“(c) FINDINGS.—The Congress finds the following:

“(1) Disability is a natural part of the human experience and in no way diminishes the right of individuals to participate in or contribute to society. Improving educational results for children with disabilities is an essential element of our national policy of ensuring equality of opportunity, full participation,

independent living, and economic self-sufficiency for individuals with disabilities.

“(2) Before the date of the enactment of the Education for All Handicapped Children Act of 1975 (Public Law 94–142)—

“(A) the special educational needs of children with disabilities were not being fully met;

“(B) more than one-half of the children with disabilities in the United States did not receive appropriate educational services that would enable such children to have full equality of opportunity;

“(C) 1,000,000 of the children with disabilities in the United States were excluded entirely from the public school system and did not go through the educational process with their peers;

“(D) there were many children with disabilities throughout the United States participating in regular school programs whose disabilities prevented such children from having a successful educational experience because their disabilities were undetected; and

“(E) because of the lack of adequate services within the public school system, families were often forced to find services outside the public school system, often at great distance from their residence and at their own expense.

“(3) Since the enactment and implementation of the Education for All Handicapped Children Act of 1975, this Act has been successful in ensuring children with disabilities and the families of such children access to a free appropriate public education and in improving educational results for children with disabilities.

“(4) However, the implementation of this Act has been impeded by low expectations, and an insufficient focus on applying replicable research on proven methods of teaching and learning for children with disabilities.

“(5) Over 20 years of research and experience has demonstrated that the education of children with disabilities can be made more effective by—

“(A) having high expectations for such children and ensuring their access in the general curriculum to the maximum extent possible;

“(B) strengthening the role of parents and ensuring that families of such children have meaningful opportunities to participate in the education of their children at school and at home;

“(C) coordinating this Act with other local, educational service agency, State, and Federal school improvement efforts in order to ensure that such children benefit from such efforts and that special education can become a service for such children rather than a place where they are sent;

“(D) providing appropriate special education and related services and aids and supports in the regular classroom to such children, whenever appropriate;

“(E) supporting high-quality, intensive professional development for all personnel who work with such children in order to ensure that they have the skills and knowledge necessary to enable them—

“(i) to meet developmental goals and, to the maximum extent possible, those challenging expectations that have been established for all children; and

“(ii) to be prepared to lead productive, independent, adult lives, to the maximum extent possible;

“(F) providing incentives for whole-school approaches and pre-referral intervention to reduce the need to label children as disabled in order to address their learning needs; and

“(G) focusing resources on teaching and learning while reducing paperwork and requirements that do not assist in improving educational results.

“(6) While States, local educational agencies, and educational service agencies are responsible for providing an education for all children with disabilities, it is in the national interest that the Federal Government have a role in assisting State and local efforts to educate children with disabilities in order to improve results for such children and to ensure equal protection of the law.

“(7)(A) The Federal Government must be responsive to the growing needs of an increasingly more diverse society. A more equitable allocation of resources is essential for the Federal Government to meet its responsibility to provide an equal educational opportunity for all individuals.

“(B) America’s racial profile is rapidly changing. Between 1980 and 1990, the rate of increase in the population for white Americans was 6 percent, while the rate of increase for racial and ethnic minorities was much higher: 53 percent for Hispanics, 13.2 percent for African-Americans, and 107.8 percent for Asians.

“(C) By the year 2000, this Nation will have 275,000,000 people, nearly one of every three of whom will be either African-American, Hispanic, Asian-American, or American Indian.

“(D) Taken together as a group, minority children are comprising an ever larger percentage of public school students. Large-city school populations are overwhelmingly minority, for example: for fall 1993, the figure for Miami was 84 percent; Chicago, 89 percent; Philadelphia, 78 percent; Baltimore, 84 percent; Houston, 88 percent; and Los Angeles, 88 percent.

“(E) Recruitment efforts within special education must focus on bringing larger numbers of minorities into the profession in order to provide appropriate practitioner knowledge, role models, and sufficient manpower to address the clearly changing demography of special education.

“(F) The limited English proficient population is the fastest growing in our Nation, and the growth is occurring in many parts of our Nation. In the Nation’s 2 largest school districts, limited English students make up almost half of all students initially entering school at the kindergarten level. Studies have documented apparent discrepancies in the levels of referral and placement of limited English proficient children in special education. The Department of Education has found that services provided to limited English proficient students often do not respond primarily to the pupil’s academic needs. These trends pose special challenges for special education in the referral, assessment, and services for our Nation’s students from non-English language backgrounds.

“(8)(A) Greater efforts are needed to prevent the intensification of problems connected with mislabeling and high dropout rates among minority children with disabilities.

“(B) More minority children continue to be served in special education than would be expected from the percentage of minority students in the general school population.

“(C) Poor African-American children are 2.3 times more likely to be identified by their teacher as having mental retardation than their white counterpart.

“(D) Although African-Americans represent 16 percent of elementary and secondary enrollments, they constitute 21 percent of total enrollments in special education.

“(E) The drop-out rate is 68 percent higher for minorities than for whites.

“(F) More than 50 percent of minority students in large cities drop out of school.

“(9)(A) The opportunity for full participation in awards for grants and contracts; boards of organizations receiving funds under this Act; and peer review panels; and training of professionals in the area of special education by minority individuals, organizations, and historically black colleges and universities is essential if we are to obtain greater success in the education of minority children with disabilities.

“(B) In 1993, of the 915,000 college and university professors, 4.9 percent were African-American and 2.4 percent were Hispanic. Of the 2,940,000 teachers, prekindergarten through high school, 6.8 percent were African-American and 4.1 percent were Hispanic.

“(C) Students from minority groups comprise more than 50 percent of K–12 public school enrollment in seven States yet minority enrollment in teacher training programs is less than 15 percent in all but six States.

“(D) As the number of African-American and Hispanic students in special education increases, the number of minority teachers and related service personnel produced in our colleges and universities continues to decrease.

“(E) Ten years ago, 12 percent of the United States teaching force in public elementary and secondary schools were members of a minority group. Minorities comprised 21 percent of the national population at that time and were clearly underrepresented then among employed teachers. Today, the elementary and secondary teaching force is 13 percent minority, while one-third of the students in public schools are minority children.

“(F) As recently as 1991, historically black colleges and universities enrolled 44 percent of the African-American teacher trainees in the Nation. However, in 1993, historically black colleges and universities received only 4 percent of the discretionary funds for special education and related services personnel training under this Act.

“(G) While African-American students constitute 28 percent of total enrollment in special education, only 11.2 percent of individuals enrolled in preservice training programs for special education are African-American.

“(H) In 1986–87, of the degrees conferred in education at the B.A., M.A., and Ph.D levels, only 6, 8, and 8 percent, respectively, were awarded to African-American or Hispanic students.

“(10) Minorities and underserved persons are socially disadvantaged because of the lack of opportunities in training and educational programs, undergirded by the practices in the private sector that impede their full participation in the mainstream of society.

“(d) PURPOSES.—The purposes of this title are—

“(1)(A) to ensure that all children with disabilities have available to them a free appropriate public education that emphasizes special education and related services designed to meet their unique needs and prepare them for employment and independent living;

“(B) to ensure that the rights of children with disabilities and parents of such children are protected; and

“(C) to assist States, localities, educational service agencies, and Federal agencies to provide for the education of all children with disabilities;

“(2) to assist States in the implementation of a statewide, comprehensive, coordinated, multidisciplinary, interagency system of early intervention services for infants and toddlers with disabilities and their families;

“(3) to ensure that educators and parents have the necessary tools to improve educational results for children with disabilities by supporting systemic-change activities; coordinated research and personnel preparation; coordinated technical assistance, dissemination, and support; and technology development and media services; and

“(4) to assess, and ensure the effectiveness of, efforts to educate children with disabilities.

“(iii) identify the source and amount of funds, in addition to funds under this part, that it will make available to ensure that a free appropriate public education is available to all children with disabilities within its jurisdiction; and

“(iv) such other information and assurances as the Secretary may require.

“(D) TERMINATION OF ELIGIBILITY.—Notwithstanding any other provision of law, the freely associated States shall not receive any funds under this part for any program year that begins after September 30, 2001.

“(E) ADMINISTRATIVE COSTS.—The Secretary may provide not more than five percent of the amount reserved for grants under this paragraph to pay the administrative costs of the Pacific Region Educational Laboratory under subparagraph (B).

“(3) LIMITATION.—An outlying area is not eligible for a competitive award under paragraph (2) unless it receives assistance under paragraph (1)(A).

“(4) SPECIAL RULE.—The provisions of Public Law 95–134, permitting the consolidation of grants by the outlying areas, shall not apply to funds provided to those areas or to the freely associated States under this section.

“(5) ELIGIBILITY FOR DISCRETIONARY PROGRAMS.—The freely associated States shall be eligible to receive assistance under subpart 2 of part D of this Act until September 30, 2001.

“(6) DEFINITION.—As used in this subsection, the term ‘freely associated States’ means the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau.

“(c) SECRETARY OF THE INTERIOR.—From the amount appropriated for any fiscal year under subsection (j), the Secretary shall reserve 1.226 percent to provide assistance to the Secretary of the Interior in accordance with subsection (i).

“(d) ALLOCATIONS TO STATES.—

“(1) IN GENERAL.—After reserving funds for studies and evaluations under section 674(e), and for payments to the outlying areas and the Secretary of the Interior under subsections (b) and (c), the Secretary shall allocate the remaining amount among the States in accordance with paragraph (2) or subsection (e), as the case may be.

“(2) INTERIM FORMULA.—Except as provided in subsection (e), the Secretary shall allocate the amount described in paragraph (1) among the States in accordance with section 611(a)(3), (4), and (5) and (b)(1), (2), and (3) of this Act, as in effect prior to the enactment of the Individuals with Disabilities Education Act Amendments of 1997, except that the determination of the number of children with disabilities receiving special education and related services under such section 611(a)(3) may, at the State’s discretion, be calculated as of the last Friday in October or as of December 1 of the fiscal year for which the funds are appropriated.

“(e) PERMANENT FORMULA.—

“(1) ESTABLISHMENT OF BASE YEAR.—The Secretary shall allocate the amount described in subsection (d)(1) among the States in accordance with this subsection for each fiscal year beginning with the first fiscal year for which the amount appropriated under subsection (j) is more than \$4,924,672,200.

“(2) USE OF BASE YEAR.—

“(A) DEFINITION.—As used in this subsection, the term ‘base year’ means the fiscal year preceding the first fiscal year in which this subsection applies.

“(B) SPECIAL RULE FOR USE OF BASE YEAR AMOUNT.—If a State received any funds under this section for the base year on the basis of children aged three through five, but does not make a free appropriate public education available to all children with disabilities aged three through five in the State in any subsequent fiscal year, the Secretary shall compute the State’s base year amount, solely for the purpose of calculating the State’s allocation in that subsequent year under paragraph (3) or (4), by subtracting the amount allocated to the State for the base year on the basis of those children.

“(3) INCREASE IN FUNDS.—If the amount available for allocations to States under paragraph (1) is equal to or greater than the amount allocated to the States under this paragraph for the preceding fiscal year, those allocations shall be calculated as follows:

“(A)(i) Except as provided in subparagraph (B), the Secretary shall—

“(I) allocate to each State the amount it received for the base year;

“(II) allocate 85 percent of any remaining funds to States on the basis of their relative populations of children aged 3 through 21 who are of the same age as children with disabilities for whom the State ensures the availability of a free appropriate public education under this part; and

“(III) allocate 15 percent of those remaining funds to States on the basis of their relative populations of children described in subclause (II) who are living in poverty.

“(ii) For the purpose of making grants under this paragraph, the Secretary shall use the most recent population data, including data on children living in poverty, that are available and satisfactory to the Secretary.

“(B) Notwithstanding subparagraph (A), allocations under this paragraph shall be subject to the following:

“(i) No State’s allocation shall be less than its allocation for the preceding fiscal year.

“(ii) No State’s allocation shall be less than the greatest of—

“(I) the sum of—

“(aa) the amount it received for the base year; and

“(bb) one third of one percent of the amount by which the amount appropriated under subsection (j) exceeds the amount appropriated under this section for the base year;

“(II) the sum of—

“(aa) the amount it received for the preceding fiscal year; and

- “(bb) that amount multiplied by the percentage by which the increase in the funds appropriated from the preceding fiscal year exceeds 1.5 percent; or
 - “(III) the sum of—
 - “(aa) the amount it received for the preceding fiscal year; and
 - “(bb) that amount multiplied by 90 percent of the percentage increase in the amount appropriated from the preceding fiscal year.
 - “(iii) Notwithstanding clause (ii), no State’s allocation under this paragraph shall exceed the sum of—
 - “(I) the amount it received for the preceding fiscal year; and
 - “(II) that amount multiplied by the sum of 1.5 percent and the percentage increase in the amount appropriated.
 - “(C) If the amount available for allocations under this paragraph is insufficient to pay those allocations in full, those allocations shall be ratably reduced, subject to subparagraph (B)(i).
- “(4) DECREASE IN FUNDS.—If the amount available for allocations to States under paragraph (1) is less than the amount allocated to the States under this section for the preceding fiscal year, those allocations shall be calculated as follows:
 - “(A) If the amount available for allocations is greater than the amount allocated to the States for the base year, each State shall be allocated the sum of—
 - “(i) the amount it received for the base year; and
 - “(ii) an amount that bears the same relation to any remaining funds as the increase the State received for the preceding fiscal year over the base year bears to the total of all such increases for all States.
 - “(B)(i) If the amount available for allocations is equal to or less than the amount allocated to the States for the base year, each State shall be allocated the amount it received for the base year.
 - “(ii) If the amount available is insufficient to make the allocations described in clause (i), those allocations shall be ratably reduced.
- “(f) STATE-LEVEL ACTIVITIES.—
 - “(1) GENERAL.—
 - “(A) Each State may retain not more than the amount described in subparagraph (B) for administration and other State-level activities in accordance with paragraphs (2) and (3).
 - “(B) For each fiscal year, the Secretary shall determine and report to the State educational agency an amount that is 25 percent of the amount the State received under this section for fiscal year 1997, cumulatively adjusted by the Secretary for each succeeding fiscal year by the lesser of—
 - “(i) the percentage increase, if any, from the preceding fiscal year in the State’s allocation under this section; or
 - “(ii) the rate of inflation, as measured by the percentage increase, if any, from the preceding fiscal year in the Consumer Price Index For All Urban Consumers, published by the Bureau of Labor Statistics of the Department of Labor.
 - “(C) A State may use funds it retains under subparagraph (A) without regard to—
 - “(i) the prohibition on commingling of funds in section 612(a)(18)(B); and
 - “(ii) the prohibition on supplanting other funds in section 612(a)(18)(C).
 - “(2) STATE ADMINISTRATION.—
 - “(A) For the purpose of administering this part, including section 619 (including the coordination of activities under this part with, and providing technical assistance to, other programs that provide services to children with disabilities)—
 - “(i) each State may use not more than twenty percent of the maximum amount it may retain under paragraph (1)(A) for any fiscal year or \$500,000 (adjusted by the cumulative rate of inflation since fiscal year 1998, as measured by the percentage increase, if any, in the Consumer Price Index For All Urban Consumers, published by the Bureau of Labor Statistics of the Department of Labor), whichever is greater; and

“(ii) each outlying area may use up to five percent of the amount it receives under this section for any fiscal year or \$35,000, whichever is greater.

“(B) Funds described in subparagraph (A) may also be used for the administration of part C of this Act, if the State educational agency is the lead agency for the State under that part.

“(3) OTHER STATE-LEVEL ACTIVITIES.—Each State shall use any funds it retains under paragraph (1) and does not use for administration under paragraph (2) for any of the following:

“(A) Support and direct services, including technical assistance and personnel development and training.

“(B) Administrative costs of monitoring and complaint investigation, but only to the extent that those costs exceed the costs incurred for those activities during fiscal year 1985.

“(C) To establish and implement the mediation process required by section 615(e), including providing for the costs of mediators and support personnel.

“(D) To assist local educational agencies in meeting personnel shortages.

“(E) To develop a State Improvement Plan under subpart 1 of part D.

“(F) Activities at the State and local levels to meet the performance goals established by the State under section 612(a)(16) and to support implementation of the State Improvement Plan under subpart 1 of part D if the State receives funds under that subpart.

“(G) To supplement other amounts used to develop and implement a Statewide coordinated services system designed to improve results for children and families, including children with disabilities and their families, but not to exceed one percent of the amount received by the State under this section. This system shall be coordinated with and, to the extent appropriate, build on the system of coordinated services developed by the State under part C of this Act.

“(H) For subgrants to local educational agencies for the purposes described in paragraph (4)(A).

“(4)(A) SUBGRANTS TO LOCAL EDUCATIONAL AGENCIES FOR CAPACITY-BUILDING AND IMPROVEMENT.—In any fiscal year in which the percentage increase in the State’s allocation under this section exceeds the rate of inflation (as measured by the percentage increase, if any, from the preceding fiscal year in the Consumer Price Index For All Urban Consumers, published by the Bureau of Labor Statistics of the Department of Labor), each State shall reserve, from its allocation under this section, the amount described in subparagraph (B) to make subgrants to local educational agencies, unless that amount is less than \$100,000, to assist them in providing direct services and in making systemic change to improve results for children with disabilities through one or more of the following:

“(i) Direct services, including alternative programming for children who have been expelled from school, and services for children in correctional facilities, children enrolled in State-operated or State-supported schools, and children in charter schools.

“(ii) Addressing needs or carrying out improvement strategies identified in the State’s Improvement Plan under subpart 1 of part D.

“(iii) Adopting promising practices, materials, and technology, based on knowledge derived from education research and other sources.

“(v) Increasing cooperative problem-solving between parents and school personnel and promoting the use of alternative dispute resolution.

“(B) MAXIMUM SUBGRANT.—For each fiscal year, the amount referred to in subparagraph (A) is—

“(i) the maximum amount the State was allowed to retain under paragraph (1)(A) for the prior fiscal year, or for fiscal year 1998, 25 percent of the State’s allocation for fiscal year 1997 under this section; multiplied by

“(ii) the difference between the percentage increase in the State’s allocation under this section and the rate of inflation, as measured by the percentage increase, if any, from the preceding fiscal year in the Consumer Price Index For All Urban Consumers, published by the Bureau of Labor Statistics of the Department of Labor.

“(5) REPORT ON USE OF FUNDS.—As part of the information required to be submitted to the Secretary under section 612, each State shall annually describe—

“(A) how amounts retained under paragraph (1) will be used to meet the requirements of this part;

“(B) how those amounts will be allocated among the activities described in paragraphs (2) and (3) to meet State priorities based on input from local educational agencies; and

“(C) the percentage of those amounts, if any, that will be distributed to local educational agencies by formula.

“(g) SUBGRANTS TO LOCAL EDUCATIONAL AGENCIES.—

“(1) SUBGRANTS REQUIRED.—Each State that receives a grant under this section for any fiscal year shall distribute any funds it does not retain under subsection (f) (at least 75 percent of the grant funds) to local educational agencies in the State that have established their eligibility under section 613, and to State agencies that received funds under section 614A(a) of this Act for fiscal year 1997, as then in effect, and have established their eligibility under section 613, for use in accordance with this part.

“(2) ALLOCATIONS TO LOCAL EDUCATIONAL AGENCIES.—

“(A) INTERIM PROCEDURE.—For each fiscal year for which funds are allocated to States under subsection (d)(2), each State shall allocate funds under paragraph (1) in accordance with section 611(d) of this Act, as in effect prior to the enactment of the Individuals with Disabilities Education Act Amendments of 1997.

“(B) PERMANENT PROCEDURE.—For each fiscal year for which funds are allocated to States under subsection (e), each State shall allocate funds under paragraph (1) as follows:

“(i) BASE PAYMENTS.—The State shall first award each agency described in paragraph (1) the amount that agency would have received under this section for the base year, as defined in subsection (e)(2)(A), if the State had distributed 75 percent of its grant for that year under section 611(d), as then in effect.

“(ii) ALLOCATION OF REMAINING FUNDS.—After making allocations under clause (i), the State shall—

“(I) allocate 85 percent of any remaining funds to those agencies on the basis of the relative numbers of children enrolled in public and private elementary and secondary schools within the agency’s jurisdiction; and

“(II) allocate 15 percent of those remaining funds to those agencies in accordance with their relative numbers of children living in poverty, as determined by the State educational agency.

“(3) FORMER CHAPTER 1 STATE AGENCIES.—

“(A) To the extent necessary, the State—

“(i) shall use funds that are available under subsection (f)(1)(A) to ensure that each State agency that received fiscal year 1994 funds under subpart 2 of part D of chapter 1 of title I of the Elementary and Secondary Education Act of 1965 receives, from the combination of funds under subsection (f)(1)(A) and funds provided under paragraph (1) of this subsection, an amount equal to—

“(I) the number of children with disabilities, aged 6 through 21, to whom the agency was providing special education and related services on December 1 of the fiscal year for which the funds were appropriated, subject to the limitation in subparagraph (B); multiplied by

“(II) the per-child amount provided under such subpart for fiscal year 1994; and

“(ii) may use those funds to ensure that each local educational agency that received fiscal year 1994 funds under that subpart for children who had transferred from a State-operated or State-supported school or program assisted under that subpart receives, from the combination of funds available under subsection (f)(1)(A) and funds provided under paragraph (1) of this subsection, an amount for each such child, aged 3 through 21 to whom the agency was providing special education and related services on December 1 of the fiscal year for which the funds were appropriated, equal to the per-child amount the agency received under that subpart for fiscal year 1994.

“(B) The number of children counted under subparagraph (A)(i)(I) shall not exceed the number of children aged 3 through 21 for whom the agency received fiscal year 1994 funds under subpart 2 of part D of chapter 1 of title I of the Elementary and Secondary Education Act of 1965.

- “(4) REALLOCATION OF FUNDS.—If a State educational agency determines that a local educational agency is adequately providing a free appropriate public education to all children with disabilities residing in the area served by that agency with State and local funds, the State educational agency may reallocate any portion of the funds under this part that are not needed by that local agency to provide a free appropriate public education to other local educational agencies in the State that are not adequately providing special education and related services to all children with disabilities residing in the areas they serve.
- “(h) DEFINITIONS.—For the purpose of this section—
- “(1) the term ‘average per-pupil expenditure in public elementary and secondary schools in the United States’ means—
- “(A) without regard to the source of funds—
- “(i) the aggregate current expenditures, during the second fiscal year preceding the fiscal year for which the determination is made (or, if satisfactory data for that year are not available, during the most recent preceding fiscal year for which satisfactory data are available) of all local educational agencies in the 50 States and the District of Columbia; plus

- “(i) USE OF AMOUNTS BY SECRETARY OF THE INTERIOR.—
- “(1) PROVISION OF AMOUNTS FOR ASSISTANCE.—
- “(A) IN GENERAL.—The Secretary of Education shall provide amounts to the Secretary of the Interior to meet the need for assistance for the education of children with disabilities on reservations aged 5 to 21, inclusive, enrolled in elementary and secondary schools for Indian children operated or funded by the Secretary of the Interior. The amount of such payment for any fiscal year shall be equal to 80 percent of the amount allotted under subsection (c) for that fiscal year.
- “(B) CALCULATION OF NUMBER OF CHILDREN.—In the case of Indian students ages 3 to 5, inclusive, who are enrolled in programs affiliated with Bureau of Indian Affairs (hereafter in this subsection referred to as ‘BIA’) schools and that are required by the States in which such schools are located to attain or maintain State accreditation, and which schools have such accreditation prior to the date of enactment of the Individuals with Disabilities Education Act Amendments of 1991, the school shall be allowed to count those children for the purpose of distribution of the funds provided under this paragraph to the Secretary of the Interior. The Secretary of the Interior shall be responsible for meeting all of the requirements of this part for these children, in accordance with paragraph (2).
- “(C) ADDITIONAL REQUIREMENT.—With respect to all other children aged 3 to 21, inclusive, on reservations, the State educational agency shall be responsible for ensuring that all of the requirements of this part are implemented.
- “(2) SUBMISSION OF INFORMATION.—The Secretary of Education may provide the Secretary of the Interior amounts under paragraph (1) for a fiscal year only if the Secretary of the Interior submits to the Secretary of Education information that—

“(E) includes an assurance that the Secretary of the Interior and the Secretary of Health and Human Services have entered into a memorandum of agreement, to be provided to the Secretary of Education, for the coordination of services, resources, and personnel between their respective Federal, State, and local offices and with State and local educational agencies and other entities to facilitate the provision of services to Indian children with disabilities residing on or near reservations (such agreement shall provide for the apportionment of responsibilities and costs including, but not limited to, child find, evaluation, diagnosis, remediation or therapeutic measures, and (where appropriate) equipment and medical or personal supplies as needed for a child to remain in school or a program); and

“(F) includes an assurance that the Department of the Interior will cooperate with the Department of Education in its exercise of monitoring and oversight of this application, and any agreements entered into between the Secretary of the Interior and other entities under this part, and will fulfill its duties under this part.

Section 616(a) shall apply to the information described in this paragraph.

“(3) PAYMENTS FOR EDUCATION AND SERVICES FOR INDIAN CHILDREN WITH DISABILITIES AGED 3 THROUGH 5.—

“(A) IN GENERAL.—With funds appropriated under subsection (j), the Secretary of Education shall make payments to the Secretary of the Interior to be distributed to tribes or tribal organizations (as defined under section 4 of the Indian Self-Determination and Education Assistance Act) or consortia of the above to provide for the coordination of assistance for special education and related services for children with disabilities aged 3 through 5 on reservations served by elementary and secondary schools for Indian children operated or funded by the Department of the Interior. The amount of such payments under subparagraph (B) for any fiscal year shall be equal to 20 percent of the amount allotted under subsection (c).

“(B) DISTRIBUTION OF FUNDS.—The Secretary of the Interior shall distribute the total amount of the payment under subparagraph (A) by allocating to each tribe or tribal organization an amount based on the number of children with disabilities ages 3 through 5 residing on reservations as reported annually, divided by the total of those children served by all tribes or tribal organizations.

“(C) SUBMISSION OF INFORMATION.—To receive a payment under this paragraph, the tribe or tribal organization shall submit such figures to the Secretary of the Interior as required to determine the amounts to be allocated under subparagraph (B). This information shall be compiled and submitted to the Secretary of Education.

“(D) USE OF FUNDS.—The funds received by a tribe or tribal organization shall be used to assist in child find, screening, and other procedures for the early identification of children aged 3 through 5, parent training, and the provision of direct services. These activities may be carried out directly or through contracts or cooperative agreements with the BIA, local educational agencies, and other public or private nonprofit organizations. The tribe or tribal organization is encouraged to involve Indian parents in the development and implementation of these activities. The above entities shall, as appropriate, make referrals to local, State, or Federal entities for the provision of services or further diagnosis.

“(E) BIENNIAL REPORT.—To be eligible to receive a grant pursuant to subparagraph (A), the tribe or tribal organization shall provide to the Secretary of the Interior a biennial report of activities undertaken under this paragraph, including the number of contracts and cooperative agreements entered into, the number of children contacted and receiving services for each year, and the estimated number of children needing services during the 2 years following the one in which the report is made. Such plan shall provide for the coordination of services benefiting these children

from whatever source, including tribes, the Indian Health Service, other BIA divisions, and other Federal agencies. In developing the plan, the Secretary of the Interior shall consult with all interested and involved parties. It shall be based on the needs of the children and the system best suited for meeting those needs, and may involve the establishment of cooperative agreements between the BIA, other Federal agencies, and other entities. The plan shall also be distributed upon request to States, State and local educational agencies, and other agencies providing services to infants, toddlers, and children with disabilities, to tribes, and to other interested parties.

“(5) ESTABLISHMENT OF ADVISORY BOARD.—To meet the requirements of section 612(a)(21), the Secretary of the Interior shall establish, not later than 6 months after the date of the enactment of the Individuals with Disabilities Education Act Amendments of 1997, under the BIA, an advisory board composed of individuals involved in or concerned with the education and provision of services to Indian infants, toddlers, children, and youth with disabilities, including Indians with disabilities, Indian parents or guardians of such children, teachers, service providers, State and local educational officials, representatives of tribes or tribal organizations, representatives from State Interagency Coordinating Councils under section 641 in States having reservations, and other members representing the various divisions and entities of the BIA. “(B) AVAILABILITY.—The Secretary of the Interior shall make available to the Secretary of Education the report described in subparagraph (A).

“(j) AUTHORIZATION OF APPROPRIATIONS.—For the purpose of carrying out this part, other than section 619, there are authorized to be appropriated such sums as may be necessary.

“SEC. 612. STATE ELIGIBILITY.

“(a) IN GENERAL.—A State is eligible for assistance under this part for a fiscal year if the State demonstrates to the satisfaction of the Secretary that the State has in effect policies and procedures to ensure that it meets each of the following conditions:

“(1) FREE APPROPRIATE PUBLIC EDUCATION.—

“(A) IN GENERAL.—A free appropriate public education is available to all children with disabilities residing in the State between the ages of 3 and 21, inclusive, including children with disabilities who have been suspended or expelled from school.

“(B) LIMITATION.—The obligation to make a free appropriate public education available to all children with disabilities does not apply with respect to children:

“(i) aged 3 through 5 and 18 through 21 in a State to the extent that its application to those children would be inconsistent with State law or practice, or the order of any court, respecting the provision of public education to children in those age ranges; and

“(ii) aged 18 through 21 to the extent that State law does not require that special education and related services under this part be provided to children with disabilities who, in the educational placement prior to their incarceration in an adult correctional facility:

“(I) were not actually identified as being a child with a disability under section 602(3) of this Act; or

“(II) did not have an Individualized Education Program under this part.

“(2) FULL EDUCATIONAL OPPORTUNITY GOAL.—The State has established a goal of providing full educational opportunity to all children with disabilities and a detailed timetable for accomplishing that goal.

“(3) CHILD FIND.—

“(A) IN GENERAL.—All children with disabilities residing in the State, including children with disabilities attending private schools, regardless of the severity of their disabilities, and who are in need of special education and related services, are identified, located, and evaluated and a practical method is developed and implemented to determine which children with disabilities are currently receiving needed special education and related services.

“(B) CONSTRUCTION.—Nothing in this Act requires that children be classified by their disability so long as each child who has a disability listed in section 602 and who, by reason of that disability, needs special education and related services is regarded as a child with a disability under this part.

“(4) INDIVIDUALIZED EDUCATION PROGRAM.—An individualized education program, or an individualized family service plan that meets the requirements of section 636(d), is developed, reviewed, and revised for each child with a disability in accordance with section 614(d).

“(5) LEAST RESTRICTIVE ENVIRONMENT.—

“(A) IN GENERAL.—To the maximum extent appropriate, children with disabilities, including children in public or private institutions or other care facilities, are educated with children who are not disabled, and special classes, separate schooling, or other removal of children with disabilities from the regular educational environment occurs only when the nature or severity of the disability of a child is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily.

“(B) ADDITIONAL REQUIREMENT.—

“(i) IN GENERAL.—If the State uses a funding mechanism by which the State distributes State funds on the basis of the type of setting in which a child is served, the funding mechanism does not result in placements that violate the requirements of subparagraph (A).

“(ii) ASSURANCE.—If the State does not have policies and procedures to ensure compliance with clause (i), the State shall provide the Secretary an assurance that it will revise the funding mechanism as soon as feasible to ensure that such mechanism does not result in such placements.

“(6) PROCEDURAL SAFEGUARDS.—

“(A) IN GENERAL.—Children with disabilities and their parents are afforded the procedural safeguards required by section 615.

“(B) ADDITIONAL PROCEDURAL SAFEGUARDS.—Procedures to ensure that testing and evaluation materials and procedures utilized for the purposes of evaluation and placement of children with disabilities will be selected and administered so as not to be racially or culturally discriminatory. Such materials or procedures shall be provided and administered in the child’s native language or mode of communication, unless it clearly is not feasible to do so, and no single procedure shall be the sole criterion for determining an appropriate educational program for a child.

“(7) EVALUATION.—Children with disabilities are evaluated in accordance with subsections (a) through (c) of section 614.

“(8) CONFIDENTIALITY.—Agencies in the State comply with section 617(c) (relating to the confidentiality of records and information).

“(9) TRANSITION FROM PART C TO PRESCHOOL PROGRAMS.—Children participating in early-intervention programs assisted under part C, and who will participate in preschool programs assisted under this part, experience a smooth and effective transition to those preschool programs in a manner consistent with section 637(a)(8). By the third birthday of such a child, an individualized education program or, if consistent with sections 614(d)(2)(B) and 636(d), an individualized family service plan, has been developed and is being implemented for the child. The local educational agency will participate in transition planning conferences arranged by the designated lead agency under section 637(a)(8).

“(10) CHILDREN IN PRIVATE SCHOOLS.—

“(A) CHILDREN ENROLLED IN PRIVATE SCHOOLS BY THEIR PARENTS.—

“(i) IN GENERAL.—To the extent consistent with the number and location of children with disabilities in the State who are enrolled by their parents in private elementary and secondary schools, provision is made for the participation of those children in the program assisted or carried out under this part by providing for such children special education and related services in accordance with the following requirements, unless the Secretary has arranged for services to those children under subsection (f):

“(I) Amounts expended for the provision of those services by a local educational agency shall be equal to a proportionate amount of Federal funds made available under this part.

“(II) Such services may be provided to children with disabilities on the premises of private, including parochial, schools, to the extent consistent with law.

“(ii) CHILD-FIND REQUIREMENT.—The requirements of paragraph (3) of this subsection (relating to child find) shall apply with respect to children with disabilities in the State who are enrolled in private, including parochial, elementary and secondary schools.

“(B) CHILDREN PLACED IN, OR REFERRED TO, PRIVATE SCHOOLS BY PUBLIC AGENCIES.—

“(i) IN GENERAL.—Children with disabilities in private schools and facilities are provided special education and related services, in accordance with an individualized education program, at no cost to their parents, if such children are placed in, or referred to, such schools or facilities by the State or appropriate local educational agency as the means of carrying out the requirements of this part or any other applicable law requiring the provision of special education and related services to all children with disabilities within such State.

“(ii) STANDARDS.—In all cases described in clause (i), the State educational agency shall determine whether such schools and facilities meet standards that apply to State and local educational agencies and that children so served have all the rights they would have if served by such agencies.

“(C) PAYMENT FOR EDUCATION OF CHILDREN ENROLLED IN PRIVATE SCHOOLS WITHOUT CONSENT OF OR REFERRAL BY THE PUBLIC AGENCY.—

“(i) IN GENERAL.—Subject to subparagraph (A), this part does not require a local educational agency to pay for the cost of education, including special education and related services, of a child with a disability at a private school or facility if that agency made a free appropriate public education available to the child and the parents elected to place the child in such private school or facility.

“(ii) REIMBURSEMENT FOR PRIVATE SCHOOL PLACEMENT.—If the parents of a child with a disability, who previously received special education and related services under the authority of a public agency, enroll the child in a private elementary or secondary school without the consent of or referral by the public agency, a court or a hearing officer may require the agency to reimburse the parents for the cost of that enrollment if the court or hearing officer finds that the agency had not made a free appropriate public education available to the child in a timely manner prior to that enrollment.

“(iii) LIMITATION ON REIMBURSEMENT.—The cost of reimbursement described in clause (ii) may be reduced or denied—

“(I) if—

“(aa) at the most recent IEP meeting that the parents attended prior to removal of the child from the public school, the parents did not inform the IEP team that they were rejecting the placement proposed by the public agency to provide a free appropriate public education to their child, including stating their concerns and their intent to enroll their child in a private school at public expense; or

“(bb) 10 business days (including any holidays that occur on a business day) prior to the removal of the child from the public school, the parents did not give written notice to the public agency of the information described in division (aa);

“(II) if, prior to the parents’ removal of the child from the public school, the public agency informed the parents, through the notice requirements described in section 615(b)(7), of its intent to evaluate the child (including a statement of the purpose of the evalua-

tion that was appropriate and reasonable), but the parents did not make the child available for such evaluation; or

“(III) upon a judicial finding of unreasonableness with respect to actions taken by the parents.

“(iv) EXCEPTION.—Notwithstanding the notice requirement in clause (iii)(I), the cost of reimbursement may not be reduced or denied for failure to provide such notice if—

“(I) the parent is illiterate and cannot write in English;

“(II) compliance with clause (iii)(I) would likely result in physical or serious emotional harm to the child;

“(III) the school prevented the parent from providing such notice;

or

“(IV) the parents had not received notice, pursuant to section 615, of the notice requirement in clause (iii)(I).

“(11) STATE EDUCATIONAL AGENCY RESPONSIBLE FOR GENERAL SUPERVISION.—

“(A) IN GENERAL.—The State educational agency is responsible for ensuring that—

“(i) the requirements of this part are met; and

“(ii) all educational programs for children with disabilities in the State, including all such programs administered by any other State or local agency—

“(I) are under the general supervision of individuals in the State who are responsible for educational programs for children with disabilities; and

“(II) meet the educational standards of the State educational agency.

“(B) LIMITATION.—Subparagraph (A) shall not limit the responsibility of agencies in the State other than the State educational agency to provide, or pay for some or all of the costs of, a free appropriate public education for any child with a disability in the State.

“(C) EXCEPTION.—Notwithstanding subparagraphs (A) and (B), the Governor (or another individual pursuant to State law), consistent with State law, may assign to any public agency in the State the responsibility of ensuring that the requirements of this part are met with respect to children with disabilities who are convicted as adults under State law and incarcerated in adult prisons.

“(12) OBLIGATIONS RELATED TO AND METHODS OF ENSURING SERVICES.—

“(A) ESTABLISHING RESPONSIBILITY FOR SERVICES.—The Chief Executive Officer or designee of the officer shall ensure that an interagency agreement or other mechanism for interagency coordination is in effect between each public agency described in subparagraph (B) and the State educational agency, in order to ensure that all services described in subparagraph (B)(i) that are needed to ensure a free appropriate public education are provided, including the provision of such services during the pendency of any dispute under clause (iii). Such agreement or mechanism shall include the following:

“(i) AGENCY FINANCIAL RESPONSIBILITY.—An identification of, or a method for defining, the financial responsibility of each agency for providing services described in subparagraph (B)(i) to ensure a free appropriate public education to children with disabilities, provided that the financial responsibility of each public agency described in subparagraph (B), including the State Medicaid agency and other public insurers of children with disabilities, shall precede the financial responsibility of the local educational agency (or the State agency responsible for developing the child’s IEP).

“(ii) CONDITIONS AND TERMS OF REIMBURSEMENT.—The conditions, terms, and procedures under which a local educational agency shall be reimbursed by other agencies.

“(iii) INTERAGENCY DISPUTES.—Procedures for resolving interagency disputes (including procedures under which local educational agencies may initiate proceedings) under the agreement or other mechanism to secure reimbursement from other agencies or otherwise implement the provisions of the agreement or mechanism.

“(iv) COORDINATION OF SERVICES PROCEDURES.—Policies and procedures for agencies to determine and identify the interagency coordination responsibilities of each agency to promote the coordination and timely and appropriate delivery of services described in subparagraph (B)(i).

“(B) OBLIGATION OF PUBLIC AGENCY.—

“(i) IN GENERAL.—If any public agency other than an educational agency is otherwise obligated under Federal or State law, or assigned responsibility under State policy or pursuant to subparagraph (A), to provide or pay for any services that are also considered special education or related services (such as, but not limited to, services described in sections 602(1) relating to assistive technology devices, 602(2) relating to assistive technology services, 602(22) relating to related services, 602(29) relating to supplementary aids and services, and 602(30) relating to transition services) that are necessary for ensuring a free appropriate public education to children with disabilities within the State, such public agency shall fulfill that obligation or responsibility, either directly or through contract or other arrangement.

“(ii) REIMBURSEMENT FOR SERVICES BY PUBLIC AGENCY.—If a public agency other than an educational agency fails to provide or pay for the special education and related services described in clause (i), the local educational agency (or State agency responsible for developing the child’s IEP) shall provide or pay for such services to the child. Such local educational agency or State agency may then claim reimbursement for the services from the public agency that failed to provide or pay for such services and such public agency shall reimburse the local educational agency or State agency pursuant to the terms of the inter-agency agreement or other mechanism described in subparagraph (A)(i) according to the procedures established in such agreement pursuant to subparagraph (A)(ii).

