of the good, less the value of renewable scrap or by-products;
    - (IV) the cost of processing incurred in the territory of Australia or of the United States, or both, in the production of the nonoriginating material; and
    - (V) the cost of originating materials used in the production of the nonoriginating material in the territory of Australia or of the United States, or both

## Annex I (continued)

-6-

- (C) Any cost or value referred to in this note shall be recorded and maintained in accordance with the generally accepted accounting principles applicable in the territory of the country in which the good is produced (whether Australia or the United States). Such principles comprise the recognized consensus or substantial authoritative support in the territory of Australia or of the United States, as the case may be, with respect to the recording of revenues, expenses, costs, assets and liabilities, the disclosure of information and the preparation of financial statements. These standards may encompass broad guidelines of general application as well as detailed standards, practices and procedures.
  - (D) For purposes of subdivision (g) of this note, the term “used” means used or consumed in the production of goods.
- (iii) Special rule for certain automotive goods.
- (A) For purposes of subdivision (b)(ii)(B) of this note, the regional value content of an automotive good shall be calculated by the importer, exporter or producer of the good on the basis of the following net cost method:  $RVC = (NC - VNM) \times 100 / NC$ , where RVC is the regional value content of the automotive good, expressed as a percentage; NC is the net cost of the automotive good; and VNM means the value of nonoriginating materials that are acquired and used by the producer in the production of the automotive good, but does not include the value of a material that is self produced. For purposes of this subdivision, the term “automotive good” means a good provided for in any of the subheadings 8407.31 through 8407.34, subheading 8408.20, heading 8409 or any of headings 8701 through 8708, inclusive, of the tariff schedule.
  - (B) For purposes of determining the regional value content under this subdivision for an automotive good that is a motor vehicle provided for in any of headings 8701 through 8705, an importer, exporter or producer may average the amounts calculated under the formula contained in subdivision (A) above, over the producer’s fiscal year--
    - (I) with respect to all motor vehicles in any one of the categories described in subdivision (C), below; or
    - (II) with respect to all motor vehicles in any such category that are exported to the territory of the United States or Australia.
  - (C) A category is described for purposes of subdivision (B)(I) above if it--
    - (I) is the same model of motor vehicles, is in the same class of vehicles, and is produced in the same plant in the territory of Australia or of the United States, as the good described in subdivision (B) for which regional value content is being calculated;
    - (II) is the same class of motor vehicles, and is produced in the same plant in the territory of Australia or of the United States, as the good described in subdivision (B) for which regional value content is being calculated; or
    - (III) is the same model line of motor vehicles produced in either the territory of Australia or of the United States, as the good described in subdivision (B) for which regional value content is being calculated.
  - (D) For purposes of determining the regional value content under subdivision (A) above for automotive goods provided for in any of subheadings 8407.31 through 8407.34, in subheading 8408.20 or in heading 8409, 8705, 8707 or 8708, that are produced in the same plant, an importer, exporter or producer may--
    - (I) average the amounts calculated under the formula contained in subdivision (A) above over--
      - (aa) the fiscal year of the motor vehicle producer to whom the automotive goods are sold,
      - (bb) any quarter or month, or

