Trails Too Short to Be Seen Clearly on the Map

Trail Name	Route Designation	Length in Feet
Cabin Creek Spur B	Trail Open to All Vehicles	322
Cabin Creek Spur C	Trail Open to All Vehicles	264
Cabin Creek Spur D	Trail Open to All Vehicles	554
Natsam Spur A	Trail Open to All Vehicles	264

This map shows the Tongass National Forest and its surroundings in Alaska. The forest is labeled "TONGASS NATIONAL FOREST" in the center. To the west is the "GULF OF ALASKA" and to the east is "Glacier Bay National Preserve". The "Alsek River" flows through the forest. Other features include "Dry Bay", "Cannery Trail", "Banana Strip Trail", "NATMAS TRAIL", and "Cabin Creek Trail Spurs A, B, C, and D". The map includes a coordinate grid with UTM coordinates (530000, 540000, 550000) and latitude/longitude markers. A legend in the top left corner defines symbols for roads, trails, forest boundaries, and land types. A scale bar indicates distances up to 2 miles. A table in the legend lists trails too short to be clearly visible on the map.