“(C) SPECIAL RULE.—The requirements of subparagraph (A) may be met through—

- “(i) STATE STATUTE OR REGULATION;
- “(ii) signed agreements between respective agency officials that clearly identify the responsibilities of each agency relating to the provision of services; or
- “(iii) other appropriate written methods as determined by the Chief Executive Officer of the State or designee of the officer.

“(13) PROCEDURAL REQUIREMENTS RELATING TO LOCAL EDUCATIONAL AGENCY ELIGIBILITY.—The State educational agency will not make a final determination that a local educational agency is not eligible for assistance under this part without first affording that agency reasonable notice and an opportunity for a hearing.

“(14) COMPREHENSIVE SYSTEM OF PERSONNEL DEVELOPMENT.—The State has in effect, consistent with the purposes of this Act and with section 635(a)(8), a comprehensive system of personnel development that is designed to ensure an adequate supply of qualified special education, regular education, and related services personnel that meets the requirements for a State improvement plan relating to personnel development in subsections (b)(2)(B) and (c)(3)(D) of section 653.

“(15) PERSONNEL STANDARDS.—

“(A) IN GENERAL.—The State educational agency has established and maintains standards to ensure that personnel necessary to carry out this part are appropriately and adequately prepared and trained.

“(B) STANDARDS DESCRIBED.—Such standards shall—

- “(i) be consistent with any State-approved or State-recognized certification, licensing, registration, or other comparable requirements that apply to the professional discipline in which those personnel are providing special education or related services;
- “(ii) to the extent the standards described in subparagraph (A) are not based on the highest requirements in the State applicable to a specific profession or discipline, the State is taking steps to require retraining or hiring of personnel that meet appropriate professional requirements in the State; and
- “(iii) allow paraprofessionals and assistants who are appropriately trained and supervised, in accordance with State law, regulations, or written policy, in meeting the requirements of this part to be used to assist in the provision of special education and related services to children with disabilities under this part.

“(C) POLICY.—In implementing this paragraph, a State may adopt a policy that includes a requirement that local educational agencies in the State make an ongoing good-faith effort to recruit and hire appropriately and adequately trained personnel to provide special education and related services

to children with disabilities, including, in a geographic area of the State where there is a shortage of such personnel, the most qualified individuals available who are making satisfactory progress toward completing applicable course work necessary to meet the standards described in subparagraph (B)(i), consistent with State law, and the steps described in subparagraph (B)(ii) within three years.

“(16) PERFORMANCE GOALS AND INDICATORS.—The State—

“(A) has established goals for the performance of children with disabilities in the State that—

“(i) will promote the purposes of this Act, as stated in section 601(d); and

“(ii) are consistent, to the maximum extent appropriate, with other goals and standards for children established by the State;

“(B) has established performance indicators the State will use to assess progress toward achieving those goals that, at a minimum, address the performance of children with disabilities on assessments, drop-out rates, and graduation rates;

“(C) will, every two years, report to the Secretary and the public on the progress of the State, and of children with disabilities in the State, toward meeting the goals established under subparagraph (A); and

“(D) based on its assessment of that progress, will revise its State improvement plan under subpart 1 of part D as may be needed to improve its performance, if the State receives assistance under that subpart.

“(17) PARTICIPATION IN ASSESSMENTS.—

“(A) IN GENERAL.—Children with disabilities are included in general State and district-wide assessment programs, with appropriate accommodations, where necessary. As appropriate, the State or local educational agency—

“(i) develops guidelines for the participation of children with disabilities in alternate assessments for those children who cannot participate in State and district-wide assessment programs; and

“(ii) develops and, beginning not later than July 1, 2000, conducts those alternate assessments.

“(B) REPORTS.—The State educational agency makes available to the public, and reports to the public with the same frequency and in the same detail as it reports on the assessment of nondisabled children, the following:

“(i) The number of children with disabilities participating in regular assessments.

“(ii) The number of those children participating in alternate assessments.

“(iii)(I) The performance of those children on regular assessments (beginning not later than July 1, 1998) and on alternate assessments (not later than July 1, 2000), if doing so would be statistically sound and would not result in the disclosure of performance results identifiable to individual children.

“(II) Data relating to the performance of children described under subclause (I) shall be disaggregated—

“(aa) for assessments conducted after July 1, 1998; and

“(bb) for assessments conducted before July 1, 1998, if the State is required to disaggregate such data prior to July 1, 1998.

“(18) SUPPLEMENTATION OF STATE, LOCAL, AND OTHER FEDERAL FUNDS.—

“(A) EXPENDITURES.—Funds paid to a State under this part will be expended in accordance with all the provisions of this part.

“(B) PROHIBITION AGAINST COMMINGLING.—Funds paid to a State under this part will not be commingled with State funds.

“(C) PROHIBITION AGAINST SUPPLANTATION AND CONDITIONS FOR WAIVER BY SECRETARY.—Except as provided in section 613, funds paid to a State under this part will be used to supplement the level of Federal, State, and local funds (including funds that are not under the direct control of State or local educational agencies) expended for special education and related services provided to children with disabilities under this part and in no case to supplant such Federal, State, and local funds, except that, where the State provides clear and convincing evidence that all children with disabilities have available to them a free appropriate public education, the Secretary may waive, in whole or in part, the requirements of this subparagraph if the Secretary concurs with the evidence provided by the State.

“(19) MAINTENANCE OF STATE FINANCIAL SUPPORT.—

“(A) IN GENERAL.—The State does not reduce the amount of State financial support for special education and related services for children with disabilities, or otherwise made available because of the excess costs of educating those children, below the amount of that support for the preceding fiscal year.

“(B) REDUCTION OF FUNDS FOR FAILURE TO MAINTAIN SUPPORT.—The Secretary shall reduce the allocation of funds under section 611 for any fiscal year following the fiscal year in which the State fails to comply with the requirement of subparagraph (A) by the same amount by which the State fails to meet the requirement.

“(C) WAIVERS FOR EXCEPTIONAL OR UNCONTROLLABLE CIRCUMSTANCES.—The Secretary may waive the requirement of subparagraph (A) for a State, for one fiscal year at a time, if the Secretary determines that—

“(i) granting a waiver would be equitable due to exceptional or uncontrollable circumstances such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State; or

“(ii) the State meets the standard in paragraph (18)(C) of this section for a waiver of the requirement to supplement, and not to supplant, funds received under this part.

“(D) SUBSEQUENT YEARS.—If, for any year, a State fails to meet the requirement of subparagraph (A), including any year for which the State is granted a waiver under subparagraph (C), the financial support required of the State in future years under subparagraph (A) shall be the amount that would have been required in the absence of that failure and not the reduced level of the State’s support.

“(E) REGULATIONS.—

(i) The Secretary shall, by regulation, establish procedures (including objective criteria and consideration of the results of compliance reviews of the State conducted by the Secretary) for determining whether to grant a waiver under subparagraph (C)(ii).

“(ii) The Secretary shall publish proposed regulations under clause (i) not later than 6 months after the date of the enactment of the Individuals with Disabilities Education Act Amendments of 1997, and shall issue final regulations under clause (i) not later than 1 year after such date of enactment.

“(20) PUBLIC PARTICIPATION.—Prior to the adoption of any policies and procedures needed to comply with this section (including any amendments to such policies and procedures), the State ensures that there are public hearings, adequate notice of the hearings, and an opportunity for comment available to the general public, including individuals with disabilities and parents of children with disabilities.

“(21) STATE ADVISORY PANEL.—

“(A) IN GENERAL.—The State has established and maintains an advisory panel for the purpose of providing policy guidance with respect to special education and related services for children with disabilities in the State.

“(B) MEMBERSHIP.—Such advisory panel shall consist of members appointed by the Governor, or any other official authorized under State law to make such appointments, that is representative of the State population and that is composed of individuals involved in, or concerned with, the education of children with disabilities, including—

“(i) parents of children with disabilities;

“(ii) individuals with disabilities;

“(iii) teachers;

“(iv) representatives of institutions of higher education that prepare special education and related services personnel;

“(v) State and local education officials;

“(vi) administrators of programs for children with disabilities;

“(vii) representatives of other State agencies involved in the financing or delivery of related services to children with disabilities;

“(viii) representatives of private schools and public charter schools;

“(ix) at least one representative of a vocational, community, or business organization concerned with the provision of transition services to children with disabilities; and

“(x) representatives from the State juvenile and adult corrections agencies.

“(C) SPECIAL RULE.—A majority of the members of the panel shall be individuals with disabilities or parents of children with disabilities.

“(D) DUTIES.—The advisory panel shall—

“(i) advise the State educational agency of unmet needs within the State in the education of children with disabilities;

“(ii) comment publicly on any rules or regulations proposed by the State regarding the education of children with disabilities;

“(iii) advise the State educational agency in developing evaluations and reporting on data to the Secretary under section 618;

“(iv) advise the State educational agency in developing corrective action plans to address findings identified in Federal monitoring reports under this part; and

“(v) advise the State educational agency in developing and implementing policies relating to the coordination of services for children with disabilities.

“(22) SUSPENSION AND EXPULSION RATES.—

“(A) IN GENERAL.—The State educational agency examines data to determine if significant discrepancies are occurring in the rate of long-term suspensions and expulsions of children with disabilities—

“(i) among local educational agencies in the State; or

“(ii) compared to such rates for nondisabled children within such agencies.

“(B) REVIEW AND REVISION OF POLICIES.—If such discrepancies are occurring, the State educational agency reviews and, if appropriate, revises (or requires the affected State or local educational agency to revise) its policies, procedures, and practices relating to the development and implementation of IEPs, the use of behavioral interventions, and procedural safeguards, to ensure that such policies, procedures, and practices comply with this Act.

“(b) STATE EDUCATIONAL AGENCY AS PROVIDER OF FREE APPROPRIATE PUBLIC EDUCATION OR DIRECT SERVICES.—If the State educational agency provides free appropriate public education to children with disabilities, or provides direct services to such children, such agency—

“(1) shall comply with any additional requirements of section 613(a), as if such agency were a local educational agency; and

“(2) may use amounts that are otherwise available to such agency under this part to serve those children without regard to section 613(a)(2)(A)(i) (relating to excess costs).

“(c) EXCEPTION FOR PRIOR STATE PLANS.—

“(1) IN GENERAL.—If a State has on file with the Secretary policies and procedures that demonstrate that such State meets any requirement of subsection (a), including any policies and procedures filed under this part as in effect before the effective date of the Individuals with Disabilities Education Act Amendments of 1997, the Secretary shall consider such State to have met such requirement for purposes of receiving a grant under this part.

“(2) MODIFICATIONS MADE BY STATE.—Subject to paragraph (3), an application submitted by a State in accordance with this section shall remain in effect until the State submits to the Secretary such modifications as the State deems necessary. This section shall apply to a modification to an application to the same extent and in the same manner as this section applies to the original plan.

“(3) MODIFICATIONS REQUIRED BY THE SECRETARY.—If, after the effective date of the Individuals with Disabilities Education Act Amendments of 1997, the provisions of this Act are amended (or the regulations developed to carry out this Act are amended), or there is a new interpretation of this Act by a Federal or State Supreme court, or there is an official finding of noncompliance with Federal law or regulations, the Secretary may require a State to modify its application only to the extent necessary to ensure the State’s compliance with this part.

“(d) APPROVAL BY THE SECRETARY.—

“(1) IN GENERAL.—If the Secretary determines that a State is eligible to receive a grant under this part, the Secretary shall notify the State of that determination.

“(2) NOTICE AND HEARING.—The Secretary shall not make a final determination that a State is not eligible to receive a grant under this part until after providing the State—

“(A) with reasonable notice; and

“(B) with an opportunity for a hearing.

“(e) ASSISTANCE UNDER OTHER FEDERAL PROGRAMS.—Nothing in this title permits a State to reduce medical and other assistance available, or to alter eligibility, under titles V and XIX of the Social Security Act with respect to the provision of a free appropriate public education for children with disabilities in the State.

“(f) BY-PASS FOR CHILDREN IN PRIVATE SCHOOLS.—

“(1) IN GENERAL.—If, on the date of enactment of the Education of the Handicapped Act Amendments of 1983, a State educational agency is prohibited by law from providing for the participation in special programs of children with disabilities enrolled in private elementary and secondary schools as required by subsection (a)(10)(A), the Secretary shall, notwithstanding such provision of law, arrange for the provision of services to such children through arrangements which shall be subject to the requirements of such subsection.

“(2) PAYMENTS.—

“(A) DETERMINATION OF AMOUNTS.—If the Secretary arranges for services pursuant to this subsection, the Secretary, after consultation with the appropriate public and private school officials, shall pay to the provider of such services for a fiscal year an amount per child that does not exceed the amount determined by dividing—

“(i) the total amount received by the State under this part for such fiscal year; by

“(ii) the number of children with disabilities served in the prior year, as reported to the Secretary by the State under section 618.

“(B) WITHHOLDING OF CERTAIN AMOUNTS.—Pending final resolution of any investigation or complaint that could result in a determination under this subsection, the Secretary may withhold from the allocation of the affected State educational agency the amount the Secretary estimates would be necessary to pay the cost of services described in subparagraph (A).

“(C) PERIOD OF PAYMENTS.—The period under which payments are made under subparagraph (A) shall continue until the Secretary determines that there will no longer be any failure or inability on the part of the State educational agency to meet the requirements of subsection (a)(10)(A).

“(3) NOTICE AND HEARING.—

“(A) IN GENERAL.—The Secretary shall not take any final action under this subsection until the State educational agency affected by such action has had an opportunity, for at least 45 days after receiving written notice thereof, to submit written objections and to appear before the Secretary or the Secretary’s designee to show cause why such action should not be taken.

“(B) REVIEW OF ACTION.—If a State educational agency is dissatisfied with the Secretary’s final action after a proceeding under subparagraph (A), such agency may, not later than 60 days after notice of such action, file with the United States court of appeals for the circuit in which such State is located a petition for review of that action. A copy of the petition shall be forthwith transmitted by the clerk of the court to the Secretary. The Secretary thereupon shall file in the court the record of the proceedings on which the Secretary based the Secretary’s action, as provided in section 2112 of title 28, United States Code.

“(C) REVIEW OF FINDINGS OF FACT.—The findings of fact by the Secretary, if supported by substantial evidence, shall be conclusive, but the court, for good cause shown, may remand the case to the Secretary to take further evidence, and the Secretary may thereupon make new or modified findings of fact and may modify the Secretary’s previous action, and shall file in the court the record of the further proceedings. Such new or modified findings of fact shall likewise be conclusive if supported by substantial evidence.

“(D) JURISDICTION OF COURT OF APPEALS; REVIEW BY UNITED STATES SUPREME COURT.—Upon the filing of a petition under subparagraph (B), the United States court of appeals shall have jurisdiction to affirm the action of the Secretary or to set it aside, in whole or in part. The judgment of the court shall be subject to review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of title 28, United States Code.

“SEC. 613. LOCAL EDUCATIONAL AGENCY ELIGIBILITY.

“(a) IN GENERAL.—A local educational agency is eligible for assistance under this part for a fiscal year if such agency demonstrates to the satisfaction of the State educational agency that it meets each of the following conditions:

“(1) CONSISTENCY WITH STATE POLICIES.—The local educational agency, in providing for the education of children with disabilities within its jurisdiction, has in effect policies, procedures, and programs that are consistent with the State policies and procedures established under section 612.

“(2) USE OF AMOUNTS.—

“(A) IN GENERAL.—Amounts provided to the local educational agency under this part shall be expended in accordance with the applicable provisions of this part and—

“(i) shall be used only to pay the excess costs of providing special education and related services to children with disabilities;

“(ii) shall be used to supplement State, local, and other Federal funds and not to supplant such funds; and

“(iii) shall not be used, except as provided in subparagraphs (B) and (C), to reduce the level of expenditures for the education of children with disabilities made by the local educational agency from local funds below the level of those expenditures for the preceding fiscal year.

“(B) EXCEPTION.—Notwithstanding the restriction in subparagraph (A)(iii), a local educational agency may reduce the level of expenditures where such reduction is attributable to—

“(i) the voluntary departure, by retirement or otherwise, or departure for just cause, of special education personnel;

“(ii) a decrease in the enrollment of children with disabilities;

“(iii) the termination of the obligation of the agency, consistent with this part, to provide a program of special education to a particular child with a disability that is an exceptionally costly program, as determined by the State educational agency, because the child—

“(I) has left the jurisdiction of the agency;

“(II) has reached the age at which the obligation of the agency to provide a free appropriate public education to the child has terminated; or

“(III) no longer needs such program of special education; or

“(iv) the termination of costly expenditures for long-term purchases, such as the acquisition of equipment or the construction of school facilities.

“(C) TREATMENT OF FEDERAL FUNDS IN CERTAIN FISCAL YEARS.—

(i) Notwithstanding clauses (ii) and (iii) of subparagraph (A), for any fiscal year for which amounts appropriated to carry out section 611 exceeds \$4,100,000,000, a local educational agency may treat as local funds, for the purpose of such clauses, up to 20 percent of the amount of funds it receives under this part that exceeds the amount it received under this part for the previous fiscal year.

“(ii) Notwithstanding clause (i), if a State educational agency determines that a local educational agency is not meeting the requirements of this part, the State educational agency may prohibit the local educational agency from treating funds received under this part as local funds under clause (i) for any fiscal year, only if it is authorized to so by the State constitution or a State statute.

“(D) SCHOOLWIDE PROGRAMS UNDER TITLE I OF THE ESEA.—Notwithstanding subparagraph (A) or any other provision of this part, a local educational agency may use funds received under this part for any fiscal year to carry out a schoolwide program under section 1114 of the Elementary and Secondary Education Act of 1965, except that the amount so used in any such program shall not exceed—

“(i) the number of children with disabilities participating in the schoolwide program; multiplied by

“(ii)(I) the amount received by the local educational agency under this part for that fiscal year; divided by

“(II) the number of children with disabilities in the jurisdiction of that agency.

“(3) PERSONNEL DEVELOPMENT.—The local educational agency—

“(A) shall ensure that all personnel necessary to carry out this part are appropriately and adequately prepared, consistent with the requirements of section 653(c)(3)(D); and

“(B) to the extent such agency determines appropriate, shall contribute to and use the comprehensive system of personnel development of the State established under section 612(a)(14).

“(4) PERMISSIVE USE OF FUNDS.—Notwithstanding paragraph (2)(A) or section 612(a)(18)(B) (relating to commingled funds), funds provided to the local educational agency under this part may be used for the following activities:

“(A) SERVICES AND AIDS THAT ALSO BENEFIT NONDISABLED CHILDREN.—For the costs of special education and related services and supplementary aids and services provided in a regular class or other education-related setting to a child with a disability in accordance with the individualized education

program of the child, even if one or more nondisabled children benefit from such services.

“(B) INTEGRATED AND COORDINATED SERVICES SYSTEM.—To develop and implement a fully integrated and coordinated services system in accordance with subsection (f).

“(5) TREATMENT OF CHARTER SCHOOLS AND THEIR STUDENTS.—In carrying out this part with respect to charter schools that are public schools of the local educational agency, the local educational agency—

“(A) serves children with disabilities attending those schools in the same manner as it serves children with disabilities in its other schools; and

“(B) provides funds under this part to those schools in the same manner as it provides those funds to its other schools.

“(6) INFORMATION FOR STATE EDUCATIONAL AGENCY.—The local educational agency shall provide the State educational agency with information necessary to enable the State educational agency to carry out its duties under this part, including, with respect to paragraphs (16) and (17) of section 612(a), information relating to the performance of children with disabilities participating in programs carried out under this part.

“(7) PUBLIC INFORMATION.—The local educational agency shall make available to parents of children with disabilities and to the general public all documents relating to the eligibility of such agency under this part.

“(b) EXCEPTION FOR PRIOR LOCAL PLANS.—

“(1) IN GENERAL.—If a local educational agency or State agency has on file with the State educational agency policies and procedures that demonstrate that such local educational agency, or such State agency, as the case may be, meets any requirement of subsection (a), including any policies and procedures filed under this part as in effect before the effective date of the Individuals with Disabilities Education Act Amendments of 1997, the State educational agency shall consider such local educational agency or State agency, as the case may be, to have met such requirement for purposes of receiving assistance under this part.

“(2) MODIFICATION MADE BY LOCAL EDUCATIONAL AGENCY.—Subject to paragraph (3), an application submitted by a local educational agency in accordance with this section shall remain in effect until it submits to the State educational agency such modifications as the local educational agency deems necessary.

“(3) MODIFICATIONS REQUIRED BY STATE EDUCATIONAL AGENCY.—If, after the effective date of the Individuals with Disabilities Education Act Amendments of 1997, the provisions of this Act are amended (or the regulations developed to carry out this Act are amended), or there is a new interpretation of this Act by Federal or State courts, or there is an official finding of noncompliance with Federal or State law or regulations, the State educational agency may require a local educational agency to modify its application only to the extent necessary to ensure the local educational agency's compliance with this part or State law.

“(c) NOTIFICATION OF LOCAL EDUCATIONAL AGENCY OR STATE AGENCY IN CASE OF INELIGIBILITY.—If the State educational agency determines that a local educational agency or State agency is not eligible under this section, the State educational agency shall notify the local educational agency or State agency, as the case may be, of that determination and shall provide such local educational agency or State agency with reasonable notice and an opportunity for a hearing.

“(d) LOCAL EDUCATIONAL AGENCY COMPLIANCE.—

“(1) IN GENERAL.—If the State educational agency, after reasonable notice and an opportunity for a hearing, finds that a local educational agency or State agency that has been determined to be eligible under this section is failing to comply with any requirement described in subsection (a), the State educational agency shall reduce or shall not provide any further payments to the local educational agency or State agency until the State educational agency is satisfied that the local educational agency or State agency, as the case may be, is complying with that requirement.

“(2) ADDITIONAL REQUIREMENT.—Any State agency or local educational agency in receipt of a notice described in paragraph (1) shall, by means of public notice, take such measures as may be necessary to bring the pendency of an action pursuant to this subsection to the attention of the public within the jurisdiction of such agency.

“(3) CONSIDERATION.—In carrying out its responsibilities under paragraph (1), the State educational agency shall consider any decision made in a hearing held under section 615 that is adverse to the local educational agency or State agency involved in that decision.

“(e) JOINT ESTABLISHMENT OF ELIGIBILITY.—

“(1) JOINT ESTABLISHMENT.—

“(A) IN GENERAL.—A State educational agency may require a local educational agency to establish its eligibility jointly with another local educational agency if the State educational agency determines that the local educational agency would be ineligible under this section because the local educational agency would not be able to establish and maintain programs of sufficient size and scope to effectively meet the needs of children with disabilities.

“(B) CHARTER SCHOOL EXCEPTION.—A State educational agency may not require a charter school that is a local educational agency to jointly establish its eligibility under subparagraph (A) unless it is explicitly permitted to do so under the State’s charter school statute.

“(2) AMOUNT OF PAYMENTS.—If a State educational agency requires the joint establishment of eligibility under paragraph (1), the total amount of funds made available to the affected local educational agencies shall be equal to the sum of the payments that each such local educational agency would have received under section 611(g) if such agencies were eligible for such payments.

“(3) REQUIREMENTS.—Local educational agencies that establish joint eligibility under this subsection shall—

“(A) adopt policies and procedures that are consistent with the State’s policies and procedures under section 612(a); and

“(B) be jointly responsible for implementing programs that receive assistance under this part.

“(4) REQUIREMENTS FOR EDUCATIONAL SERVICE AGENCIES.—

“(A) IN GENERAL.—If an educational service agency is required by State law to carry out programs under this part, the joint responsibilities given to local educational agencies under this subsection shall—

“(i) not apply to the administration and disbursement of any payments received by that educational service agency; and

“(ii) be carried out only by that educational service agency.

“(B) ADDITIONAL REQUIREMENT.—Notwithstanding any other provision of this subsection, an educational service agency shall provide for the education of children with disabilities in the least restrictive environment, as required by section 612(a)(5).

“(f) COORDINATED SERVICES SYSTEM.—

“(1) IN GENERAL.—A local educational agency may not use more than 5 percent of the amount such agency receives under this part for any fiscal year, in combination with other amounts (which shall include amounts other than education funds), to develop and implement a coordinated services system designed to improve results for children and families, including children with disabilities and their families.

“(h) SAFEGUARDS.—Any party to a hearing conducted pursuant to subsection (f) or (k), or an appeal conducted pursuant to subsection (g), shall be accorded—

“(B) ADDITIONAL REQUIREMENTS.—In any action brought under this paragraph, the court—

“(i) shall receive the records of the administrative proceedings;

“(ii) shall hear additional evidence at the request of a party; and

“(iii) basing its decision on the preponderance of the evidence, shall grant such relief as the court determines is appropriate.

“(3) JURISDICTION OF DISTRICT COURTS; ATTORNEYS’ FEES.—

“(A) IN GENERAL.—The district courts of the United States shall have jurisdiction of actions brought under this section without regard to the amount in controversy.

“(B) AWARD OF ATTORNEYS’ FEES.—In any action or proceeding brought under this section, the court, in its discretion, may award reasonable attorneys’ fees as part of the costs to the parents of a child with a disability who is the prevailing party.

“(C) DETERMINATION OF AMOUNT OF ATTORNEYS’ FEES.—Fees awarded under this paragraph shall be based on rates prevailing in the community in which the action or proceeding arose for the kind and quality of services furnished. No bonus or multiplier may be used in calculating the fees awarded under this subsection.

“(D) PROHIBITION OF ATTORNEYS’ FEES AND RELATED COSTS FOR CERTAIN SERVICES.—

“(i) Attorneys’ fees may not be awarded and related costs may not be reimbursed in any action or proceeding under this section for services performed subsequent to the time of a written offer of settlement to a parent if—

“(I) the offer is made within the time prescribed by Rule 68 of the Federal Rules of Civil Procedure or, in the case of an administrative proceeding, at any time more than ten days before the proceeding begins;

“(II) the offer is not accepted within 10 days; and

“(III) the court or administrative hearing officer finds that the relief finally obtained by the parents is not more favorable to the parents than the offer of settlement.

“(ii) Attorneys’ fees may not be awarded relating to any meeting of the IEP Team unless such meeting is convened as a result of an administrative proceeding or judicial action, or, at the discretion of the State, for a mediation described in subsection (e) that is conducted prior to the filing of a complaint under subsection (b)(6) or (k) of this section.

“(E) EXCEPTION TO PROHIBITION ON ATTORNEYS’ FEES AND RELATED COSTS.—Notwithstanding subparagraph (D), an award of attorneys’ fees and related costs may be made to a parent who is the prevailing party and who was substantially justified in rejecting the settlement offer.

“(F) REDUCTION IN AMOUNT OF ATTORNEYS’ FEES.—Except as provided in subparagraph (G), whenever the court finds that—

“(i) the parent, during the course of the action or proceeding, unreasonably protracted the final resolution of the controversy;

“(ii) the amount of the attorneys’ fees otherwise authorized to be awarded unreasonably exceeds the hourly rate prevailing in the community for similar services by attorneys of reasonably comparable skill, reputation, and experience;

“(iii) the time spent and legal services furnished were excessive considering the nature of the action or proceeding; or

“(iv) the attorney representing the parent did not provide to the school district the appropriate information in the due process complaint in accordance with subsection (b)(7);

the court shall reduce, accordingly, the amount of the attorneys’ fees awarded under this section.

“(G) EXCEPTION TO REDUCTION IN AMOUNT OF ATTORNEYS’ FEES.—The provisions of subparagraph (F) shall not apply in any action or proceeding if the court finds that the State or local educational agency unreasonably protracted the final resolution of the action or proceeding or there was a violation of this section.

“(j) MAINTENANCE OF CURRENT EDUCATIONAL PLACEMENT.—Except as provided in subsection (k)(7), during the pendency of any proceedings conducted pursuant to this section, unless the State or local educational agency and the parents otherwise agree, the child shall remain in the then-current educational placement of such child, or, if applying for initial admission to a public school, shall, with the consent of the parents, be placed in the public school program until all such proceedings have been completed.

“(k) PLACEMENT IN ALTERNATIVE EDUCATIONAL SETTING.—

“(1) AUTHORITY OF SCHOOL PERSONNEL.—

“(A) School personnel under this section may order a change in the placement of a child with a disability—

“(i) to an appropriate interim alternative educational setting, another setting, or suspension, for not more than 10 school days (to the extent such alternatives would be applied to children without disabilities); and

“(ii) to an appropriate interim alternative educational setting for the same amount of time that a child without a disability would be subject to discipline, but for not more than 45 days if—

“(I) the child carries a weapon to school or to a school function under the jurisdiction of a State or a local educational agency; or

“(II) the child knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or a school function under the jurisdiction of a State or local educational agency.

“(B) Either before or not later than 10 days after taking a disciplinary action described in subparagraph (A)—

“(i) if the local educational agency did not conduct a functional behavioral assessment and implement a behavioral intervention plan for such child before the behavior that resulted in the suspension described in subparagraph (A), the agency shall convene an IEP meeting to develop an assessment plan to address that behavior; or

“(ii) if the child already has a behavioral intervention plan, the IEP Team shall review the plan and modify it, as necessary, to address the behavior.

“(2) AUTHORITY OF HEARING OFFICER.—A hearing officer under this section may order a change in the placement of a child with a disability to an appropriate interim alternative educational setting for not more than 45 days if the hearing officer—

“(A) determines that the public agency has demonstrated by substantial evidence that maintaining the current placement of such child is substantially likely to result in injury to the child or to others;

“(B) considers the appropriateness of the child’s current placement;

“(C) considers whether the public agency has made reasonable efforts to minimize the risk of harm in the child’s current placement, including the use of supplementary aids and services; and

- “(D) determines that the interim alternative educational setting meets the requirements of paragraph (3)(B).
 “(3) DETERMINATION OF SETTING.—
 “(A) IN GENERAL.—The alternative educational setting described in paragraph (1)(A)(ii) shall be determined by the IEP Team.
 “(B) ADDITIONAL REQUIREMENTS.—Any interim alternative educational setting in which a child is placed under paragraph (1) or (2) shall—
 “(i) be selected so as to enable the child to continue to participate in the general curriculum, although in another setting, and to continue to receive those services and modifications, including those described in the child’s current IEP, that will enable the child to meet the goals set out in that IEP; and
 “(ii) include services and modifications designed to address the behavior described in paragraph (1) or paragraph (2) so that it does not recur.
 “(4) MANIFESTATION DETERMINATION REVIEW.—
 “(A) IN GENERAL.—If a disciplinary action is contemplated as described in paragraph (1) or paragraph (2) for a behavior of a child with a disability described in either of those paragraphs, or if a disciplinary action involving a change of placement for more than 10 days is contemplated for a child with a disability who has engaged in other behavior that violated any rule or code of conduct of the local educational agency that applies to all children—
 “(i) not later than the date on which the decision to take that action is made, the parents shall be notified of that decision and of all procedural safeguards accorded under this section; and
 “(ii) immediately, if possible, but in no case later than 10 school days after the date on which the decision to take that action is made, a review shall be conducted of the relationship between the child’s disability and the behavior subject to the disciplinary action.
 “(B) INDIVIDUALS TO CARRY OUT REVIEW.—A review described in subparagraph (A) shall be conducted by the IEP Team and other qualified personnel.
 “(C) CONDUCT OF REVIEW.—In carrying out a review described in subparagraph (A), the IEP Team may determine that the behavior of the child was not a manifestation of such child’s disability only if the IEP Team—
 “(i) first considers, in terms of the behavior subject to disciplinary action, all relevant information, including—
 “(I) evaluation and diagnostic results, including such results or other relevant information supplied by the parents of the child;
 “(II) observations of the child; and
 “(III) the child’s IEP and placement; and
 “(ii) then determines that—
 “(I) in relationship to the behavior subject to disciplinary action, the child’s IEP and placement were appropriate and the special education services, supplementary aids and services, and behavior intervention strategies were provided consistent with the child’s IEP and placement;
 “(II) the child’s disability did not impair the ability of the child to understand the impact and consequences of the behavior subject to disciplinary action; and
 “(III) the child’s disability did not impair the ability of the child to control the behavior subject to disciplinary action.
 “(5) DETERMINATION THAT BEHAVIOR WAS NOT MANIFESTATION OF DISABILITY.—
 “(A) IN GENERAL.—If the result of the review described in paragraph (4) is a determination, consistent with paragraph (4)(C), that the behavior of the child with a disability was not a manifestation of the child’s disability, the relevant disciplinary procedures applicable to children without disabilities may be applied to the child in the same manner in which they would be applied to children without disabilities, except as provided in section 612(a)(1).
 “(B) ADDITIONAL REQUIREMENT.—If the public agency initiates disciplinary procedures applicable to all children, the agency shall ensure that the special education and disciplinary records of the child with a disability are transmitted for consideration by the person or persons making the final determination regarding the disciplinary action.
 “(6) PARENT APPEAL.—
 “(A) IN GENERAL.—

“(i) If the child’s parent disagrees with a determination that the child’s behavior was not a manifestation of the child’s disability or with any decision regarding placement, the parent may request a hearing.

“(ii) The State or local educational agency shall arrange for an expedited hearing in any case described in this subsection when requested by a parent.

“(B) REVIEW OF DECISION.—

“(i) In reviewing a decision with respect to the manifestation determination, the hearing officer shall determine whether the public agency has demonstrated that the child’s behavior was not a manifestation of such child’s disability consistent with the requirements of paragraph (4)(C).

“(ii) In reviewing a decision under paragraph (1)(A)(ii) to place the child in an interim alternative educational setting, the hearing officer shall apply the standards set out in paragraph (2).

“(7) PLACEMENT DURING APPEALS.—

“(A) IN GENERAL.—When a parent requests a hearing regarding a disciplinary action described in paragraph (1)(A)(ii) or paragraph (2) to challenge the interim alternative educational setting or the manifestation determination, the child shall remain in the interim alternative educational setting pending the decision of the hearing officer or until the expiration of the time period provided for in paragraph (1)(A)(ii) or paragraph (2), whichever occurs first, unless the parent and the State or local educational agency agree otherwise.

“(B) CURRENT PLACEMENT.—If a child is placed in an interim alternative educational setting pursuant to paragraph (1)(A)(ii) or paragraph (2) and school personnel propose to change the child’s placement after expiration of the interim alternative placement, during the pendency of any proceeding to challenge the proposed change in placement, the child shall remain in the current placement (the child’s placement prior to the interim alternative educational setting), except as provided in subparagraph (C).

“(C) EXPEDITED HEARING.—

“(i) If school personnel maintain that it is dangerous for the child to be in the current placement (placement prior to removal to the interim alternative education setting) during the pendency of the due process proceedings, the local educational agency may request an expedited hearing.

“(ii) In determining whether the child may be placed in the alternative educational setting or in another appropriate placement ordered by the hearing officer, the hearing officer shall apply the standards set out in paragraph (2).

“(8) PROTECTIONS FOR CHILDREN NOT YET ELIGIBLE FOR SPECIAL EDUCATION AND RELATED SERVICES.—

“(A) IN GENERAL.—A child who has not been determined to be eligible for special education and related services under this part and who has engaged in behavior that violated any rule or code of conduct of the local educational agency, including any behavior described in paragraph (1), may assert any of the protections provided for in this part if the local educational agency had knowledge (as determined in accordance with this paragraph) that the child was a child with a disability before the behavior that precipitated the disciplinary action occurred.

“(B) BASIS OF KNOWLEDGE.—A local educational agency shall be deemed to have knowledge that a child is a child with a disability if—

“(i) the parent of the child has expressed concern in writing (unless the parent is illiterate or has a disability that prevents compliance with the requirements contained in this clause) to personnel of the appropriate educational agency that the child is in need of special education and related services;

“(ii) the behavior or performance of the child demonstrates the need for such services;

“(iii) the parent of the child has requested an evaluation of the child pursuant to section 614; or

“(iv) the teacher of the child, or other personnel of the local educational agency, has expressed concern about the behavior or performance of the child to the director of special education of such agency or to other personnel of the agency.

“(C) CONDITIONS THAT APPLY IF NO BASIS OF KNOWLEDGE.—

“(i) IN GENERAL.—If a local educational agency does not have knowledge that a child is a child with a disability (in accordance with subparagraph (B)) prior to taking disciplinary measures against the child, the child may be subjected to the same disciplinary measures as measures applied to children without disabilities who engaged in comparable behaviors consistent with clause (ii).

“(ii) LIMITATIONS.—If a request is made for an evaluation of a child during the time period in which the child is subjected to disciplinary measures under paragraph (1) or (2), the evaluation shall be conducted in an expedited manner. If the child is determined to be a child with a disability, taking into consideration information from the evaluation conducted by the agency and information provided by the parents, the agency shall provide special education and related services in accordance with the provisions of this part, except that, pending the results of the evaluation, the child shall remain in the educational placement determined by school authorities.

“(9) REFERRAL TO AND ACTION BY LAW ENFORCEMENT AND JUDICIAL AUTHORITIES.—

“(A) Nothing in this part shall be construed to prohibit an agency from reporting a crime committed by a child with a disability to appropriate authorities or to prevent State law enforcement and judicial authorities from exercising their responsibilities with regard to the application of Federal and State law to crimes committed by a child with a disability.

“(B) An agency reporting a crime committed by a child with a disability shall ensure that copies of the special education and disciplinary records of the child are transmitted for consideration by the appropriate authorities to whom it reports the crime.

“SEC. 616. WITHHOLDING AND JUDICIAL REVIEW.

(a) WITHHOLDING OF PAYMENTS.—

“(1) IN GENERAL.—Whenever the Secretary, after reasonable notice and opportunity for hearing to the State educational agency involved (and to any local educational agency or State agency affected by any failure described in subparagraph (B)), finds—

“(A) that there has been a failure by the State to comply substantially with any provision of this part; or

“(B) that there is a failure to comply with any condition of a local educational agency’s or State agency’s eligibility under this part, including the terms of any agreement to achieve compliance with this part within the timelines specified in the agreement;

Until the Secretary is satisfied that there is no longer any failure to comply with the provisions of this part, as specified in subparagraph (A) or (B) of paragraph (1), payments to the State under this part shall be withheld in whole or in part, or payments by the State educational agency under this part shall be limited to local educational agencies and State agencies whose actions did not cause or were not involved in the failure, as the case may be. “(3) STANDARD OF REVIEW.—The findings of fact by the Secretary, if supported by substantial evidence, shall be conclusive, but the court, for good cause shown, may remand the case to the Secretary to take further evidence, and the Secretary may thereupon make new or modified findings of fact and may modify the Secretary’s previous action, and shall file in the court the record of the further proceedings. Such new or modified findings of fact shall likewise be conclusive if supported by substantial evidence.

“(c) DIVIDED STATE AGENCY RESPONSIBILITY.—For purposes of this section, where responsibility for ensuring that the requirements of this part are met with respect to children with disabilities who are convicted as adults under State law and incarcerated in adult prisons is assigned to a public agency other than the State educational agency pursuant to section 612(a)(11)(C), the Secretary, in instances where the Secretary finds that the failure to comply substantially with the provisions of this part are related to a failure by the public agency, shall take appropriate corrective action to ensure compliance with this part, except—

“(1) any reduction or withholding of payments to the State is proportionate to the total funds allotted under section 611 to the State as the number of eligible children with disabilities in adult prisons under the supervision of the other

public agency is proportionate to the number of eligible individuals with disabilities in the State under the supervision of the State educational agency; and

“(2) any withholding of funds under paragraph (1) shall be limited to the specific agency responsible for the failure to comply with this part.

“SEC. 617. ADMINISTRATION.

“(1) States are responding with some success to multiple pressures to improve educational and transitional services and results for children with disabilities in response to growing demands imposed by ever-changing factors, such as demographics, social policies, and labor and economic markets.

“(2) In order for States to address such demands and to facilitate lasting systemic change that is of benefit to all students, including children with disabilities, States must involve local educational agencies, parents, individuals with disabilities and their families, teachers and other service providers, and other interested individuals and organizations in carrying out comprehensive strategies to improve educational results for children with disabilities.