## Annex I (continued)

-7-

- (cc) its own fiscal year,
    - if the goods were produced during the fiscal year, quarter or month that is the basis for the calculation;
  - (II) determine the average referred to in subdivision (I) separately for such goods sold to one or more motor vehicle producers; or
  - (III) make a separate determination under subdivision (I) or (II) for automotive goods that are exported to the territory of the United States or of Australia.
- (E) Consistent with the provisions regarding allocation of costs set out in generally accepted accounting principles, the net cost of the automotive good under subdivision (B) shall be calculated by--
- (I) calculating the total cost incurred with respect to all goods produced by the producer of the automotive good, subtracting any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs and nonallowable interest costs that are included in the total cost of all such goods, and then reasonably allocating the resulting net cost of those goods to the automotive good;
  - (II) calculating the total cost incurred with respect to all goods produced by that producer, reasonably allocating the total cost to the automotive good, and then subtracting any sales promotion, marketing and after-sales services costs, royalties, shipping and packing costs and nonallowable interest costs that are included in the portion of the total cost allocated to the automotive good; or
  - (III) reasonably allocating each cost that forms part of the total cost incurred with respect to the automotive good so that the aggregate of these costs does not include any sales promotion, marketing and after-sales costs, royalties, shipping and packing costs or nonallowable interest costs.
- (F) For purposes of this note, the term “class of motor vehicles” means any one of the following categories of motor vehicles:
- (I) motor vehicles provided for in subheading 8701.20, 8704.10, 8704.22, 8704.23, 8704.32 or 8704.90, or heading 8705 or 8706, or motor vehicles for the transport of 16 or more persons provided for in subheading 8702.10 or 8702.90;
  - (II) motor vehicles provided for in subheading 8701.10 or any of subheadings 8701.30 through 8701.90, inclusive;
  - (III) motor vehicles for the transport of 15 or fewer persons provided for in subheading 8702.10 or 8702.90, or motor vehicles provided for in subheading 8704.21 or 8704.31; or
  - (IV) motor vehicles provided for in any of subheadings 8703.21 through 8703.90.
- (G) For purposes of this note, the term “model line” means a group of motor vehicles having the same platform or model name.
- (H) For purposes of this note, the term “nonallowable interest costs” means interest costs incurred by a producer that exceed 700 basis points above the applicable official interest rate for comparable maturities of the country (whether Australia or the United States).
- (I) For purposes of this note, the term “reasonably allocating” means apportioning in a manner that would be appropriate under generally accepted accounting principles.
- (J) For purposes of this note, the term “total cost” means all product costs, period costs and other costs for a good incurred in the territory of Australia or of the United States, or both.

## Annex I (continued)

-8-

(h) Accessories, spare parts or tools.

- (i) Subject to subdivision (h)(ii) below, accessories, spare parts or tools delivered with a good that form part of the good's standard accessories, spare parts or tools shall--
  - (A) be treated as originating goods if the good is an originating good; and
  - (B) be disregarded in determining whether all the nonoriginating materials used in the production of the good undergo the applicable change in tariff classification set out in subdivision (n) of this note.
- (ii) Subdivision (i) above shall apply only if--
  - (A) the accessories, spare parts or tools are and not invoiced separately from the good;
  - (B) the quantities and value of the accessories, spare parts or tools are customary for the good; and
  - (C) if the good is subject to a regional value content requirement, the value of the accessories, spare parts or tools is taken into account as originating or nonoriginating materials, as the case may be, in calculating the regional value content of the good.

(i) Fungible goods and materials.

- (i) A person claiming that a fungible good or fungible material is an originating good may base the claim either on the physical segregation of the fungible good or fungible material or by using an inventory management method with respect to the fungible good or fungible material. For purposes of this subdivision, the term "inventory management method" means:
  - (A) averaging,
  - (B) "last-in, first-out,"
  - (C) "first-in, first out," or
  - (D) any other method that is recognized in the generally accepted accounting principles of the country in which the production is performed (whether Australia or the United States) or otherwise accepted by that country.

The term "fungible good" or "fungible material" means a good or material, as the case may be, that is interchangeable with another good or material for commercial purposes and the properties of which are essentially identical to such other good or material.

- (ii) A person selecting an inventory management method under subdivision (i) above for a particular fungible good or fungible material shall continue to use that method for that fungible good or fungible material throughout the fiscal year of that person.

(j) Packaging materials and containers.

- (i) Packaging materials and containers in which a good is packaged for retail sale, if classified with the good for which the tariff treatment under the terms of this note is claimed, shall be disregarded in determining whether all nonoriginating materials used in the production of the good undergo the applicable change in tariff classification set out in subdivision (n) of this note and, if the good is subject to a regional value content requirement, the value of such packaging materials and containers shall be taken into account as originating or nonoriginating materials, as the case may be, in calculating the regional value content of the good.
- (ii) Packing materials and containers for shipment shall be disregarded in determining whether--
  - (A) the nonoriginating materials used in the production of the good undergo the applicable change in tariff classification set out in subdivision (n) of this note; and
  - (B) the good satisfies a regional value content requirement.

## Annex I (continued)

-9-

(k) Indirect materials.

An indirect material shall be considered to be an originating material for purposes of this note without regard to where it is produced, and its value shall be the cost registered in the accounting records of the producer of the good. The term "indirect material" means a good used in the production, testing or inspection of a good but not physically incorporated into the good, or a good used in the maintenance of buildings or the operation of equipment associated with the production of a good, including—

- (i) fuel and energy;
- (ii) tools, dies and molds;
- (iii) spare parts and materials used in the maintenance of equipment or buildings;
- (iv) lubricants, greases, compounding materials and other materials used in production or used to operate equipment and buildings;
- (v) gloves, glasses, footwear, clothing, safety equipment and supplies;
- (vi) equipment, devices and supplies used for testing or inspecting the goods;
- (vii) catalysts and solvents; and
- (viii) any other goods that are not incorporated into the good but the use of which in the production of the good can reasonably be demonstrated to be a part of that production.