“(3) Targeted Federal financial resources are needed to assist States, working in partnership with others, to identify and make needed changes to address the needs of children with disabilities into the next century.

“(4) State educational agencies, in partnership with local educational agencies and other individuals and organizations, are in the best position to identify and design ways to meet emerging and expanding demands to improve education for children with disabilities and to address their special needs.

“(5) Research, demonstration, and practice over the past 20 years in special education and related disciplines have built a foundation of knowledge on which State and local systemic-change activities can now be based.

“(6) Such research, demonstration, and practice in special education and related disciplines have demonstrated that an effective educational system now and in the future must—

“(A) maintain high academic standards and clear performance goals for children with disabilities, consistent with the standards and expectations for all students in the educational system, and provide for appropriate and effective strategies and methods to ensure that students who are children with disabilities have maximum opportunities to achieve those standards and goals;

“(E) ensure that children with disabilities are provided assistance and support in making transitions as described in section 674(b)(3)(C);

“(F) promote comprehensive programs of professional development to ensure that the persons responsible for the education or a transition of children with disabilities possess the skills and knowledge necessary to address the educational and related needs of those children;

“(G) disseminate to teachers and other personnel serving children with disabilities research-based knowledge about successful teaching practices

and models and provide technical assistance to local educational agencies and schools on how to improve results for children with disabilities;

“(H) create school-based disciplinary strategies that will be used to reduce or eliminate the need to use suspension and expulsion as disciplinary options for children with disabilities;

“(I) establish placement-neutral funding formulas and cost-effective strategies for meeting the needs of children with disabilities; and

“(J) involve individuals with disabilities and parents of children with disabilities in planning, implementing, and evaluating systemic-change activities and educational reforms.

“Chapter 1—Improving Early Intervention, Educational, and Transitional Services and Results for Children with Disabilities through Coordinated Research and Personnel Preparation

“SEC. 671. FINDINGS AND PURPOSE.

“(a) FINDINGS.—The Congress finds the following:

“(1) The Federal Government has an ongoing obligation to support programs, projects, and activities that contribute to positive results for children with disabilities, enabling them—

“(A) to meet their early intervention, educational, and transitional goals and, to the maximum extent possible, educational standards that have been established for all children; and

“(B) to acquire the skills that will empower them to lead productive and independent adult lives.

“(2)(A) As a result of more than 20 years of Federal support for research, demonstration projects, and personnel preparation, there is an important knowledge base for improving results for children with disabilities.

“(B) Such knowledge should be used by States and local educational agencies to design and implement state-of-the-art educational systems that consider the needs of, and include, children with disabilities, especially in environments in which they can learn along with their peers and achieve results measured by the same standards as the results of their peers.

“(3)(A) Continued Federal support is essential for the development and maintenance of a coordinated and high-quality program of research, demonstration projects, dissemination of information, and personnel preparation.

“(B) Such support—

“(i) enables State educational agencies and local educational agencies to improve their educational systems and results for children with disabilities;

“(ii) enables State and local agencies to improve early intervention services and results for infants and toddlers with disabilities and their families; and

“(iii) enhances the opportunities for general and special education personnel, related services personnel, parents, and paraprofessionals to participate in pre-service and in-service training, to collaborate, and to improve results for children with disabilities and their families.

“(4) The Federal Government plays a critical role in facilitating the availability of an adequate number of qualified personnel—

“(A) to serve effectively the over 5,000,000 children with disabilities;

“(B) to assume leadership positions in administrative and direct-service capacities related to teacher training and research concerning the provision of early intervention services, special education, and related services; and

“(C) to work with children with low-incidence disabilities and their families.

“(5) The Federal Government performs the role described in paragraph (4)—

“(A) by supporting models of personnel development that reflect successful practice, including strategies for recruiting, preparing, and retaining personnel;

“(B) by promoting the coordination and integration of—

“(i) personnel-development activities for teachers of children with disabilities; and

EXPLANATION OF AMENDMENTS

The sole amendment, other than the Riggs amendment in the nature of a substitute, that was accepted by the Committee was the

Goodling amendment. The Goodling amendment made four changes to the bill. First, it amended section 612(a)(1), as it relates to prisoners, for reasons discussed below. Second, it made a technical clarification with respect to the application of the stay-put clause to section 615(k)(7) of the Act. Third, it defined the term “substantial evidence” for purposes of section 615(k) of the Act as meaning beyond a preponderance of the evidence. Finally, it amended section 616 of the Act as it relates to compliance, for reasons described below. The amendment in the nature of a substitute is explained in this report.

PURPOSE

The purposes of the Individuals with Disabilities Education Act Amendments of 1997 are to clarify and strengthen the Individuals with Disabilities Education Act (IDEA) by providing parents and educators with the tools to:

Preserve the right of children with disabilities to a free appropriate public education;

Promote improved educational results for children with disabilities through early intervention, preschool, and educational experiences that prepare them for later educational challenges and employment;

Expand and promote opportunities for parents, special education, related services, regular education, and early intervention service providers, and other personnel to work in new partnerships at both the State and local levels;

Create incentives to enhance the capacity of schools and other community-based entities to work effectively with children with disabilities and their families, through targeted funding for personnel training, research, media, technology, and the dissemination of technical assistance and best practices.

INTRODUCTION OF THE INDIVIDUALS WITH DISABILITIES EDUCATION ACT AMENDMENTS OF 1997 AND LEGISLATIVE ACTION

The Individuals with Disabilities Education Act Amendments of 1997, H.R. 5 (originally entitled the "IDEA Improvement Act of 1997," was introduced on Tuesday, January 7, 1997 by Chairman Bill Goodling (R-PA) and reported out of the Committee on Education and the Workforce on Wednesday, May 7, 1997 with amendments. H.R. 5, as amended, was ordered reported by a voice vote.

BACKGROUND AND NEED FOR LEGISLATION

Congress established a State grant program for the Education of Handicapped Children under title VI of the Elementary and Secondary Education Amendments of 1966 (P.L. 89-750). In 1970, Congress authorized the Education of the Handicapped Act (EHA) as title VI of P.L. 91-230. With the enactment of P.L. 91-230, the State grant program established in 1966 was redesignated as part B of the EHA.

In 1975, Congress passed the Education for All Handicapped Children Act, P.L. 94-142. It amended part B, the State grant program in the EHA. P.L. 94-142 refined and expanded requirements for State participation in the State grant program. In accepting State grant funds, a State was required to provide a free appropriate public education (FAPE) to all children with disabilities in the State according to specific procedures and civil rights protections.

From 1979 through 1994, a series of amendments to the EHA refined and increased in number, discretionary programs in personnel preparation, research, demonstration, and technical assistance. In 1986, the Handicapped Children's Protection Act, P.L. 99-372, was enacted. In amending part B of the EHA, P.L. 99-372 authorized attorneys' fees for parents who prevail in due process proceedings and judicial actions against school districts. Also in 1986, P.L. 99-457 was enacted, creating a new part H in the EHA. Part H provides funds for State programs in early intervention services for infants and toddlers with disabilities from birth through two years of age. The EHA amendments of 1990, P.L. 101-476, renamed the statute as the Individuals with Disabilities Education Act (IDEA). In 1994, P.L. 103-382, the Improving America's Schools Act of 1994, eliminated the separate authorization for the chapter 1 Handicapped Program and merged its authorization for funding with part B funding under the IDEA and gave school districts the discretion to remove children with disabilities to an interim alternative educational setting for up to 45 days when such children bring firearms to school.

This Committee believes that the critical issue now is to place greater emphasis on improving student performance and ensuring

that children with disabilities receive a quality public education. Educational achievement for children with disabilities, while improving, is still less than satisfactory.

This review and authorization of the IDEA is needed to move to the next step of providing special education and related services to children with disabilities: to improve and increase their educational achievement.

SUMMARY

In reporting H.R. 5, the Individuals with Disabilities Education Act Amendments of 1997, the Committee improves the Individuals with Disabilities Education Act (IDEA) through provisions that: (1) place the emphasis on what is best educationally for children with disabilities rather than on paperwork for paperwork's sake; (2) give professionals, especially teachers, more influence and flexibility in the delivery of education to children with disabilities, and give school administrators and policymakers lower costs; (3) enhance the input of parents of children with disabilities in the decision making that affects their child's education; (4) make schools safer and describe how school officials may discipline children with disabilities; and (5) consolidate and target discretionary programs to strengthen the capacity of America's schools to effectively serve children, including infants and toddlers, with disabilities.

The Committee also makes it easier to understand and use the IDEA by simplifying its structure and the organization of provisions. The legislation alphabetizes definitions in section 602; revises the formula when appropriations reach a trigger level in section 611; consolidates all State educational agency eligibility requirements in section 612 and all local educational agency (LEA) eligibility requirements in section 613; groups evaluation and reevaluation, individualized education program, and placement provisions in section 614; and places all procedural safeguards requirements in section 615. Part H, the early intervention program for infants and toddlers, becomes part C. Other discretionary programs are condensed and consolidated into part D, with two authorized subparts including a new State Improvement program.

EXPLANATION OF THE BILL AND COMMITTEE VIEWS

In its 22 year life span, the Individuals with Disabilities Education Act has achieved many of the important goals it sought to achieve. Children with disabilities are for the most part well served in America's public and private schools and are guaranteed the right in every State and outlying area to a free appropriate public education by law.

The IDEA has been a very successful law. Prior to its implementation, approximately 1 million children with disabilities were denied education. The number of children with developmental disabilities in State institutions has declined by close to 90 percent. The number of young adults with disabilities enrolled in postsecondary education has tripled, and the unemployment rate for individuals with disabilities in their twenties is almost half that of their older counterparts.

Despite this progress, the promise of the law has not been fulfilled for too many children with disabilities. Too many students with disabilities are failing courses and dropping out of school. Almost twice as many students with disabilities drop out as compared to students without disabilities. Of further concern, is the continued inappropriate placement of children from minority backgrounds and children with limited English proficiency in special education. In addition, school officials and others complain that the current law is unclear and focuses too much on paperwork and process rather than on improving results for children.

This authorization is viewed by the Committee as an opportunity to review, strengthen, and improve IDEA to better educate children with disabilities and enable them to achieve a quality education by:

- (1) Strengthening the role of parents;
- (2) Ensuring access to the general education curriculum and reforms;
- (3) Focusing on teaching and learning while reducing unnecessary paperwork requirements;
- (4) Assisting educational agencies in addressing the costs of improving special education and related services to children with disabilities.
- (5) Giving increased attention to racial, ethnic, and linguistic diversity to prevent inappropriate identification and mislabeling;
- (6) Ensuring schools are safe and conducive to learning; and
- (7) Encouraging parents and educators to work out their differences by using nonadversarial means.

In drafting the bill, the Committee was guided by the premise that, to achieve a quality education for children with disabilities, it should start with current law and build on the actions, experiences, information, facts, and research gathered over the life of the law, particularly in the last three years. Further, in developing these amendments the Committee distinguished between problems of implementation and problems with the law, and responded appropriately in addressing any issue raised.

Through this legislation the Committee intends to encourage exemplary practices that lead to improved teaching and learning experiences for children with disabilities, and that in turn, for these children, result in productive independent adult lives, including employment. Through these efforts, the Committee intends to assist States in the implementation of early intervention services for infants and toddlers with disabilities and their families, and support the smooth and effective transition of these children to pre-school.

The Committee views the structure and substance of this legislation as critically important, if the Country is to see clearer understanding of, and better implementation and fuller compliance with, the requirements of IDEA.

TITLE I—AMENDMENTS TO THE INDIVIDUALS WITH DISABILITIES
EDUCATION ACT

Amendments to part A of the Individuals with Disabilities Education Act

Definitions

Section 602 of the Act consolidates the majority of the definitions in the Act and reorders them alphabetically. Most definitions in current law are retained, and where appropriate updated. For example the definitions of “State educational agency” and “Local educational agency” were amended to be consistent with the definition of these terms in title XIV of the Elementary and Secondary Education Act of 1965, as amended by the 1994 Improving America’s Schools Act and term “intermediate educational unit” has been replaced by the term “educational service agency” and its definition, to reflect the more contemporary understanding of the broad and varied functions of such agencies.

The bill amends the definition of “related services”, by adding “orientation and mobility services”. This change is not intended to reduce or alter the scope of related services or special education services that are available to children with disabilities, but merely to emphasize the importance of orientation and mobility services. Orientation and mobility services are generally recognized to be services provided to children who are blind or have visual impairments. However, it is important to keep in mind that children with other disabilities may also need instruction in traveling around their school, or to and from school. A high school aged child with a mental disability, for example, might need to be taught how to get from class to class so that he can participate in his inclusive program. The addition of orientation and mobility services to the list of identified related services is not intended to result in the denial of appropriate services for children with disabilities who do not have visual impairments or blindness.

The bill retains the 13 disability categories. However, the bill expands the definition for service eligibility in part B called “developmental delay”, to be used at State and local discretion, for children ages three through nine. The use of a specific disability category to determine a child’s eligibility for special education and related services frequently has led to the use of the category to drive the development of the child’s Individualized Education Program (IEP) and placement to a greater extent than the child’s needs.

The Committee believes that in the early years of a child’s development, it is often difficult to determine the precise nature of the child’s disability. Use of “developmental delay” as part of a unified approach will allow the special education and related services to be directly related to the child’s needs and prevent locking the child into an eligibility category which may be inappropriate or incorrect, and could actually reduce later referrals of children with disabilities to special education.

The Committee wants to make clear that changing the terminology from “serious emotional disturbance” to “serious emotional disturbance (hereinafter referred to as ‘emotional disturbance’)” in the definition of a child with a disability is intended to have no sub-

stantive or legal significance. It is intended strictly to eliminate the pejorative connotation of the term “serious.” It should in no circumstances be construed to change the existing meaning of the term under 34 CFR 300.7(b)(9) as promulgated September 29, 1992.

Policy letters and regulations section 607

Section 607 maintains the requirements of current law that prescribe a 90 day public comment period for enacting proposed regulations under parts B and C, and establishes a baseline for regulations promulgated by the Secretary under the Act that provides protections to children with disabilities. The section also specifies that the Secretary not establish a rule required for compliance with, or eligibility under, this part without following the requirements of 5 U.S.C. 553. Section 607 also specifies that the Secretary shall, on a quarterly basis, publish in the Federal Register, and widely disseminate through various additional forms of communication, a list identifying the topic and other appropriate summary information, of correspondence from the Department of Education that describes its interpretation of IDEA or its regulations issued by the Department in the previous quarter. Furthermore, if the Secretary receives a written request regarding a policy, question, or interpretation under part B of IDEA, and determines that it raises an issue of general interest or applicability of national significance to the implementation of part B, the Secretary shall include a statement to that effect in any written response; and widely disseminate that response to SEAs, LEAs, parent and advocacy organizations, and other interested organizations subject to appropriate confidentiality laws. Not later than one year after responding on such a matter, the bill directs the Secretary to issue written guidance on the policy, question, or interpretation through such means as a policy memorandum, notice of interpretation, or notice of proposed rulemaking.

The bill requires that those written responses by the Secretary shall include an explanation that the Secretary’s written response is provided as informal guidance and is not legally binding; and represents the interpretation by the Department of Education of the applicable statutory or regulatory requirements in the context of the facts presented.

The Committee recognizes the need for the Secretary to offer correspondence for a variety of reasons. Among those are technical assistance, interpretation and clarification of this Act and the accompanying regulations, and monitoring for compliance. Section 607 of the bill is not intended to prohibit the Secretary from answering such correspondence.

The Committee believes the guidance in section 607 is consistent with the public notice and comment procedures of the Administrative Procedures Act and will provide all stake holders with a common frame of reference and expectation with regard to any particular written correspondence from the Secretary, its significance, and its future implications. With the enactment of section 607, such guidance should reduce substantially the degree and amount of misapplication or misinterpretation of Secretarial correspondence.

Amendments to part B of the Individuals with Disabilities Education Act

Funding formula section 611

Section 611 of the Act retains the disability child count-based formula in current law until the appropriation for part B of the IDEA reaches \$4,924,672,200. When this threshold funding level is reached, a change in the funding formula for distributing funds to States will be triggered. At that point, yearly child counts based on disability will no longer determine a State's allotment. When the threshold funding level is reached, a State's allotment will be based on two calculations, which would be added together to determine the State's allotment under the new formula: (1) the amount the State received in the year prior to the threshold amount being reached; and (2) the State's proportional share of funds that exceed that previous year's appropriation, based 85 percent on the State's census data for children from 3 through 21 (if the State provides FAPE to children of these ages), and 15 percent on the State's poverty rate. Distribution of part B funds within States will be on the same basis.

The legislation caps the maximum increase for a State gaining from the change in formula and includes a floor for States receiving less under the change in formula. States would receive no more than 1.5% more than the total percent part B appropriations increase for that year. In addition, the State would receive no less than either 1.5% less than the total percent part B appropriations increase for that year or 90% of the total percentage increase, whichever is greater. No State will receive less than the amount it received in the prior year. In the year the new formula is triggered, the State minimum will become $\frac{1}{3}$ of one percent of the new formula funds.

The Committee wishes to make clear that the change from a formula based on the number of children with disabilities to a formula based on census and poverty should in no way be construed to modify the obligation of educational agencies to identify and serve children with disabilities.

Section 501 of P.L. 95-134, permitting consolidation of grants, would not apply to the outlying areas or freely associated States under this section. The purpose of this was to assure that entities actually use IDEA funds for delivering services to children with disabilities.

The percentage of the appropriation which will go to the Secretary of the Interior to provide special education and related services to Indian children with disabilities has changed to 1.226% of the total appropriation. This percentage will provide the Secretary of the Interior the same amount of funding as the 1.25% did under the past authorization, because the future amounts will come out of a larger base of funding in the total part B formula.

The Committee developed the change in formula to address the problem of over-identification of children with disabilities. When the Act was first passed in 1975, States were not providing educational services to many children with disabilities. Therefore, Congress proposed to distribute Federal funds for special education services in order to encourage and reward States for serving eligi-

ble children. In the 22 years since then, the States have made excellent progress in identifying children with disabilities and providing them access to special education, and are now serving 5.5 million children with disabilities or approximately 10 percent of children aged 3 through 17. Logically, a formula was established at that time that based funding on counting the number of children with disabilities identified. This was to encourage States to proactively locate children with disabilities.

Today, the growing problem is over identifying children as disabled when they might not be truly disabled. The challenge today is not so much how to provide access to special education services but how to appropriately provide educational services to children with disabilities in order to improve educational results for such children. As States consider this issue, more and more States are exploring alternatives for serving more children with learning problems in the regular educational classroom. But in doing so, they face the prospect of reductions in Federal funds, as long as funding is tied to child counts.

While it is unlikely that individual educators ever identify children for the additional funding that such identification brings, the financial incentive reduces the proactive scrutiny that such referrals would receive if they did not have the additional monetary benefit. It also reduces the scrutiny of children who might be moved back out of special education. In-State funding formulas that follow the current disability-based Federal child-count formula further reduce such scrutiny, with more children being identified to draw additional State funds.

This problem is most intense with minority children, especially African-American males. Over-identification of minority children, particularly in urban schools with high proportions of minority students, remains a serious and growing problem in this Nation. The problem also contributes to the referral of minority special education students to more restrictive environments. The Committee is also cognizant, however, that in some areas under identification remains a problem, particularly for minority children.

The Committee has squarely faced this problem by shifting, once the targeted threshold is reached, to a formula of which 85 percent of additional funds is based on the total school age population and 15 percent is based on the poverty statistic for children in a State. This system was encouraged in the 1994 report of the Department of Education's Inspector General. The Inspector General noted: "Because [a population-based] method [of allocating funds] uses objective data derived for other purposes, [this method] eliminates the financial incentives for manipulating student counts [that exist in the current formula], including retaining students in special education just to continue receiving Federal funds." The Committee added a poverty factor to the formula because there is a link between poverty and certain forms of disability. This concept was also encouraged by the Inspector General's report.

Based on the significant progress that has been made in providing access to special education and concerns about the over-identification of children as disabled, the Committee believes this new formula will address many of these concerns. This change will enable States to undertake good practices for addressing the learning

needs of more children in the regular classroom without the unnecessary categorization or labeling thereby risking the loss of Federal funds. Changing the Federal formula may also motivate States to change their own formulas for distributing State aid in ways that eliminate inappropriate financial incentives for referring children to special education.

The bill continues to authorize that States may retain a portion of their State allotments with certain changes effective for fiscal year 1998. First, the 5 percent for administrative purposes is capped at the fiscal year 1997 level, with future annual increases limited to the lesser of the rate of inflation or the rate of Federal appropriation increases. The remaining 20 percent of the State's share of its part B allotment is capped in the same manner. Any excess above inflation in any year goes into a new one-year fund that must be distributed that year through grants to LEAs for local systemic improvement activities or for specific direct services. In the next year, the amounts expended for such activities must be distributed to LEAs based on the part B formula.

A new reporting provision was included for the Secretary of the Interior's Advisory Council. This is intended to provide a means of determining if the Advisory Council is carrying out its duties and whether the Secretary is incorporating the recommendations of the Council into the Department of the Interior's programs.

State eligibility section 612

Section 612 establishes the conditions of State eligibility for part B funds. Many provisions are retained from current law. Other provisions have been added to promote a better understanding of, and more consistent compliance with, part B of the statute.

Provisions retained from current law are obligations of a State to: establish a full educational opportunity goal and a timetable for meeting it; comply with the evaluation and confidentiality, IEP, and procedural safeguards provisions; require that private placements made by public agencies meet State standards; not commingle part B funds with State funds; seek public comment prior to adopting policies and procedures necessary to comply with this section; and meet LEA eligibility requirements if the SEA provides direct services. In addition, section 612 retains the opportunity of a State to apply for a waiver from the supplement not supplant provision, when it can demonstrate, through clear and convincing evidence, that it is providing a free appropriate public education to all children with disabilities in the State.

Other provisions in section 612 taken from current law are: (1) the construction clause pertaining to the fact that part B does not permit a State to reduce medical or other assistance or alter eligibility under titles V and XIX of the Social Security Act; and (2) the "by-pass" provision that allows the Secretary to make arrangements to provide services to children with disabilities in private schools, if a State is prohibited by State law from providing for the participation of such children.

Section 612 contains clarifications of current law. To receive part B funds, States are to make available a free appropriate public education to all children with disabilities, including children with disabilities who have been suspended or expelled from school.

States must also conduct child find activities, which include identification of children in private schools and a process to determine which children are in need of special education and receiving it (while allowing identified children not to be labeled with a disability category).

The bill provides that a State may also opt not to serve individuals who, in the educational placement prior to their incarceration in adult correctional facilities, were not actually identified as being a child with a disability under section 602(3) or did not have an individualized education program under this part. The Committee means to set the point in time when it is determined whether a child has been identified or had an IEP. This makes clear that services need not be provided to all children who were at one time determined to be eligible under this part. The Committee does not intend to permit the exclusion from services under part B of children who had been identified as children with disabilities and had an IEP, but who had left school prior to their incarceration. In other words, if a child had an IEP in his or her last educational placement, the child has an IEP for purposes of this provision. The Committee added language to make clear that children with disabilities aged 18 through 21, who did not have an IEP in their last educational placement but who had actually been identified should not be excluded from services.

The bill amends the provisions on least restrictive environment (redesignated as section 612(a)(5)) to ensure that the State's funding formula does not result in placements that violate the requirement that children be placed in the least restrictive environment.

The Committee supports the longstanding concept of the least restrictive environment, including the policy that, to the maximum extent appropriate, children with disabilities are educated with children who are nondisabled and that special classes, separate schooling, or other removal of children with disabilities from the regular educational environment occurs only when the nature or severity of the disability is such that education in regular classes with the use of special education and related services or supplementary aids and services cannot be achieved satisfactorily.

The Committee supports the longstanding policy of a continuum of alternative placements designed to meet the unique needs of each child with a disability. Placement options available include instruction in regular classes, special classes, special schools, home instruction, and instruction in hospitals and institutions. For disabled children placed in regular classes, supplementary aids and services and resource room services or itinerant instruction must also be offered as needed.

Section 612 also includes an obligation on a State to require LEAs to participate in transition planning conferences for toddlers with disabilities about to enter preschools; and to provide a proportionate amount of IDEA funds to private schools in which children with disabilities are enrolled, and, to the extent consistent with law, at State discretion, provide services on the premises of private, including parochial, schools.

Section 612 also includes several other factors that affect possible parental reimbursement for unilateral private placements of their child. Parents must give notice about their concerns and intent at

the most recent IEP meeting or written notice ten days before they transfer the child to the private school. Prior to removal of the child from the public school, if the public agency informed the parents of its intent to evaluate the child (including a statement of the purpose of the evaluation that was appropriate and reasonable), the parents must make the child available for such an evaluation. If the parents do not comply with notice and evaluation requests or engage in unreasonable actions, hearing officers and courts may reduce or deny reimbursement to parents for unilateral private placements. The bill specifies that reduction or denial of reimbursement must not occur for parents' failure to comply with these requirements if parents are illiterate and cannot read English; compliance would result in physical or serious emotional harm to the child; the school prevented the parents from complying; or the parents had not received notice with regard to the potential consequences of noncompliance.

The bill strengthens the requirements on ensuring provision of services by noneducational agencies while retaining a single line of responsibility. The chief executive officer of a State must develop and implement interagency agreements and reimbursement mechanisms to ensure that educational agencies have access to funding from non-educational public agencies that are responsible for services that are also necessary for ensuring a free appropriate public education to children with disabilities.

A provision is added to the Act to strengthen the obligation to ensure that all services necessary to ensure a free appropriate public education are provided through the coordination of public educational and non-educational programs. This subsection is meant to reinforce two important principles: (1) that the State agency or LEA responsible for developing a child's IEP can look to non-educational agencies, such as Medicaid, to pay for or provide those services they (the non-educational agencies) are otherwise responsible for; and (2) that the State agency or LEA remains responsible for ensuring that children receive all the services described in their IEPs in a timely fashion, regardless of whether another agency will ultimately pay for the services.

The Committee places particular emphasis in the bill on the relationship between schools and the State Medicaid Agency in order to clarify that health services provided to children with disabilities who are Medicaid-eligible and meet the standards applicable to Medicaid, are not disqualified for reimbursement by Medicaid agencies because they are provided services in a school context in accordance with the child's IEP.

The bill makes a number of changes to clarify the responsibility of public school districts to children with disabilities who are placed by their parents in private schools. These changes should resolve a number of issues that have been the subject of an increasing amount of litigation in the last few years. First, the bill specifies that the total amount of money that must be spent to provide special education and related services to children in the State with disabilities who have been placed by their parents in private schools is limited to a proportional amount (that is, the amount consistent with the number and location of private school children with disabilities in the State) of the Federal funds available under

part B. Second, the bill specifies that school districts may provide the special education and related services funded under part B on the premises of private, including parochial, schools. This provision is designed to implement the principle underlying the ruling of the Supreme Court in *Zobrest v. Catalina Foothills School Dist.* that it was not an “entanglement” violation of the First Amendment to provide a sign interpreter paid for with IDEA funds to a deaf student at his parochial school. Third, the bill clarifies that the child-find, identification, and evaluation provision of section 612(a)(3) applies to children placed by their parents in private schools. Comparable language is also included in the child-find provision itself to make it clear that this obligation is independent from the participation requirements addressed in section 612(a)(10)(A).

Section 612 also specifies that parents may be reimbursed for the cost of a private educational placement under certain conditions (i.e., when a due process hearing officer or judge determines that a public agency had not made a free appropriate public education available to the child, in a timely manner, prior to the parents enrolling the child in that placement without the public agency’s consent). Previously, the child must have had received special education and related services under the authority of a public agency.

Section 612, as current law, requires that a State have in effect a Comprehensive System of Personnel Development (CSPD) that is designed to ensure an adequate supply of qualified personnel, including the establishment of procedures for acquiring and disseminating significant knowledge derived from educational research and for adopting, where appropriate, promising practices, materials, and technology. The bill requires the State to coordinate CSPD requirements with the personnel sections of a State improvement plan under part D, if the State has such a plan, so the State only has to meet one set of requirements for both purposes.

With regard to personnel standards, the bill adds two provisions to the standards in current law. Paraprofessionals and assistants must be appropriately trained and supervised in accordance with State law, regulations, or written policy in order to assist in the provision of special education and related services. In implementing the personnel standards requirements, a State may adopt a policy that includes a requirement that LEAs make an ongoing good-faith effort to recruit and hire appropriately and adequately trained personnel to provide special education and related services to children with disabilities, including, in a geographic area of the State where there is a shortage of such personnel, the most qualified individuals available who are making satisfactory progress toward completing applicable course work necessary to meet State standards within three years.

With regard to section 612(a)(16), the Committee wishes to make clear that its requirements are not intended to prevent the integration of performance goals and indicators for children with disabilities into the performance goals and indicators for nondisabled children, so that SEAs and LEAs can be held accountable for all children.

Section 612(a)(19) specifies that a State must maintain its level of expenditures for special education and related services for children with disabilities from one year to the next. Calculations of the

level of expenditures is not to include Federal or local dollars. Reductions from this level are allowed through a waiver from the Secretary for exceptional or uncontrollable circumstances such as a natural disaster or a precipitous and unforeseen decline in the State's financial resources. In the absence of a waiver situation, if a State fails to maintain its level of expenditures as required in this section, the Secretary shall reduce the State's allocation for any fiscal year following the year of the failure to maintain the level of effort required, by the same amount by which the State fails to meet the requirement.

The bill requires the Secretary, by regulation, to establish procedures for determining whether to grant a waiver under section 612(a)(19)(E) within one year of enactment based on compliance with the obligations of part B. These procedures are to include objective criteria and consideration of the results of compliance reviews of the State conducted by the Secretary. The Committee intends this provision to be a real mechanism for waivers under this provision for States that are complying with their obligations under this Act.

With regard to a State's advisory panel, in section 612(a)(21), the Committee has added more detail relating to the panel's duties and added representation from private and public charter schools and from the State's juvenile and adult corrections agencies.

Section 612 contains several new provisions. It requires a State to establish performance goals for children with disabilities and to develop indicators to judge such children's progress. Any State that has a State improvement plan under part D must revise it based on information it obtains from the assessment of such progress. It requires that children with disabilities participate in State and districtwide assessments of student progress, with or without accommodations as appropriate for the child. By July 1, 2000, for children that cannot participate in such assessments, alternative assessments must be developed and conducted. The State must report to the public on the assessment performance of children with disabilities with the same frequency and detail it reports on the performance of nondisabled children, including the number participating in regular assessments and the number participating in alternative assessments. Data related to children with disabilities must be disaggregated. Further, the section requires States to determine if there is a disproportionate number of long-term suspensions and expulsions of disabled children and if so to take appropriate action and to modify policies and procedures in order to be consistent with the Act.

The section retains the provision in current law requiring that the SEA have general supervisory authority over educational programs for children with disabilities, but provides that the Governor (or another individual pursuant to State law), consistent with State law, may assign to any public agency in the State the responsibility of ensuring that the part B requirements are met with respect to children with disabilities who are convicted as adults under State law and are incarcerated in adult prisons. In addition, the provisions requiring participation of students with disabilities in Statewide assessments will not apply, the transition services requirements will not apply to students whose eligibility under IDEA will

terminate before their release from prison, and the IEP team may modify a student's IEP/placement if the State has a bona fide security or compelling penological interest that cannot otherwise be accommodated. These changes, however, do not affect the student's eligibility for services under IDEA. Neither do they affect students who are in juvenile facilities.

The Act specifies that if a State already has on file with the Secretary policies and procedures that demonstrate that it meets any requirement of Section 612, it shall be treated by the Secretary as meeting that requirement, and that State applications need be submitted only once, and remain in effect, until the State submits modifications it deems necessary. Further, the Secretary may require a State to modify its application to the extent necessary to ensure compliance if the Act or its regulations are amended, or there is a new interpretation by a Federal Court or the State's highest court or an official Department of Education finding of non-compliance with Federal law or regulations. These modifications would be developed and submitted subject to the same process requirements as the original plan.

Local educational agency eligibility section 613

Section 613 consolidates LEA eligibility requirements, which if met, make an LEA eligible for part B funding. The Committee believes that these amendments will promote a better understanding of and more consistent compliance with part B of the IDEA.

In section 613, the following provisions are retained without substantive alteration: conditions associated with notice of LEA or State agency ineligibility; compliance with part B of the IDEA and State requirements associated with it; consequences connected to direct services by the SEA when an LEA cannot or does not provide a free appropriate public education to children with disabilities within its jurisdiction; and the conditions associated with the joint establishment of eligibility, except that the mandatory obligation on an LEA eligible for less than \$7,500 to consolidate with another LEA is deleted.

Section 613 maintains the requirement that LEAs must provide information to the SEA so that the SEA will be able to carry out its responsibilities. A specific reference is added to this provision regarding information that must be provided by the LEA so that the SEA can comply with the CSPD and personnel standards requirements.

The Committee also has included several modifications to current law in section 613. LEAs are required to submit an application only once to the SEA, instead of once every three years as under current regulations. Additional information may be required by the SEA when there are: amendments to the Act or its Federal regulations; new interpretations of either the Act or its regulations by Federal or State courts; or an official finding of noncompliance with Federal or State law or regulations. In these instances, the SEA may require an LEA to modify its application only to the extent necessary to ensure the LEA's compliance with part B of IDEA. This section also explicitly requires that an LEA make available to parents of children with disabilities and the general public all documents pertaining to the LEA's eligibility.

This section of the bill maintains the current supplement not supplant and maintenance of effort obligations on LEAs, except that LEAs are required to include only local funds expended for special education and related services in determining whether the LEA has maintained its effort. The bill includes a local “maintenance of effort” provision to ensure that the level of expenditures from State and local funds for the education of children with disabilities within each LEA does not drop below the level of such expenditures for the preceding year. However, the Committee recognizes that there are times when appropriate exceptions to this rule must be made. Thus, the bill includes four specific exceptions:

(1) The voluntary departure, by retirement or otherwise, or departure for just cause, of special education personnel who are paid at or near the top of the agency’s salary scale. This exception is included in recognition that, in some situations, when higher-salaried personnel depart from their positions in special education, they are replaced by qualified, lower-salaried staff. In such situations, as long as certain safeguards are in effect, the LEA should not be required to maintain the level of the higher-salaried departing personnel. In order for an LEA to invoke this exception, the agency must ensure that such voluntary retirement or resignation and replacement are in full conformity with existing school board policies in the agency, with the applicable collective bargaining agreement that is in effect at the time, and with applicable State statutes.

(2) A decrease in the enrollment of children with disabilities.

(3) The end of an agency’s responsibility to provide an exceptionally costly program to a child with a disability because the child has left the agency’s jurisdiction, no longer requires such a program, or has aged-out with respect to the agency’s responsibility.

(4) The end of unusually large expenditures for long term purchases such as equipment or construction.

Section 613 also provides that in any fiscal year for which amounts appropriated under 611 exceed \$4.1 billion, an LEA may treat, as local funds, up to 20 percent of the funds it receives under part B that exceed the amount it received in the previous fiscal year, effectively permitting local schools to reduce the level of local expenditures for special education and related services. This section gives a State the authority to prevent an LEA from reducing its local level of effort when an LEA has been cited by the SEA as failing to substantially comply with the Act. The Committee does not intend that the Secretary could find an SEA out of compliance based solely on the fact that LEAs in the State have reduced their effort under this provision.

New provisions in section 613 give LEAs increased flexibility in the use of part B funds. Section 613(a)(4)(A) allows an LEA to use part B funds for special education and related services provided in a regular class or other education related setting to a child with a disability in accordance with the child’s IEP, even if one or more nondisabled children benefit from those services. In addition, section 613(g) allows an LEA, if granted the authority by the State, to use part B funds to permit a public school within the jurisdiction of the LEA to design, implement, and evaluate a school-based im-

provement plan that is consistent with the purposes and activities described under the State Program Improvement Grant program under part D of these amendments. A school-based improvement plan must be designed to improve educational and transitional results for all children, consistent with section 613(a)(4)(A). The section also authorizes LEAs to use part B funds for school-wide programs, except that the amount of part B funds that may be used is limited to the number of disabled children in the school multiplied by the per child allotment.

Section 613 contains two provisions concerning how charter schools can use part B funds to serve children with disabilities. First, charter schools that are LEAs may not be required to apply for part B funds jointly with other LEAs unless State law specifies otherwise. Second, in situations where charter schools are within an LEA, the bill directs LEAs to serve children with disabilities attending charter schools in the same manner as it serves children with disabilities in its other schools and directs LEAs to provide part B funds to charter schools in the same manner they provide such funds to other schools. The Committee expects that charter schools will be in full compliance with Part B.

Section 613 also provides that the State may require that a local educational agency include in the records of a child with a disability a statement of any current or previous disciplinary action that has been taken against the child and transmit such statement to the same extent that such disciplinary information is included in, and transmitted with, the student records of nondisabled children. The statement may include a description of any behavior engaged in by the child that required disciplinary action, a description of the disciplinary action taken, and any other information that is relevant to the safety of the child and other individuals involved with the child. If the State adopts such policy, and the child transfers from one school to another, the transmission of any of the child's records must include both the child's current individualized education program and any such statement of current or previous disciplinary action that has been taken against the child.

Evaluations, eligibility determinations, IEPs, and placements
section 614

The bill consolidates in section 614 all interrelated provisions regarding the evaluation and reevaluation of children with disabilities and the development, review, and revision of individualized education programs (IEPs) for these children. Most of these provisions are current law, as it is expressed in statute, regulations, and other regulatory guidance and policies from the U.S. Department of Education. The Committee anticipates that the consolidation of these provisions in one section, and the clarification of procedural and administrative requirements associated with them, will reduce the burdens imposed by the interpretations of current law and make the requirements more understandable. The Committee expects that these particular amendments will facilitate State and local implementation of, and compliance with, these provisions.

Provisions on evaluation in section 614 codify the requirement that a full and individual initial comprehensive evaluation must be conducted before the provision of special education and related

services; that the purposes of the initial evaluation are to determine whether a child is a child with a disability, and to determine the child's specific educational needs. The bill specifies that parents must provide informed consent before the initial evaluation of a child, but that such consent shall not be construed as consent for placement for the receipt of special education and related services. If a child's parents refuse consent for evaluation, an LEA may continue to pursue an evaluation by using the mediation and due process procedures under section 615, except to the extent inconsistent with State law relating to parental consent.

Reevaluations are to be conducted if conditions warrant a reevaluation or if the child's parents or teacher requests a reevaluation, but at least once every three years. Informed parental consent also must be obtained for reevaluations, except that such informed consent need not be obtained if the LEA can demonstrate that it has taken reasonable steps to obtain consent and the child's parents have failed to respond.

The bill requires that, in conducting evaluations, the LEA: (1) use a variety of assessment tools and strategies to gather relevant functional and developmental information, including information from the child's parents, to establish the child's eligibility and to determine the content of the child's IEP, including information relating to enabling the child to be involved in and progress in the general education curriculum; (2) not use any single procedure as the sole criterion for determining a child's eligibility or for determining an appropriate educational program for the child; and (3) use technically sound instruments that may assess the relative contribution of cognitive and behavioral factors, in addition to physical or developmental factors.

In addition, the bill requires an LEA to ensure that: (1) tests and other evaluation materials used to assess a child are selected and administered so as not to be racially or culturally discriminatory, and are administered in the child's native language or other mode of communication, unless it is clearly not feasible to do so; (2) any standardized tests given to the child have been validated for the specific purpose for which they are used; are administered by trained and knowledgeable personnel; and are administered in accordance with the instructions provided by the producers of such tests; (3) the child is assessed in all areas of suspected disability; and (4) assessment tools and strategies provide relevant information that directly assists persons in determining the educational needs of the child. These requirements reflect current policy contained in current law and regulations, but now for the first time, the bill codifies them in one section of statute.

The Committee intends that professionals, who are involved in the evaluation of a child, give serious consideration at the conclusion of the evaluation process to other factors that might be affecting a child's performance. There are substantial numbers of children who are likely to be identified as disabled because they have not previously received proper academic support. Such a child often is identified as learning disabled, because the child has not been taught, in an appropriate or effective manner for the child, the core skill of reading. Other cases might include children who have limited English proficiency. Therefore, in making the determination of

a child's eligibility, the bill states that a child shall not be determined to be a child with a disability if the determinant factor for such a determination is lack of instruction in reading or math or limited English proficiency. The Committee believes this provision will lead to fewer children being improperly included in special education programs where their actual educational difficulties stem from another cause and that this will lead schools to focus greater attention on these subjects in the early grades.

The bill specifies that the determination of a child's eligibility is to be made by a qualified team of professionals and the child's parents. The bill requires that a copy of the evaluation report and the documentation of the child's eligibility determination be given to the child's parents.

One of the most significant changes in the bill relates to how the evaluation process should be viewed. For example, over the years, the required three year reevaluation has become a highly paper-work-intensive process, driven as much by concern for compliance with the letter of the law, as by the need for additional evaluation information about a child. The Committee believes that a child should not be subjected to unnecessary tests and assessments if the child's disability has not changed over the three-year time period, and the LEA should not be saddled with associated expenses unnecessarily. If there is no need to collect additional information about a child's continuing eligibility for special education, any necessary evaluation activities should focus on collecting information about how to teach and assist the child in the way he or she is most capable of learning.

Thus, provisions in the bill require that existing evaluation data on a child be reviewed to determine if any other data are needed to make decisions about a child's eligibility and services. If it is determined by the IEP Team and other qualified professionals that additional data are not needed, the parents must be so notified of the determination that no additional data are needed, the reasons for it, and of the parents' right to still request an evaluation. Unlike current law, however, no further evaluations will be required at that time unless requested by the parents.

To assist in improved compliance with the IEP provisions, the Committee placed all provisions pertaining to the IEP, including the definitions of the IEP and the IEP Team, in section 614(d). The definition of the Individualized Education Program (IEP) includes all of the required elements of an IEP, beginning with a statement of a child's present levels of educational performance, including how the child's disability affects the child's involvement and progress in the general education curriculum, or for a preschool child with a disability, how the child's disability affects the child's participation in appropriate activities. The IEP should also address the unique needs of the child that arise out of their disability that must be addressed in order for the child to progress in the general education curriculum, such as the need of a blind child to read Braille, or of a cognitively-disabled child to receive transportation training (i.e., how to use public transportation). The Committee wishes to emphasize that, once a child has been identified as being eligible for special education, the connection between special education and related services and the child's opportunity to experi-

ence and benefit from the general education curriculum should be strengthened. The majority of children identified as eligible for special education and related services are capable of participating in the general education curriculum to varying degrees with some adaptations and modifications. This provision is intended to ensure that children's special education and related services are in addition to and are affected by the general education curriculum, not separate from it.

The new emphasis on participation in the general education curriculum is not intended by the Committee to result in major expansions in the size of the IEP of dozens of pages of detailed goals and benchmarks or objectives in every curricular content standard or skill. The new focus is intended to produce attention to the accommodations and adjustments necessary for disabled children to access the general education curriculum and the special services which may be necessary for appropriate participation in particular areas of the curriculum due to the nature of the disability.

Specific day to day adjustments in instructional methods and approaches that are made by either a regular or special education teacher to assist a disabled child to achieve his or her annual goals would not normally require action by the child's IEP Team. However, if changes are contemplated in the child's measurable annual goals, benchmarks, or short term objectives, or in any of the services or program modifications, or other components described in the child's IEP, the LEA must ensure that the child's IEP Team is reconvened in a timely manner to address those changes.

The bill requires that a child's IEP include a statement of measurable annual goals, including benchmarks or short-term objectives. The Committee views this requirement as crucial. It will help parents and educators determine if the goals can reasonably be met during the year, and as important, allow parents to be able to monitor their child's progress. The bill requires that annual goals included in a child's IEP relate to "meeting the child's needs that result from the child's disability to enable the child to be involved in and progress in the general education curriculum." This language should not be construed to be a basis for excluding a child with a disability who is unable to learn at the same level or rate as non-disabled children in an inclusive classroom or program. It is intended to require that the IEP's annual goals focus on how the child's needs resulting from his or her disability can be addressed so that the child can participate, at the individually appropriate level, in the general curriculum offered to all students.

Prior to the enactment of P.L. 94-142 in 1975, the opportunity and inclination to educate children with disabilities was often in separate programs and schools away from children without disabilities. The law and this bill contain a presumption that children with disabilities are to be educated in regular classes. Therefore, the legislation requires that the IEP include an explanation of the extent, if any, to which a child with a disability will not participate with nondisabled children in the regular class and in the general education curriculum including extra-curricular and non-academic activities.

This Committee recognizes that every decision made for a child with a disability must be made on the basis of what that individual

child needs. Every child is unique and so will be his or her program needs. Nonetheless, when the decision is made to educate the child separately, an explanation of that decision will need, at a minimum, to be stated as part of the child's IEP.

Children with disabilities must be included in State and district-wide assessments of student progress with individual modifications and accommodations as needed. Thus, the bill requires that the IEP include a statement of any individual modifications in the administration of State and districtwide assessments. The Committee knows that excluding children with disabilities from these assessments severely limits and in some cases prevents children with disabilities, through no fault of their own, from continuing on to post-secondary education. The bill requires that if the IEP team determines that the child's performance cannot appropriately be assessed with the regular education assessments, even with individual modifications, the IEP must include a statement of why the assessment is not appropriate and alternative assessments must be made available. The Committee reaffirms the existing Federal law requirement that children with disabilities participate in State and district-wide assessments. This will assist parents in judging if their child is improving with regard to his or her academic achievement, just as the parents of nondisabled children do.

As under current law, a child's IEP must include a statement of the special education and related services and supplementary aids and services to be provided to the child, or on behalf of the child. The Committee intends that, while teaching and related services methodologies or approaches are an appropriate topic for discussion and consideration by the IEP Team during IEP development or annual review, they are not expected to be written into the IEP. Furthermore, the Committee does not intend that changing particular methods or approaches necessitates an additional meeting of the IEP Team. Additionally, the Committee is aware of, and endorses, the provision in Section 300.350 of the current regulations relating to personal accountability. That regulation provides that each public agency must provide special education and related services to a child with a disability in accordance with an IEP. However, part B does not require that any agency, teacher, or other person be held accountable if a child does not achieve the growth projected in the annual goals and objectives.

The location where special education and related services will be provided to a child influences decisions about the nature and amount of these services and when they should be provided to a child. For example, the appropriate place for the related service may be the regular classroom, so that the child does not have to choose between a needed service and the regular educational program. For this reason, in the bill the Committee has added "location" to the provision in the IEP that includes "the projected date for the beginning of services and modifications, and the anticipated frequency, *location*, and duration of those services."

The bill requires that the IEP include, beginning at age fourteen, "a statement of the transition service needs of the child under the applicable components of the child's IEP that focuses on the child's courses of study (such as participation in advanced placement courses or a vocational education program)". The purpose of this re-

quirement is to focus attention on how the child's educational program can be planned to help the child make a successful transition to his or her goals for life after secondary school. This provision is designed to augment, and not replace, the separate transition services requirement, under which children with disabilities beginning no later than age sixteen receive transition services including instruction, community experiences, the development of employment and other post-school objectives and, when appropriate, independent living skills and functional vocational evaluation. For example, for a child whose transition goal is a job, a transition service could be teaching the child how to get to the job site on public transportation.

Current law is not clear on what is required when a child with a disability attains the age of majority. In order to clarify the situation, the IEP definition in the bill includes a statement that the child has been informed of his or her rights under part B, if any, that will transfer to the child when he or she attains the age of majority. The bill clarifies that when a child is considered incapable of making educational decisions, the State will develop procedures for appointing the parent or another individual to represent the interests of the child. This transfer of rights is also addressed under section 615(m) in the bill.

Additionally, the bill requires that a child's IEP include a statement of how the child's progress toward the annual goals will be measured and how the child's parents will be regularly informed of the child's progress toward those goals (by such means as report cards) as often as parents are informed of their nondisabled children's progress. The Committee believes that informing parents of children with disabilities as often as other parents will, in fact, reduce the cost of informing parents of children with disabilities and facilitate more useful feedback on their child's performance. One method recommended by the Committee would be by providing an IEP report card with the general education report card, if the latter is appropriate and provided for the child.

An IEP report card could also be made more useful by including checkboxes or equivalent options that enable the parents and the special educator to review and judge the performance of the child.

An example would be to state a goal or benchmark on the IEP report card and rank it on a multi-point continuum. The goal might be, "Ted will demonstrate effective literal comprehension." The ranking system would then state the following, as indicated by a checkbox: No progress; some progress; good progress; almost complete; completed. Of course, these concepts would be used by the school and the IEP Team when appropriate. This example is not intended to indicate the Committee's preference for a single means of compliance with this requirement.

The bill's definition of the Individualized Education Program (IEP) includes the parents of a child with a disability; at least one regular education teacher of such child (if the child is, or may be, participating in the regular education environment); at least one special education teacher, or where appropriate, at least one special education provider of such child; a representative of the local educational agency who is (a) qualified to provide, or supervise the provision of, specially designed instruction to meet the unique needs

of children with disabilities; (b) knowledgeable about the general curriculum; and (c) knowledgeable about the availability of resources of the local educational agency; an individual who can interpret the instructional implications of evaluation results, who may be a member of the team; at the discretion of the parent or the agency, other individuals who have knowledge or special expertise regarding the child, including related services personnel as appropriate; and whenever appropriate, the child with a disability. Very often, regular education teachers play a central role in the education of children with disabilities. In that regard the bill provides that regular education teacher participate on the IEP Team, but this provision is to be construed in light of the bill's proviso that the regular education teacher, to the extent appropriate, participate in the development of the IEP of the child. The Committee recognizes the reasonable concern that the provision including the regular education teacher might create an obligation that the teacher participate in all aspects of the IEP Team's work. The Committee does not intend that to be the case and only intends it to be to the extent appropriate. The Committee wishes to emphasize that the "support" for school personnel, that is stated in the child's IEP is that support that will assist them to help a particular child progress in the general education curriculum.

Related services personnel should be included on the team when a particular related service will be discussed at the request of a child's parents or the school. Such personnel can include personnel knowledgeable about services that are not strictly special education services, such as specialists in curriculum content areas such as reading. Furthermore, the Committee recognizes that there are situations that merit the presence of a licensed registered school nurse on the IEP Team. The Committee also recognizes that schools sometimes are assumed to be responsible for all health-care costs connected to a child's participation in school. The Committee wishes to encourage, to the greatest extent practicable and when appropriate, the participation of a licensed registered school nurse on the IEP Team to help define and make decisions about how to safely address a child's educationally-related health needs.

The bill also clarifies obligations in two areas. First, nothing in section 614 may be construed to require the IEP Team to include information under one component of a child's IEP that is already contained in another component. Second, section 614 requires that each LEA or State educational agency ensure that the parents of each child with a disability are members of any group that makes decisions on the educational placement of their child. The Committee expects that the majority of placement decisions will be made by the IEP Team, but in those unique cases where it is not, the Committee expects parents to be involved in the group making the decision.

The bill requires that, at the beginning of every school year, an IEP be in effect for each child with a disability served by an LEA, a State agency, or an SEA. In the case of a child with a disability aged 3 through 5 (or at the discretion of the State educational agency, a 2 year-old child with a disability who will turn age 3 during the school year), an individualized family service plan that contains the requirements described in section 636, and that is developed in

accordance with section 614, may serve as the child's IEP if using that plan as the IEP is consistent with State policy and agreed to by the agency and the child's parents.

The bill specifies that the LEA shall ensure that a child's IEP Team review a child's IEP periodically, but not less than annually to determine whether the annual goals of the child are being achieved; and revises the IEP as appropriate to address: (1) any lack of expected progress toward the annual goals and in the general education curriculum, where appropriate; (2) the results of any reevaluation; (3) information provided by or to the parents; (4) the child's anticipated needs; or (5) other matters.

With regard to transition services in IEPs, the bill provides that if an agency, other than the LEA, participating in the child's education fails to provide the transition services described in the child's IEP, the LEA must reconvene the IEP Team to identify alternative strategies to meet the child's transition objectives.

In developing a child's IEP, the bill requires that the IEP Team consider the strengths of the child and the concerns of the parents for enhancing the education of their child; and the results of the initial evaluation or most recent evaluation of the child. In addition, the Committee believes that a number of considerations are essential to the process of creating a child's IEP. The purpose of the IEP is to tailor the education to the child; not tailor the child to the education. If the child could fit into the school's general education program without assistance, special education would not be necessary.

The bill provides that, in the case of a child whose behavior impedes the learning of the child or others, the IEP Team, as appropriate, shall consider strategies, including positive behavior interventions strategies and supports, to address that behavior. Similarly, in the case of a child with limited English proficiency, the IEP Team is to consider the language needs of the child as such needs relate to the child's IEP. In the case of a child who is blind or visually impaired, the IEP team must provide for instruction in Braille and the use of Braille unless the IEP team determines, after an evaluation of the child's reading and writing skills, needs, and appropriate reading and writing media (including an evaluation of the child's future needs for instruction in Braille or the use of Braille), that instruction in Braille or the use of Braille is not appropriate for the child.

The Team also is to consider the communication needs of the child in order to ensure that local educational agencies better understand the unique needs of children who are deaf or hard of hearing; section 614(d)(3)(B)(iv) includes special factors that must be considered in developing IEPs for these children. The policy included in the bill provides that, in the case of the child who is deaf or hard of hearing, the IEP Team must consider the language and communication needs of the child; opportunities for direct communication with peers and professional personnel in the child's language and communication mode; the child's academic level; and the child's full range of needs, including the child's social, emotional, and cultural needs and opportunities for direct instruction in the child's language and communication mode. The Committee also intends that this provision will be implemented in a manner consist-

ent with the policy guidance entitled “Deaf Students Education Services,” published in the Federal Register (57 Fed. Reg. 49274, October 30, 1992) by the U.S. Department of Education.

The bill further requires that the IEP Team consider the provision of assistive technology devices and services when developing the child’s IEP.

Procedural Safeguards Section 615

The procedural safeguards in the IDEA have historically provided the foundation for ensuring access to a free appropriate public education for children with disabilities. Key to these due process procedures is the law’s “stay put” provision, which this bill retains. The Committee has added clarifications to the procedural safeguard provisions to facilitate conflict resolution, describe how schools may discipline children with disabilities, and ensure that due process is useful for all parents and schools.

The bill retains all provisions concerning the opportunity to use, and the administrative procedures associated with, an impartial due process hearing, and appeals through State-level reviews, and the courts, as well as certain existing exceptions to reductions in attorneys’ fees.

The bill simplifies the process of delivering, and the content of, notices to parents about their child’s rights. The Committee hopes that these provisions will result in user-friendly information that parents can understand.

In section 615 of the bill provisions affecting possible reduction of attorneys’ fees to prevailing parents are retained from current law. A provision has been added that would allow parents’ attorneys’ fees to be reduced, if the attorney representing the parents did not provide the LEA with specific information about the child and the basis of the dispute; specifically: (1) the name of the child, the address of the residence of the child, and the name of the school the child is attending; (2) a description of the nature of the problem of the child relating to the proposed initiation or change, including facts relating to that problem; and (3) a proposed resolution of the problem, to the extent known and available to the parents at the time. The Committee believes that the addition of this provision will facilitate an early opportunity for schools and parents to develop a common frame of reference about problems and potential problems that may remove the need to proceed to due process and instead foster a partnership to resolve problems.

The Committee believes that the IEP process should be devoted to determining the needs of the child and planning for the child’s education with parents and school personnel. To that end, the bill specifically excludes the payment of attorneys’ fees for attorney participation in IEP meetings, unless such meetings are convened as a result of an administrative proceeding or judicial action.

Questions have been raised regarding the relationship between the extent of success of the parents and the amount of attorneys’ fees a court may award. In addressing this question, the Committee believes the amount of any award of attorneys’ fees to a prevailing party under part B shall be determined in accordance with the law established by the Supreme Court in *Hensley v. Eckerhart*, 461 U.S. 424 (1983) and its progeny.

As we stated in the 1986 report accompanying the legislation that added the attorneys fees provisions: "It is the committee's intent that the terms 'prevailing party' and 'reasonable' be construed consistent with the U.S. Supreme Court's decision in *Hensley v. Eckerhart*, 461 U.S. 424, 440 (1983). In this case, the Court held that:

the extent of a plaintiff's success is a crucial factor in determining the proper amount of an award of attorney's fees. Where the plaintiff has failed to prevail on a claim that is distinct in all respects from his successful claims, the hours spent on the unsuccessful claim should be excluded in considering the amount of a reasonable fee. Where a lawsuit consists of related claims, a plaintiff who has won substantial relief should not have his attorney's fees reduced simply because the district court did not adopt each contention raised. But where the plaintiff achieved only limited success, the district court should award only that amount of fees that is reasonable in relation to the results obtained.

To encourage early resolution of problems whenever possible, section 615 requires States to offer mediation as a voluntary option to parents and LEAs as an initial process for resolving disputes. However, the bill requires that a State's mediation system may not be used to delay or deny a parents right to due process. The bill allows SEAs and LEAs to establish procedures to require parents who choose not to engage in mediation to meet, at a time and place convenient for them, with a disinterested party who would encourage and explain the benefits of mediation. This individual would be under contract with either a Parent Training and Information Center funded under part D or an alternative dispute resolution entity.

The Committee believes that, in States where mediation is now offered, mediation is proving successful both with and without the use of attorneys. Thus, the Committee wishes to respect the individual State procedures with regard to attorney use in mediation, and therefore, neither requires nor prohibits the use of attorneys in mediation. The Committee is aware that, in States where mediation is being used, litigation has been reduced, and parents and schools have resolved their differences amicably, making decisions with the child's best interest in mind. It is the Committee's strong preference that mediation become the norm for resolving disputes under IDEA. The Committee believes that the availability of mediation will ensure that far fewer conflicts will proceed to the next procedural steps, formal due process and litigation, outcomes that the Committee believes should be avoided when possible. Section 615(e)(2)(B) of the bill provides that the State shall maintain a list of individuals who are qualified mediators. The Committee intends that, whenever such a mediator is not selected on a random basis from that list, both the parents and the agency are involved in selecting the mediator, and are in agreement with the individual who is selected. The Committee further intends that any individual who serves as an impartial mediator under part B of IDEA is not an employee of any local educational agency or State agency described in section 613(h), and is not a person having a personal or profes-

sional conflict of interest. Individuals who serve as mediators under part C of this bill are expected to be selected in the same manner described in this paragraph and to meet the same criteria of impartiality with respect to employment in the lead agency and not having a personal and professional conflict of interest. The Committee believes that mediators be experienced, trained, and understand the law, the Committee clearly does not intend that all mediators be attorneys. Section 615 also specifies that a State will bear the cost of mediation.

The legislation requires that agreements reached in mediation shall be put in writing. Furthermore, the amendments require that discussions held in mediation would be confidential and could not be used as evidence in any subsequent due process hearing or civil action. However, the Committee intends that nothing in this bill shall supersede any parental access rights under the Family Educational Rights and Privacy Act of 1974 or foreclose access to information otherwise available to the parties. Mediation parties may enter into a confidentiality pledge or agreement prior to the commencement of mediation. An example of such an agreement follows:

a. The mediator, the parties, and their attorneys agree that they are all strictly prohibited from revealing to anyone, including a judge, administrative hearing officer or arbitrator the content of any discussions which take place during the mediation process. This includes statements made, settlement proposals made or rejected, evaluations regarding the parties, their good faith, and the reasons a resolution was not achieved, if that be the case. This does not prohibit the parties from discussing information, on a need-to-know basis, with appropriate staff, professional advisors, and witnesses.

b. The parties and their attorneys agree that they will not at any time, before, during, or after mediation, call the mediator or anyone associated with the mediator as a witness in any judicial, administrative, or arbitration proceeding concerning this dispute.

c. The parties and their attorneys agree not to subpoena or demand the production of any records, notes, work product, or the like of mediator in any judicial, administrative, or arbitration proceeding concerning this dispute.

d. If, at a later time, either party decides to subpoena the mediator or the mediator's records, the mediator will move to quash the subpoena. The party making the demand agrees to reimburse the mediator for all expenses incurred, including attorney fees, plus mediator's then-current hourly rate for all time taken by the matter.

e. The exception to the above is that this agreement to mediate and any written agreement made and signed by the parties as a result of mediation may be used in any relevant proceeding, unless the parties agree in writing not to do so. Information which would otherwise be subject to discovery, shall not become exempt from discovery by virtue of it being disclosed during mediation.

Section 615 adds a provision that requires that five business days prior to a due process hearing, each party disclose to other parties all evaluations completed by that date and recommenda-

tions associated with those evaluations that are to be used at the hearing. If any party fails to provide such information within the time specified in the bill, the hearing officer may bar that party from introducing the relevant evaluation or recommendation at the hearing without the consent of the other party.

Section 615(j) provides that, except as provided in 615(k)(7), during the pendency of any proceedings conducted pursuant to section 615, unless the State or LEA and the parents otherwise agree, the child shall remain in the then current educational placement of such child, or if applying for initial admission to a public school, shall, with the consent of the parents, be placed in the public school program, until all such proceedings have been completed.

The Committee recognizes that school safety is important to educators and parents. There has been considerable debate and concern about both if and how those few children with disabilities who affect the school safety of peers, teachers, and themselves may be disciplined when they engage in behaviors that jeopardize such safety. In addition, the Committee is aware of the perception of a lack of parity when making decisions about disciplining children with and without disabilities who violate the same school rule or code of conduct. By adding a new section 615(k) to IDEA, the Committee has attempted to strike a careful balance between the LEA's duty to ensure that school environments are safe and conducive to learning for all children, including children with disabilities, and the LEA's continuing obligation to ensure that children with disabilities receive a free appropriate public education (FAPE). Thus, drawing on testimony, experience, and common sense, the Committee has placed specific and comprehensive guidelines on the matter of disciplining children with disabilities in this section.

It is the Committee's intent that this set of practical and balanced guidelines reinforce and clarify the understanding of Federal policy on this matter, which is currently found in the statute, case law, regulations, and informal policy guidance. By placing all pertinent guidance in one place, the Committee anticipates that educators will have a better understanding of their areas of discretion in disciplining children with disabilities and that parents will have a better understanding of the protections available to their children with disabilities.

The bill codifies current law by allowing school personnel to order a change in the placement of a child with a disability to an appropriate interim alternative educational setting, another setting, or suspension, for not more than 10 school days (to the extent such alternatives would be applied to children without disabilities). The bill also provides two exceptions to the pendency provision under section 615(j). First, the bill allows school personnel to order a change in the placement of a child with a disability to an appropriate interim alternative educational setting for the same amount of time that a child without a disability would be subject to discipline, but for not more than 45 days, if the child carries a weapon to school or to a school function under the jurisdiction of a State or an LEA; or the child knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or a school function under the jurisdiction of a State or an LEA.

The appropriate interim alternative educational setting shall be determined by the IEP team.

The bill requires that, either before or not later than 10 days after taking such a disciplinary action, if the LEA did not conduct a functional behavioral assessment and implement a behavioral intervention plan for such child before the behavior that resulted in the suspension, the agency shall convene an IEP meeting to develop an assessment plan to address that behavior; or if the child already has a behavior intervention plan, the IEP Team shall review the plan and modify it, as necessary, to address the behavior.

Under the second exception to the pendency provision, a impartial hearing officer is permitted to order a change in the placement of a child with a disability to an appropriate interim alternative educational setting for not more than 45 days if the impartial hearing officer determines at the hearing that the public agency has demonstrated by substantial evidence that maintaining the current placement of the child is substantially likely to result in injury to the child or to others; considers the appropriateness of the child's current placement; considers whether the public agency has made reasonable efforts to minimize the risk of harm in the child's current placement, including the use of supplementary aids and services; and determines that the interim alternative educational setting enables the child to continue to participate in the general education curriculum, although in another setting, and to continue to receive those services and modifications, including those described in the child's current IEP, that will enable the child to meet the goals set out in that IEP; and includes services and modifications designed to address the behavior so that it does not recur.

The standard "substantially likely to result in injury to the child or others" codifies the standard established by the Supreme Court in *Honig v. Doe*. The bill requires the impartial hearing officer to consider the appropriateness of the child's placement and efforts by the school district to minimize the risk of harm in the child's current placement, including through use of supplementary aids and services. If the school district has failed to provide the child an appropriate placement or to make reasonable efforts to minimize the risk of harm, the appropriate response by an impartial hearing officer is to deny the school district's request to move the child to an alternative setting and to require the district to provide an appropriate placement and make reasonable efforts to minimize the risk of harm. Thus, it will not be permissible to move a child when the child's behavior can be addressed in the current placement.

Section 615(k)(10)(C) defines the term "substantial evidence" as used in section 615(k). The term means evidence that is beyond preponderance of the evidence. The standard in 615(k)(2)(A) that maintaining a child in the current placement is substantially likely to result in injury to the child or others codifies the standard set by the Supreme Court in *Honig v. Doe*.

The bill requires that, if a disciplinary action is contemplated as described in the preceding paragraphs for a behavior of a child with disability or if a disciplinary action involving a change in placement for more than 10 school days for a child with a disability who has engaged in other behavior that violated any rule or code of conduct of the LEA that applies to all children, not later than

the date on which the decision to take that action is made, the parents shall be notified of that decision and of all procedural safeguards accorded under section 615 of IDEA. In addition, immediately, if possible, but in no case later than 10 school days after the date on which the decision to take that action, a review shall be conducted by the IEP Team and other qualified personnel of the relationship between the child's disability and the behavior subject to the disciplinary action.

The bill allows for a change of setting for the educational services provided a child with disabilities in the two specific circumstances identified above, but it does not change the other requirements of the Act. The bill describes the standards that that setting—the interim alternative educational setting—must meet. It must be a setting, although a different setting, where the child can continue to participate in the general curriculum, and continue to receive the general curriculum services and modifications, including those in the child's current IEP, so that the child can meet the goals of that IEP, and it must include services or modifications designed to address (so that it does not recur) the behavior that led to the child's placement in the interim alternative educational setting.

The bill prescribes the relevant information that must be considered by the IEP Team in carrying out a review in terms of the behavior subject to the disciplinary action—all relevant information, including evaluation and diagnostic results, including relevant information supplied by the parents, observations of the child, and the child's IEP and placement. The Committee limits the scope of this review by including the phrases “in relationship to the behavior subject to disciplinary action” and “behavior subject to disciplinary action”.

In addition, this section prescribes, also in terms of the behavior subject to disciplinary action, the standards for determining whether or not the behavior of the child was a manifestation of the child's disability:

The IEP Team must determine that—

- (1) in relationship to the behavior subject to disciplinary action, the child's IEP and placement were appropriate, and special education and related services, and supplementary aids and services, and behavior intervention strategies were provided consistent with the child's IEP and placement;
- (2) the child's disability did not impair the ability of the child to understand the impact and consequences of the behavior subject to disciplinary action; and
- (3) the child's disability did not impair the ability of the child to control the behavior subject to disciplinary action.

The Committee offers the following clarification with respect to the first standard in section 615(k)(4)(C)(ii). This standard recognizes that where there is a relationship between a child's behavior and the failure to provide or implement an IEP or placement, the IEP Team must conclude that the behavior was a manifestation of the child's disability. Similarly, where the IEP Team determines that an appropriate placement and IEP were provided, the IEP Team must then determine that the remaining two standards have been satisfied. This section is not intended to require an IEP Team to find that a child's behavior was a manifestation of a child's dis-

ability based on a technical violation of the IEP or placement requirements that are unrelated to the educational/behavior needs of the child.

Section 615(k)(5) of the legislation codifies current law, which permits a public agency to apply to a child whose behavior is not a manifestation of the child's disability the same disciplinary procedures that apply to children without disabilities. This section must be construed in light of the Act's obligation not to terminate services to children with disabilities and the pendency provision. A child with a disability would not be subject to disciplinary action for behavior that was a manifestation of the child's disability.

To promote the timely sharing of relevant information, section 615(k) of the bill requires that, if the public agency initiates disciplinary procedures applicable to all children, the agency shall ensure that the special education and disciplinary records of the child with a disability are transmitted for consideration by the person or persons making the final determination regarding the disciplinary action.

The Committee also addresses parents' appeal options in section 615(k) of the bill. If parents disagree with a determination that the child's behavior was not a manifestation of the child's disability or with any decision regarding placement, the parents may request a hearing. In such a case, the State or LEA shall arrange for an expedited hearing.

In reviewing a decision with respect to the manifestation determination in an expedited hearing, the hearing officer shall determine whether the public agency has demonstrated that the child's behavior was not a manifestation of such child's disability consistent with the requirements of paragraph(4)(C), used by an IEP Team when determining whether a behavior is or is not a manifestation of the disability. That is, the hearing officer in an expedited hearing, would determine that (1) in relationship to the behavior subject to disciplinary action, the child's IEP and placement were appropriate, and special education services and related services, supplementary aids and services, and behavior intervention strategies were consistent with the child's IEP; (2) the child's disability did not impair the ability of the child to understand the impact and consequences of the behavior subject to disciplinary action; and (3) the child's disability did not impair the ability of the child to control the behavior subject to disciplinary action.

The bill requires that, before a hearing officer in an expedited due process hearing selects an interim alternative educational setting for a child, the officer is to determine if the public agency has demonstrated by substantial evidence that maintaining the current placement of the child is substantially likely to result in injury to the child or to others; consider the appropriateness of the child's current placement; consider whether the public agency has made reasonable efforts to minimize the risk of harm in the child's current placement, including the use of supplementary aids and services; and determines that the interim alternative educational setting meets these requirements: (1) it enables the child to continue to participate in the general education curriculum, although in another setting, and to continue to receive those services and modifications, including those described in the child's current IEP, that

will enable the child to meet the goals set out in that IEP; and (2) includes services and modifications designed to address the behavior subject to discipline so that it does not recur.

When parents request a hearing regarding a disciplinary action with respect to weapons, illegal drugs, or a controlled substance or actions that are substantially likely to result in injury to the child or others or to challenge the interim alternative educational setting or the manifestation determination, the child shall remain in the interim alternative educational setting pending the decision of the hearing officer or until the expiration of the time period provided for (i.e., the same amount of time that a child without a disability would be subject to discipline but not more than 45 days) in section 615(1)(A)(ii) or (2) of the bill, whichever occurs first, unless the parents and the State or LEA agree otherwise.

If a child is placed in an interim alternative educational setting for the reasons described in Section 615(k)(1)(A)(ii) or (2) and school personnel propose to change the child's placement after expiration of the interim alternative educational placement, during the pendency of any proceeding to challenge the proposed change in placement, the child shall remain in the current placement (i.e., the child's placement prior to the interim alternative educational setting). In the bill the Committee allows an exception. If school personnel maintain that it is dangerous for the child to be in the current placement (placement prior to removal to the interim alternative educational setting) during the pendency of the due process proceedings, the district may request an expedited hearing.

In determining whether the child may be placed in the alternative educational setting or in another appropriate placement ordered by the hearing officer, the hearing officer shall apply the standards set out above. That is, the officer is to: (1) determine if the public agency has demonstrated by substantial evidence that permitting the child to return to his or her current placement (the child's placement prior to the interim alternative educational setting) is substantially likely to result in injury to the child or to others; (2) consider the appropriateness of the child's current placement (the child's placement prior to the interim alternative educational setting); (3) consider whether the public agency has made reasonable efforts to minimize the risk of harm in the child's current placement (the child's placement prior to the interim alternative educational setting), including the use of supplementary aids and services; and (4) determine that the continued use of an interim alternative educational setting meets these requirements: (a) enables the child to continue to participate in the general education curriculum, although in another setting other than the original placement, and to continue to receive those services and modifications, including those described in the child's current IEP, that will enable the child to meet the goals set out in that IEP; and (b) includes services and modifications designed to address the behavior subject to discipline so that it does not recur.

In the bill, the Committee addresses the issue of disciplining children not yet eligible under part B of the IDEA and discipline. A child who has not been determined to be eligible for special education and related services under part B and who has engaged in behavior that violated any rule or code of conduct of the LEA may

assert any of the protections provided for in part B of IDEA, if the LEA had knowledge that the child was a child with a disability before the behavior that precipitated the disciplinary action occurred. An LEA shall be deemed to have had knowledge that a child is a child with a disability if the parents of the child have expressed concern in writing (unless the parents are illiterate or have a disability that prevents compliance with the requirements of this clause) to personnel of the appropriate educational agency that the child needs special education and related services; the behavior or performance of the child demonstrates the need for such services; the parent of the child has requested an evaluation of the child under section 614, or the child's teacher, or other LEA personnel, has expressed concern about the behavior or performance of the child to the director of special education or to other agency personnel.

If an LEA does not have knowledge, or could not reasonably have known, that a child is a child with a disability prior to taking disciplinary measures against the child, the child may be subjected to the same disciplinary measures applied to children without disabilities, who engaged in comparable behaviors, consistent with section 615(k)(2) pertaining to the authority of a hearing officer.

If a request is made for an evaluation of a child during the time period in which the child is subjected to disciplinary measures, the evaluation shall be conducted in an expedited manner. If the child is determined to be a child with a disability, taking into consideration information from the evaluation conducted by the agency and information provided by the parents, the agency shall provide special education and related services in accordance with part B, except that, pending the results of the evaluation, the child shall remain in the educational placement determined by school authorities.

In the bill, the Committee clarifies that nothing in part B shall be construed to prohibit an agency from reporting a crime committed by a child with a disability to appropriate authorities or to prevent State law enforcement and judicial authorities from exercising their responsibilities with regard to the application of Federal and State law to crimes committed by a child with a disability. An agency reporting a crime committed by a child with a disability shall ensure that copies of the special education and disciplinary records of the child are transmitted for consideration by the appropriate authorities to whom it reports the crime.

To ensure uniformity in the application of the provisions that have safety implications in section 615(k), the terms "controlled substance," "illegal drug," and "weapon" have been defined in the bill. "Controlled substance" means a drug or other substance identified under schedules I, II, III, IV, or V in section 202(c) of the Controlled Substances Act (21 U.S.C. 812(c)). The term "illegal drug" means a drug or other substance identified under schedules I, II, III, IV, or V in section 202(c) of the Controlled Substances Act (21 U.S.C. 812(c)), but does not include such a substance that is legally possessed or used under the supervision of a licensed health-care professional or that is legally possessed or used under any other authority under the Controlled Substance Act or under any other provision of Federal law. "Weapon" means a weapon, device, instru-

ment, material, or substance, animate or inanimate, that is used for, or is readily capable of, causing death or serious bodily injury, except that such term does not include a pocket knife with a blade of less than 2½ inches in length.

Withholding and judicial review section 616

The Committee recognizes and fully expects that the Secretary will utilize the broad enforcement authority available for ensuring compliance with and implementation by State educational agencies with the applicable provisions of part B. The bill authorizes the Secretary to withhold part B funds, in whole or in part, from States that are not in compliance with part B. Thus, based on the nature and degree of noncompliance, the Secretary may determine the level of funding to be withheld and the type of funding to withhold (e.g., the entire State set-aside or the set-aside for administrative purposes).

The Committee expects the Secretary to initiate actions to ensure enforcement, including the reexamination of current Federal monitoring and compliance procedures to improve the implementation of the law, and a subsequent annual report to Congress which evaluates the impact of the improved procedures on compliance. The committee also expects that the Secretary's reexamination of current enforcement procedures will place strong emphasis on: (1) including parents in the state monitoring process; (2) focusing monitoring efforts on the issues that are most critical to ensuring appropriate education to children with disabilities, and (3) timely follow-up to ensure that a State has taken appropriate action to demonstrate compliance with the law.

In addition, the Secretary may initiate other actions to ensure enforcement, such as requiring the State to submit a detailed plan for achieving compliance, imposing special considerations on the State's part B grant, referring the matter to the Department of Justice for appropriate enforcement action, and other enforcement actions authorized by law.

The Committee has included an express reference "referral to the Department of Justice" in section 616(a)(1)(B) to the authority now in current law of the Department of Education to refer instances of non-compliance to other agencies. In reiterating this authority, the Committee does not intend to expand present enforcement powers of any other Department, nor establish any new rights of action against State or local governments, education agencies, or private parties.

Similar enforcement authorities exist for States to ensure that local educational agencies meet their responsibilities under the Individuals with Disabilities Education Act.

Data collection section 618

The legislation substantially streamlines the current data collection requirements by eliminating reporting on the services needed, by disability category, for children leaving the educational system, and the number and type of personnel employed and data on current and project personnel needs. New reporting requirements are added in the bill for: the number of children moved to interim alternative educational settings, and the number of infants and tod-

dlers at risk of developing developmental delays. The bill allows the Secretary of Education discretion to allow States and the Secretary of the Interior to collect needed data through sampling.

Because of the Committee's desire to see the problem of over identification of minority children addressed, the bill requires States provide for the collection and examination of data to determine if significant disproportionality based on race is occurring with respect to particular disability categories or types of educational setting.

The Preschool Program section 619

The legislation amends the section 619 Preschool Grants program to conform with the funding formula changes for the section 611 Grants to States program. Under the new formula, no State would receive less than it received in fiscal year 1997. Beginning in fiscal year 1998, all new appropriations above the FY 97 level will be 85 percent based on the general population of children aged 3 through 5, and 15 percent on the poverty rate in the State. The formula also includes the same minimum and maximum allocation provisions that apply to the new formula under the Grants to States program. These provisions ensure that every State receives part of any increase, and there is no radical shift in resources.

The legislation would eliminate funding for the Outlying Areas under the Preschool Grants program and add an amount equivalent to the amount they received in fiscal year 1997 to the fiscal year 1998 allocations the Outlying Areas would otherwise receive under the Grants to States program. This would maintain overall funding for the Outlying Areas while eliminating paperwork associated with their allocations under the Preschool Grants program, which is unduly burdensome for the Outlying Areas given the nominal amount of funding involved.

Unlike the Grant to States program, the new funding formula for Preschool Grants takes effect on July 1, 1998.

Amendments to part C of the Individuals with Disabilities Education Act

The bill reorganizes part H which authorizes the early intervention program as part C.

The Committee continues to recognize the importance of early intervention for infants and toddlers with disabilities from birth through age two. Infants and toddlers with disabilities whose families receive early intervention services often need less intensive services when they reach school age. The Committee believes that it is in the best interests of the infants and toddlers, their families, schools, and society in general that these services continue to be provided.

The bill retains current law and adds clarifications with regard to State discretion when it elects to address the needs of infants and toddlers at risk of having substantial developmental delays if they do not receive early intervention services. To provide greater flexibility in addressing the needs of "at-risk infants and toddlers" in those States not currently serving such children, the bill permits a State to use its part C funds for initiating, expanding, or improving collaborative efforts related to at-risk infants and toddlers, in-

cluding: establishing linkages with public and private organizations, services and personnel for identifying and evaluating at-risk infants and toddlers; referring those children to other (nonpart C) services; and conducting periodic follow-ups on each referral to determine if the child's eligibility under part C has changed.

While the provision in the preceding paragraph, applies only to States that do not serve at-risk infants and toddlers under part C, States that are serving those infants and toddlers may carry out these activities as well, under the general authority to use part C funds to implement the components of statewide systems. The provision addressed in the preceding paragraph is intended to provide both clear authority and an incentive for States that are not serving at-risk infants and toddlers, not to penalize States that are already doing so.

The Committee has addressed the serious problem of personnel shortages in the provision of early intervention services. The bill adds a provision that allows that paraprofessionals and assistants, who are appropriately trained and supervised, in accordance with State law and regulations, or written policy, to assist in the provision of early intervention services to infants and toddlers with disabilities under part C. With regard to personnel standards, the bill, as does current law, clarifies that, to the extent that the standards met by providers of early intervention services in a State, are not based on the highest requirements in the State applicable to a specific profession or discipline, the State is to have steps it is taking to require the retraining or hiring of personnel that meet appropriate professional requirements in the State. In addition, the bill in part C clarifies this State responsibility in a manner that conforms to parallel language in part B.

The bill describes the assurances a State must submit as part of its application for funding under part C.