(l) Record-keeping requirements and verification.

- (i) An importer of a good, for which treatment as an originating good of a UAFTA country is claimed under the provisions of this note, shall make a written declaration that the good qualifies as originating, under the terms of applicable regulations, and shall be prepared to submit, upon request by the appropriate customs officer, a statement setting forth the reasons that the good qualifies as an originating good under the provisions of this note, including pertinent cost and manufacturing information and all other information requested by such customs officer.
- (ii) Importers shall maintain, for a period prescribed in applicable regulations and starting on the date of importation of the good, all information demonstrating that the good qualifies as originating in a format that may be provided for in such regulations, along with all other required documents relating to the importation of the good, including records concerning:

- (A) the purchase of, cost of, value of and payment for the good;
- (B) where appropriate, the purchase of, cost of, value of and payment for all materials, including indirect materials, used in the production of the good; and
- (C) where appropriate, the production of the good in the form in which the good is exported;

and shall, upon request by the appropriate customs officer, make available such records as are necessary under applicable regulations to demonstrate that a good qualifies as an originating good under the provisions of this note.

- (iii) For purposes of determining whether a good imported into the customs territory of the United States from the territory of Australia qualifies as an originating good under the provisions of this note, the appropriate customs officer may conduct a verification under such terms or procedures as the United States and Australia may agree, as set forth in pertinent regulations.

## Annex I (continued)

-10-

(m) Interpretation of rules of origin.

- (i) Unless otherwise specified, the requirements of any rule in subdivision (n) of this note that is set out adjacent to a heading or subheading of the tariff schedule and specifies a change of tariff classification applies only to nonoriginating materials. For purposes of this subdivision and subdivision (n) of this note, a tariff provision is a "heading" if its article description is not indented; a provision is a "subheading" if it is designated by 6 digits under the Harmonized Commodity Description and Coding System.
- (ii) Where a specific rule in subdivision (n) of this note is defined using the criterion of a change in tariff classification, and the rule is written to exclude tariff provisions at the level of a chapter, heading or subheading of the tariff schedule, such rule shall be construed to require that materials classified in those excluded provisions be originating for the good to qualify as originating.
- (iii) When a heading or subheading of the tariff schedule is subject to alternative specific rules in subdivision (n) of this note, the rule will be considered to be met if a good satisfies one of the alternatives.
- (iv) When a single rule applies to a group of headings or subheadings, and that rule specifies a change of heading or subheading, the requirement shall be considered to permit a change within a single heading or subheading in such group or between headings or subheadings of that group. When, however, a rule requires a change in heading or subheading from a provision "outside that group" such change in heading or subheading must occur from a heading or subheading that is outside the group of headings or subheadings set out in the rule.
- (v) References to weight in the rules set forth in subdivision (n) of this note for goods provided for in chapters 1 through 24 of the tariff schedule are to dry weight, unless otherwise specified in the tariff schedule.
- (vi) A good shall not be considered to be originating solely by virtue of having undergone:
  - (A) simple combining or packaging operations, or
  - (B) mere dilution with water or another substance that does not materially alter the characteristics of the good.
- (vii) For purposes of applying this note to goods of chapters 6 through 14, inclusive, agricultural and horticultural goods grown in the territory of Australia or of the United States shall be treated as originating therein even if grown from seed, bulbs, rootstock, cuttings, grafts, shoots, buds or other live parts of plants imported from a country other than Australia or the United States.
- (viii) Any good of chapters 27 through 40, inclusive (except a good of heading 3823), of the tariff schedule, that is the product of a chemical reaction shall be considered to be an originating good if the chemical reaction occurred in the United States or Australia. Notwithstanding any of the individual tariff classification rules, this "chemical reaction" rule may be applied to any good classified in the above chapters. For purposes of applying this note to goods of the above chapters, a "chemical reaction" is a process (including a biochemical process) which results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule. The following are not considered to be chemical reactions for purposes of this note:
  - (A) dissolving in water or other solvents;
  - (B) the elimination of solvents including solvent water; or
  - (C) the addition or elimination of water of crystallization.
- (ix) For the purposes of chapters 28 through 35 and chapters 38 and 39, purification is considered to be origin conferring under this note provided that one of the following criteria is satisfied:
  - (A) purification of a good resulting in the elimination of 80 percent by weight of the content of existing impurities; or