The bill clarifies that part C is truly the payer of last resort even for military families who are eligible for medical programs administered by the Department of Defense. The Committee does not intend to change the types of services that are currently covered by DOD programs nor expect that the services covered under DOD medical programs will change.

Changes are made to the provisions for submission of State applications, consistent with similar changes in part B.

The bill includes an authorization level for part C of \$400,000,000. The Committee recognizes the effort, both fiscally and programmatically, that all States are making through Part C and the current federal/State partnership in this important effort.

Amendments to part D of the Individuals with Disabilities Education Act

Discretionary programs in IDEA, which fund personnel training, research, systemic change activities, parent training and information centers, technical assistance, and media and technology initiatives to assist children with disabilities, have evolved since the Act's original passing to cover a variety of particular needs. Many of these needs continue to this day, while others have receded.

Current law authorizes nineteen funded and unfunded discretionary programs. This legislation consolidates these programs into

four broad areas. The Committee believes that by creating a re-focused national program for discretionary programs, such programs will be more strategically able to assist States, and local communities, to maintain and improve their capacity to reach and serve infants, toddlers, and children with disabilities.

The Act creates a new part D, National Activities to Improve Education of Children with Disabilities. Subpart 1 of part D authorizes new State Program Improvement Grants. This subpart 1 establishes a new system of grants to improve results for children with disabilities through systemic reform with an emphasis on personnel training. State educational agencies, in close cooperation with their "contractual partners," local educational agencies, and parents of children with and without disabilities, individuals with disabilities, the Governor, and other State and local agencies, organizations, and institutions concerned with the needs of and services for children with disabilities shall develop an improvement plan after identifying the State's needs in several areas; these include assessing children with disabilities and their performance, training and personnel needs, and evaluating system effectiveness. States that receive these competitive grants will be able to use funds to implement the improvement strategies they have proposed in their plan which will be based on the needs of the State's children with disabilities and the nature of the State's capacity and methods of serving these children.

The legislation requires that 75% of State Improvement Grant funds be used for personnel training. This reflected the Committee's desire that subpart 1 grants be a primary means of supporting personnel training, complemented by an authorization for additional, but targeted, personnel training initiatives in subpart 2, chapter 1 of part D. The rationale for focusing personnel training funds at the State level through subpart 1, State Program Improvement Grants, is an attempt to improve results for children with disabilities through addressing personnel training needs of States, as identified and defined by a State, not the Federal government.

Under the current program, universities receive grants based on applications made to the Department of Education. These applications generally focus on pre-service training for special education teachers. In many States, the greatest need for training is for in-service training for general and special education teachers, and for pre-service training in addressing the special instructional needs of children with disabilities, including their integration regular education classes, for future general education personnel. The Committee believes that, by targeting State Program Improvement Grant funds as it has, appropriate training for teachers addressing the learning needs of children with disabilities, especially general education teachers in early grades, will help reduce inappropriate referrals to special education of learning disabled children and improve results for children with disabilities served by both general and special education personnel. Instead of learning from a teacher whose abilities cannot properly meet the child's particular needs, learning disabled children will have been taught in a manner that they can understand from a teacher whose training permitted them to understand that child's learning style.

In part D, subpart 2, the Committee authorizes Coordinated Research, Personnel Preparation, Technical Assistance, Support, and Dissemination of Information. The Committee intends that the new Chapter 1 National Research and Innovation Activities Program lead to a new coordinated effort in special education research and grant activities. Section 661 in the bill contains the administrative provisions. In this section the Secretary of Education is provided with both direction and flexibility that the Committee believes will facilitate the development of a comprehensive plan to guide the distribution of funds under subpart 2. Stake holders will have direct input in developing the plan. As in current law, in the bill each major grant competition requires peer review, to promote the selection of high quality applications for funding who will be responsive to the needs identified in a particular competition. The Committee intends that the Secretary's planning process establish a new coordinated system of funding to reflect what the stake holders collectively view as funding priorities.

The bill authorizes research and targeted personnel training activities. The bill provides wide flexibility in terms of funding for research, distinguishing among funding for knowledge production, integration of research knowledge and practice, and the use of professional knowledge. The Committee believes strongly that an organized, collective commitment to get validated research—best practice information—to the teacher in the classroom is essential. Thus, the Committee anticipates the substance and organization of the provisions pertaining to research will facilitate such an outcome.

The bill authorizes funding for targeted personnel preparation activities related preparing personnel to serve children with low-incidence and high incidence disabilities, leadership personnel, and projects of national significance. The focus of the latter projects will be to develop and demonstrate effective and efficient practices; to apply research findings in personnel preparation, demonstrate effective models for preparing personnel; reducing shortages of personnel, and developing, evaluating, and disseminating model teaching standards; as well as to develop and disseminate models that prepare teachers with strategies, including behavioral interventions, for addressing the conduct of children with disabilities that impedes their learning and that of others; to fund institutes for professional development, activities promoting the transfer of certification requirements across States; and selected other activities, including projects to improve the ability of general education personnel—teachers, principals, and administrators—to meet the needs of children with disabilities. The bill specifies that high-incidence personnel preparation activities, including those conducted by local educational agencies and other local entities, are to address improvement and reform of existing training programs and the incorporation of best-practices and research-based knowledge into these training programs.

The bill directs the Secretary to undertake a national assessment of the Nation's systems of providing services to infants, toddlers, and children with disabilities and their families. The Secretary is to prepare recommendations for improving these systems in a fashion that will be useful to the 107th Congress, as it considers the effectiveness of these amendments in improving services for chil-

dren with disabilities and whether further changes are needed. In addition, the Secretary is authorized to conduct longitudinal studies and to provide technical assistance directly to local educational agencies.

The bill retains the authority, substantially unchanged from current law, to fund the Parent Training and Information Centers. The bill adds authority to fund local parent organizations, referred to in the bill as “community parent resource centers,” to receive funding. The Committee recognizes the substantial contribution that State Parent Training and Information Centers, and local parent organizations have made, in educating parents about the IDEA, and especially in responding to parents of diverse racial, cultural, and linguistic backgrounds. The Committee anticipates that, by working in tandem, the State-level and community-based grantees will be able to reach even more parents many of whom are isolated by geographic, social, language, cultural, or racial factors.

The bill retains the authority for the Secretary to fund Regional Resource Centers and clearinghouses, and other programs to help State and local entities build capacity to serve infants, toddlers, and children with disabilities and their families. It also retains the Secretary’s authority to fund systemic technical assistance to assist with the implementation of State program improvement grants, promoting change through multistate and regional frameworks that benefit State and local educational agencies, and the collection and dissemination to a wide range of stake holder audiences.

The bill retains the authority of the Secretary to fund projects related to the development, demonstration, and use of technology. It also retains the authority to fund educational media services. The authority extends to support for video description, open captioning, and closed captioning of television programs, videos, or educational materials. On October 1, 2001, such support will cover video description, open captioning, and close captioning of educational, news, and informational television, videos, or materials. By that point, the Committee anticipates that the transition toward privately financed captioning of all broadcast television will be well under way, because of the publication of, and expected compliance with, the Federal Communication Commission’s regulations on the subject in August 1997.

TITLE II—MISCELLANEOUS PROVISIONS

Title II repeals and extends provisions of the IDEA consistent with the amendments in Title I of the bill. Title II also provides that most amendments to parts A and B will be effective on the date of enactment. It provides that part C and sections 612(a)(4), 612(a)(14), 612(a)(16), 614(d) (except for paragraph (6)), and 618 of part B will be effective on July 1, 1998. It provides that amendments to part D, the new discretionary programs, and section 617 of part B will take effect October 1, 1997 consistent with the start of the Federal fiscal year 1998.

Title II establishes that section 618 of IDEA as in effect on the day before enactment, and the provisions of parts A and B of IDEA relating to IEPs and the State’s comprehensive system of personnel development, as so in effect, shall remain in effect until July 1, 1998. It provides that beginning on October 1, 1997, the Secretary

of Education may use funds appropriated under part D of IDEA as in effect on the day prior to enactment to make continuation awards for projects that were funded under section 618 and parts C through G of IDEA as in effect on September 30, 1997. Part I, the Family Support Program, will be authorized through September 30, 1998 as part of IDEA.

“Section 612(c) includes conditions under which States are required to submit amended policies and procedures to the Secretary, and the Secretary’s responsibilities under this section.

“Section 612(d) describes what actions the Secretary must take in approving a State’s eligibility, and before making a final determination that a State is not eligible.

“Section 612(e) provides that nothing in the IDEA permits a State to reduce medical and other assistance available, or to alter eligibility, under Titles V and XIX of the Social Security Act (Maternal and Child Health Services and Medicaid) with respect to the provision of a free appropriate public education for children with disabilities within the State.

“Section 612(f) directs the Secretary to arrange for the provision of special education to children with disabilities in private schools if, in 1983, a State was prohibited by State law from providing that education.

“Section 613(a) sets out the local eligibility requirements under part B. The section provides that to be eligible for any fiscal year, an LEA is must demonstrate to the satisfaction of the SEA that its policies, procedures, and programs are consistent with the State policies and procedures described under section 612; and that the LEA uses its part B funds in accordance with the specified requirements of this section; meets the personnel development requirements; and provides the SEA with information to enable that agency to carry out its duties under this part. The section permits LEAs to use the part B funds for various specified purposes. The section also addresses the treatment of charter schools under part B and the disabled children that they serve.

“Section 613(b) includes conditions under which LEAs are required to submit amended policies and procedures to the SEA, and the SEA’s responsibilities under this section.

“Section 613(d) provides that if an eligible LEA or State agency is failing to comply with any requirement under section 613(a), the SEA shall not make any further payments to that agency until it comes into compliance.

“Section 613(e) sets out conditions under which an SEA may require an LEA to require an LEA to establish its eligibility jointly with another LEA, and describes the conditions under which an educational service agency and a charter school would be exempted from this section.

“Section 613(f) permits an LEA to use up to five percent of its annual part B allotment to develop and implement a coordinated services system.

“Section 613(g) authorizes each LEA to use its part B funds to permit a public school within the jurisdiction of an LEA to design, implement, and evaluate a school based improvement plan.

“Section 613(h) requires the SEA to use the payments that otherwise would have been available to an LEA or State agency to provide special education and related services directly to children with disabilities for whom the agency is responsible, if the SEA determines the existence of one or more specified situations.

“Section 613(i) requires any State agency that desires to receive a subgrant for any fiscal year under part B to demonstrate to the satisfaction of the SEA that the agency meets the conditions described in the section.

“Section 613(j) allows the State to require local educational agencies to include in the records of a child with a disability a statement of any current or previous disciplinary action that has been taken against the child to the same extent that such disciplinary information is included in the student records of non-disabled children.

“Section 614(a) sets out requirements relating to initial evaluations, parental consent and refusal of consent, and reevaluations.

“Section 614(b) includes requirements for procedures relating to providing notice to parents about evaluations, and conducting evaluations.

“Section 614(d) includes definitions of ‘IEP’ and ‘IEP Team’; requires that an IEP be in effect at the beginning of each school year for each child with a disability, and provides that, for a child aged three, four, or five, an IFSP developed under part C could serve as the child’s IEP; requires that each IEP be developed in a meeting by the IEP team, and lists specified areas that must be considered in developing a child’s IEP; and requires LEAs to ensure that the IEP team reviews each IEP periodically, but not less than annually, and revises the IEP, as appropriate. The section also requires LEAs to reconvene the IEP team to identify alternative strategies to meet the transition objectives for a student if a participating agency, other than the LEA, fails to provide the transition services described in the IEP. Further, the section includes provisions relating to children with disabilities in adult prisons.

“Section 614(e) provides that nothing in the section shall be construed to require the IEP team to include information under one component of a child’s IEP that is already contained under another component.

“Section 614(f) requires that each SEA or LEA ensure that the parents of each disabled child are members of any group that makes decisions on the educational placement of their child.

“Section 615(a) provides that any SEA, State agency, or LEA that receives part B funds must establish and maintain procedures to assure that children with disabilities and their families are guaranteed procedural safeguards with respect to the provision of a free appropriate public education.

“Section 615(b) requires that procedural safeguards include: parental opportunity to examine all relevant records on their child; procedures to protect the rights of the child whenever the parents are not known, can’t be located after reasonable efforts, or the child is a State ward, including appointing a surrogate parent for the child; written prior notice to the parents, provided in their native language, unless it is clearly not feasible to do so; an opportunity for mediation and to present complaints; notice by the parents or their attorney in the complaint, including information about the child, the problem, and a possible solution known and available at the time; and development of a model by the SEA to assist parents in providing notice.

“Section 615(c) describes the content of the prior written notice provided by the agency.

“Section 615(d) describes the content and timing of the procedural safeguards notice given to the parents.

“Section 615(e) requires SEAs or LEAs to make mediation available to parents, but provides that it is voluntary for both parties to determine whether they want to participate, and is not used to deny or delay a parent’s right to a due process hearing under section 615, or to deny any other rights afforded under part B. The section authorizes LEAs to require parents, before requesting a due process hearing, to attend a meeting at which representatives from Parent Training Centers or other alternative dispute resolution groups would explain the benefits of mediation and encourage its use.

“Section 615(f) requires that whenever a complaint has been received, the parents involved in the complaint must have an opportunity for an impartial due process conducted by the SEA or LEA, and also outlines the requirements for the hearing process.

“Section 615(g) provides that any party aggrieved by a due process hearing conducted by the LEA may appeal the decision to the SEA.

“Section 615(h) lists the procedural safeguards rights that are available to any party to a due process hearing or an appeal, including the right to a written, or, at the option of the parents, electronic verbatim record of the hearing and electronic findings of fact and decisions.

“Section 615(i) provides that any party aggrieved by the findings and decision in this section, or in section 615(g), has the right to bring a civil action in a State court or in a District Court of the United States without regard to the amount in question. This section permits the award of attorneys’ fees and lists the considerations for reducing attorney’s fees.

“Section 615(j) provides that, except as provided in 615(k), the child must remain in the current educational setting while any proceedings conducted under this section are pending.

“Section 615(k) provides two exceptions to the pendency provision under section 615(j): first, with respect to a situation in which a disabled child carries a weapon to school or a school function or knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or at a school function; and second, with respect to a situation in which a child’s actions are substantially likely to result in injury to the child or others, as determined by a hearing officer. The section sets out conditions and procedures relating to placing a child in an alternative educational setting, conducting a manifestation determination, required actions by the LEA when the child’s behavior was not a manifestation of the child’s disability, and the required hearing procedures and pendency provisions. The section also sets out protections for children not yet eligible for special education; includes a provision relating to referral to and action by law enforcement and judicial authorities; and includes definitions of ‘controlled substance’, ‘illegal drug’, and ‘weapon’.

The section also requires each State to collect and examine data each year to determine if significant disproportionality based on race is occurring in the identification and placement of children with disabilities, and provides that if a situation is identified, the State must review and revise, if necessary, its policies, practices, and procedures.

“Section 619(a) directs the Secretary to make grants to assist States to provide special education and related services, in accordance with Part B, to children with disabilities aged three through five and, at the State’s discretion, to 2-year-old children with disabilities who will turn three during the school year.

“Section 619(b) provides that a State is eligible for a grant under section 619 if it has established its eligibility under section 612 and it makes a free appropriate public education available to all children with disabilities, aged three through five, residing in its jurisdiction.

“Section 640(a) provides that funds under part C may not be used to pay for services which would have been paid for by another source, including any medical program administered by the Department of Defense, but for the enactment of part C, except to prevent a delay in the provision of early intervention services pending reimbursement from the agency which has ultimate responsibility for the payment.

“Section 640(b) prohibits the State from reducing medical or other assistance available or from altering eligibility under title V of the Social Security Act (relating to maternal and child health) or to title XIX of the Social Security Act (relating to Medicaid for infants or toddlers with disabilities) within the State.

“Section 641(a) requires each State wishing to receive funds under this part to establish an interagency coordinating council with the membership outlined in this section appointed by the Governor.

“PART D—SUBPART 1

“Section 651(a) sets out congressional findings in support of a new program of grants to States to support the development and implementation of plans to improve their systems for educating children with disabilities. The program would be authorized by Subpart 1 of a new Part C of the IDEA.

“Section 651(b) would provide that the purpose of the new program is to assist SEAs and their partners in the State in reforming and improving their systems for providing educational, early intervention, and transitional services to improve results for children with disabilities.

“Section 652(a) permits an SEA to apply for a grant under subpart 1 or a period of not less than one year and not more than five years.

“Section 652(b) requires an SEA that wants to apply for a grant to establish a partnership with LEAs and other State agencies involved in, or concerned with, the education of children with disabilities, and to work in partnership with other organizations and individuals involved in and concerned with the education of children with disabilities. The SEA must involve identified individuals and organizations in the partnership, and may include others at its discretion.

“Section 653 describes the material (including a comprehensive needs assessment and a description of the strategies the State will use to meet those needs) that must be included in a State’s application under Subpart 1, the process by which the Secretary makes competitive awards to States, and the obligation of States receiving grants to submit regular performance reports to the Secretary.

“Section 654 describes the permissible uses of a State Improvement grant, and requires each State to use a substantial part of its grant to ensure that there are sufficient personnel who have the skills and knowledge necessary to meet the needs of children with disabilities in the State.

“Section 655 establishes minimum grant amounts for States whose applications are approved, allows the Secretary to increase the minimum amounts in later years to account for inflation, and lists the factors the Secretary considers in setting the amount of individual grants.

“Section 656 authorizes the appropriation of such sums as may be necessary to carry out Subpart 1 for each of the fiscal years 1998 through 2002.

“PART D—SUBPART 2

“Section 661(a), which is similar to current section 610(a), requires the Secretary to develop and implement a comprehensive plan for activities under Subpart 2 of Part D, in order to assist States and LEAs in providing educational, related, and early intervention services to children with disabilities under Parts B and C of the IDEA. In developing that plan, the Secretary is required to consult with individuals with disabilities; parents of children with disabilities; appropriate professionals; and representatives of SEAs, LEAs, private schools, institutions of higher education, other Federal agencies, the National Council on Disabilities, and national organizations with an interest in, and expertise in, providing services to children with disabilities and their families.

“Section 661(b)(1) replaces the individual statements of eligibility that are now scattered throughout the discretionary program authorities with a single comprehensive statement that, except as otherwise provided, those eligible to apply for awards under Subpart 2 are: (1) SEAs; (2) LEAs; (3) institutions of higher education; (4) other public agencies; (5) private nonprofit organizations; (6) Indian tribes and tribal organizations; and (7) when the Secretary finds it appropriate in light of the purposes of the particular competition, for-profit organizations.

“Section 661(b)(2) permits the Secretary to limit individual competitions to one or more categories of eligible entities listed above.

“Section 661(c) affords the Secretary some flexibility in using funds under Subpart 2 by allowing the Secretary to use up to 20 percent of the funds available under Chapter 1 or Chapter 2 for activities authorized by the other chapter, or for any combination of activities consistent with the purposes of either or both chapters.

“Section 661(d), relating to special populations, is based on current section 610(b) and (j). Paragraph (1) directs the Secretary, as appropriate, in making awards under Subpart 2, to require applicants to demonstrate how they will address the needs of children with disabilities from minority backgrounds.

“Section 661(d)(2)(A) further directs the Secretary, notwithstanding any other provision of the IDEA, to ensure that at least one percent of the total amount of funds appropriated for Subpart 2 is used to provide outreach and technical assistance to Historically Black Colleges and Universities (HBCUs), and to institutions of higher education with minority enrollments of at least 25 percent,

to promote their participation in activities under the Subpart 2 programs; and to enable those HBCUs and institutions to assist others in improving educational results for children with disabilities. Paragraph (3)(B) would allow the Secretary to reserve funds appropriated under Parts D through G (and, for fiscal year 1996, under Parts C through G) to meet that requirement. These provisions are analogous to current section 610(j)(2)(C)(iii).

“Section 661(e) enables the Secretary to give priority to particular types of projects without requiring public comment.

“Section 661(f)(1) directs the Secretary to require that applicants for, and recipients of, awards under Subpart 2 involve individuals with disabilities and parents of individuals with disabilities in planning, implementing, and evaluating projects, and, where appropriate, determine their projects’ potential for replication and widespread adoption. Paragraph (2) permits the Secretary to require that those applicants and recipients share in the cost of projects; prepare their findings and products in formats useful for specific audiences; disseminate their findings and products; and collaborate with other recipients. These two paragraphs replace current section 610(g).

“Section 661(g), which is similar to current section 610(h), provides for peer review of applications under Subpart 2 for more than \$75,000. (The current threshold is \$60,000.) Separate peer-review provisions for State Improvement Plans under the new Subpart 1 apply to that program.

“Section 661(h) allows the Secretary to use funds appropriated to carry out Subpart 2 to evaluate activities carried out under that subpart.

“Section 661(i) ensures that the needs of children with low-incidence disabilities continue to be met during the implementation of the new, more flexible authorities by guaranteeing that, however the Secretary implements those authorities, certain absolute dollar amounts continue to be spent in the following specified areas: (1) \$12,832,000 to address the educational, related services, transitional, and early intervention needs of children with deaf-blindness; (2) \$4,000,000 to address the postsecondary, vocational, technical, continuing, and adult education needs of individuals with deafness; and (3) \$4,000,000 to address the special educational, related services, and transitional needs of children with emotional disturbance and those who are at risk of developing an emotional disturbance. Paragraph (2) provides for a proportionate reduction of these amounts if the total amount appropriated for any fiscal year for Subpart 2 falls below \$130 million.

“Section 661(j) restricts a State educational agency and local educational agency from being eligible for research, personnel training, technical assistance, support and dissemination grants unless the State is eligible for a preschool grant.

“Chapter 1

“Section 671(a) sets out congressional findings in support of the Chapter 1 program. Section 671(b) provides that the purpose of Chapter 1 is to provide Federal funding for certain coordinated research, demonstration projects, outreach, and personnel-preparation activities that are linked with, and promote, systemic change;

and that improve early intervention, educational, and transitional results for children with disabilities.

“Section 673(a) directs the Secretary to make competitive awards to eligible entities to help address State-identified needs for qualified personnel in special education, related services, early intervention, and regular education to work with children with disabilities; and to ensure that those personnel have the skills and knowledge reflecting successful practices determined through research and practice that are needed to serve those children.

“Section 673(b) directs the Secretary, in carrying out section 673, to support activities, consistent with the objectives described in section 673(a), that benefit children with low-incidence disabilities; identifies examples of activities that may be carried out under this subsection; defines the term “low-incidence disability”; and permits the Secretary to give preference to applications that propose to prepare personnel in more than one low-incidence disability, such as deafness or blindness.

“Section 673(c) directs the Secretary to support leadership-preparation activities that are consistent with the objectives described in section 673(a), and lists examples of specific activities that may be carried out under this subsection.

“Section 673(g) establishes various rules for the selection of recipients under section 673.

“Section 673(h) requires applicants for certain projects under section 673 to provide an assurance that they will ensure that individuals who receive scholarship assistance under the proposed project will subsequently work in the area for which they received training or repay all or part of that assistance, in accordance with regulations issued by the Secretary.

“Section 673(i) permits the Secretary to include funds for scholarships, with necessary stipends and allowances, in awards under section 633.

“Section 673(j) authorizes the appropriation of such sums as may be necessary to carry out section 673 for each of the fiscal years 1998 through 2002.

“Section 674(a) directs the Secretary to assess progress in the implementation of the IDEA, including the effectiveness of State and local efforts to provide a free appropriate public education to children with disabilities, and to provide early intervention services to infants and toddlers with disabilities and infants and toddlers at risk for developmental delay. To that end, the Secretary may support studies, evaluations, and assessments, including various studies described in this subsection.

“Section 674(b) directs the Secretary to carry out a national assessment of activities carried out with Federal funds under the IDEA in order to: (1) determine the effectiveness of the IDEA in achieving its purposes; (2) provide information to the President, the Congress, the States, LEAs, and the public on how to implement the IDEA more effectively; and (3) provide the President and the Congress with information that will be useful in developing legislation to achieve the purposes of the IDEA more effectively. An interim report is due to Congress by October 1, 1999; and a final report of the findings of the assessment is due by October 1, 2001.

“Section 674(c) requires the Secretary to provide an annual report to Congress that includes an analysis and summary of the data reported by the States and the Secretary of the Interior under section 618; the results of activities conducted under section 674(a); and the findings and determinations resulting from reviews of State implementation of the IDEA.

“Section 674(d) directs the Secretary to provide technical assistance to LEAs to assist them in carrying out local capacity-building and improvement projects under section 611(e) of Part B.

“Section 674(e) allows the Secretary to reserve up to one-half of one percent of the amount appropriated under Parts B and C for each fiscal year to carry out section 674.

BUDGET AUTHORITY AND CONGRESSIONAL BUDGET OFFICE COST ESTIMATE

With respect to the requirement of clause 2(l)(3)(B) of rule XI of the House of Representatives and section 308(a) of the Congressional Budget Act of 1974 and with respect to requirements of clause 2(l)(3)(C) of rule XI of the House of Representatives and section 403 of the Congressional Budget Act of 1974, the Committee has received the following cost estimate for H.R. 5 from the Director of the Congressional Budget Office:

U.S. CONGRESS,
CONGRESSIONAL BUDGET OFFICE,
Washington, DC, May 9, 1997.

Hon. WILLIAM F. GOODLING,
Chairman, Committee on Education and the Workforce,
U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: The Congressional Budget Office has prepared the enclosed cost estimate for H.R. 5, the Individuals with Disabilities Act Amendments of 1997.

If you wish further details on this estimate, we will be pleased to provide them. The CBO staff contact is Justin Latus.

Sincerely,

JUNE E. O'NEILL, *Director.*

H.R. 5—Individuals with Disabilities Education Act Amendments of 1997

Summary: H.R. 5 would revise the Individuals with Disabilities Education Act (IDEA) and would reauthorize funding for many of the programs that fall under the act. The purposes of H.R. 5 are to ensure that children with disabilities receive a free appropriate public education that is designed to meet their needs and prepare them for employment, to assist states and localities in providing education for children with disabilities, and to assess the effectiveness of efforts to educate children with disabilities.

The bill would give states the option to expand the definition of developmentally disabled children to include children aged 6 to 9, and in doing so would increase authorizations of appropriations for the permanently authorized general grants to states program by about \$200 million a year. H.R. 5 would reduce authorizations of appropriations for the permanently authorized preschool grant program by \$400 million in 1998.

H.R. 5 would also reauthorize several programs that have expired, including the infants and toddlers program and the special purpose funds. The bill would reauthorize the special purpose funds and also consolidate fourteen separate programs that received an appropriation in 1997 into five new programs. These re-authorizations total \$700 million to \$800 million a year.

This cost estimate describes what H.R. 5 would authorize for spending on programs under the Individuals With Disabilities Education Act. Since all IDEA spending is discretionary, however, the amount that will actually be spent on this program will be determined in the annual appropriations process. For example, although total authorizations of appropriations under H.R. 5 in fiscal year 1998 are \$16 billion, the program was funded at \$4 billion in fiscal year 1997.

The provisions of H.R. 5 are excluded from consideration under the Unfunded Mandates Reform Act because they would “establish or enforce statutory rights that prohibit discrimination on the basis of * * * handicap, or disability.”

Estimated cost to the Federal Government: The estimated budgetary impact of H.R. 5 is shown in the following tables.

Estimated outlays	0	52	407	784	920	951

Notes: The 1997 levels are the amounts appropriated. Components may not sum to totals because of rounding.

Basis of estimate: The spending that would occur under H.R. 5 would be subject to the availability of appropriated funds. Estimated outlays are based on the historical spending of programs authorized by IDEA. Parts A, B, and C would be effective on July 1, 1998, and Part D would be effective on October 1, 1997.

PART B

H.R. 5 would revise Part B of IDEA, including the program of general grants to states. Current law permanently authorizes such sums as may be necessary for this program and contains a formula for determining how much states would get if the program is fully funded—the number of children with a disability times 40 percent of the average per pupil expenditure. H.R. 5 would give states the option to expand the definition of children with disabilities to include children aged 6 to 9 who are determined to be developmentally delayed (i.e., experiencing delays in physical, cognitive, communication, social, emotional, or adaptive development). This expansion of eligibility by about 10 percent would increase the authorizations of appropriations by about \$200 million in 1998 and \$1.1 billion over the 1998–2002 period, including adjustments for increases in the number of disabled children and costs per pupil.

H.R. 5 would also revise the section of Part B of IDEA that deals with preschool grants to states. Current law permanently authorizes such sums as may be necessary to provide funding for grants for preschool children with disabilities, with a maximum grant for each child capped at \$1,500. Authorizations of appropriations for 1998 under current law are estimated to be about \$900 million. H.R. 5 would authorize appropriations for preschool children with disabilities of \$500 million in fiscal year 1998 and such sums as necessary in subsequent years. The bill would remove the limit on the grant amount per child. CBO estimates that H.R. 5 would decrease authorizations of appropriations by \$400 million in 1998. This authorization level represents an increase, however, over the fiscal year 1997 appropriation for grants for preschool children of \$360 million.

PART C

Part C of H.R. 5 would authorize \$400 million in 1998 and such sums as necessary in fiscal years 1999 through 2002 for spending on infants and toddlers with disabilities. Part C would be similar to part H of current law, which covers infants and toddlers with disabilities and which is authorized through fiscal year 1997. Budget authority is estimated to increase by \$400 million in fiscal year 1998 and \$2.1 billion over the 1998–2002 period, with adjustments

for inflation. Without adjustments for inflation, the total would be \$2.0 billion.

PART D

Part D of H.R. 5 would authorize such sums as necessary for grants to fund activities to improve the education of children with disabilities for fiscal years 1998 through 2002. The fourteen current law special purpose funds that this part would replace are not authorized beyond 1997.

Subpart 1.—Subpart 1 of Part D would authorize appropriations for state program improvement grants for children with disabilities. This program has no equivalent under current law. The program would give money to states to improve their systems of delivery of services to children with disabilities. States would be required to spend a certain share of the grants they receive on training and development of personnel who work with children with disabilities. This subpart authorizes a maximum grant of \$2 million per state for each of the fifty states, the District of Columbia, and Puerto Rico. CBO uses this maximum amount to estimate total authorizations of appropriations for fiscal year 1998 of \$104 million. Authorizations of appropriations would total \$550 million over the 1998–2002 period with adjustments for inflation and \$520 million without adjustments for inflation.

Subpart 2.—Section 672 authorizes such sums as necessary for “research and innovation to improve services and results for children with disabilities” for fiscal years 1998 through 2002. CBO assumes this section would authorize spending on activities covered under such current programs as innovation and development, deaf-blindness, serious emotional disturbances, severe disabilities, early-childhood education, secondary and transitional services, post-secondary education, and special studies. Using the amounts appropriated for these activities in fiscal year 1997 as a benchmark, CBO estimates that section 672 would authorize \$110 million in fiscal year 1998, or \$580 million over fiscal years 1998–2002, with adjustments for inflation. Authorizations of appropriations for the same period without adjustments for inflation would total \$550 million.

Section 673 authorizes such sums as necessary for activities related to the professional development of personnel who work with children with disabilities. Current authorizations of appropriations for these activities do not extend beyond 1997. Personnel development activities under this subpart would be implemented by the Secretary of Education, as contrasted with the personnel development activities in Subpart 1 which would be initiated by states. Spending on the current personnel development program (conducted by the Secretary of Education) was about \$100 million in 1997. CBO assumes that under H.R. 5, some personnel development spending would be shifted to Subpart 1 and that authorizations of appropriations under Subpart 2 would be only \$50 million fiscal year 1998, or about \$260 million for fiscal years 1998–2002 when inflation is considered. The total for 1998–2002 without adjustments for inflation would be \$250 million.

Section 686 would authorize appropriations for parent training and information centers and community parent resource centers.

Current programs that would be authorized under this section include parent training, clearinghouses, and regional resource centers. Using the 1997 appropriations for these programs as a guide, CBO estimates that this section would increase authorizations of appropriations by \$25 million in fiscal year 1998 and \$132 million over the 1998–2002 period, with adjustments for inflation. The total over the same period without adjustments for inflation would be \$125 million.

Section 687 would authorize such sums as necessary for activities related to media services and technology development, demonstration, and utilization. CBO estimates that this section would increase authorizations by \$30 million in 1998. The total increase in authorizations over the 1998–2002 period would be \$158 million with adjustments for inflation, or \$150 million without adjustments for inflation. CBO used what was appropriated for media and captioning services and technology applications under the current IDEA law for fiscal year 1997 as its basis for estimating these amounts.

REPEALS

H.R. 5 repeals parts C, E, F, G, H, and I of current law. Authorizations of appropriations for Parts C, E, F, G, and H have expired, so repealing these parts would have no budgetary impact. Part I is authorized as such sums as may be necessary through fiscal year 1998 under the General Education Provisions Act (GEPA). (GEPA provides an automatic one-year extension of authorizations for all programs in the Department of Education.) Since this part (family support) has never received an appropriation, the estimate includes no savings from its repeal.

Pay-as-you-go considerations: None.

INTERGOVERNMENTAL AND PRIVATE-SECTOR IMPACT

Section 4 of the Unfunded Mandates Reform Act excludes from consideration under that Act any bill that would “establish or enforce statutory rights that prohibit discrimination on the basis of . . . handicap, or disability.” H.R. 5 fits within that exclusion because it would ensure that the rights of children with disabilities are protected in the public education system.

CORRESPONDENCE

COMMITTEE ON NATIONAL SECURITY,
HOUSE OF REPRESENTATIVES,
Washington, DC, May 7, 1997.

Hon. WILLIAM F. GOODLING,
Chairman, Committee on Education and the Workforce,
House of Representatives, Washington, DC.

DEAR MR. CHAIRMAN: I understand the Committee on Education and the Workforce will shortly mark up H.R. 5, the IDEA Improve-

ment Act of 1997. The bill includes a provision clarifying the circumstances under which the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) qualifies as a payor of last resort for infants and toddlers who receive medical treatment from the Department of Defense. This provision falls within the legislative jurisdiction of the Committee on National Security pursuant to House Rule X.

In recognition of your committee's desire to bring this legislation expeditiously before the House of Representatives, the Committee on National Security will forego a request for sequential referral of the bill, without waiving or diminishing this committee's jurisdiction over this provision. Of course, this committee will seek the appointment of conferees with respect to provisions within its legislative jurisdiction during any conference on the bill. I also request that this letter be printed in your committee's report on this legislation.

Thank you for your assistance and prompt attention to this matter.

With warm personal regards, I am
Sincerely,

FLOYD D. SPENCE, *Chairman.*

COMMITTEE ON EDUCATION AND THE WORKFORCE,
HOUSE OF REPRESENTATIVES,
Washington, DC, May 7, 1997.

Hon. FLOYD SPENCE,
*Chairman, Committee on National Security,
House of Representatives, Washington, DC.*

DEAR CHAIRMAN SPENCE: Thank you for working with me in the development of H.R. 5, the "IDEA Improvement Act of 1997", specifically the provision clarifying the "Payor of Last Resort" found in Section 640 of the matter to be inserted into the Individuals with Disabilities Education Act. This provision clarifies that funds under Part C of the Act, programs for infants and toddlers with disabilities, are truly the payor of last resort even for military families who receive medical services from the Department of Defense (DOD), specifically the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS). The Committee does not intend to change what is currently covered by DOD programs nor does the Committee expect that coverage under DOD medical programs will change.

As reported by the Committee, the relevant language in Section 640 states:

Nonsubstitution.—Funds provided under section 643 may not be used to satisfy a financial commitment for services that would have been paid for from another public or private source, *including any medical program administered by the Secretary of Defense*, but for the enactment of this part, except that whenever considered necessary to prevent a delay in the receipt of appropriate early intervention services by an infant, toddler, or family in a timely fashion, funds provided under section 643 may be used to pay the provider of services pend-

ing reimbursement from the agency that has ultimate responsibility for the payment. (*Italic added*)

Based on this provision as written, you will not seek referral of H.R. 5 containing this clarification, nor will the Committee on National Security seek jurisdiction over this provision in the future. The Committee on Education and the Workforce holds no jurisdictional interest in CHAMPUS and does not intend to change the CHAMPUS program. Again, I thank you for working with me to clarify current law, for confirming our understanding, and for working with me in developing this amendment to H.R. 5.

Sincerely,

BILL GOODLING, *Chairman.*

CHANGES IN EXISTING LAW MADE BY THE BILL, AS REPORTED

In compliance with clause 3 of rule XIII of the Rules of the House of Representatives, changes in existing law made by the bill, as reported, are shown as follows (existing law proposed to be omitted is enclosed in black brackets, new matter is printed in italics, existing law in which no change is proposed is shown in roman):

INDIVIDUALS WITH DISABILITIES EDUCATION ACT**[PART A—GENERAL PROVISIONS]****[SHORT TITLE; STATEMENT OF FINDINGS AND PURPOSE]**

[SEC. 601. (a) This title may be cited as the “Individuals with Disabilities Education Act”.

[(b) The Congress finds that—

[(1) there are more than eight million children with disabilities in the United States today;

[(2) the special educational needs of such children are not being fully met;

[(3) more than half of the children with disabilities in the United States do not receive appropriate educational services which would enable them to have full equality of opportunity;

[(4) one million of the children with disabilities in the United States are excluded entirely from the public school system and will not go through the educational process with their peers;

[(5) there are many children with disabilities throughout the United States participating in regular school programs whose disabilities prevent them from having a successful educational experience because their disabilities are undetected;

[(6) because of the lack of adequate services within the public school system, families are often forced to find services outside the public school system, often at great distance from their residence and at their own expense;

[(7) developments in the training of teachers and in diagnostic and instructional procedures and methods have advanced to the point that, given appropriate funding, State and local educational agencies can and will provide effective special education and related services to meet the needs of children with disabilities;

[(8) State and local educational agencies have a responsibility to provide education for all children with disabilities, but present financial resources are inadequate to meet the special educational needs of children with disabilities; and

[(9) it is in the national interest that the Federal Government assist State and local efforts to provide programs to meet the educational needs of children with disabilities in order to assure equal protection of the law.

[(c) It is the purpose of this Act to assure that all children with disabilities have available to them, within the time periods specified in section 612(2)(B), a free appropriate public education which emphasizes special education and related services designed to meet

their unique needs, to assure that the rights of children with disabilities and their parents or guardians are protected, to assist States and localities to provide for the education of all children with disabilities, and to assess and assure the effectiveness of efforts to educate children with disabilities.

ciples or knowledge, if the Secretary determines that there is no nationally recognized accrediting agency or association qualified to accredit such institutions, the Secretary shall appoint an advisory committee, composed of persons specially qualified to evaluate training provided by such institutions, which shall prescribe the standards of content, scope, and quality which must be met in order to qualify such institutions to participate under this Act and shall also determine whether particular institutions meet such standards. For the purposes of this paragraph the Secretary shall publish a list of nationally recognized accrediting agencies or associations which the Secretary determines to be reliable authority as to the quality of education or training offered.

[(b) If, within twenty years after the completion of any construction (except minor remodeling or alteration) for which funds have been paid pursuant to a grant or contract under this title, the facility constructed ceases to be used for the purposes for which it was constructed, the United States, unless the Secretary determines that there is good cause for releasing the recipient of the funds from its obligation, shall be entitled to recover from the applicant or other owner of the facility an amount which bears the same ratio to the then value of the facility as the amount of such Federal funds bore to the cost of the portion of the facility financed with such funds. [(b) The Secretary may not implement, or publish in final form, any regulation prescribed pursuant to this Act which would procedurally or substantively lessen the protections provided to children with disabilities under this Act, as embodied in regulations in effect on July 20, 1983 (particularly as such protections relate to parental consent to initial evaluation or initial placement in special education, least restrictive environment, related services, timelines, attendance of evaluation personnel at individualized education program meetings, or qualifications of personnel), except to the extent that such regulation reflects the clear and unequivocal intent of the Congress in legislation.

[ELIGIBILITY FOR FINANCIAL ASSISTANCE]

[SEC. 609. Effective for fiscal years for which the Secretary may make grants under section 619(b)(1), no State or local educational agency or intermediate educational unit or other public institution or agency may receive a grant under parts C through G which relate exclusively to programs, projects, and activities pertaining to children aged three to five, inclusive, unless the State is eligible to receive a grant under section 619(b)(1).

[ADMINISTRATIVE PROVISIONS APPLICABLE TO PARTS C THROUGH G AND SECTION 618]

[SEC. 610. (a) The Secretary shall maintain a process for developing a program plan for the implementation of each of the programs authorized under section 618 and parts C through G. The plan shall include program goals, objectives, strategies, and priorities. In conducting the process, the Secretary shall involve individuals with disabilities, parents, professionals, and representatives of State and local educational agencies, private schools, institutions of higher education, and national organizations who have interest and expertise in the program.

[(b) In awarding grants, contracts, and cooperative agreements under parts C through G, the Secretary, where appropriate, shall require applicants to demonstrate how they will address, in whole or in part, the needs of infants, toddlers, children, and youth with disabilities from minority backgrounds.

[(c) In awarding grants, contracts, or cooperative agreements under parts C through G the Secretary, where appropriate, may require applicants to address the various transitions that a child with a disability may face throughout such child's years in school, including—

[(1) the transition from medical care to special education for those children with disabilities, including chronic health im-

pairments, who may require individualized health-related services to enable such children to participate in, or benefit from, special education;

[(2) the transition between residential placement and community-based special education services; and

[(3) the transition between a separate educational placement and the regular classroom setting.

[(d) The Secretary shall conduct directly, or by contract or cooperative agreement with appropriate entities, independent evaluations of the programs authorized under section 618 and under parts C through G, and may for such purpose use funds appropriated to carry out such provisions. The findings of the evaluators shall be utilized in the planning process under subsection (a) for the purpose of improving the programs. The evaluations shall determine the degree to which the program is being conducted consistent with the program plan and meeting its goals and objectives. The Secretary shall submit to the appropriate committees of the Congress the results of the evaluations required by this subsection.

[(e) The Secretary shall report on the program plans required in subsection (a) and findings from the evaluations under subsection (d) in the annual report to the Congress required under section 618.

[(f) The Secretary shall develop effective procedures for acquiring and disseminating information derived from programs and projects funded under parts C through G, as well as information generated from studies conducted and data collected under section 618.

[(g) The Secretary shall, where appropriate, require recipients of all grants, contracts, and cooperative agreements under parts C through G to prepare reports describing their procedures, findings, and other relevant information in a form that will maximize the dissemination and use of such procedures, findings, and information. The Secretary shall require their delivery, as appropriate, to the Regional and Federal Resource Centers, the Clearinghouses, and the Technical Assistance to Parents Programs (TAPP) assisted under parts C and D, as well as the National Diffusion Network, the ERIC Clearinghouse on the Handicapped and Gifted, and the Child and Adolescent Service Systems Program (CASSP) under the National Institute of Mental Health, appropriate parent and professional organizations, organizations representing individuals with disabilities, and such other networks as the Secretary may determine to be appropriate.

[(h)(1) The Secretary shall convene, in accordance with paragraph (2), panels of experts who are competent, by virtue of their training or experience, to evaluate proposals under section 618 and parts C through G.

[(2) Panels under paragraph (1) shall be composed of individuals with disabilities, parents of such individuals, individuals from the fields of special education, related services, and other relevant disciplines.

[(3) The Secretary shall convene panels under paragraph (1) for any application that includes a total funding request exceeding \$60,000 and may convene or otherwise appoint panels for applications that include funding requests that are less than such amount.

[(4) Panels under paragraph (1) shall include a majority of non-Federal members. Such non-Federal members shall be provided travel and per diem not to exceed the rate provided to other educational consultants used by the Department of Education and shall be provided consultant fees at such a rate.

[(5) The Secretary may use funds available under section 618 and parts C through G to pay expenses and fees of non-Federal members of the panels.

[(i) The Secretary shall conduct at least 1 site visit for each grant, contract, and cooperative agreement receiving \$300,000 or more annually under parts C through G.

[(j)(1) With respect to the discretionary programs authorized by parts C through G, the Congress finds as follows:

[(A)(i) The Federal Government must be responsive to the growing needs of an increasingly more diverse society. A more equitable allocation of resources is essential for the Federal Government to meet its responsibility to provide an equal educational opportunity for all individuals.

[(ii) America's racial profile is rapidly changing. While the rate of increase for white Americans is 3.2 percent, the rate of increase for racial and ethnic minorities is much higher: 38.6 percent for Hispanics, 14.6 percent for African-Americans, and 40.1 percent for Asians and other ethnic groups.

[(iii) By the year 2000, this Nation will have 260,000,000 people, one of every three of whom will be either African-American, Hispanic, or Asian-American.

[(iv) Taken together as a group, it is a more frequent phenomenon for minorities to comprise the majority of public school students. Large city school populations are overwhelmingly minority, e.g., Miami, 71 percent; Philadelphia, 73 percent; Baltimore, 80 percent.

[(v) Recruitment efforts within special education at the level of preservice, continuing education, and practice must focus on bringing larger numbers of minorities into the profession in order to provide appropriate practitioner knowledge, role models, and sufficient manpower to address the clearly changing demography of special education.

[(vi) The limited English proficient population is the fastest growing in our Nation, and the growth is occurring in many parts of our Nation. In the Nation's 2 largest school districts, limited-English students make up almost half of all students initially entering school at the kindergarten level. Studies have documented apparent discrepancies in the levels of referral and placement of limited-English proficient children in special education. The Department of Education has found that services provided to limited-English proficient students often do not respond primarily to the pupil's academic needs. These trends pose special challenges for special education in the referral, assessment, and services for our Nation's students from non-English language backgrounds.

[(B)(i) Greater efforts are needed to prevent the intensification of problems connected with mislabeling and high dropout rates among minority children with disabilities.

【(ii) More minority children continue to be served in special education than would be expected from the percentage of minority students in the general school population.

【(iii) Poor African-American children are 3.5 times more likely to be identified by their teacher as mentally retarded than their white counterpart.

【(iv) Although African-Americans represent 12 percent of elementary and secondary enrollments, they constitute 28 percent of total enrollments in special education.

【(v) The drop out rate is 68 percent higher for minorities than for whites.

【(vi) More than 50 percent of minority students in large cities drop out of school.

【(C)(i) The opportunity for full participation in awards for grants and contracts; boards of organizations receiving funds under this Act; and peer review panels; and training of professionals in the area of special education by minority individuals, organizations, and historically Black colleges and universities is essential if we are to obtain greater success in the education of minority children with disabilities.

【(ii) In 1989, of the 661,000 college and university professors, 4.6 percent were African-American and 3.1 percent were Hispanic. Of the 3,600,000 teachers, prekindergarten through high school, 9.4 percent were African-American and 3.9 percent were Hispanic.

【(iii) Students from minority groups comprise more than 50 percent of K-12 public school enrollment in seven States yet minority enrollment in teacher training programs is less than 15 percent in all but six States.

【(iv) As the number of African-American and Hispanic students in special education increases, the number of minority teachers and related service personnel produced in our colleges and universities continues to decrease.

【(v) Ten years ago, 12.5 percent of the United States teaching force in public elementary and secondary schools were members of a minority group. Minorities comprised 21.3 percent of the national population at that time and were clearly underrepresented then among employed teachers. Today, the elementary and secondary teaching force is 3 to 5 percent minority, while one-third of the students in public schools are minority children.

【(vi) As recently as 1984-85, Historically Black Colleges and Universities (HBCUs) supplied nearly half of the African-American teachers in the Nation. However, in 1988, HBCUs received only 2 percent of the discretionary funds for special education and related services personnel training.

【(vii) While African-American students constitute 28 percent of total enrollment in special education, only 11.2 percent of individuals enrolled in preservice training programs for special education are African-American.

【(viii) In 1986-87, of the degrees conferred in education at the B.A., M.A., and Ph.D levels, only 6, 8, and 8 percent, respectively, were awarded to African-American or Hispanic students.

[(D) Minorities and underserved persons are socially disadvantaged because of the lack of opportunities in training and educational programs, undergirded by the practices in the private sector that impede their full participation in the mainstream of society.

[(2) The Congress further finds that these conditions can be greatly improved by providing opportunities for the full participation of minorities through the implementation of the following recommendations:

[(A) Implementation of a policy to mobilize the Nation's resources to prepare minorities for careers in special education and related services.

[(B) This policy should focus on—

[(i) the recruitment of minorities into teaching; and

[(ii) financially assisting HBCUs and other institutions of higher education (whose minority student enrollment is at least 25 percent) to prepare students for special education and related service careers.

[(C)(i) The Secretary shall develop a plan for providing outreach services to the entities described in clause (ii) in order to increase the participation of such entities in competitions for grants, contracts, and cooperative agreements under any of parts C through G.

[(ii) The entities referred to in clause (i) are—

[(I) Historically Black Colleges and Universities and other institutions of higher education whose minority student enrollment is at least 25 percent;

[(II) eligible institutions as defined in section 312 of the Higher Education Act of 1965;

[(III) nonprofit and for-profit agencies at least 51 percent owned or controlled by one or more minority individuals; and

[(IV) underrepresented populations.

[(iii) For the purpose of implementing the plan required in clause (i), the Secretary shall, for each of the fiscal years 1991 through 1994, expend 1 percent of the funds appropriated for the fiscal year involved for carrying out parts C through G.

[(3) The Secretary shall exercise his/her utmost authority, resourcefulness, and diligence to meet the requirements of this subsection.

[(4) Not later than January 31 of each year, starting with fiscal year 1991, the Secretary shall submit to Congress a final report on the progress toward meeting the goals of this subsection during the preceding fiscal year. The report shall include—

[(i) a full explanation of any progress toward meeting the goals of this subsection; and

[(ii) a plan to meet the goals, if necessary.

[PART B—ASSISTANCE FOR EDUCATION OF ALL CHILDREN WITH DISABILITIES

[SETTLEMENTS AND ALLOCATIONS

[SEC. 611. (a)

[(1) Except as provided in paragraph (5), the maximum amount of the grant for which a State is entitled under this section for any fiscal year is—

[(A) the sum of—

[(i) the number of children with disabilities in the State, aged 6 through 21, who are receiving special education and related services, as determined under paragraph (3); and

[(ii) if the State is eligible for a grant under section 619, the number of such children in the State, aged 3 through 5; multiplied by

[(B) 40 percent of the average per-pupil expenditure in public elementary and secondary schools in the United States.

[(2) For the purpose of this section, the term “State” means each of the 50 States, the District of Columbia, and the Commonwealth of Puerto Rico.

[(3) The number of children with disabilities receiving special education and related services in any fiscal year shall be equal to the number of such children receiving special education and related services on December 1 of the fiscal year preceding the fiscal year for which the determination is made.

[(4) For purposes of paragraph (1)(B), the term “average per pupil expenditure”, in the United States, means the aggregate current expenditures, during the second fiscal year preceding the fiscal year for which the computation is made (or, if satisfactory data for such year are not available at the time of computation, then during the most recent preceding fiscal year for which satisfactory data are available) of all local educational agencies in the United States (which, for purposes of this subsection, means the fifty States and the District of Columbia), as the case may be, plus any direct expenditures by the State for operation of such agencies (without regard to the source of funds from which either of such expenditures are made), divided by the aggregate number of children in average daily attendance to whom such agencies provided free public education during such preceding year.

[(5)(A) In determining the allotment of each State under paragraph (1), the Secretary may not count—

[(i) children with disabilities aged three to seventeen, inclusive, in such State under paragraph (1)(A) to the extent the number of such children is greater than 12 percent of the number of all children aged three to seventeen, inclusive, in such State, or the combined percentage of such children counted by the Secretary for the purpose of making fiscal year 1994 allocations under this section and under subpart 2 of part D of chapter 1 of title I of the Elementary and Secondary Education Act of 1965 (as such subpart was in effect on the day preceding the date of enactment of the Improving America’s Schools Act of 1994), whichever is greater, if the State serves all children with disabilities aged three to five, inclusive, in the State pursuant to State law or practice or the order of any court, and

[(ii) children with disabilities aged five to seventeen, inclusive, in such State under paragraph (1)(A) to the extent the number of such children is greater than 12 percent of the number of all children aged five to seventeen, inclusive, in such State, or the combined percentage of such children counted by the Secretary for the purpose of making fiscal year 1994 allocations under this section and under subpart 2 of part D of chapter 1 of title I of the Elementary and Secondary Education Act of 1965 (as such subpart was in effect on the day preceding the date of enactment of the Improving America's Schools Act of 1994), whichever is greater, if the State does not serve all children with disabilities aged three to five, inclusive, in the State pursuant to State law or practice or the order of any court.

[(B) For purposes of subparagraph (A), the number of children aged three to seventeen, inclusive, in any State shall be determined by the Secretary on the basis of the most recent satisfactory data available to the Secretary.

[(b)(1) Notwithstanding subsections (a) and (g), no State shall receive an amount under this section for any of the fiscal years 1995 through 1999 that is less than the sum of the amount such State received for fiscal year 1994 under—

[(A) this section; and

[(B) subpart 2 of part D of chapter 1 of title I of the Elementary and Secondary Education Act of 1965 (as such subpart was in effect on the day preceding the date of enactment of the Improving America's Schools Act of 1994) for children with disabilities aged 3 through 21.

[(2) If, for fiscal year 1998 or 1999, the number of children determined under subsection (a)(3) for any State is less than the total number of children with disabilities, aged 3 through 21, counted for that State's fiscal year 1994 grants under this section and under subpart 2 of part D of chapter 1 of title I of the Elementary and Secondary Education Act of 1965 (as such subpart was in effect on the day preceding the date of enactment of the Improving America's Schools Act of 1994), then the amount determined under paragraph (1) for that State shall be reduced by the same percentage by which the number of those children so declined.

[(3)(A) If the sums made available under this part for any fiscal year are insufficient to pay the full amounts that all States are eligible to receive under paragraphs (1) and (2) for such year, the Secretary shall ratably reduce the allocations to such States for such year.

[(B) If additional funds become available for making payments under paragraphs (1) and (2) for such fiscal year, allocations that were reduced under subparagraph (A) shall be increased on the same basis as such allocations were reduced.

[(c)

[(1) Of the funds received under subsection (a) by any State for any fiscal year—

[(A) a State may use not more than 25 percent of such funds in accordance with paragraph (2); and

[(B) except as provided in paragraph (4), the State shall distribute at least 75 percent of such funds to local educational agencies and intermediate educational units, in accordance with subsection (d), for use in accordance with priorities established under section 612(3).

[(2)

[(A) From the funds that any State may use under paragraph (1)(A) for any fiscal year, the State—

[(i) may use 5 percent of the funds received under this section or \$450,000, whichever is greater, for administrative costs related to carrying out sections 612 and 613; and

[(ii) shall use the remainder—

[(I) to provide support services and direct services, subject to subparagraph (B), in accordance with priorities established under section 612(3); and

[(II) for the administrative costs of monitoring and complaint investigation, but only to the extent that such costs exceed the costs of administration incurred during fiscal year 1985.

[(B) The amount expended by any State from the funds available to such State under paragraph (1)(A) in any fiscal year for the provision of support services or for the provision of direct services shall be matched on a program basis by such State, from funds other than Federal funds, for the provision of support services or for the provision of direct services for the fiscal year involved.

[(3) The provisions of section 613(a)(9) shall not apply with respect to amounts available for use by any State under paragraph (2).

[(4)(A) No funds shall be distributed by any State under this subsection in any fiscal year to any local educational agency or intermediate educational unit in such State if—

[(i) such local educational agency or intermediate educational unit is entitled, under subsection (d), to less than \$7,500 for such fiscal year; or

[(ii) such local educational agency or intermediate educational unit has not submitted an application for such funds which meets the requirements of section 614.

[(B) Whenever the provisions of subparagraph (A) apply, the State involved shall use such funds to assure the provision of a free appropriate education to children with disabilities residing in the area served by such local educational agency or such intermediate educational unit. The provisions of paragraph (2)(B) shall not apply to the use of such funds.

[(d)(1) From the total amount of funds available for any fiscal year under subsection (c)(1)(B), the State shall provide to each local educational agency or intermediate educational unit an amount that bears the same ratio to such total amount as the number of children, aged 3 through 21, determined under subsection (a)(3) for such agency or unit bears to the total number of such children determined for all such agencies and units that apply for such funds.

[(2)(A) To the extent necessary, the State—

[(i) shall use funds available under subsection (c)(2)(A)(ii) to ensure that each State agency that received funds for fiscal year 1994 under subpart 2 of part D of chapter 1 of title I of the Elementary and Secondary Education Act of 1965 (as such subpart was in effect on the day preceding the date of enactment of the Improving America's Schools Act of 1994) receives, from the sum of such funds and funds provided under paragraph (1), an amount equal to—

[(I) the number of children, aged 6 through 21, determined under subsection (a)(3) for such agency; multiplied by

[(II) the per-child amount provided under such subpart for fiscal year 1994; and

[(ii) may use such funds to ensure that each local educational agency that received for fiscal year 1994 under such subpart for children who had transferred from a State-owned, State-operated, or State-supported school or program assisted under such subpart receives, from the sum of such funds and funds provided under paragraph (1), an amount for each such child, aged 3 through 21, determined under subsection (a)(3) for such agency, equal to the per-child amount the agency received under such subpart for fiscal year 1994.

[(B) For the purpose of subparagraph (A), the number of children determined under subsection (a)(3) for any State agency or local educational agency shall not exceed the number of children aged 3 through 21 for whom such agency received funds under such subpart for such fiscal year.

[(e)

[(1) The jurisdictions to which this subsection applies are Guam, American Samoa, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, and Palau (until the Compact of Free Association with the Government of Palau takes effect).

[(2) Each jurisdiction to which this subsection applies shall be entitled to a grant for the purposes set forth in section 601(c) in an amount equal to an amount determined by the Secretary in accordance with criteria based on respective needs, except that the aggregate of the amount to which such jurisdictions are so entitled for any fiscal year shall not exceed an amount equal to 1 per centum of the aggregate of the amounts available to all States under this part for that fiscal year. If the aggregate of the amounts, determined by the Secretary pursuant to the preceding sentence, to be so needed for any fiscal year exceeds an amount equal to such 1 per centum limitation, the entitlement of each such jurisdiction shall be reduced proportionately until such aggregate does not exceed such 1 per centum limitation.

[(3) The amount expended for administration by each jurisdiction under this subsection shall not exceed 5 per centum of the amount allotted to such jurisdiction for any fiscal year, or \$35,000, whichever is greater.

[(f)(1) The Secretary shall make payments to the Secretary of the Interior to meet the need for assistance for the education of children with disabilities on reservations aged 5–21, inclusive, enrolled

in elementary and secondary schools for Indian children operated or funded by the Secretary of the Interior. In the case of Indian students ages 3–5, inclusive, who are enrolled in programs affiliated with Bureau of Indian Affairs (hereafter in this subsection referred to as “BIA”) schools and that are required by the States in which such schools are located to attain or maintain State accreditation, and which schools have such accreditation prior to the date of enactment of the Individuals with Disabilities Education Act Amendments of 1991, the school shall be allowed to count those children for the purpose of distribution of the funds provided under this paragraph to the Secretary of the Interior. The Secretary of the Interior shall be responsible for meeting all of the requirements of this part for these children, in accordance with paragraph (3). The amount of such payment for any fiscal year shall be 1 percent of the aggregate amounts available for all States under this section for that fiscal year.

[(2) With respect to all other children aged 3–21, inclusive, on reservations, the State educational agency shall be responsible for ensuring that all of the requirements of this part are implemented.

[(3) The Secretary of the Interior may receive an allotment under paragraph (1) only after submitting to the Secretary of Education an application that—

[(A) meets the appropriate requirements, as determined by the Secretary of Education, of sections 612 (including monitoring and evaluation activities), 613, and 614(a);

[(B) includes a description of how the Secretary of the Interior will coordinate the provision of services under this part with local educational agencies, tribes and tribal organizations, and other private and Federal service providers;

[(C) includes an assurance that there are public hearings, adequate notice of such hearings, and an opportunity for comment afforded to members of tribes, tribal governing bodies, and affected local school boards before the adoption of the policies, programs, and procedures required under subparagraph (A);

[(D) includes an assurance that the Secretary of the Interior will provide such information as the Secretary of Education may require to comply with section 618(b)(1), including data on the number of children and youth with disabilities served and the types and amounts of services provided and needed and this information shall be included in the annual report of the Secretary of Education to Congress required in section 618(g);

[(E) includes an assurance that, by October 1, 1992, the Secretaries of the Interior and Health and Human Services will enter into a memorandum of agreement, to be provided to the Secretary of Education, for the coordination of services, resources, and personnel between their respective Federal, State, and local offices and with State and local educational agencies and other entities to facilitate the provision of services to Indian children with disabilities residing on or near reservations. Such agreement shall provide for the apportionment of responsibilities and costs including, but not limited to, child find, evaluation, diagnosis, remediation or therapeutic measures, and (where appropriate) equipment and medical/personal sup-

[(F) includes an assurance that the Department of the Interior will cooperate with the Department of Education in its exercise of monitoring and oversight of this application, and any agreements entered into between the Secretary of the Interior and other entities under this Act, and will fulfill its duties under this Act.

Section 616(a) shall apply to any such application.

[(4)(A) Beginning with funds appropriated under section 611(a) for fiscal year 1992, the Secretary shall, subject to this paragraph, make payments to the Secretary of the Interior to be distributed to tribes or tribal organizations (as defined under section 4 of the Indian Self-Determination and Education Assistance Act) or consortiums of the above to provide for the coordination of assistance for special education and related services for children with disabilities aged 3–5, inclusive, on reservations served by elementary and secondary schools for Indian children operated or funded by the Department of the Interior. The amount of such payments under subparagraph (B) for any fiscal year shall be .25 percent of the aggregate amounts available for all States under this section for that fiscal year.

[(B) The Secretary of the Interior shall distribute the total amount of the .25 percent under subparagraph (A) in the following manner:

[(i) For the first fiscal year, each tribe or tribal organization shall receive an amount proportionate to the amount of weighted student units for special education programs for BIA operated or funded schools serving such reservation generated under the formula established under section 1128 of the Education Amendments of 1978, divided by the total number of such students in all BIA operated or funded schools.

[(ii) For each fiscal year thereafter, each tribe or tribal organization shall receive an amount based on the number of children with disabilities, ages 3–5, inclusive, residing on reservations as reported annually divided by the total of such children served by all tribes or tribal organizations.

[(C) To receive a payment under this paragraph, the tribe or tribal organization shall submit such figures to the Secretary of the Interior as required to determine the amounts to be allocated under subparagraph (B). This information shall be compiled and submitted to the Secretary of Education.

[(D) The funds received by a tribe or tribal organization shall be used to assist in child find, screening, and other procedures for the early identification of children aged 3–5, inclusive, parent training, and the provision of direct services. These activities may be carried out directly or through contracts or cooperative agreements with the BIA, local educational agencies, and other public or private nonprofit organizations. The tribe or tribal organization is encouraged to involve Indian parents in the development and implementation of these activities. The above entities shall, as appropriate, make referrals to local, State, or Federal entities for the provision of services or further diagnosis.

[(E) To be eligible to receive a grant pursuant to subparagraph (A), the tribe or tribal organization shall make a biennial report to the Secretary of the Interior of activities undertaken under this paragraph, including the number of contracts and cooperative agreements entered into, the number of children contacted and receiving services for each year and the estimated number of children needing services during the 2 years following the one in which the report is made. The Secretary of the Interior shall include a summary of this information on a biennial basis in the report to the Secretary of Education required under this subsection. The Secretary of Education may require any additional information from the Secretary of the Interior.

[(F) The Secretary of the Interior shall offer and, on request, provide technical assistance (especially in the areas of child find, diagnosis, and referral) to State and local educational agencies (where appropriate, intermediate educational units), and tribes and tribal organizations. Such assistance may be provided through its divisions and offices at the national and local level.

[(G) None of the funds allocated under this paragraph can be used by the Secretary of the Interior for administrative purposes, including child count, and the provision of technical assistance.

[(5) Before January 1, 1992, the Secretary of the Interior shall submit to the Committee on Education and Labor of the House of Representatives and the Committee on Labor and Human Resources of the Senate a plan for the coordination of services for all Indian children with disabilities residing on reservations covered under this Act. Such plan shall provide for the coordination of services benefiting these children from whatever source, including tribes, the Indian Health Service, other BIA divisions, and other Federal agencies. In developing such a plan, the Secretary of the Interior shall consult with all interested and involved parties. It shall be based upon the needs of the children and the system best suited for meeting those needs, and may involve the establishment of cooperative agreements between the BIA, other Federal agencies, and other entities. Such plan shall also be distributed upon request to States, State and local educational agencies, and other agencies providing services to infants, toddlers, children, and youth with disabilities, to tribes, and to other interested parties.

[(6) To meet the requirements of sections 613(a)(12) of this Act, the Secretary of the Interior shall establish, within 6 months of the date of the enactment of the Individuals with Disabilities Education Act Amendments of 1991, under the Bureau of Indian Affairs (BIA), an advisory board composed of individuals involved in or concerned with the education and provision of services to Indian infants, toddlers, children, and youth with disabilities, including Indians with disabilities, Indian parents or guardians of such children, teachers, service providers, State and local educational officials, representatives of tribes or tribal organizations, representatives from State Interagency Coordinating Councils in States having reservations, and other members representing the various divisions and entities of the BIA. The chairperson shall be selected by the Secretary of the Interior. The advisory board shall—

of education for infants, toddlers, children, and youth with disabilities;

[(B) advise and assist the Secretary of the Interior in the performance of the Secretary's responsibilities described in this subsection;

[(C) develop and recommend policies concerning effective inter- and intra-agency collaboration, including modifications to regulations, and the elimination of barriers to inter- and intra-agency programs and activities;

[(D) provide assistance and disseminate information on best practices, effective program coordination strategies, and recommendations for improved educational programming for Indian infants, toddlers, children, and youth with disabilities; and

[(E) provide assistance in the preparation of information required under paragraph (3)(D).

[(g)(1)(A) If the sums appropriated under subsection (h) for any fiscal year are not sufficient to pay in full the total of the amounts that all States are eligible to receive under subsection (a), each such amount shall be ratably reduced.

[(B) If additional funds become available for making such payments for any fiscal year, such reduced amounts shall be increased on the same basis as such payments were reduced.

[(C) Any State that receives any such additional funds shall distribute such funds in accordance with this section, except that any State that has used funds available under subsection (c)(2)(A)(ii) for the purposes described in subsection (d)(2) may—

[(i) deduct, from the amount that the State would otherwise be required to make available to local educational agencies and intermediate educational units, the same amount of such additional funds as the State so used; and

[(ii) use such funds in accordance with subsection (c)(2)(A)(ii).

[(2)(A) In any fiscal year for which payments have been reduced and additional funds have not been made available under paragraph (1) to pay in full the amounts for which all States are eligible under this section, each State educational agency shall fix dates by which each local educational agency or intermediate educational unit shall report to the State agency the amount of funds available to such agency under this section that such agency estimates such agency will expend.

[(B) The State educational agency shall, in accordance with this section, reallocate any funds that the State educational agency determines will not be used during the period of availability by local educational agencies and intermediate educational units, and by any such agency or unit to which such funds would be available if such agency or unit applied for such funds under this part, to those local educational agencies and intermediate educational units that the State educational agency determines will need, and be able to use, additional funds to carry out approved programs.

[(h) For grants under subsection (a) there are authorized to be appropriated such sums as may be necessary.

[(2) The State has developed a plan pursuant to section 613(b) in effect prior to the date of the enactment of the Education for All Handicapped Children Act of 1975 and submitted not later than August 21, 1975, which will be amended so as to comply with the provisions of this paragraph. Each such amended plan shall set forth in detail the policies and procedures which the State will undertake or has undertaken in order to assure that—

[(B) a free appropriate public education will be available for all children with disabilities between the ages of three and eighteen within the State not later than September 1, 1978, and for all children with disabilities between the ages of three and twenty-one within the State not later than September 1, 1980, except that, with respect to children with disabilities aged three to five and aged eighteen to twenty-one, inclusive, the requirements of this clause shall not be applied in any State if the application of such requirements would be inconsistent with State law or practice, or the order of any court, respecting public education within such age groups in the State;

[(C) all children residing in the State who are disabled, regardless of the severity of their disability, and who are in need of special education and related services are identified, located, and evaluated, and that a practical method is developed and implemented to determine which children are currently receiving needed special education and related services and which children are not currently receiving needed special education and related services;

[(D) policies and procedures are established in accordance with detailed criteria prescribed under section 617(c); and

[(E) any amendment to the plan submitted by the State required by this section shall be available to parents, guardians, and other members of the general public at least thirty days prior to the date of submission of the amendment to the Secretary.

Such materials or procedures shall be provided and administered in the child's native language or mode of communication, unless it clearly is not feasible to do so, and no single procedure shall be the sole criterion for determining an appropriate educational program for a child.

[(6) The State educational agency shall be responsible for assuring that the requirements of this part are carried out and that all educational programs for children with disabilities within the State, including all such programs administered by any other State or local agency, will be under the general supervision of the persons responsible for educational programs for children with disabilities in the State educational agency and shall meet educational standards of the State educational agency. This paragraph shall not be construed to limit the responsibility of agencies other than educational agencies in a State from providing or paying for some or all of the costs of a free appropriate public education to be provided children with disabilities in the State.

[(7) The State shall assure that (A) in carrying out the requirements of this section procedures are established for consultation with individuals involved in or concerned with the education of children with disabilities, including individuals with disabilities and parents or guardians of children with disabilities, and (B) there are public hearings, adequate notice of such hearings, and an opportunity for comment available to the general public prior to adoption of the policies, programs, and procedures required pursuant to the provisions of this section and section 613.

A State educational agency shall disapprove any application submitted by a local educational agency or an intermediate educational unit under subsection (a) if the State educational agency determines that such application does not meet the requirements of subsection (a).

[(2)(A) Whenever a State educational agency, after reasonable notice and opportunity for a hearing, finds that a local educational agency or an intermediate educational unit, in the administration of an application approved by the State educational agency under paragraph (1), has failed to comply with any requirement set forth in such application, the State educational agency, after giving appropriate notice to the local educational agency or the intermediate educational unit, shall—

[(i) make no further payments to such local educational agency or such intermediate educational unit under section 620 until the State educational agency is satisfied that there is no longer any failure to comply with the requirement involved; or

[(ii) take such finding into account in its review of any application made by such local educational agency or such intermediate educational unit under subsection (a).

[(B) The provisions of the last sentence of section 616(a) shall apply to any local educational agency or any intermediate edu-

cational unit receiving any notification from a State educational agency under this paragraph.

[(3) In carrying out its functions under paragraph (1), each State educational agency shall consider any decision made pursuant to a hearing held under section 615 which is adverse to the local educational agency or intermediate educational unit involved in such decision.

[(c)(1) A State educational agency may, for purposes of the consideration and approval of applications under this section, require local educational agencies to submit a consolidated application for payments if such State educational agency determines that any individual application submitted by any such local educational agency will be disapproved because such local educational agency is ineligible to receive payments because of the application of section 611(c)(4)(A)(i) or such local educational agency would be unable to establish and maintain programs of sufficient size and scope to effectively meet the educational needs of children with disabilities.

[(2)(A) In any case in which a consolidated application of local educational agencies is approved by a State educational agency under paragraph (1), the payments which such local educational agencies may receive shall be equal to the sum of payments to which each such local educational agency would be entitled under section 611(d) if an individual application of any such local educational agency had been approved.

[(B) The State educational agency shall prescribe rules and regulations with respect to consolidated applications submitted under this subsection which are consistent with the provisions of paragraph (1) through paragraph (7) of section 612 and section 613(a) and which provide participating local educational agencies with joint responsibilities for implementing programs receiving payments under this part.

[(C) In any case in which an intermediate educational unit is required pursuant to State law to carry out the provisions of this part, the joint responsibilities given to local educational agencies under subparagraph (B) shall not apply to the administration and disbursement of any payments received by such intermediate educational unit. Such responsibilities shall be carried out exclusively by such intermediate educational unit.

[(d) Whenever a State educational agency determines that a local educational agency—

[(1) is unable or unwilling to establish and maintain programs of free appropriate public education which meet the requirements established in subsection (a);

[(2) is unable or unwilling to be consolidated with other local educational agencies in order to establish and maintain such programs; or

[(3) has one or more children with disabilities who can best be served by a regional or State center designed to meet the needs of such children;

the State educational agency shall use the payments which would have been available to such local educational agency to provide special education and related services directly to children with disabilities residing in the area served by such local educational agency. The State educational agency may provide such education and

services in such manner, and at such locations (including regional or State centers), as it considers appropriate, except that the manner in which such education and services are provided shall be consistent with the requirements of this part.

[(e) Whenever a State educational agency determines that a local educational agency is adequately providing a free appropriate public education to all children with disabilities residing in the area served by such agency with State and local funds otherwise available to such agency, the State educational agency may reallocate funds (or such portion of those funds as may not be required to provide such education and services) made available to such agency, pursuant to section 611(d), to such other local educational agencies within the State as are not adequately providing special education and related services to all children with disabilities residing in the areas served by such other local educational agencies.

[(f) Notwithstanding the provisions of subsection (a)(2)(B)(ii), any local educational agency which is required to carry out any program for the education of children with disabilities pursuant to a State law shall be entitled to receive payments under section 611(d) for use in carrying out such program, except that such payments may not be used to reduce the level of expenditures for such program made by such local educational agency from State or local funds below the level of such expenditures for the fiscal year prior to the fiscal year for which such local educational agency seeks such payments.

[(TREATMENT OF CHAPTER 1 STATE AGENCIES

[c. 614A. (a) For the purpose of making payments under sections 611 and 619 of this Act, any State agency that received funds for fiscal year 1994 under subpart 2 of part D of chapter 1 of title I of the Elementary and Secondary Education Act of 1965 (as such subpart was in existence on the day preceding the date of enactment of the Improving America's Schools Act of 1994) shall be treated as if the State agency were a local educational agency.

[(b) Any State agency which desires to receive payments under section 611(d) and section 619(c)(3) for any fiscal year shall submit an application to the State educational agency. Such application shall—

[(1) include an assurance that all children with disabilities who are participating in programs and projects funded under this part receive a free appropriate public education, and that such children and their parents are provided all the rights and procedural safeguards described in this part; and

[(2) meet those requirements of section 614 that the Secretary finds appropriate.

[(c) Section 611(c)(4) shall not apply with respect to a State agency that is eligible for a payment under this part by application of this section.

[(PROCEDURAL SAFEGUARDS

[SEC. 615. (a) Any State educational agency, any local educational agency, and any intermediate educational unit which receives assistance under this part shall establish and maintain procedures in accordance with subsection (b) through subsection (e) of

this section to assure that children with disabilities and their parents or guardians are guaranteed procedural safeguards with respect to the provision of free appropriate public education by such agencies and units.

[(b)(1) The procedures required by this section shall include, but shall not be limited to—

[(A) an opportunity for the parents or guardian of a child with a disability to examine all relevant records with respect to the identification, evaluation, and educational placement of the child, and the provision of a free appropriate public education to such child, and to obtain an independent educational evaluation of the child;

[(B) procedures to protect the rights of the child whenever the parents or guardian of the child are not known, unavailable, or the child is a ward of the State, including the assignment of an individual (who shall not be an employee of the State educational agency, local educational agency, or intermediate educational unit involved in the education or care of the child) to act as a surrogate for the parents or guardian;

[(C) written prior notice to the parents or guardian of the child whenever such agency or unit—

[(i) proposes to initiate or change, or

[(ii) refuses to initiate or change,

the identification, evaluation, or educational placement of the child or the provision of a free appropriate public education to the child;

[(D) procedures designed to assure that the notice required by clause (C) fully informs the parents or guardian, in the parents' or guardian's native language, unless it clearly is not feasible to do so, of all procedures available pursuant to this section; and

[(E) an opportunity to present complaints with respect to any matter relating to the identification, evaluation, or educational placement of the child, or the provision of a free appropriate public education to such child.

[(2) Whenever a complaint has been received under paragraph (1) of this subsection, the parents or guardian shall have an opportunity for an impartial due process hearing which shall be conducted by the State educational agency or by the local educational agency or intermediate educational unit, as determined by State law or by the State educational agency. No hearing conducted pursuant to the requirements of this paragraph shall be conducted by an employee of such agency or unit involved in the education or care of the child.

[(c) If the hearing required in paragraph (2) of subsection (b) of this section is conducted by a local educational agency or an intermediate educational unit, any party aggrieved by the findings and decision rendered in such a hearing may appeal to the State educational agency which shall conduct an impartial review of such hearing. The officer conducting such review shall make an independent decision upon completion of such review.

[(d) Any party to any hearing conducted pursuant to subsections (b) and (c) shall be accorded—

[(1) the right to be accompanied and advised by counsel and by individuals with special knowledge or training with respect to the problems of children with disabilities,

[(2) the right to present evidence and confront, cross-examine, and compel the attendance of witnesses,

[(3) the right to a written or electronic verbatim record of such hearing, and

[(4) the right to written findings of fact and decisions (which findings and decisions shall be made available to the public consistent with the requirements of section 617(c) and shall also be transmitted to the advisory panel established pursuant to section 613(a)(12)).

[(e)(1) A decision made in a hearing conducted pursuant to paragraph (2) of subsection (b) shall be final, except that any party involved in such hearing may appeal such decision under the provisions of subsection (c) and paragraph (2) of this subsection. A decision made under subsection (c) shall be final, except that any party may bring an action under paragraph (2) of this subsection.

[(2) Any party aggrieved by the findings and decision made under subsection (b) who does not have the right to an appeal under subsection (c), and any party aggrieved by the findings and decision under subsection (c), shall have the right to bring a civil action with respect to the complaint presented pursuant to this section, which action may be brought in any State court of competent jurisdiction or in a district court of the United States without regard to the amount in controversy. In any action brought under this paragraph the court shall receive the records of the administrative proceedings, shall hear additional evidence at the request of a party, and, basing its decision on the preponderance of the evidence, shall grant such relief as the court determines is appropriate.

[(3)(A) Except as provided in subparagraph (B), during the pendency of any proceedings conducted pursuant to this section, unless the State or local educational agency and the parents or guardian otherwise agree, the child shall remain in the then current educational placement of such child, or, if applying for initial admission to a public school, shall, with the consent of the parents or guardian, be placed in the public school program until all such proceedings have been completed.

[(B)(i) Except as provided in clause (iii), if the proceedings conducted pursuant to this section involve a child with a disability who is determined to have brought a weapon to school under the jurisdiction of such agency, then the child may be placed in an interim alternative educational setting, in accordance with State law, for not more than 45 days.

[(ii) The interim alternative educational setting described in clause (i) shall be decided by the individuals described in section 602(a)(20).

[(iii) If a parent or guardian of a child described in clause (i) requests a due process hearing pursuant to paragraph (2) of subsection (b), then the child shall remain in the alternative educational setting described in such clause during the pendency of any proceedings conducted pursuant to this section, un-

less the parents and the local educational agency agree otherwise.

[(iv) For the purpose of this section, the term “weapon” means a firearm as such term is defined in section 921 of title 18, United States Code.

[(4)(A) The district courts of the United States shall have jurisdiction of actions brought under this subsection without regard to the amount in controversy.

[(B) In any action or proceeding brought under this subsection, the court, in its discretion, may award reasonable attorneys’ fees as part of the costs to the parents or guardian of a child or youth with a disability who is the prevailing party.

[(C) For the purpose of this subsection, fees awarded under this subsection shall be based on rates prevailing in the community in which the action or proceeding arose for the kind and quality of services furnished. No bonus or multiplier may be used in calculating the fees awarded under this subsection.

[(D) No award of attorneys’ fees and related costs may be made in any action or proceeding under this subsection for services performed subsequent to the time of a written offer of settlement to a parent or guardian, if—

[(i) the offer is made within the time prescribed by Rule 68 of the Federal Rules of Civil Procedure or, in the case of an administrative proceeding, at any time more than ten days before the proceeding begins;

[(ii) the offer is not accepted within ten days; and

[(iii) the court or administrative officer finds that the relief finally obtained by the parents or guardian is not more favorable to the parents or guardian than the offer of settlement.