## Annex I (continued)

-11-

- (B) reduction or elimination of impurities resulting in a good suitable for one or more of the following applications:
  - (I) pharmaceutical, medicinal, cosmetic, veterinary or food grade substances;
  - (II) chemical products and reagents for analytical, diagnostic or laboratory uses;
  - (III) elements and components for use in micro-elements;
  - (IV) specialized optical uses;
  - (V) non-toxic uses for health and safety;
  - (VI) biotechnical use;
  - (VII) carriers used in a separation process; or
  - (VIII) nuclear grade uses.
- (x) For the purposes of chapters 30 and 31, heading 3302, subheading 3502.20, headings 3506 through 3507, heading 3707 and chapters 39 and 40, the deliberate and proportionally controlled mixing or blending (including dispersing) of materials to conform to predetermined specifications which results in the production of a good having physical or chemical characteristics which are relevant to the purposes or uses of the good and are different from the input materials is considered to be origin conferring for purposes of this note.
- (xi) For the purposes of chapters 30, 31 and 39, the following shall be considered to be origin conferring for purposes of this note:
  - (A) the deliberate and controlled reduction in particle size of a good, other than by merely crushing (or pressing) resulting in a good having a defined particle size, defined particle size distribution or defined surface area, which are relevant to the purposes of the resulting good and have different physical or chemical characteristics from the input materials; or
  - (B) the deliberate and controlled modification in particle size of a good, other than by merely pressing, resulting in a good having a defined particle size, defined particle size distribution or defined surface area, which are relevant to the purposes of the resulting good and have different physical or chemical characteristics from the input materials.
- (xii) For the purposes of chapters 28 through 32, 35 and 38, the production of standards materials is considered to be origin conferring for purposes of this note. The term "standards materials" (including standard solutions) means preparations suitable for analytical, calibrating or reference uses having precise degrees of purity or proportions which are certified by the manufacturer.
- (xiii) For the purposes of chapters 28 through 32, 35 and 39, the isolation or separation of isomers from mixtures of isomers shall be considered origin conferring for purposes of this note.
- (xiv) For the purposes of chapters 28 through 38, a nonoriginating material/component will not be deemed to have satisfied all applicable requirements of these rules by reason of a change from one tariff classification to another merely as the result of the separation of one or more individual materials or components from a man-made mixture unless the isolated material/component, itself, also underwent a chemical reaction.
- (n) Change in tariff classification rules.

## **APPENDIX**

EXECUTIVE OFFICE OF THE PRESIDENT  
THE UNITED STATES TRADE REPRESENTATIVE  
WASHINGTON, D.C. 20508

December 2, 2004

The Honorable Stephen Koplan  
Chairman  
U.S. International Trade Commission  
500 E Street, SW  
Washington, DC 20436

Dear Chairman Koplan: *Steve*

The U.S. International Trade Commission (USITC) played a vital role in supporting the Administration's successful effort to negotiate and conclude the United States-Australia Free Trade Agreement (FTA). I very much appreciate the USITC's contribution to that negotiation and the work the Commission has done, and continues to do, in support of the Administration's other major trade negotiations.

To carry out U.S. obligations under the FTA, President Bush will be proclaiming tariff cuts and other measures that will take effect on January 1, 2005. Over the past few months, USTR's staff has been working with USITC staff on those portions of the draft Presidential proclamation that would change the Harmonized Tariff Schedule of the United States (HTSUS) to implement U.S. tariff and tariff-related commitments under the FTA. I have enclosed with this letter the complete text of those changes.

I request the Commission to publish as a formal USITC document those changes to the HTSUS that the President proclaims to implement the FTA and to provide copies to USTR, as quickly as possible. I understand that after the proclamation is signed, the Commission will make the document available to the public in printed form and will also post a copy on USITC's website. In addition, I understand that the USITC will provide copies of the document to the Federal Depository Libraries.

I appreciate the Commission's willingness to assist the Administration in employing the most efficient and cost effective means of informing the public of the changes to be made in the HTSUS.

Sincerely,

*Bob*

Robert B. Zoellick

*Steve,  
Please relay my  
personal appreciation  
to all the ITC staff  
who helped  
achieve this  
historic accomplishment!*

*Thanks  
R.B.*