[(E) Notwithstanding the provisions of subparagraph (D), an award of attorneys’ fees and related costs may be made to a parent or guardian who is the prevailing party and who was substantially justified in rejecting the settlement offer.

[(F) Whenever the court finds that—

[(i) the parent or guardian, during the course of the action or proceeding, unreasonably protracted the final resolution of the controversy;

[(ii) the amount of the attorneys’ fees otherwise authorized to be awarded unreasonably exceeds the hourly rate prevailing in the community for similar services by attorneys of reasonably comparable skill, experience, and reputation; or

[(iii) the time spent and legal services furnished were excessive considering the nature of the action or proceeding, the court shall reduce, accordingly, the amount of the attorneys’ fees awarded under this subsection.

[(G) The provisions of subparagraph (F) shall not apply in any action or proceeding if the court finds that the State or local educational agency unreasonably protracted the final resolution of the action or proceeding or there was a violation of section 615 of this Act.

[(f) Nothing in this title shall be construed to restrict or limit the rights, procedures, and remedies available under the Constitution, title V of the Rehabilitation Act of 1973, or other Federal statutes protecting the rights of children and youth with disabilities, except

that before the filing of a civil action under such laws seeking relief that is also available under this part, the procedures under subsections (b)(2) and (c) shall be exhausted to the same extent as would be required had the action been brought under this part.

【WITHHOLDING AND JUDICIAL REVIEW

【SEC. 616. (a) Whenever the Secretary, after reasonable notice and opportunity for hearing to the State educational agency involved (and to any local educational agency or intermediate educational unit affected by any failure described in clause (2)), finds—

【(1) that there has been a failure to comply substantially with any provision of section 612 or section 613, or

【(2) that in the administration of the State plan there is a failure to comply with any provision of this part or with any requirements set forth in the application of a local educational agency or intermediate educational unit approved by the State educational agency pursuant to the State plan, the Secretary—

【(A) shall, after notifying the State educational agency, withhold any further payments to the State under this part, and

【(B) may, after notifying the State educational agency, withhold further payments to the State under the Federal programs specified in section 613(a)(2) within the Secretary's jurisdiction, to the extent that funds under such programs are available for the provision of assistance for the education of children with disabilities.

If the Secretary withholds further payments under clause (A) or clause (B) the Secretary may determine that such withholding will be limited to programs or projects under the State plan, or portions thereof, affected by the failure, or that the State educational agency shall not make further payments under this part to specified local educational agencies or intermediate educational units affected by the failure. Until the Secretary is satisfied that there is no longer any failure to comply with the provisions of this part, as specified in clause (1) or clause (2), no further payments shall be made to the State under this part or under the Federal programs specified in section 613(a)(2) within the Secretary's jurisdiction to the extent that funds under such programs are available for the provision of assistance for the education of children with disabilities, or payments by the State educational agency under this part shall be limited to local educational agencies and intermediate educational units whose actions did not cause or were not involved in the failure, as the case may be. Any State educational agency, local educational agency, or intermediate educational unit in receipt of a notice pursuant to the first sentence of this subsection shall, by means of a public notice, take such measures as may be necessary to bring the pendency of an action pursuant to this subsection to the attention of the public within the jurisdiction of such agency or unit.

【(b)(1) If any State is dissatisfied with the Secretary's final action with respect to its State plan submitted under section 613, such State may, within sixty days after notice of such action, file with the United States court of appeals for the circuit in which such State is located a petition for review of that action. A copy of

the petition shall be forthwith transmitted by the clerk of the court to the Secretary. The Secretary thereupon shall file in the court the record of the proceedings upon which the Secretary's action was based, as provided in section 2112 of title 28, United States Code.

[(2) The findings of fact by the Secretary, if supported by substantial evidence, shall be conclusive; but the court, for good cause shown, may remand the case to the Secretary to take further evidence, and the Secretary may thereupon make new or modified findings of fact and may modify the Secretary's previous action, and shall file in the court the record of the further proceedings. Such new or modified findings of fact shall likewise be conclusive if supported by substantial evidence.

[(3) Upon the filing of such petition, the court shall have jurisdiction to affirm the action of the Secretary or to set it aside, in whole or in part. The judgment of the court shall be subject to review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of title 28, United States Code.

[(c)(1) The Secretary shall make grants to, or enter into contracts or cooperative agreements with, State or local educational agencies, institutions of higher education, public agencies, and private nonprofit organizations, and, when necessary because of the unique nature of the study, private-for-profit organizations, for the purpose of conducting studies, analyses, syntheses, and investigations for improving program management, administration, delivery, and effectiveness necessary to provide full educational opportunities and early interventions for all children with disabilities from birth through age 21. [(3) The Secretary shall develop and implement a process for the on-going identification of national program information needed for improving the management, administration, delivery, and effectiveness of programs and services provided under this Act. The process shall identify implementation issues, desired improvements, and information needed by State and local agencies to achieve such improvements, and shall be conducted in cooperation with State educational agencies that can ensure broad-based statewide input from each cooperating State. The Secretary shall publish for public comment in the Federal Register every 3 years a program information plan describing such information needs. Such program information plan shall be used to determine the priorities for, and activities carried out under, this subsection to produce, organize, and increase utilization of program information. Such program information plan shall be included in the annual report submitted under section 618 every 3 years.

[(4) In providing funds under this subsection, the Secretary shall require recipients to prepare their procedures, findings, and other relevant information in a form that will maximize their dissemination and use, especially through dissemination networks and mechanisms authorized by this Act, and in a form for inclusion in the annual report to Congress authorized under subsection (g).

[(D) conducting pursuant to this subsection a study that examines the factors that have contributed to the decline in the number of children classified as mentally retarded since the implementation of this Act, and examines the current disparity among States in the percentage of children so classified.

[(E) conducting pursuant to this subsection a study that examines the extent to which out-of-community residential programs are used for children and youth who are seriously emo-

[(3) In the annual report under paragraph (1) for fiscal year 1991 (which is published in 1992) and for every third year thereafter, the Secretary shall include in the annual report—

[(A) an index of all current projects funded under parts C through G; and

[(B) data reported under sections 622 and 634.

[(4) The Secretary shall include in each annual report under paragraph (1) the results of research and related activities conducted under part E that the Secretary determines are relevant to the effective implementation of this Act.

[(5) The Secretary shall, in consultation with the National Council on Disability and the Bureau of Indian Affairs Advisory Committee for Exceptional Children, include a description of the status of early intervention services for infants and toddlers with disabilities from birth through age 2, and special education and related services to children with disabilities from 3 through 5 years of age (including those receiving services through Head Start, developmental disabilities programs, crippled children's services, mental health/mental retardation agencies, and State child-development centers and private agencies under contract with local schools).

[(h) There are authorized to be appropriated \$12,000,000 for fiscal year 1991 and such sums as may be necessary for fiscal years 1992 through 1994 to carry out the purposes of this section and not more than 30 percent may be used to carry out the purposes of subsection (e) of this section.

The Secretary shall revise the count of deaf-blind children and youth to reflect the most accurate count.

[(3) The Secretary shall summarize these data for submission in the annual report required under section 618.

[(d) The Secretary shall make a grant, or enter into a contract or cooperative agreement, for a national clearinghouse for children and youth with deaf-blindness—

[(1) to identify, coordinate, and disseminate information on deaf-blindness, emphasizing information concerning effective practices in working with deaf-blind infants, toddlers, children, and youth;

[(2) to interact with educators, professional groups, and parents to identify areas for programming, materials development, training, and expansion of specific services;

[(3) to maintain a computerized data base on local, regional, and national resources; and

[(A) For the first fiscal year, each tribe or tribal organization shall receive an amount proportionate to the amount of weighted student units for special education programs for BIA operated or funded schools serving such reservation generated under the formula established under section 1128 of the Education Amendments of 1978, divided by the total number of such students in all BIA operated or funded schools.

[(B) For each fiscal year thereafter, each tribe or tribal organization shall receive an amount based on the number of infants and toddlers residing on the reservation as determined annually divided by the total of such children served by all tribes or tribal organizations.

[(c)

[(1) Except as provided in paragraphs (3), (4), and (5) from the funds remaining for each fiscal year after the reservation and payments under subsections (a) and (b), the Secretary shall first allot to each State an amount that bears the same ratio to the amount of such remainder as the number of infants and toddlers in the State bears to the number of infants and toddlers in all States.

[(2) For fiscal year 1995 only, the Secretary shall allot \$34,000,000 of the remaining funds described in paragraph (1) among the States in proportion to their relative numbers of infants and toddlers with disabilities who—

[(3) Except as provided in paragraphs (4) and (5), no State shall receive an amount under this section for any fiscal year that is less than the greater of—

[(B) \$500,000.

[(4)(A) Except as provided in paragraph (5), no State shall receive an amount under this section for any of the fiscal years 1995 through 1999 that is less than the sum of the amount such State received for fiscal year 1994 under—

[(B) If, for fiscal year 1998 or 1999, the number of infants and toddlers in any State, as determined under paragraph (1), is less than the number of infants and toddlers so determined for fiscal year 1994, the amount determined under subparagraph (A) for that State shall be reduced by the same percentage by which the number of those infants and toddlers so declined.

[(5)(A) If the sums made available under this part for any fiscal year are insufficient to pay the full amounts that all States are eligible to receive under this subsection for such year, the Secretary shall ratably reduce the allocations to such States for such year.

[(B) If additional funds become available for making payments under this subsection for such fiscal year, allocations that were reduced under subparagraph (A) shall be increased on the same basis as such allocations were reduced.

[(6) For the purpose of paragraph (1)—

[(A) the terms “infants” and “toddlers” mean children from birth to age 2, inclusive, and

[(B) the term “State” does not include the jurisdictions described in subsection (a).

[(d) If any State elects not to receive its allotment under subsection (c)(1), the Secretary shall reallot, among the remaining States, amounts from such State in accordance with such subsection.

AUTHORIZATION OF APPROPRIATIONS

[SEC. 686. There are authorized to be appropriated to carry out this part \$220,000,000 for fiscal year 1992, and such sums as may be necessary for each of the fiscal years 1993 and 1994.

[PART I—FAMILY SUPPORT

[SEC. 701. SHORT TITLE.

[This part may be cited as the “Families of Children With Disabilities Support Act of 1994”.

[SEC. 702. FINDINGS, PURPOSES, AND POLICY.

[(a) FINDINGS.—The Congress makes the following findings:

[(1) It is in the best interest of our Nation to preserve, strengthen, and maintain the family.

[(2) Families are the greatest natural resource available to their children and are the major providers of support, care, and training of their children.

[(3) Families of children with disabilities enrich the lives of all citizens through the contributions of such families to the economic, health, and social fabric of their community, State, and Nation.

[(4) A growing number of families are searching for ways to empower themselves to raise their children with disabilities at home and in their communities. Supporting such families to enable them to care for their children with disabilities at home is efficient and can be cost-effective.

[(5) Children, including children with disabilities, benefit from enduring family relationships in a nurturing home environment.

[(6) Many families experience exceptionally high financial outlays and significant physical and emotional challenges in meeting the special needs of their children with disabilities.

[(7) There are financial disincentives for families to care for their children with disabilities at home.

[(8) Most families of children with disabilities do not have access to family-centered and family-directed services to support such families in their efforts to care for their children with disabilities at home.

[(9) There is a need in each State for a comprehensive, coordinated, interagency system of family support for families of children with disabilities that is family-centered and family-directed, is easily accessible, avoids duplication, uses existing resources more efficiently, and prevents gaps in services to families in all areas of the State.

[(10) The goals of the Nation properly include the goal of providing families of children with disabilities the family support necessary to accomplish the following:

[(A) To support the family.

(c) *FINDINGS.—The Congress finds the following:*

(1) *Disability is a natural part of the human experience and in no way diminishes the right of individuals to participate in or contribute to society. Improving educational results for children with disabilities is an essential element of our national policy of ensuring equality of opportunity, full participation, independent living, and economic self-sufficiency for individuals with disabilities.*

(2) *Before the date of the enactment of the Education for All Handicapped Children Act of 1975 (Public Law 94-142)—*

(A) *the special educational needs of children with disabilities were not being fully met;*

(B) *more than one-half of the children with disabilities in the United States did not receive appropriate educational services that would enable such children to have full equality of opportunity;*

(C) 1,000,000 of the children with disabilities in the United States were excluded entirely from the public school system and did not go through the educational process with their peers;

(D) there were many children with disabilities throughout the United States participating in regular school programs whose disabilities prevented such children from having a successful educational experience because their disabilities were undetected; and

(E) because of the lack of adequate services within the public school system, families were often forced to find services outside the public school system, often at great distance from their residence and at their own expense.

(3) Since the enactment and implementation of the Education for All Handicapped Children Act of 1975, this Act has been successful in ensuring children with disabilities and the families of such children access to a free appropriate public education and in improving educational results for children with disabilities.

(4) However, the implementation of this Act has been impeded by low expectations, and an insufficient focus on applying replicable research on proven methods of teaching and learning for children with disabilities.

(5) Over 20 years of research and experience has demonstrated that the education of children with disabilities can be made more effective by—

(A) having high expectations for such children and ensuring their access in the general curriculum to the maximum extent possible;

(B) strengthening the role of parents and ensuring that families of such children have meaningful opportunities to participate in the education of their children at school and at home;

(C) coordinating this Act with other local, educational service agency, State, and Federal school improvement efforts in order to ensure that such children benefit from such efforts and that special education can become a service for such children rather than a place where they are sent;

(D) providing appropriate special education and related services and aids and supports in the regular classroom to such children, whenever appropriate;

(E) supporting high-quality, intensive professional development for all personnel who work with such children in order to ensure that they have the skills and knowledge necessary to enable them—

(i) to meet developmental goals and, to the maximum extent possible, those challenging expectations that have been established for all children; and

(ii) to be prepared to lead productive, independent, adult lives, to the maximum extent possible;

(F) providing incentives for whole-school approaches and pre-referral intervention to reduce the need to label children as disabled in order to address their learning needs; and

(G) focusing resources on teaching and learning while reducing paperwork and requirements that do not assist in improving educational results.

(6) While States, local educational agencies, and educational service agencies are responsible for providing an education for all children with disabilities, it is in the national interest that the Federal Government have a role in assisting State and local efforts to educate children with disabilities in order to improve results for such children and to ensure equal protection of the law.

(7)(A) The Federal Government must be responsive to the growing needs of an increasingly more diverse society. A more equitable allocation of resources is essential for the Federal Government to meet its responsibility to provide an equal educational opportunity for all individuals.

(B) America's racial profile is rapidly changing. Between 1980 and 1990, the rate of increase in the population for white Americans was 6 percent, while the rate of increase for racial and ethnic minorities was much higher: 53 percent for Hispanics, 13.2 percent for African-Americans, and 107.8 percent for Asians.

(C) By the year 2000, this Nation will have 275,000,000 people, nearly one of every three of whom will be either African-American, Hispanic, Asian-American, or American Indian.

(D) Taken together as a group, minority children are comprising an ever larger percentage of public school students. Large-city school populations are overwhelmingly minority, for example: for fall 1993, the figure for Miami was 84 percent; Chicago, 89 percent; Philadelphia, 78 percent; Baltimore, 84 percent; Houston, 88 percent; and Los Angeles, 88 percent.

(E) Recruitment efforts within special education must focus on bringing larger numbers of minorities into the profession in order to provide appropriate practitioner knowledge, role models, and sufficient manpower to address the clearly changing demography of special education.

(F) The limited English proficient population is the fastest growing in our Nation, and the growth is occurring in many parts of our Nation. In the Nation's 2 largest school districts, limited English students make up almost half of all students initially entering school at the kindergarten level. Studies have documented apparent discrepancies in the levels of referral and placement of limited English proficient children in special education. The Department of Education has found that services provided to limited English proficient students often do not respond primarily to the pupil's academic needs. These trends pose special challenges for special education in the referral, assessment, and services for our Nation's students from non-English language backgrounds.

(8)(A) Greater efforts are needed to prevent the intensification of problems connected with mislabeling and high dropout rates among minority children with disabilities.

(B) More minority children continue to be served in special education than would be expected from the percentage of minority students in the general school population.

(C) Poor African-American children are 2.3 times more likely to be identified by their teacher as having mental retardation than their white counterpart.

(D) Although African-Americans represent 16 percent of elementary and secondary enrollments, they constitute 21 percent of total enrollments in special education.

(E) The drop-out rate is 68 percent higher for minorities than for whites.

(F) More than 50 percent of minority students in large cities drop out of school.

(9)(A) The opportunity for full participation in awards for grants and contracts; boards of organizations receiving funds under this Act; and peer review panels; and training of professionals in the area of special education by minority individuals, organizations, and historically black colleges and universities is essential if we are to obtain greater success in the education of minority children with disabilities.

(B) In 1993, of the 915,000 college and university professors, 4.9 percent were African-American and 2.4 percent were Hispanic. Of the 2,940,000 teachers, prekindergarten through high school, 6.8 percent were African-American and 4.1 percent were Hispanic.

(C) Students from minority groups comprise more than 50 percent of K-12 public school enrollment in seven States yet minority enrollment in teacher training programs is less than 15 percent in all but six States.

(D) As the number of African-American and Hispanic students in special education increases, the number of minority teachers and related service personnel produced in our colleges and universities continues to decrease.

(E) Ten years ago, 12 percent of the United States teaching force in public elementary and secondary schools were members of a minority group. Minorities comprised 21 percent of the national population at that time and were clearly underrepresented then among employed teachers. Today, the elementary and secondary teaching force is 13 percent minority, while one-third of the students in public schools are minority children.

(F) As recently as 1991, historically black colleges and universities enrolled 44 percent of the African-American teacher trainees in the Nation. However, in 1993, historically black colleges and universities received only 4 percent of the discretionary funds for special education and related services personnel training under this Act.

(G) While African-American students constitute 28 percent of total enrollment in special education, only 11.2 percent of individuals enrolled in preservice training programs for special education are African-American.

(H) In 1986-87, of the degrees conferred in education at the B.A., M.A., and Ph.D levels, only 6, 8, and 8 percent, respectively, were awarded to African-American or Hispanic students.

(10) Minorities and underserved persons are socially disadvantaged because of the lack of opportunities in training and educational programs, undergirded by the practices in the pri-

vate sector that impede their full participation in the mainstream of society.

(d) **PURPOSES.**—The purposes of this title are—

(1)(A) to ensure that all children with disabilities have available to them a free appropriate public education that emphasizes special education and related services designed to meet their unique needs and prepare them for employment and independent living;

(B) to ensure that the rights of children with disabilities and parents of such children are protected; and

(C) to assist States, localities, educational service agencies, and Federal agencies to provide for the education of all children with disabilities;

(2) to assist States in the implementation of a statewide, comprehensive, coordinated, multidisciplinary, interagency system of early intervention services for infants and toddlers with disabilities and their families;

(3) to ensure that educators and parents have the necessary tools to improve educational results for children with disabilities by supporting systemic-change activities; coordinated research and personnel preparation; coordinated technical assistance, dissemination, and support; and technology development and media services; and

(4) to assess, and ensure the effectiveness of, efforts to educate children with disabilities.

(3) *INCREASE IN FUNDS.*—If the amount available for allocations to States under paragraph (1) is equal to or greater than the amount allocated to the States under this paragraph for the preceding fiscal year, those allocations shall be calculated as follows:

(A)(i) Except as provided in subparagraph (B), the Secretary shall—

(I) allocate to each State the amount it received for the base year;

(II) allocate 85 percent of any remaining funds to States on the basis of their relative populations of children aged 3 through 21 who are of the same age as children with disabilities for whom the State ensures the availability of a free appropriate public education under this part; and

(ii) For the purpose of making grants under this paragraph, the Secretary shall use the most recent population data, including data on children living in poverty, that are available and satisfactory to the Secretary.

(B) Notwithstanding subparagraph (A), allocations under this paragraph shall be subject to the following:

(III) the sum of—

(aa) the amount it received for the preceding fiscal year; and

(bb) that amount multiplied by 90 percent of the percentage increase in the amount appropriated from the preceding fiscal year.

(iii) Notwithstanding clause (ii), no State's allocation under this paragraph shall exceed the sum of—

(I) the amount it received for the preceding fiscal year; and

(II) that amount multiplied by the sum of 1.5 percent and the percentage increase in the amount appropriated.

(C) If the amount available for allocations under this paragraph is insufficient to pay those allocations in full, those allocations shall be ratably reduced, subject to subparagraph (B)(i).

(4) **DECREASE IN FUNDS.**—If the amount available for allocations to States under paragraph (1) is less than the amount allocated to the States under this section for the preceding fiscal year, those allocations shall be calculated as follows:

(A) If the amount available for allocations is greater than the amount allocated to the States for the base year, each State shall be allocated the sum of—

(i) the amount it received for the base year; and

(ii) an amount that bears the same relation to any remaining funds as the increase the State received for the preceding fiscal year over the base year bears to the total of all such increases for all States.

(B)(i) *If the amount available for allocations is equal to or less than the amount allocated to the States for the base year, each State shall be allocated the amount it received for the base year.*

(ii) *If the amount available is insufficient to make the allocations described in clause (i), those allocations shall be ratably reduced.*

(i) *the percentage increase, if any, from the preceding fiscal year in the State's allocation under this section; or*

(3) *FORMER CHAPTER 1 STATE AGENCIES.*—

(F) includes an assurance that the Department of the Interior will cooperate with the Department of Education in its exercise of monitoring and oversight of this application, and any agreements entered into between the Secretary of the Interior and other entities under this part, and will fulfill its duties under this part.

The amount of such payments under subparagraph (B) for any fiscal year shall be equal to 20 percent of the amount allotted under subsection (c).

(B) *DISTRIBUTION OF FUNDS.*—The Secretary of the Interior shall distribute the total amount of the payment under subparagraph (A) by allocating to each tribe or tribal organization an amount based on the number of children with disabilities ages 3 through 5 residing on reservations as reported annually, divided by the total of those children served by all tribes or tribal organizations.

In developing the plan, the Secretary of the Interior shall consult with all interested and involved parties. It shall be based on the needs of the children and the system best suited for meeting those needs, and may involve the establishment of cooperative agreements between the BIA, other Federal agencies, and other entities. The plan shall also be distributed upon request to States, State and local educational agencies, and other agencies providing services to infants, toddlers, and children with disabilities, to tribes, and to other interested parties.

(5) *ESTABLISHMENT OF ADVISORY BOARD.*—To meet the requirements of section 612(a)(21), the Secretary of the Interior shall establish, not later than 6 months after the date of the enactment of the Individuals with Disabilities Education Act Amendments of 1997, under the BIA, an advisory board composed of individuals involved in or concerned with the education and provision of services to Indian infants, toddlers, children, and youth with disabilities, including Indians with disabilities, Indian parents or guardians of such children, teachers, service providers, State and local educational officials, representatives of tribes or tribal organizations, representatives from State Interagency Coordinating Councils under section 641 in States having reservations, and other members representing the various divisions and entities of the BIA. The chairperson shall be selected by the Secretary of the Interior. The advisory board shall—

(A) assist in the coordination of services within the BIA and with other local, State, and Federal agencies in the provision of education for infants, toddlers, and children with disabilities;

(B) advise and assist the Secretary of the Interior in the performance of the Secretary's responsibilities described in this subsection;

(C) develop and recommend policies concerning effective inter- and intra-agency collaboration, including modifications to regulations, and the elimination of barriers to inter- and intra-agency programs and activities;

(D) provide assistance and disseminate information on best practices, effective program coordination strategies, and recommendations for improved educational programming for Indian infants, toddlers, and children with disabilities; and

(E) provide assistance in the preparation of information required under paragraph (2)(D).

(6) *ANNUAL REPORTS.*—

(A) *IN GENERAL.*—The advisory board established under paragraph (5) shall prepare and submit to the Secretary of the Interior and to the Congress an annual report contain-

ing a description of the activities of the advisory board for the preceding year.

(B) *AVAILABILITY.*—The Secretary of the Interior shall make available to the Secretary of Education the report described in subparagraph (A).

(j) *AUTHORIZATION OF APPROPRIATIONS.*—For the purpose of carrying out this part, other than section 619, there are authorized to be appropriated such sums as may be necessary.

SEC. 612. STATE ELIGIBILITY.

(a) *IN GENERAL.*—A State is eligible for assistance under this part for a fiscal year if the State demonstrates to the satisfaction of the Secretary that the State has in effect policies and procedures to ensure that it meets each of the following conditions:

(1) *FREE APPROPRIATE PUBLIC EDUCATION.*—

(A) *IN GENERAL.*—A free appropriate public education is available to all children with disabilities residing in the State between the ages of 3 and 21, inclusive, including children with disabilities who have been suspended or expelled from school.

(B) *LIMITATION.*—The obligation to make a free appropriate public education available to all children with disabilities does not apply with respect to children:

(i) aged 3 through 5 and 18 through 21 in a State to the extent that its application to those children would be inconsistent with State law or practice, or the order of any court, respecting the provision of public education to children in those age ranges; and

(ii) aged 18 through 21 to the extent that State law does not require that special education and related services under this part be provided to children with disabilities who, in the educational placement prior to their incarceration in an adult correctional facility:

(I) were not actually identified as being a child with a disability under section 602(3) of this Act; or

(II) did not have an Individualized Education Program under this part.

(2) *FULL EDUCATIONAL OPPORTUNITY GOAL.*—The State has established a goal of providing full educational opportunity to all children with disabilities and a detailed timetable for accomplishing that goal.

(3) *CHILD FIND.*—

(A) *IN GENERAL.*—All children with disabilities residing in the State, including children with disabilities attending private schools, regardless of the severity of their disabilities, and who are in need of special education and related services, are identified, located, and evaluated and a practical method is developed and implemented to determine which children with disabilities are currently receiving needed special education and related services.

(B) *CONSTRUCTION.*—Nothing in this Act requires that children be classified by their disability so long as each child who has a disability listed in section 602 and who, by reason of that disability, needs special education and re-

lated services is regarded as a child with a disability under this part.

(4) *INDIVIDUALIZED EDUCATION PROGRAM.*—An individualized education program, or an individualized family service plan that meets the requirements of section 636(d), is developed, reviewed, and revised for each child with a disability in accordance with section 614(d).

(5) *LEAST RESTRICTIVE ENVIRONMENT.*—

(A) *IN GENERAL.*—To the maximum extent appropriate, children with disabilities, including children in public or private institutions or other care facilities, are educated with children who are not disabled, and special classes, separate schooling, or other removal of children with disabilities from the regular educational environment occurs only when the nature or severity of the disability of a child is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily.

(B) *ADDITIONAL REQUIREMENT.*—

(i) *IN GENERAL.*—If the State uses a funding mechanism by which the State distributes State funds on the basis of the type of setting in which a child is served, the funding mechanism does not result in placements that violate the requirements of subparagraph (A).

(ii) *ASSURANCE.*—If the State does not have policies and procedures to ensure compliance with clause (i), the State shall provide the Secretary an assurance that it will revise the funding mechanism as soon as feasible to ensure that such mechanism does not result in such placements.

(6) *PROCEDURAL SAFEGUARDS.*—

(A) *IN GENERAL.*—Children with disabilities and their parents are afforded the procedural safeguards required by section 615.

(B) *ADDITIONAL PROCEDURAL SAFEGUARDS.*—Procedures to ensure that testing and evaluation materials and procedures utilized for the purposes of evaluation and placement of children with disabilities will be selected and administered so as not to be racially or culturally discriminatory. Such materials or procedures shall be provided and administered in the child's native language or mode of communication, unless it clearly is not feasible to do so, and no single procedure shall be the sole criterion for determining an appropriate educational program for a child.

(7) *EVALUATION.*—Children with disabilities are evaluated in accordance with subsections (a) through (c) of section 614.

(8) *CONFIDENTIALITY.*—Agencies in the State comply with section 617(c) (relating to the confidentiality of records and information).

(9) *TRANSITION FROM PART C TO PRESCHOOL PROGRAMS.*—Children participating in early-intervention programs assisted under part C, and who will participate in preschool programs assisted under this part, experience a smooth and effective transition to those preschool programs in a manner consistent with

section 637(a)(8). By the third birthday of such a child, an individualized education program or, if consistent with sections 614(d)(2)(B) and 636(d), an individualized family service plan, has been developed and is being implemented for the child. The local educational agency will participate in transition planning conferences arranged by the designated lead agency under section 637(a)(8).

(10) CHILDREN IN PRIVATE SCHOOLS.—

(A) CHILDREN ENROLLED IN PRIVATE SCHOOLS BY THEIR PARENTS.—

(i) *IN GENERAL.*—To the extent consistent with the number and location of children with disabilities in the State who are enrolled by their parents in private elementary and secondary schools, provision is made for the participation of those children in the program assisted or carried out under this part by providing for such children special education and related services in accordance with the following requirements, unless the Secretary has arranged for services to those children under subsection (f):

(I) Amounts expended for the provision of those services by a local educational agency shall be equal to a proportionate amount of Federal funds made available under this part.

(II) Such services may be provided to children with disabilities on the premises of private, including parochial, schools, to the extent consistent with law.

(ii) *CHILD-FIND REQUIREMENT.*—The requirements of paragraph (3) of this subsection (relating to child find) shall apply with respect to children with disabilities in the State who are enrolled in private, including parochial, elementary and secondary schools.

(B) CHILDREN PLACED IN, OR REFERRED TO, PRIVATE SCHOOLS BY PUBLIC AGENCIES.—

(i) *IN GENERAL.*—Children with disabilities in private schools and facilities are provided special education and related services, in accordance with an individualized education program, at no cost to their parents, if such children are placed in, or referred to, such schools or facilities by the State or appropriate local educational agency as the means of carrying out the requirements of this part or any other applicable law requiring the provision of special education and related services to all children with disabilities within such State.

(ii) *STANDARDS.*—In all cases described in clause (i), the State educational agency shall determine whether such schools and facilities meet standards that apply to State and local educational agencies and that children so served have all the rights they would have if served by such agencies.

(C) *PAYMENT FOR EDUCATION OF CHILDREN ENROLLED IN PRIVATE SCHOOLS WITHOUT CONSENT OF OR REFERRAL BY THE PUBLIC AGENCY.*—

(i) *IN GENERAL.*—Subject to subparagraph (A), this part does not require a local educational agency to pay for the cost of education, including special education and related services, of a child with a disability at a private school or facility if that agency made a free appropriate public education available to the child and the parents elected to place the child in such private school or facility.

(ii) *REIMBURSEMENT FOR PRIVATE SCHOOL PLACEMENT.*—If the parents of a child with a disability, who previously received special education and related services under the authority of a public agency, enroll the child in a private elementary or secondary school without the consent of or referral by the public agency, a court or a hearing officer may require the agency to reimburse the parents for the cost of that enrollment if the court or hearing officer finds that the agency had not made a free appropriate public education available to the child in a timely manner prior to that enrollment.

(iii) *LIMITATION ON REIMBURSEMENT.*—The cost of reimbursement described in clause (ii) may be reduced or denied—

(I) if—

(aa) at the most recent IEP meeting that the parents attended prior to removal of the child from the public school, the parents did not inform the IEP team that they were rejecting the placement proposed by the public agency to provide a free appropriate public education to their child, including stating their concerns and their intent to enroll their child in a private school at public expense; or

(bb) 10 business days (including any holidays that occur on a business day) prior to the removal of the child from the public school, the parents did not give written notice to the public agency of the information described in division (aa);

(II) if, prior to the parents' removal of the child from the public school, the public agency informed the parents, through the notice requirements described in section 615(b)(7), of its intent to evaluate the child (including a statement of the purpose of the evaluation that was appropriate and reasonable), but the parents did not make the child available for such evaluation; or

(III) upon a judicial finding of unreasonableness with respect to actions taken by the parents.

(iv) *EXCEPTION.*—Notwithstanding the notice requirement in clause (iii)(I), the cost of reimbursement may

not be reduced or denied for failure to provide such notice if—

(I) the parent is illiterate and cannot write in English;

(II) compliance with clause (iii)(I) would likely result in physical or serious emotional harm to the child;

(III) the school prevented the parent from providing such notice; or

(IV) the parents had not received notice, pursuant to section 615, of the notice requirement in clause (iii)(I).

(11) *STATE EDUCATIONAL AGENCY RESPONSIBLE FOR GENERAL SUPERVISION.*—

(A) *IN GENERAL.*—The State educational agency is responsible for ensuring that—

(i) the requirements of this part are met; and

(ii) all educational programs for children with disabilities in the State, including all such programs administered by any other State or local agency—

(I) are under the general supervision of individuals in the State who are responsible for educational programs for children with disabilities; and

(II) meet the educational standards of the State educational agency.

(B) *LIMITATION.*—Subparagraph (A) shall not limit the responsibility of agencies in the State other than the State educational agency to provide, or pay for some or all of the costs of, a free appropriate public education for any child with a disability in the State.

(C) *EXCEPTION.*—Notwithstanding subparagraphs (A) and (B), the Governor (or another individual pursuant to State law), consistent with State law, may assign to any public agency in the State the responsibility of ensuring that the requirements of this part are met with respect to children with disabilities who are convicted as adults under State law and incarcerated in adult prisons.

(12) *OBLIGATIONS RELATED TO AND METHODS OF ENSURING SERVICES.*—

(A) *ESTABLISHING RESPONSIBILITY FOR SERVICES.*—The Chief Executive Officer or designee of the officer shall ensure that an interagency agreement or other mechanism for interagency coordination is in effect between each public agency described in subparagraph (B) and the State educational agency, in order to ensure that all services described in subparagraph (B)(i) that are needed to ensure a free appropriate public education are provided, including the provision of such services during the pendency of any dispute under clause (iii). Such agreement or mechanism shall include the following:

(i) *AGENCY FINANCIAL RESPONSIBILITY.*—An identification of, or a method for defining, the financial responsibility of each agency for providing services de-

scribed in subparagraph (B)(i) to ensure a free appropriate public education to children with disabilities, provided that the financial responsibility of each public agency described in subparagraph (B), including the State Medicaid agency and other public insurers of children with disabilities, shall precede the financial responsibility of the local educational agency (or the State agency responsible for developing the child's IEP).

(ii) *CONDITIONS AND TERMS OF REIMBURSEMENT.*—The conditions, terms, and procedures under which a local educational agency shall be reimbursed by other agencies.

(iii) *INTERAGENCY DISPUTES.*—Procedures for resolving interagency disputes (including procedures under which local educational agencies may initiate proceedings) under the agreement or other mechanism to secure reimbursement from other agencies or otherwise implement the provisions of the agreement or mechanism.

(iv) *COORDINATION OF SERVICES PROCEDURES.*—Policies and procedures for agencies to determine and identify the interagency coordination responsibilities of each agency to promote the coordination and timely and appropriate delivery of services described in subparagraph (B)(i).

(B) OBLIGATION OF PUBLIC AGENCY.—

(i) *IN GENERAL.*—If any public agency other than an educational agency is otherwise obligated under Federal or State law, or assigned responsibility under State policy or pursuant to subparagraph (A), to provide or pay for any services that are also considered special education or related services (such as, but not limited to, services described in sections 602(1) relating to assistive technology devices, 602(2) relating to assistive technology services, 602(22) relating to related services, 602(29) relating to supplementary aids and services, and 602(30) relating to transition services) that are necessary for ensuring a free appropriate public education to children with disabilities within the State, such public agency shall fulfill that obligation or responsibility, either directly or through contract or other arrangement.

(ii) *REIMBURSEMENT FOR SERVICES BY PUBLIC AGENCY.*—If a public agency other than an educational agency fails to provide or pay for the special education and related services described in clause (i), the local educational agency (or State agency responsible for developing the child's IEP) shall provide or pay for such services to the child. Such local educational agency or State agency may then claim reimbursement for the services from the public agency that failed to provide or pay for such services and such public agency shall reimburse the local educational agency or State agency

pursuant to the terms of the interagency agreement or other mechanism described in subparagraph (A)(i) according to the procedures established in such agreement pursuant to subparagraph (A)(ii).

(C) *SPECIAL RULE.—The requirements of subparagraph (A) may be met through—*

- (i) State statute or regulation;*
- (ii) signed agreements between respective agency officials that clearly identify the responsibilities of each agency relating to the provision of services; or*
- (iii) other appropriate written methods as determined by the Chief Executive Officer of the State or designee of the officer.*

(13) *PROCEDURAL REQUIREMENTS RELATING TO LOCAL EDUCATIONAL AGENCY ELIGIBILITY.—The State educational agency will not make a final determination that a local educational agency is not eligible for assistance under this part without first affording that agency reasonable notice and an opportunity for a hearing.*

(14) *COMPREHENSIVE SYSTEM OF PERSONNEL DEVELOPMENT.—The State has in effect, consistent with the purposes of this Act and with section 635(a)(8), a comprehensive system of personnel development that is designed to ensure an adequate supply of qualified special education, regular education, and related services personnel that meets the requirements for a State improvement plan relating to personnel development in subsections (b)(2)(B) and (c)(3)(D) of section 653.*

(15) *PERSONNEL STANDARDS.—*

(A) *IN GENERAL.—The State educational agency has established and maintains standards to ensure that personnel necessary to carry out this part are appropriately and adequately prepared and trained.*

(B) *STANDARDS DESCRIBED.—Such standards shall—*

- (i) be consistent with any State-approved or State-recognized certification, licensing, registration, or other comparable requirements that apply to the professional discipline in which those personnel are providing special education or related services;*
- (ii) to the extent the standards described in subparagraph (A) are not based on the highest requirements in the State applicable to a specific profession or discipline, the State is taking steps to require retraining or hiring of personnel that meet appropriate professional requirements in the State; and*
- (iii) allow paraprofessionals and assistants who are appropriately trained and supervised, in accordance with State law, regulations, or written policy, in meeting the requirements of this part to be used to assist in the provision of special education and related services to children with disabilities under this part.*

(C) *POLICY.—In implementing this paragraph, a State may adopt a policy that includes a requirement that local educational agencies in the State make an ongoing good-faith effort to recruit and hire appropriately and ade-*

quately trained personnel to provide special education and related services to children with disabilities, including, in a geographic area of the State where there is a shortage of such personnel, the most qualified individuals available who are making satisfactory progress toward completing applicable course work necessary to meet the standards described in subparagraph (B)(i), consistent with State law, and the steps described in subparagraph (B)(ii) within three years.

(16) *PERFORMANCE GOALS AND INDICATORS.—The State—*

(A) has established goals for the performance of children with disabilities in the State that—

(i) will promote the purposes of this Act, as stated in section 601(d); and

(ii) are consistent, to the maximum extent appropriate, with other goals and standards for children established by the State;

(B) has established performance indicators the State will use to assess progress toward achieving those goals that, at a minimum, address the performance of children with disabilities on assessments, drop-out rates, and graduation rates;

(C) will, every two years, report to the Secretary and the public on the progress of the State, and of children with disabilities in the State, toward meeting the goals established under subparagraph (A); and

(D) based on its assessment of that progress, will revise its State improvement plan under subpart 1 of part D as may be needed to improve its performance, if the State receives assistance under that subpart.

(17) *PARTICIPATION IN ASSESSMENTS.—*

(A) IN GENERAL.—Children with disabilities are included in general State and district-wide assessment programs, with appropriate accommodations, where necessary. As appropriate, the State or local educational agency—

(i) develops guidelines for the participation of children with disabilities in alternate assessments for those children who cannot participate in State and district-wide assessment programs; and

(ii) develops and, beginning not later than July 1, 2000, conducts those alternate assessments.

(B) REPORTS.—The State educational agency makes available to the public, and reports to the public with the same frequency and in the same detail as it reports on the assessment of nondisabled children, the following:

(i) The number of children with disabilities participating in regular assessments.

(ii) The number of those children participating in alternate assessments.

(iii)(I) The performance of those children on regular assessments (beginning not later than July 1, 1998) and on alternate assessments (not later than July 1, 2000), if doing so would be statistically sound and

would not result in the disclosure of performance results identifiable to individual children.

(II) Data relating to the performance of children described under subclause (I) shall be disaggregated—

(aa) for assessments conducted after July 1, 1998; and

(bb) for assessments conducted before July 1, 1998, if the State is required to disaggregate such data prior to July 1, 1998.

(18) SUPPLEMENTATION OF STATE, LOCAL, AND OTHER FEDERAL FUNDS.—

(A) EXPENDITURES.—Funds paid to a State under this part will be expended in accordance with all the provisions of this part.

(B) PROHIBITION AGAINST COMMINGLING.—Funds paid to a State under this part will not be commingled with State funds.

(C) PROHIBITION AGAINST SUPPLANTATION AND CONDITIONS FOR WAIVER BY SECRETARY.—Except as provided in section 613, funds paid to a State under this part will be used to supplement the level of Federal, State, and local funds (including funds that are not under the direct control of State or local educational agencies) expended for special education and related services provided to children with disabilities under this part and in no case to supplant such Federal, State, and local funds, except that, where the State provides clear and convincing evidence that all children with disabilities have available to them a free appropriate public education, the Secretary may waive, in whole or in part, the requirements of this subparagraph if the Secretary concurs with the evidence provided by the State.

(19) MAINTENANCE OF STATE FINANCIAL SUPPORT.—

(A) IN GENERAL.—The State does not reduce the amount of State financial support for special education and related services for children with disabilities, or otherwise made available because of the excess costs of educating those children, below the amount of that support for the preceding fiscal year.

(B) REDUCTION OF FUNDS FOR FAILURE TO MAINTAIN SUPPORT.—The Secretary shall reduce the allocation of funds under section 611 for any fiscal year following the fiscal year in which the State fails to comply with the requirement of subparagraph (A) by the same amount by which the State fails to meet the requirement.

(C) WAIVERS FOR EXCEPTIONAL OR UNCONTROLLABLE CIRCUMSTANCES.—The Secretary may waive the requirement of subparagraph (A) for a State, for one fiscal year at a time, if the Secretary determines that—

(i) granting a waiver would be equitable due to exceptional or uncontrollable circumstances such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State; or

(ii) the State meets the standard in paragraph (18)(C) of this section for a waiver of the requirement

to supplement, and not to supplant, funds received under this part.

(D) *SUBSEQUENT YEARS.*—If, for any year, a State fails to meet the requirement of subparagraph (A), including any year for which the State is granted a waiver under subparagraph (C), the financial support required of the State in future years under subparagraph (A) shall be the amount that would have been required in the absence of that failure and not the reduced level of the State's support.

(E) *REGULATIONS.*—

(i) *The Secretary shall, by regulation, establish procedures (including objective criteria and consideration of the results of compliance reviews of the State conducted by the Secretary) for determining whether to grant a waiver under subparagraph (C)(ii).*

(ii) *The Secretary shall publish proposed regulations under clause (i) not later than 6 months after the date of the enactment of the Individuals with Disabilities Education Act Amendments of 1997, and shall issue final regulations under clause (i) not later than 1 year after such date of enactment.*

(20) *PUBLIC PARTICIPATION.*—Prior to the adoption of any policies and procedures needed to comply with this section (including any amendments to such policies and procedures), the State ensures that there are public hearings, adequate notice of the hearings, and an opportunity for comment available to the general public, including individuals with disabilities and parents of children with disabilities.

(21) *STATE ADVISORY PANEL.*—

(A) *IN GENERAL.*—The State has established and maintains an advisory panel for the purpose of providing policy guidance with respect to special education and related services for children with disabilities in the State.

(B) *MEMBERSHIP.*—Such advisory panel shall consist of members appointed by the Governor, or any other official authorized under State law to make such appointments, that is representative of the State population and that is composed of individuals involved in, or concerned with, the education of children with disabilities, including—

- (i) *parents of children with disabilities;*
- (ii) *individuals with disabilities;*
- (iii) *teachers;*
- (iv) *representatives of institutions of higher education that prepare special education and related services personnel;*
- (v) *State and local education officials;*
- (vi) *administrators of programs for children with disabilities;*
- (vii) *representatives of other State agencies involved in the financing or delivery of related services to children with disabilities;*
- (viii) *representatives of private schools and public charter schools;*

(ix) at least one representative of a vocational, community, or business organization concerned with the provision of transition services to children with disabilities; and

(x) representatives from the State juvenile and adult corrections agencies.

(C) *SPECIAL RULE.*—A majority of the members of the panel shall be individuals with disabilities or parents of children with disabilities.

(D) *DUTIES.*—The advisory panel shall—

(i) advise the State educational agency of unmet needs within the State in the education of children with disabilities;

(ii) comment publicly on any rules or regulations proposed by the State regarding the education of children with disabilities;

(iii) advise the State educational agency in developing evaluations and reporting on data to the Secretary under section 618;

(iv) advise the State educational agency in developing corrective action plans to address findings identified in Federal monitoring reports under this part; and

(v) advise the State educational agency in developing and implementing policies relating to the coordination of services for children with disabilities.

(22) *SUSPENSION AND EXPULSION RATES.*—

(A) *IN GENERAL.*—The State educational agency examines data to determine if significant discrepancies are occurring in the rate of long-term suspensions and expulsions of children with disabilities—

(i) among local educational agencies in the State; or

(ii) compared to such rates for nondisabled children within such agencies.

(B) *REVIEW AND REVISION OF POLICIES.*—If such discrepancies are occurring, the State educational agency reviews and, if appropriate, revises (or requires the affected State or local educational agency to revise) its policies, procedures, and practices relating to the development and implementation of IEPs, the use of behavioral interventions, and procedural safeguards, to ensure that such policies, procedures, and practices comply with this Act.

(b) *STATE EDUCATIONAL AGENCY AS PROVIDER OF FREE APPROPRIATE PUBLIC EDUCATION OR DIRECT SERVICES.*—If the State educational agency provides free appropriate public education to children with disabilities, or provides direct services to such children, such agency—

(1) shall comply with any additional requirements of section 613(a), as if such agency were a local educational agency; and

(2) may use amounts that are otherwise available to such agency under this part to serve those children without regard to section 613(a)(2)(A)(i) (relating to excess costs).

(c) *EXCEPTION FOR PRIOR STATE PLANS.*—

(1) *IN GENERAL.*—If a State has on file with the Secretary policies and procedures that demonstrate that such State meets

any requirement of subsection (a), including any policies and procedures filed under this part as in effect before the effective date of the Individuals with Disabilities Education Act Amendments of 1997, the Secretary shall consider such State to have met such requirement for purposes of receiving a grant under this part.

(2) **MODIFICATIONS MADE BY STATE.**—Subject to paragraph (3), an application submitted by a State in accordance with this section shall remain in effect until the State submits to the Secretary such modifications as the State deems necessary. This section shall apply to a modification to an application to the same extent and in the same manner as this section applies to the original plan.

(3) **MODIFICATIONS REQUIRED BY THE SECRETARY.**—If, after the effective date of the Individuals with Disabilities Education Act Amendments of 1997, the provisions of this Act are amended (or the regulations developed to carry out this Act are amended), or there is a new interpretation of this Act by a Federal or State Supreme court, or there is an official finding of noncompliance with Federal law or regulations, the Secretary may require a State to modify its application only to the extent necessary to ensure the State's compliance with this part.

(d) **APPROVAL BY THE SECRETARY.**—

(1) **IN GENERAL.**—If the Secretary determines that a State is eligible to receive a grant under this part, the Secretary shall notify the State of that determination.

(2) **NOTICE AND HEARING.**—The Secretary shall not make a final determination that a State is not eligible to receive a grant under this part until after providing the State—

(A) with reasonable notice; and

(B) with an opportunity for a hearing.

(e) **ASSISTANCE UNDER OTHER FEDERAL PROGRAMS.**—Nothing in this title permits a State to reduce medical and other assistance available, or to alter eligibility, under titles V and XIX of the Social Security Act with respect to the provision of a free appropriate public education for children with disabilities in the State.

(f) **BY-PASS FOR CHILDREN IN PRIVATE SCHOOLS.**—

(1) **IN GENERAL.**—If, on the date of enactment of the Education of the Handicapped Act Amendments of 1983, a State educational agency is prohibited by law from providing for the participation in special programs of children with disabilities enrolled in private elementary and secondary schools as required by subsection (a)(10)(A), the Secretary shall, notwithstanding such provision of law, arrange for the provision of services to such children through arrangements which shall be subject to the requirements of such subsection.

(2) **PAYMENTS.**—

(A) **DETERMINATION OF AMOUNTS.**—If the Secretary arranges for services pursuant to this subsection, the Secretary, after consultation with the appropriate public and private school officials, shall pay to the provider of such services for a fiscal year an amount per child that does not exceed the amount determined by dividing—

(i) the total amount received by the State under this part for such fiscal year; by

(ii) the number of children with disabilities served in the prior year, as reported to the Secretary by the State under section 618.

(B) *WITHHOLDING OF CERTAIN AMOUNTS.*—Pending final resolution of any investigation or complaint that could result in a determination under this subsection, the Secretary may withhold from the allocation of the affected State educational agency the amount the Secretary estimates would be necessary to pay the cost of services described in subparagraph (A).

(C) *PERIOD OF PAYMENTS.*—The period under which payments are made under subparagraph (A) shall continue until the Secretary determines that there will no longer be any failure or inability on the part of the State educational agency to meet the requirements of subsection (a)(10)(A).

(3) *NOTICE AND HEARING.*—

(A) *IN GENERAL.*—The Secretary shall not take any final action under this subsection until the State educational agency affected by such action has had an opportunity, for at least 45 days after receiving written notice thereof, to submit written objections and to appear before the Secretary or the Secretary's designee to show cause why such action should not be taken.

(B) *REVIEW OF ACTION.*—If a State educational agency is dissatisfied with the Secretary's final action after a proceeding under subparagraph (A), such agency may, not later than 60 days after notice of such action, file with the United States court of appeals for the circuit in which such State is located a petition for review of that action. A copy of the petition shall be forthwith transmitted by the clerk of the court to the Secretary. The Secretary thereupon shall file in the court the record of the proceedings on which the Secretary based the Secretary's action, as provided in section 2112 of title 28, United States Code.

(C) *REVIEW OF FINDINGS OF FACT.*—The findings of fact by the Secretary, if supported by substantial evidence, shall be conclusive, but the court, for good cause shown, may remand the case to the Secretary to take further evidence, and the Secretary may thereupon make new or modified findings of fact and may modify the Secretary's previous action, and shall file in the court the record of the further proceedings. Such new or modified findings of fact shall likewise be conclusive if supported by substantial evidence.

(D) *JURISDICTION OF COURT OF APPEALS; REVIEW BY UNITED STATES SUPREME COURT.*—Upon the filing of a petition under subparagraph (B), the United States court of appeals shall have jurisdiction to affirm the action of the Secretary or to set it aside, in whole or in part. The judgment of the court shall be subject to review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of title 28, United States Code.

SEC. 613. LOCAL EDUCATIONAL AGENCY ELIGIBILITY.

(a) *IN GENERAL.*—A local educational agency is eligible for assistance under this part for a fiscal year if such agency demonstrates to the satisfaction of the State educational agency that it meets each of the following conditions:

(1) *CONSISTENCY WITH STATE POLICIES.*—The local educational agency, in providing for the education of children with disabilities within its jurisdiction, has in effect policies, procedures, and programs that are consistent with the State policies and procedures established under section 612.

(2) *USE OF AMOUNTS.*—

(A) *IN GENERAL.*—Amounts provided to the local educational agency under this part shall be expended in accordance with the applicable provisions of this part and—

(i) shall be used only to pay the excess costs of providing special education and related services to children with disabilities;

(ii) shall be used to supplement State, local, and other Federal funds and not to supplant such funds; and

(iii) shall not be used, except as provided in subparagraphs (B) and (C), to reduce the level of expenditures for the education of children with disabilities made by the local educational agency from local funds below the level of those expenditures for the preceding fiscal year.

(B) *EXCEPTION.*—Notwithstanding the restriction in subparagraph (A)(iii), a local educational agency may reduce the level of expenditures where such reduction is attributable to—

(i) the voluntary departure, by retirement or otherwise, or departure for just cause, of special education personnel;

(ii) a decrease in the enrollment of children with disabilities;

(iii) the termination of the obligation of the agency, consistent with this part, to provide a program of special education to a particular child with a disability that is an exceptionally costly program, as determined by the State educational agency, because the child—

(2) **MODIFICATION MADE BY LOCAL EDUCATIONAL AGENCY.**—Subject to paragraph (3), an application submitted by a local educational agency in accordance with this section shall remain in effect until it submits to the State educational agency such modifications as the local educational agency deems necessary.

(3) **MODIFICATIONS REQUIRED BY STATE EDUCATIONAL AGENCY.**—If, after the effective date of the Individuals with Disabilities Education Act Amendments of 1997, the provisions of this Act are amended (or the regulations developed to carry out this Act are amended), or there is a new interpretation of this Act by Federal or State courts, or there is an official finding of non-compliance with Federal or State law or regulations, the State educational agency may require a local educational agency to modify its application only to the extent necessary to ensure the local educational agency's compliance with this part or State law.

(h) *DIRECT SERVICES BY THE STATE EDUCATIONAL AGENCY.*—

(1) *IN GENERAL.*—A State educational agency shall use the payments that would otherwise have been available to a local educational agency or to a State agency to provide special education and related services directly to children with disabilities residing in the area served by that local agency, or for whom that State agency is responsible, if the State educational agency determines that the local education agency or State agency, as the case may be—

(j) *DISCIPLINARY INFORMATION.*—The State may require that a local educational agency include in the records of a child with a disability a statement of any current or previous disciplinary action that has been taken against the child and transmit such statement to the same extent that such disciplinary information is included in, and transmitted with, the student records of nondisabled children. The statement may include a description of any behavior engaged

in by the child that required disciplinary action, a description of the disciplinary action taken, and any other information that is relevant to the safety of the child and other individuals involved with the child. Parental consent for evaluation shall not be construed as consent for placement for receipt of special education and related services.

(ii) REFUSAL.—If the parents of such child refuse consent for the evaluation, the agency may continue to pursue an evaluation by utilizing the mediation and due process procedures under section 615, except to the extent inconsistent with State law relating to parental consent.

(A) use a variety of assessment tools and strategies to gather relevant functional and developmental information, including information provided by the parent, that may assist in determining whether the child is a child with a disability and the content of the child's individualized education program, including information related to enabling the child to be involved in and progress in the general curriculum or, for preschool children, to participate in appropriate activities;

(B) not use any single procedure as the sole criterion for determining whether a child is a child with a disability or determining an appropriate educational program for the child; and

(C) use technically sound instruments that may assess the relative contribution of cognitive and behavioral factors, in addition to physical or developmental factors.

(3) **ADDITIONAL REQUIREMENTS.**—Each local educational agency shall ensure that—

(B) on the basis of that review, and input from the child's parents, identify what additional data, if any, are needed to determine—

(4) *REQUIREMENTS IF ADDITIONAL DATA ARE NOT NEEDED.*—If the IEP Team and other qualified professionals, as appropriate, determine that no additional data are needed to determine whether the child continues to be a child with a disability, the local educational agency—

(i) that determination and the reasons for it; and

(1) **AUTHORITY OF SCHOOL PERSONNEL.**—

(A) School personnel under this section may order a change in the placement of a child with a disability—

(I) the child carries a weapon to school or to a school function under the jurisdiction of a State or a local educational agency; or

(II) the child knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or a school function under the jurisdiction of a State or local educational agency.

(i) if the local educational agency did not conduct a functional behavioral assessment and implement a behavioral intervention plan for such child before the behavior that resulted in the suspension described in subparagraph (A), the agency shall convene an IEP meeting to develop an assessment plan to address that behavior; or

(ii) if the child already has a behavioral intervention plan, the IEP Team shall review the plan and modify it, as necessary, to address the behavior.

(2) **AUTHORITY OF HEARING OFFICER.**—A hearing officer under this section may order a change in the placement of a child with a disability to an appropriate interim alternative educational setting for not more than 45 days if the hearing officer—

(B) considers the appropriateness of the child's current placement;

(C) considers whether the public agency has made reasonable efforts to minimize the risk of harm in the child's current placement, including the use of supplementary aids and services; and

(ii) include services and modifications designed to address the behavior described in paragraph (1) or paragraph (2) so that it does not recur.

(4) MANIFESTATION DETERMINATION REVIEW.—

(A) IN GENERAL.—If a disciplinary action is contemplated as described in paragraph (1) or paragraph (2) for a behavior of a child with a disability described in either of those paragraphs, or if a disciplinary action involving a change of placement for more than 10 days is contemplated for a child with a disability who has engaged in other behavior that violated any rule or code of conduct of the local educational agency that applies to all children—

(i) not later than the date on which the decision to take that action is made, the parents shall be notified of that decision and of all procedural safeguards accorded under this section; and

(ii) immediately, if possible, but in no case later than 10 school days after the date on which the decision to take that action is made, a review shall be conducted of the relationship between the child's disability and the behavior subject to the disciplinary action.

(B) INDIVIDUALS TO CARRY OUT REVIEW.—A review described in subparagraph (A) shall be conducted by the IEP Team and other qualified personnel.

(C) CONDUCT OF REVIEW.—In carrying out a review described in subparagraph (A), the IEP Team may determine that the behavior of the child was not a manifestation of such child's disability only if the IEP Team—

(i) first considers, in terms of the behavior subject to disciplinary action, all relevant information, including—

(I) evaluation and diagnostic results, including such results or other relevant information supplied by the parents of the child;

(II) observations of the child; and

- (III) the child's IEP and placement; and
 (ii) then determines that—

(I) in relationship to the behavior subject to disciplinary action, the child's IEP and placement were appropriate and the special education services, supplementary aids and services, and behavior intervention strategies were provided consistent with the child's IEP and placement;

(II) the child's disability did not impair the ability of the child to understand the impact and consequences of the behavior subject to disciplinary action; and

(III) the child's disability did not impair the ability of the child to control the behavior subject to disciplinary action.

(5) DETERMINATION THAT BEHAVIOR WAS NOT MANIFESTATION OF DISABILITY.—

(A) IN GENERAL.—If the result of the review described in paragraph (4) is a determination, consistent with paragraph (4)(C), that the behavior of the child with a disability was not a manifestation of the child's disability, the relevant disciplinary procedures applicable to children without disabilities may be applied to the child in the same manner in which they would be applied to children without disabilities, except as provided in section 612(a)(1).

(B) ADDITIONAL REQUIREMENT.—If the public agency initiates disciplinary procedures applicable to all children, the agency shall ensure that the special education and disciplinary records of the child with a disability are transmitted for consideration by the person or persons making the final determination regarding the disciplinary action.

(6) PARENT APPEAL.—

(A) IN GENERAL.—

(i) If the child's parent disagrees with a determination that the child's behavior was not a manifestation of the child's disability or with any decision regarding placement, the parent may request a hearing.

(ii) The State or local educational agency shall arrange for an expedited hearing in any case described in this subsection when requested by a parent.

(B) REVIEW OF DECISION.—

(i) In reviewing a decision with respect to the manifestation determination, the hearing officer shall determine whether the public agency has demonstrated that the child's behavior was not a manifestation of such child's disability consistent with the requirements of paragraph (4)(C).

(ii) In reviewing a decision under paragraph (1)(A)(ii) to place the child in an interim alternative educational setting, the hearing officer shall apply the standards set out in paragraph (2).

(7) PLACEMENT DURING APPEALS.—

(A) IN GENERAL.—When a parent requests a hearing regarding a disciplinary action described in paragraph

(1)(A)(ii) or paragraph (2) to challenge the interim alternative educational setting or the manifestation determination, the child shall remain in the interim alternative educational setting pending the decision of the hearing officer or until the expiration of the time period provided for in paragraph (1)(A)(ii) or paragraph (2), whichever occurs first, unless the parent and the State or local educational agency agree otherwise.

(B) *CURRENT PLACEMENT.*—If a child is placed in an interim alternative educational setting pursuant to paragraph (1)(A)(ii) or paragraph (2) and school personnel propose to change the child's placement after expiration of the interim alternative placement, during the pendency of any proceeding to challenge the proposed change in placement, the child shall remain in the current placement (the child's placement prior to the interim alternative educational setting), except as provided in subparagraph (C).

(C) *EXPEDITED HEARING.*—

(i) If school personnel maintain that it is dangerous for the child to be in the current placement (placement prior to removal to the interim alternative education setting) during the pendency of the due process proceedings, the local educational agency may request an expedited hearing.

(ii) In determining whether the child may be placed in the alternative educational setting or in another appropriate placement ordered by the hearing officer, the hearing officer shall apply the standards set out in paragraph (2).

(B) *BASIS OF KNOWLEDGE.*—A local educational agency shall be deemed to have knowledge that a child is a child with a disability if—

(i) *IN GENERAL.*—If a local educational agency does not have knowledge that a child is a child with a disability (in accordance with subparagraph (B)) prior to taking disciplinary measures against the child, the child may be subjected to the same disciplinary measures as measures applied to children without disabilities who engaged in comparable behaviors consistent with clause (ii).

(ii) *LIMITATIONS.*—If a request is made for an evaluation of a child during the time period in which the child is subjected to disciplinary measures under paragraph (1) or (2), the evaluation shall be conducted in an expedited manner. If the child is determined to be a child with a disability, taking into consideration information from the evaluation conducted by the agency and information provided by the parents, the agency shall provide special education and related services in accordance with the provisions of this part, except that, pending the results of the evaluation, the child shall remain in the educational placement determined by school authorities.

(9) *REFERRAL TO AND ACTION BY LAW ENFORCEMENT AND JUDICIAL AUTHORITIES.*—

(A) Nothing in this part shall be construed to prohibit an agency from reporting a crime committed by a child with a disability to appropriate authorities or to prevent State law enforcement and judicial authorities from exercising their responsibilities with regard to the application of Federal and State law to crimes committed by a child with a disability.

(B) An agency reporting a crime committed by a child with a disability shall ensure that copies of the special education and disciplinary records of the child are transmitted for consideration by the appropriate authorities to whom it reports the crime.

(1) any reduction or withholding of payments to the State is proportionate to the total funds allotted under section 611 to the State as the number of eligible children with disabilities in adult prisons under the supervision of the other public agency is proportionate to the number of eligible individuals with disabilities in the State under the supervision of the State educational agency; and

(2) any withholding of funds under paragraph (1) shall be limited to the specific agency responsible for the failure to comply with this part.

SEC. 651. FINDINGS AND PURPOSE.

(a) **FINDINGS.**—The Congress finds the following:

(1) States are responding with some success to multiple pressures to improve educational and transitional services and results for children with disabilities in response to growing demands imposed by ever-changing factors, such as demographics, social policies, and labor and economic markets.

(2) In order for States to address such demands and to facilitate lasting systemic change that is of benefit to all students, including children with disabilities, States must involve local educational agencies, parents, individuals with disabilities and their families, teachers and other service providers, and other interested individuals and organizations in carrying out comprehensive strategies to improve educational results for children with disabilities.

(3) Targeted Federal financial resources are needed to assist States, working in partnership with others, to identify and make needed changes to address the needs of children with disabilities into the next century.

(4) State educational agencies, in partnership with local educational agencies and other individuals and organizations, are in the best position to identify and design ways to meet emerging and expanding demands to improve education for children with disabilities and to address their special needs.

(5) Research, demonstration, and practice over the past 20 years in special education and related disciplines have built a foundation of knowledge on which State and local systemic-change activities can now be based.

(6) Such research, demonstration, and practice in special education and related disciplines have demonstrated that an effective educational system now and in the future must—

(A) maintain high academic standards and clear performance goals for children with disabilities, consistent with the standards and expectations for all students in the educational system, and provide for appropriate and effective strategies and methods to ensure that students who are

children with disabilities have maximum opportunities to achieve those standards and goals;

(B) create a system that fully addresses the needs of all students, including children with disabilities, by addressing the needs of children with disabilities in carrying out educational reform activities;

(C) clearly define, in measurable terms, the school and post-school results that children with disabilities are expected to achieve;

(D) promote service integration, and the coordination of State and local education, social, health, mental health, and other services, in addressing the full range of student needs, particularly the needs of children with disabilities who require significant levels of support to maximize their participation and learning in school and the community;

(E) ensure that children with disabilities are provided assistance and support in making transitions as described in section 674(b)(3)(C);

(F) promote comprehensive programs of professional development to ensure that the persons responsible for the education or a transition of children with disabilities possess the skills and knowledge necessary to address the educational and related needs of those children;

(G) disseminate to teachers and other personnel serving children with disabilities research-based knowledge about successful teaching practices and models and provide technical assistance to local educational agencies and schools on how to improve results for children with disabilities;

(H) create school-based disciplinary strategies that will be used to reduce or eliminate the need to use suspension and expulsion as disciplinary options for children with disabilities;

(I) establish placement-neutral funding formulas and cost-effective strategies for meeting the needs of children with disabilities; and

(J) involve individuals with disabilities and parents of children with disabilities in planning, implementing, and evaluating systemic-change activities and educational reforms.

(b) PURPOSE.—The purpose of this subpart is to assist State educational agencies, and their partners referred to in section 652(b), in reforming and improving their systems for providing educational, early intervention, and transitional services, including their systems for professional development, technical assistance, and dissemination of knowledge about best practices, to improve results for children with disabilities.

(B) *to acquire the skills that will empower them to lead productive and independent adult lives.*

(2)(A) *As a result of more than 20 years of Federal support for research, demonstration projects, and personnel preparation, there is an important knowledge base for improving results for children with disabilities.*

(B) *Such knowledge should be used by States and local educational agencies to design and implement state-of-the-art educational systems that consider the needs of, and include, children with disabilities, especially in environments in which they can learn along with their peers and achieve results measured by the same standards as the results of their peers.*

(3)(A) *Continued Federal support is essential for the development and maintenance of a coordinated and high-quality program of research, demonstration projects, dissemination of information, and personnel preparation.*

(B) *Such support—*

(i) *enables State educational agencies and local educational agencies to improve their educational systems and results for children with disabilities;*

Chapter 2—Improving Early Intervention, Educational, and Transitional Services and Results for Children With Disabilities Through Coordinated Technical Assistance, Support, and Dissemination of Information

SEC. 681. FINDINGS AND PURPOSES.

- (a) *IN GENERAL.*—The Congress finds as follows:
 - (1) National technical assistance, support, and dissemination activities are necessary to ensure that parts B and C are fully

implemented and achieve quality early intervention, educational, and transitional results for children with disabilities and their families.

(2) Parents, teachers, administrators, and related services personnel need technical assistance and information in a timely, coordinated, and accessible manner in order to improve early intervention, educational, and transitional services and results at the State and local levels for children with disabilities and their families.

(3) Parent training and information activities have taken on increased importance in efforts to assist parents of a child with a disability in dealing with the multiple pressures of rearing such a child and are of particular importance in—

(A) ensuring the involvement of such parents in planning and decisionmaking with respect to early intervention, educational, and transitional services;

(B) achieving quality early intervention, educational, and transitional results for children with disabilities;

(C) providing such parents information on their rights and protections under this Act to ensure improved early intervention, educational, and transitional results for children with disabilities;

(D) assisting such parents in the development of skills to participate effectively in the education and development of their children and in the transitions described in section 674(b)(3)(C); and

(E) supporting the roles of such parents as participants within partnerships seeking to improve early intervention, educational, and transitional services and results for children with disabilities and their families.

(4) Providers of parent training and information activities need to ensure that such parents who have limited access to services and supports, due to economic, cultural, or linguistic barriers, are provided with access to appropriate parent training and information activities.

(5) Parents of children with disabilities need information that helps the parents to understand the rights and responsibilities of their children under part B.

(6) The provision of coordinated technical assistance and dissemination of information to State and local agencies, institutions of higher education, and other providers of services to children with disabilities is essential in—

(A) supporting the process of achieving systemic change;

(B) supporting actions in areas of priority specific to the improvement of early intervention, educational, and transitional results for children with disabilities;

(C) conveying information and assistance that are—

(i) based on current research (as of the date the information and assistance are conveyed);

(ii) accessible and meaningful for use in supporting systemic-change activities of State and local partnerships; and

- (iii) linked directly to improving early intervention, educational, and transitional services and results for children with disabilities and their families; and
 - (D) organizing systems and information networks for such information, based on modern technology related to—
 - (i) storing and gaining access to information; and
 - (ii) distributing information in a systematic manner to parents, students, professionals, and policymakers.
- (7) Federal support for carrying out technology research, technology development, and educational media services and activities has resulted in major innovations that have significantly improved early intervention, educational, and transitional services and results for children with disabilities and their families.
- (8) Such Federal support is needed—
 - (A) to stimulate the development of software, interactive learning tools, and devices to address early intervention, educational, and transitional needs of children with disabilities who have certain disabilities;
 - (B) to make information available on technology research, technology development, and educational media services and activities to individuals involved in the provision of early intervention, educational, and transitional services to children with disabilities;
 - (C) to promote the integration of technology into curricula to improve early intervention, educational, and transitional results for children with disabilities;
 - (D) to provide incentives for the development of technology and media devices and tools that are not readily found or available because of the small size of potential markets;
 - (E) to make resources available to pay for such devices and tools and educational media services and activities;
 - (F) to promote the training of personnel—
 - (i) to provide such devices, tools, services, and activities in a competent manner; and
 - (ii) to assist children with disabilities and their families in using such devices, tools, services, and activities; and
 - (G) to coordinate the provision of such devices, tools, services, and activities—
 - (i) among State human services programs; and
 - (ii) between such programs and private agencies.
- (b) *PURPOSES.*—The purposes of this chapter are to ensure that—
 - (1) children with disabilities, and their parents, receive training and information on their rights and protections under this Act, in order to develop the skills necessary to effectively participate in planning and decisionmaking relating to early intervention, educational, and transitional services and in systemic-change activities;
 - (2) parents, teachers, administrators, early intervention personnel, related services personnel, and transition personnel receive coordinated and accessible technical assistance and information to assist such persons, through systemic-change activities and other efforts, to improve early intervention, edu-

cational, and transitional services and results for children with disabilities and their families;

(3) appropriate technology and media are researched, developed, demonstrated, and made available in timely and accessible formats to parents, teachers, and all types of personnel providing services to children with disabilities to support their roles as partners in the improvement and implementation of early intervention, educational, and transitional services and results for children with disabilities and their families;

(4) on reaching the age of majority under State law, children with disabilities understand their rights and responsibilities under part B, if the State provides for the transfer of parental rights under section 615(m); and

(5) the general welfare of deaf and hard-of-hearing individuals is promoted by—

(A) bringing to such individuals understanding and appreciation of the films and television programs that play an important part in the general and cultural advancement of hearing individuals;

(B) providing, through those films and television programs, enriched educational and cultural experiences through which deaf and hard-of-hearing individuals can better understand the realities of their environment; and

(C) providing wholesome and rewarding experiences that deaf and hard-of-hearing individuals may share.

ADDITIONAL VIEWS

The Individuals with Disabilities Education Act (IDEA) provides millions of children with disabilities with the right to a free appropriate public education (FAPE). During consideration of the IDEA in the 104th Congress, emphasis was shifted away from improving the educational opportunities for these needy children. Instead, Majority Members of the Committee on Economic and Educational Opportunities sought to create a discipline model that would actually deny certain children their civil right to an education. This attempt was correctly attacked by nearly every education group in the country. Their opposition to this provision stopped the reauthorization of the IDEA in its tracks.

On January 7, 1997, the Committee on Education and the Workforce, introduced a “warmed over” IDEA reauthorization bill (H.R. 5) containing the same ill conceived provision. Seeking to avoid attacks from the education community, and to ensure that this important legislation survives the reauthorization process, a few Members of the House and Senate agreed to create a bipartisan, bicameral working group which would draft a consensus IDEA bill. The result is a bill that is significantly better than the ill-fated legislation created in the 104th Congress and reintroduced in the 105th. However, this unique process served to usurp the authority of the Subcommittee on Early Childhood, Youth and Families and discouraged participation by many of its Members. Additionally, there continue to be outstanding important educational issues that were not considered by the “working group.”

COMMUNITY PARENT RESOURCE CENTERS

We strongly support the expansion of the highly successful Community Parent Resource Centers program. Parents in our nation’s poorest urban and rural communities continue to be severely hampered in their quest for access to training and information. As a result, they are underrepresented among those who access the established systems of obtaining information and support needed to guide their children in the process of obtaining a free appropriate education.

The 1990 amendment to IDEA established a remedy in the form of “experimental centers,” now called Community Parent Resource Centers. These Centers are grassroots, community-based programs serving chronically underrepresented parents of children with disabilities residing in urban and rural areas. There are currently twenty-six parent Centers around the country. However, only five of these Centers are funded through the IDEA. Many are struggling to survive, jeopardizing the chances parents in those traditionally underserved areas have of participating in their children’s education. These Centers provide a variety of services which enable

parents to work with their children's schools to ensure that their children receive a free appropriate public education.

During Full Committee consideration of H.R. 5, an amendment was offered that would have doubled the number of centers receiving funding through IDEA to ensure that more parents can participate fully in their children's education and avoid costly litigation that results from a misunderstanding of the IDEA.

TRANSITION OF DECLASSIFIED STUDENTS

We support the extension of FAPE to students who are removed from special education. A report by the National Council on Disability confirmed that "children from minority groups are identified as mildly disabled in numbers disproportionate to their representation in the general population." Although only 21.4% of the total school population is African American, African Americans represent 41.6% of special education students. The report goes on to state that these students' classroom behavior may contribute to their over identification and that their behavior may be linked to learning difficulties. If these children were returned to regular education classes without support services, the behavior and learning problems would still need to be addressed.

An amendment was offered during Full Committee consideration of H.R. 5 that would help children who have been mistakenly placed in special education and then declassified and shipped back into regular education. My amendment would create a mechanism to ensure a smooth transition from special education into regular education by providing these children with services which insure a greater opportunity for academic success in regular education classes. By providing these children with IDEA services for one year after they are declassified, we will decrease the chances that they will be returned to special education. Keeping these wrongly classified children in regular education where they belong would ultimately result in lower costs for school districts.

MAKING THE IDEA WORK FOR ALL CHILDREN

When considering education legislation, it is vital that we fight the impulse to choose expediency over reasonable debate. The IDEA impacts on children and families in all parts of the country, rural, urban and suburban. The process we use to reauthorize critically important legislation must therefore remain open to the public, as well as all Members of the Committee on Education and the Workforce. In the current spirit of bipartisanship we must work harder to create legislation that puts the needs of children and families ahead of political expediency.

DISSENTING VIEWS

INTRODUCTION

Congress today continues our unconstitutional interference with the education of the disabled by moving forward with HR 5, the Individuals With Disabilities Education Act of 1997 (IDEA). Parents of disabled children should have the exact same rights to make education decisions for their children as the parents of all children. A huge federal bureaucracy is not the best way to insure that. In fact, logic dictates that it is this very federal bureaucracy which most negatively impacts the goals of parents to get the best education for their children. Parents and local communities know so much better than do the bureaucrats in Washington the special needs of children. This is why we need decentralization. Parents and local educators will always know better what is best for their children. Obviously, no Washington bureaucrat can know or love a child the way their parents do.

In fact, we in Congress are at least as culpable as the bureaucrats because we pass many of the laws which the bureaucrats enforce. The notion is no way that the unique needs of my grandchildren, and some young boy or girl in Los Angeles, California or New York City can all be put into some nationalized "cookie cutter" approach.

Furthermore, the federal Department of Education is a huge bureaucracy which hires hordes of bureaucrats and political employees with some 30 billion dollars which the good people of the United States are forced to send to Washington each and every year after year. Only a percentage of this money goes back to actually educating children.

But money is not the exclusive, nor even the primary problem with this bill. Rather, it is the faulty educational philosophy which needs to be addressed.

BILL ANALYSIS

There are four significant problems with the IDEA bill. First, education professionals have testified that it promotes a faulty educational ideology of inappropriate "main streaming." Next, state officials have expressed concerns that the bill limits their rightful authority. Third, the bill would expand the power of federal education bureaucrats. Finally, this legislation paves the way for huge increases in federal outlays which have, to date, only proven detrimental to students. The following facts are given as supporting documentation to the issues just raised:

(1) Disabled educational professionals oppose the bill.—Albert Shanker, founder of the American Federation of Teachers was a strong opponent of what has for many years been known as "main streaming." Moreover, on May 10, 1994 the commit-

tee heard testimony from Dr. Mary Wagner which pointed to the failure of this approach. In fact, Dr. Wagner stated that the approach amounted to "sacrificing children to ideology."

While Dr. Wagner's is the most damaging observation which any education advocate has made about the provisions of this bill, it is not the only one. Although it has been reported that disabled advocates support the legislation, an informal survey conducted by my office, shows mixed results and only tepid support among groups which say they favor the bill. Other groups including the Down's Syndrome Congress and the National Association of Private Schools for Exceptional Children have expressed opposition.

We have also received unsolicited phone calls and mail from parents of disabled children and associations representing the same. Many of these contacts have been to express opposition to IDEA. A May 1 letter from Carol Madison of the Illinois Center for Autism states, "The Federal Government should not indicate what method each state should use to fund their special education programs." That letter concludes, "Please do not let this happen to our children."

(2) State officials express concern about the erosion of their authority.—Congress Daily has reported that "representatives of the National Governors Association and state special education directors said * * * they are concerned about some of the bill's provisions limiting state expenditures." Later in that story it is reported that "states MUST maintain their current level of funding" (emphasis added). It also notes significant concerns expressed by Myrna Mandlawitz of the National Association of State Directors of Special Education.

(3) More power to the federal bureaucracy.—Again, Congress Daily reports that the IDEA bill "gives the U.S. education secretary more authority to revoke funding to states that do not reach the standards and goals of the reformed IDEA." And, that it sets "more prescriptive national standards." Perhaps this is the reason that the strongest advocate of nationalized education, the National Education Association, is on record in support of this bill.

(4) Spending increases.—To hold out a "carrot" as well as the "stick" of more strict federal standards, this bill provides a huge increase of funding, from three billion spent on the program this year to four billion next year, a 33% increase. Over an eight-year period this program portends to increase funding by eight billion dollars per year.

Examining the dismal record of federal education programs, we should cringe at the notion of this heightened federal role in disabilities education. As the federal government has spent more and more money on education, we have seen a continual decline in the results of students who take standardized tests such as the Scholastic Aptitude Test (SAT). This bill takes the same prescription for failure applied to other programs and imposes it upon disabled children. Is it because of callousness to their plight, ignorance of the facts, or fear of the special interests; that we are now willing to "sacrifice (these) children to ideology?"

SUMMARY AND CONCLUSION

First, this bill is opposed by a number of scholars, educational professionals and parents who work for disabilities education because its forced "main stream" would "sacrifice children to ideology." These same people have pointed out that "The Federal Government should not dictate what method each state should use to fund their special education programs." We should heed these concerns.

Next, this bill has raised concerns amongst the National Governors' Association and state special education directors because the bill would; "limit (types) of state expenditures" and force "states (to) maintain their current level of funding for special education programs." We must listen to the input of state executives and education leaders rather than imposing mandates upon them.

Further, those of us who are concerned about federal intrusion into the powers of state and local governments, are unhappy that the legislation gives "the U.S. education secretary more authority to revoke funding to states that do not reach the standards and goals of the reformed IDEA."

Finally, this bill increases federal spending by eight billion dollars per year over the next eight years. This is a 266% increase (33% per annum average). For those interested in placing proper limits on the federal education bureaucracy, this bill will have exactly the opposite effect.

When I was first elected to Congress in 1976, this Department did not even exist. Now, my goal is to eliminate this department, release the bureaucrats and political appointees and thus guarantee that all these taxpayer dollars will never have to be sent to Washington. This will allow parents and communities to address the needs of the children in our states and our local communities. This is my vision of restoration to parents of the tools needed to raise and educate their children.

My opposition to IDEA is not routed in disdain for its goals, or any reluctance to support parental efforts to educate their children. In fact, we should stop this failed experiment of federalizing our education system thus ensuring that more resources will be available to help disabled children, thus making results far superior to our current situation.

Each child is a unique person. We must consider if it may be correct to assert that they will receive a better education without Washington's interference. Disabled children have special needs and our local communities are best equipped to accomplish these goals. If Congress gets Washington off their backs and out of the pocket books of parents, all our children will be better off.
